COLLEGE HILL BUSY

Indications Are That More Than 900 Persons Will Receive In struction There-School Mechanics Under Direction of College of Engineering

Although the academic colleges of the University of Vermont will close about seven weeks earlier than usual this year, in order to permit students to be released for various kinds of service demanded by war conditions, the long vacation will find the region around the campus a busy lace. Here several hundreds men will be in training, sent to this institution by the United States government to fit themelves for various branches of war serv-

About one week after commencement, men will be ordered here to receive training as automobile mechanics, carpenters, ists and blacksmiths, two schools, sch continuing for two months, being eld, covering the period from May 15 to mber 15, inclusive. With the 200 signal corps men, 565 men wearing the United States uniform will be in training on the campus the middle of May. The first signal corps, numbering 170 men, was graduated about February 1.

In addition to these activities, the summer srhool will be in session for six weeks. Last year approximately 350 perns were in attendance, and the number would have been larger had it not been for the prevalence of infantile paralysis throughout the State. If the attendance s equally large this year, more than nine ndred persons will receive instruction during the summer on the college hilltop. ARMY OFFICER IMPRESSED BY FACILITIES.

A careful inspection was made recently an army officer representing the committee having in charge the training of mechanics for service. He was partic-ularly impressed by the facilities which the University of Vermont offered for corrying on this particular line of work. ed the opinion that the advantages offered for the training of auto- lington selected as permanent headquarnobile mechanics exceeded those that he had found in any other institution. For that reason he recommended that a larger number of men be sent here for such training than to any other institution that he had visited. The work done by the university in the training of signal corps been so satisfactory that a knowledge of this fast had considerable influence with the committee in assigning men to this institution for train-

will arrive at Burlington in time to begin their work Wednesday, May and it is expected that everything will in readiness for them at that time. All mechanics sent here will be drafted in uniform, and like the members of the signal corps they will be under ary discipline. One hundred of the will be lodged in middle Converse hall, the large marble dormitory east of College Row, the north and south wings of which already are utilized in housing the signal corps men. Work already has been begun in installing the additional g required. The rest of the mer dil be quartered in the university gym asium. Additional plumbing will be in-alled in this building and a temporary ing will be erected north of the gym-

A contract has been let for a large addlion to Commons hall, including a new At present two hundred persons can be accommodated in the old dining room, giving a total capacity of six hundred. giving a total capacity of six hundred holding back the State. is will provide sufficient room for the 565 men in the signal corps and the mechanics' school, who will be messed at the new Commons. The addition will extend in a southeasterly direction and will be 160 feet in length. The kitchen iso will be enlarged. These additions will be ready by May 15.

SCHOOL FOR MECHANICS.

The training of the mechanics' school lege of Engineering, and additional in-structors will be engaged for the various lines of work. In the engineering shops there will be trained 75 carpenters, 20 chinists and 20 blacksmiths, which are all equipped for such instruction. Some additional facilities, however, are bein provided in these buildings. The bi feature of the work is to be the auto bile mechanics' school, which will cener in the gymnasium annex, where 250 nen will be trained. This building, popuarly known as the baseball cage, with timensions of 100x120 feet, will be transmed into a great garage. It is par-larly well suited for this purpose, opposite sides there are four double rs, opening upon the ground level, which cars may be driven. Its floor, brick walls, steel sash and el trusses make it practically fireproof. Mearly one-half of the roof consists of sky-lights, making the big building prac-tically as light as day. The large floor area gives plenty of room for the operaof cars. It was in this building that the successful tractor school was secently held, the space permitting a cer who inspected the university's facilities declared that at no other institution which he had visited in his official pacity did he find a building which approached the gymnasium annex in

In addition to the work done in the garage, the back campus and Centennial eld will be utilized for training drivers. The athletic field will offer unusual adstages for such training, as there will be no interference with traffic in the

be furnished by the United States govern-ment. The men who will attend the school will be selected from those who save had experience in the various ranches to be taught.

In connection with the engineering

ope a new garage has been equipped this year in which courses in automobile engineering are to be given as a part of the regular work of the College of Engineering. This garage is equipped with a brake testing plant, and this will be used as a part of the course of in-

In order to appreciate fully the work ndertaken by the university it should be tated that the number of men sent here s very much larger than the number sent to most of the other institutions which are chosen for this work, some astitutions much larger than the Univerof Vermont receiving only about

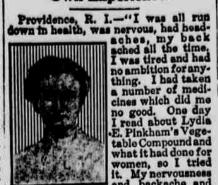

alf as many men. IP THE BABY IS CUTTING TRETS e sure and use that old and well-tried smedy, Mrs. Winslow's Soothing Syrup, or children teething. It soothes the bild, softens the gums, allays all pain were wind colls and is the best remedy or disrrhoes. Twenty-tive cants a bel-

women, so I tried it. My nervousness and backache and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."— Mrs. ADELINE B. LYNCH, 100 Plain St., Providence, R. I. Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

THE RED CROSS

Chittenden County Organizing Chap-

ters to Have Charge of All Activities A meeting of the temporary committee on organization of the Red Cross was held at the roof garden of the Hotel Vermont Saturday morning. Representatives were present from ten of the county branches. Edmund C. Mower presided. After the reading of the by-laws, by Dr. C. A. Pease, they were adopted, and Burters. It was decided that each branch in the county be entitled to one member on the executive committee and that the branch nominate that member, to be confirmed by the temporary committee on organization. Special emphasis was made on the care in selecting their member, and that men as well as women be on the committee, as they will have supervision of all Red Cross activities in the county, but do not interfere with local branch

Vermont and Delaware are the only two States in the Union that have been maintaining State organizations, and the present plan is carrying out the method adopted in other States.

An adjourned meeting of the committee on organization will be held at Burlington May 4, when the members of the executive committee will be elected and

the permanent county officers selected. THRIFT STAMP SALE

Per Capita Up to April 6 was \$1.25-Some Counties are Lagging

BRADSTREET'S VERMONT WEEKLY TRADE REPORT

Total\$40,395.75 \$443,867.49 1.25

Bradstreet's Burlington office reports paper manufacturers in the "news" are handling a larger volume of business than was received earlier in the year. The demand in this line is stronger than it is in other grades. Labor is employed is its presents itself in this line. Tissues are moving fairly. Waxed paper manuacturers find the market uneven. Furniture specialty manufacturers re-

port a good demand but some trouble is experienced in obtaining certain grades Scale manufacturing plants report busi-

ness coming in well and aside from labor shortage but little if any complaint to make. At the tanneries the demand for domestic purposes is not as strong as it is for such leather as is suitable for manufacturing of trappings. The retail merchants report week-end

trade is more the rule than earlier in the year. Weather conditions have favored a reasonably good trade in seasonable goods. Country trade is still backward. Certain sections in the State report maple crop up to two pounds to a tree, while in other sections the yield so far is above that amount. Notwithstanding high prices, this has moved reasonably well.

Among the automobile trade the sales made so far are not as heavy as they were for the same period of a year ago. It is anticipated the season will be a fairly active one but below what was re-

ported last year. The mercantile failures so far for the month have shown a clear sheet, while up to the same day a year ago for the month there was seven failures and the corresponding period in 1916 gave four fail-

April 20, 1918.

BE CAREFUL OF CHILLED SEED POTATOES

Last winter's extremely cold weather caused the loss of many bushels of pota-toes in storage. It probably seriously injured the buds of many more, which were ot frozen enough to be destroyed as food. At least they have been injured as far as their growing ability is concerned. It would be a good plan before planting to test some of the seed by cutting them and placing them in a warm, sunny place. Planting dead stock will mean a serious loss—more this season than ever before because everything which goes into the growing of a crop of potatoes, labor, fertilizer and machinery-is higher in price than ever before.

You probably passed several people on the streets to-day who were on their way to answer or investigate classified PRES PRESS WANT ADS. PAY BEST. advertisements.

VERMONT RELIEF @ R.S IN ANNUAL SESSION

Auxiliary of the G. A. R. Department of Vermont Elects Mrs. Jessie Sturtevant of St. Albans President-Fourteen Past Presidents Presented

The annual convention of the Department of Vermont, Women's Relief Corps, held at the Masonic Temple Thursday, the department president, Mrs. Nellie Crowley of Rutland, presiding. The various department officers were presented to the convention by Mrs. Crowley, who paid a tribute to the work of each. Most of the morning was spent in hearing the annual reports of the officers. An interesting report of the national convention held in Boston in August was read by Mrs. Louise Switzer of Bellows Falls. One feature of the morning session was the presentation to the convention of 14 past department presidents, the largest

annual convention for several years. As the ladies took their places on the platform, the planist, Mrs. Cornie Glynn Cocklin, played "Auld Lang Syne." The convention, in a body, took the oath of allegiance as the four color bearers, gowned in white from head to foot, crossed flags over the altar.

number which has been present at an

but made no address. Considerable Red Cross work has been done by the corps this year, one crops reporting over \$685 worth of work contributed.

Mrs. Anna A. Beach of Burlington is chairman of the general committee of the convention, with Mrs. Ida B. Spear chairman of the accommodations committee. The color bearers serving at the convention, all from Burlington, were Miss Alma Daigle, Mrs. Catherine Morgan, Mattle Jones and Mrs. Estelle Shepard. The conductresses were Mrs. Ellen E. Herrick of Brattleboro and Mrs. Violetta Lane of Burlington; the guards, Mrs. Lucy Cutting of Bennington and Mrs. Charlotte Ladd of St. Albans; the pinalst, Mrs. Cornie Glynn Cocklin of Rutland.

At the afternoon session National Commander-in-Chief O. A. Somers and staff represented the National Grand Army of the Republic. Mr. Somers spoke of his work among the different departments and dwelt at length on his work with a colored corps in New Orleans, La. He was enthusiastically received. Delegates from the Sons of Veterans and their auxiliary also brought greetings, as did delegates of the Ladies of the G. A. R. The address of welcome was given by Mrs. Ida B. Spear, president of the Stannard Relief Corps, and was responded to by the junior vice-president, Mrs. Jessie Sturtevant of St. Albans,

Although when the national secretary asked how many women belonged to the Red Cross every woman stood. showing that every woman in the corps was working individually for the Red Cross, the corps is not working as a unit so the question of credit to the ties are lagging in the campaign, thus cussed from all aspects. It was also cussed from all aspects. It was also stalled the officers of both organizations, insufficient of the Bolsheviki between the country of the members of both organizations, insufficient of the Bolsheviki between the country of the structure of the Bolsheviki between the country of the structure of the Bolsheviki between the country of the structure of the Bolsheviki between the country of the Bolsheviki between the country of the structure of the Bolsheviki between the country of the structure of the Bolsheviki between the country of the structure of the Bolsheviki between the country of the structure of the Bolsheviki between the country of the structure of the Bolsheviki between the country of the structure of the Bolsheviki between the country of the structure of the country of the structure of the stru donia ahead in per capita, with \$2.17, relatives in the army and it appeared and Essex last, with only 46 cents. W. Abernethy of At the final business meeting Thurs-

Burlington on "Flexnerized Education." He said:

FLEXNERIZED EDUCATION.

like the great war in Europe. culture against kultur. The old idealism, moral and spiritual, is threatened with submersion by the rising flood of practical spicuous attack upon the established Dr. Abraham Flexner, and published by general education board. This pamphlet has attained a remarkable author has no reputation as an educational leader or philosopher. dollar foundation, and he voices a widespread discontent and popular demand for the more material results of education. written with the skill of a wily politician, reform is that of the Bolsheviki be- as the providing of commodities struments of and unwarranted assumptions, popular prejudices and logical camouflage. present school curriculum as the classics, literature are useless because they deal with the past. The fifned "to the world he lives in," that is, the world of to-day, with no yesterday or tomorrow, a world divested of the experiences of the past and in-different to the dangers of the future. profits and reckless experiments

He has two reasons for banishing the current subjects of education, because they the "traditional" and because they are not well taught. In teaching Latin, for example, he says, " we agregiously fail," and, therefore Latin is not worth teaching at all. As if we were to argue that because sugar is sometimes adulterated it is worthless as an article of diet. To establish the minor promise of this remarkable syllogism, be resorted to the report for 1915 of the College Entrance Board. From a list of twelve subjects in the Latin examination he craftily selected two subjects that showed the largest percentage of failures, and gave them as typical of the whole examination. More than this, the number of candidates taking of these two subjects was only 64 out of the whole number of 5,979 who took Latin examinations. By juggling of statistics he proves that Latin is surely, as Sidney Smith says, an egregious failure. Nothing can be made to lie like facts except figures. In this respect, Dr. Flexner seems to have worked both facts and figures to their full capacity, and hereafter nothing that he can say as an eduout suspicion.

condition had not changed for the betcational expert will be received with The curriculum of Dr. Flexner "modern school" will contain nothing except what is "practical," aiming arday morning at the home of his uncle chiefly at setting more money and more cakes and ale. It will be purely of 185 Pine street, when he attempted to start a fire in the furnace by pouring on some kerosene. There was a loud explosion which threw the blazing kerophysical; any moral or spiritual elements that may crop out will be merely by-products. There will be no sene over the head and shoulders of the Latin or Greek, no "useless facts of history," no "obsolete classics" of English literature, like Millad. He had presence of mind enough to run to a faucet and allow the cold water to run over his arms and face, and ton's "Lycidas," no English grammar, no meanwhile he tried to smother the flames mathematics except enough to enable people to add, multiply and avoid being Mrs. Bombard, who was upstairs, heard cheated in trade. "Science will be the dominating feature of the school." All the explosion and before she could run downstairs to find out what the matter knowledge will be "sense-acquired knowledge." Pupils will be taught entirely "with an eye to the realities of life." And was, her nephew came running up the stairs with his clothing all aftre. She seized a bathrobe and threw it over him, smothering the flames. She telephoned for a physician (Dr. with ecstatic vision Dr. Flexner declares 'Children will make and understand a fireless cooker, a camera, a wireless telegraph." Surely such an achievement Bombard being away) and the fire department, and then rendered first ald as best she could to her nephew. Dr. J. N. should put to shame the old education Jenne arrived and dressed the burns of and silence forever its apologists. In gen young Lawrence and later removed him to the Mary Fletcher hospital. The fire department soon put out the eral, the new curriculum is to be con-crete, material, easy and entertaining. There is to be no strenuous mental slight blaze in the cellar, caused by the endeavor, no compulsion, no "training the mind," which Dr. Flexner utterly repudiates. The system will be patterned after the glorified kindergarten system A cough that "hangs on" wears down the sufferer, leaving him unable to ward off sickness. Jos. Gillard, 148 Fillmore St. of Garey, Ind. Finally, the curriculum wi "contain only what can be shown to serve a real purpose." Culture is not a real purpose; "mental discipline is not a real purpose; knowledge for its own sake Nashville, Tenn., writes: "I was suffering with a dry hacking cough and a pain in my chest, but since taking Foley's Honey and Tar Compound I have been relieved." It soothes, heals and cures. is not a real purpose; the expansion of the soul is not a real purpose. In short, nothing is a real purpose that will not buy more cakes and ale, what then? To be constructively explicit, the real purpose Sold by J. W. O'Sullivan, 30 Church St.-

in which he pointed out how, from the point of view of a historian, every force

in our modern social life has its germ in the ancient world.

After a "wheatless" luncheon to the visiting teachers at the home of Professor and Mrs. Bassett, the meeting was resumed with a paper by Professor Burrage of Middlebury College on "How to Teach Greek With Few Facts and Less Brains." By few facts the speaker meant the minimum of syntactical rules through which a beginner may gain a real knowledge of Greek, whether "less brains" referred to the student or to the teacher was left for the sense of humor of the audience to determine. LATIN IN JUNIOR HIGH SCHOOL,

Owing to the unavoidable absence of Prin. W. H. Douglass of the Burlington junior high school, an abstract of his paper on "Latin in the Junior High School" was presented by Professor Bas-sett. The views of Principal Douglass on the teaching of beginners' Latin were interesting and instructive. He emphasized first the need of the teacher to know both the subject and the pupil, and he said, in the study of any subject, since all subjects are practical which fit one for life.

THE CLASSICS IN FRANCE.

Row Both the subject and the pupil, and secondly, the need to make Latin pay its way, that is, pay the pupil every day for the time he puts into it. In order to prove to his pupils the large part which Latin plays in the world of to-day, he points out to them the Latin abbreviations still in common use, the wide employment of Latin in college and to a cartoon, or to add humor to a bit the curricula had resulted in less stress being laid upon the study of Latin and Greek, until now it was possible to obtain used. Several charts were chawn of colthe baccalaureate without either subject. lege shields, State mottoes, and the like, where he was finally caught and lodged. The suppression of Latin and Greek and all gathered by the students, and also in the Briggs stable. The body of Mr. the present arrangement by which, as of "family trees" drawn by the students with us, st dents are compelled to make having a Latin word as the root and selection of courses before they have ar-rived at any maturity of judgment, have branches. Whenever possible the teacher connects the subject under discussion with something that would tend to arouse the pupil's interest; a Latin motto is the Curtis, all of Burlington and Mrs. Edoccasion for a talk on Roman beliefs and ward Lafond of Williston. ideas, or for the telling of some English

WHAT AFTER THE WAR? by Principal Charles H. Morrill of

Brigham Academy on "The Place of the

Humanities in Education after the War.

The humanities the speaker defined as 'those studies which pertain to the human spirit as manifested in intellectual at two o'clock Friday afternoon at aesthetic, and moral activities." They include, therefore, language, literature music and art, history and biography, mental and moral sciences. mental and moral sciences. Although "man shall not live by bread alone" still he must have bread, and a true scheme of education must reckon both with man's physical and his spiritual nature. Here, nowever, we must not ignore relative values, we must not concede the stomach's We are engaged in an educational war equality with the mind. In our schools which in its main issues is strikingly "the first place belongs to those branches of knowledge which reveal and perpetuate and materialism are arrayed against the the nobility of lives that have passed humanities. The struggle is between the from the stage, and to those forms of higher and the lower instincts of man, expression that give voice to the souls of penter of the University of Vermont, th mind and soul against the appetites, the past and present and inspiration to who advocated the continuance of the all who can hear the voice." been too ready to let the matter-of-fact knowledge and efficient materialism. a fireless cooker." The morning session closed with a short address by Prof. S. F. Emerson, in which he pointed out how from WHEN HORSE BOLTS

Thrown from His Wagon and Head Crushed by Curbstone-Death Comes in Few Minutes After Accident-Horse Runs Two Miles to Winooski

Eugene Poro known as Jerry Poro of 258 North Bend street was almost instantly killed Tuesday evening at the junction of North Union street and North Winooski Avenue when he was thrown from his buggy as his horse bolted. The man was still breathing when Officer Brodie reached his side. but he succumbed in a few minutes, his skull having been crushed as he was thrown against the curbstone. Mr. Poro was 47 years old.

The accident occurred about 10:15 o'clock. Mr. Poro was driving home, when his horse became frightened at something and botted. The sudden jump threw Mr. Poro from the buggy and he struck on his head. Officer Brodle appeared in time to see the runaway horse and running to Mr. Poro's

the physician arrived.

The horse raced on to Wincoski. Poro was removed to the undertaking

establishment of Arseno Boucher, on word as North street. Mr. Poro, who was unmarried, is survived by four sisters, Mrs. Nelson Peters, Mrs. Peter Dore, Mrs. George

MODERN LANGUAGES

The last paper of the session was read Spring Conference of Vermont Group of New England Association

The second spring conference of the Vermont group of the New England Modern Language association opened the University of Vermont chapel. Professor J. H. Sasserno of Norwich was elected to replace Anton H. Applemann

as vice president of the association. The first paper of the afternoon was entitled "Shall the so-called tolerances in marking college examination papers be accepted?" This question was discussed by Professor B. L. Robinson of Middlebury, and after some discussion it was voted that the Vermont group disapprove of accepting the The second paper was the immediate and ultimate effects of the war on the teaching of modern languages. first speaker was Professor F. D. Car-We have study of German, especially a reading view of life, the spirit of business, view to understanding and appreciatlearned it.' And again, not 'what does the that the concern of the teaching was can he feel and what can be dare.' In discussing Spanish the speaker touched upon the commercial side which would come with increased business relations with South America. She also expressed the hope that the study of Spanish might be continued enough to become familiar with its dignified and extensive literature as

The discussion which followed those Taylor, was lively and prolonged The afternoon session adjourned at 5:30 and at six o'clock the University of Vermont gave a supper at the New Sherwood hotel to visiting teachers. After the supper, Professor Emerson of the University spoke on the topic "The effect of the war on our study of Foreign Literature." This talk was listened to with great interest.

FINAL SESSION

Modern Language Association Aims at Uniformity in Teaching

The final session of the second cor ence of the Vermont group of the New England Modern Language association was held at the University of Vermont chapel Saturday morning. The associacommittee, relative to the methods and meeting in the temple Friday afternoon aims of modern language work in high with Mrs. C. N. Clements presiding. Miss and junior high schools. This report was Mary Walker led the devotional exercises, framed last year at the suggestion of reading the Second Psalm and then giving Commissioner Hillegas and it object was to secure uniformity in teaching French Mrs. D. A. Brodie had charge of the and German throughout the State of Vermont. The first half of the report was discussed and adopted at the meeting of the association last October, the remaining portion being adopted Saturday.

Beside this report a paper was read by Miss Mary E. Bresnahan of Montpeller high school on the methods and time of modern language instruction in junior high schools. This was descriptive of games and other practical methods of increating children. A paper on the corre ation of modern language work in junior high with that of senior high schools wa read by Miss Anna Proctor of Greene and these were followed by a general discus-

A committee was appointed to draft a report similar to the one adopted Saturday morning relating to junior high schools, and this committee consists of Prof. A. B. Myrick of the University of Vermont and president of the asociation, Prof. D. L. Robinson of Middlebury College; Prof. F. D. Carpenter of the University of Vermont; Miss Osgood of Brat tleboro high school; Miss Bresnahan and Mr. Taylor of Danville high school. This report will be considered at the October neeting of the association.

BULK HONEY INSTEAD OF COMB In the coming season bee keepers are Agriculture, to produce more honey in the extracted, or strained form, instead of as comb honey. Investigations of honey production in Florida show that too many bee keepers now market honey W. O. Spear. Twenty new members were initiated. A reception followed the initiation and then supper was served.

In the evening there was a musical program, with a duet by the Misses Lottie Germain and Hazel Cole, a solo by Miss Margaret George, and salections by the Margaret George, and salections by the the comb by weapping cells and which Germain and Hazel Cole, a solo by Miss is lost. Where noney is called and whiriMargaret George, and selections by the
White Ribbon quartet.
