**The Cough of Consumption**  
Your doctor will tell you that fresh air and good food are the real cures for consumption. But often the cough is very hard. Hence, we suggest that you ask your doctor about your old friend Ayer's Cherry Pectoral. It controls the tickling, quiets the cough.

**ALL WRONG**  
The Mistake is Made by Many Aberdeen Citizens.

Don't mistake the cause of backache. You must know the cause. It's wrong to imagine relief is given by backache. You must cure the kidneys. An Aberdeen resident tells you how.

Geo. W. Blair, living on Long St., Aberdeen, Miss., says: "Doan's Kidney Pills in my case proved to be a sterling remedy. Daily laxative pills across my loins caused me a great deal of annoyance and inconvenience for some time. My work requires almost constant standing and this proved to be greatly aggravating. My trouble often it was a task for me to stoop to pick up anything and for days at a time I could hardly get a moment's ease from backache. Hearing about Doan's Kidney Pills, I thought it would do no harm to give them a trial and prepared a supply at the Phoenix Drug Co. The relief I had after using only half the contents of the box and I continued until every annoyance was removed. I am only too glad to make a public statement in order that others suffering from kidney trouble may hear of this reliable kidney remedy."

**Night Riders Convicted.**

The reputation of the Obion county citizenry was vindicated last week, when the jury brought in verdicts of murder against eight, and of manslaughter against two of the night riders, who slew Capt. Rankin, at Walnutlog, a few months ago. It remains now to be seen if the State of Tennessee will stand by the finding of the Obion county court by affirming the verdicts and sentences, or whether through its "technicality shops," the supreme court, it will remand the cases, or, through its "mercy factory," the pardon board, it will turn the criminals loose altogether. The eyes of all people are just now turned on our sister state, whose dignity has been outraged by acts of flagrant lawlessness. The majesty and power of the courts and the executive are tested in trying, or, and protection to life, liberty and property depends upon the austerity with which they deal out punishment to the outlaws and murderers. The general verdict is that the men who have been adjudged, under the evidence, guilty of the murder of Captain Rankin, should suffer the penalty of their deed. Any failure of justice in their case would be a blot on the fair name of Tennessee, and would be encouragement to her own as well as the lawless element.

**The Mark of Greatness.**

The man himself, that is, the association of soul with body that gives him existence in this life is not fully appreciated by the generality of mankind. The activities of mind, soul or body, expended by any unit of humanity for the benefit of others, is the mark of greatness that wins plaudits from the world. If these energies are employed in self interest, to better the condition and environments of the individual himself, mankind deprecates and characterizes them as mean and despicable. The ability and expenditure, then, of talents and labors to the advancement of others, rather than for self, is the criterion the world has set to win the distinction of greatness. This, itself, would make unfair terms, were it not for the fact that no sooner than greatness is achieved than a generous and appreciative public heaps honors and emoluments on the sacrificing hero. Still, coming back to the initial statement, it is not the man himself, the affinity of soul and body, that mankind thus honors—it is the usefulness of the life, resulting in benefits to them that they remember. To sum the idea, the man himself is great no longer than he is useful—his name is great only in association with his great deeds. If misfortunes of mental, physical or financial blight overtake him before death does, the man himself, though present, is forgotten, but the deeds he has done to bless others will be remembered forever.

**A Sprained Ankle.**

As a rule a man will feel well satisfied if he can hobble around on crutches in two or three weeks after spraining his ankle, and it is often two or three months before he is fully recovered. This is an unnecessary loss of time, as by applying Chamberlain Liniment as directed, a cure may be effected in less than one week's time, and in many cases in three days. Sold by all Druggists and Medicine Dealers.

**Good Roads.**

The world is impressed with the importance of good roads. Activity in building them is now more pronounced than in any previous era of history. France, Germany, Austria, Great Britain and the United States, except in certain sections, is spending millions of dollars in construction of splendid public highways. After thousands of years, the best minds of this age have perceived that the key to unlock prosperity, happiness and social enjoyment lies in the building of permanent thoroughfares. No country, State or county can advance to the full measure of its resources for development until it gets in line with the movement of the age, and goes to building roads that will stand—roads that will bear travel, winter and summer, wet weather and dry. The Monroe county Farmers' Union, in its last county convention, expressed emphatically, that the people of this county favor good roads. It voiced the sentiment, not only its own members, but of every patriotic citizen, and the Weekly has waited for a clamor to come up from the people, demanding a system that will give them better roads for the same, or more money. The manner of road building under the contract system, is wholly unsatisfactory and inadequate to the needs of a people of our civilization and interests. We want roads that are real, permanent, and that will stand the frowns of the clouds and the breath of Boreas. The present system represents the value paid out in dollars for labor performed, but we get the returns in mud, road ruts and ruts. It is time for the people of the county to begin to cast about for a plan that will give them roads that will survive the first rain or freeze. The contract system "has been weighed in the balance and found wanting." The roads are in as good fix under that system as they would be, if continued, ten years hence. It would be folly then, to keep on paying out the commutator and road tax, from year to year, to keep them that to standard when they are wholly inadequate to our needs and unsatisfactory to the interests of our country. The Weekly does not arraign the Board of Supervisors' nor charge any official nor road contractor with failure of duty, incompetency, nor slack management in producing the best roads possible under the system in vogue. It does, however, emphasize the truth, that the contract system has fulfilled its mission in road building in Monroe county. Now, what? It is not for the Weekly to say, further than that good, permanent roads, economically constructed, and within the means of the people is the crying need of the county today. There are ways and ways to build them. Some of these ways have been discussed, by others, through the columns of the Weekly. Doubtless, others will be, and should be. Out of them, some plan might

**The Field of Moral Suasion.**

The Memphis Commercial Appeal's editorial, in Saturday's paper, headed "The Growing Danger to Liberty," in which the position is taken that ministers of the gospel should hands off in all things political, even if the measures advocated are for the promotion of temperance and morality, is the most masterful argument spun in mid air, its readers have yet been treated to. Genius, talent nor brain can prove a thing true that is obviously false, nor can they argue to make it appear that preachers are out of place when laboring in the political, or any other field, for the moral and religious uplift of society. All will admire the tact of a mind that can build plausible argument without good foundation, but all who search for the safe ground for the position taken in the Commercial Appeal's editorial of Saturday will find it fugitive and evanescent as air. The Weekly believes that the preacher's field of labor is anywhere he finds his Master's work to do. The improvement of moral conditions constitutes one of the great works the church is doing for society, and places mankind in more receptive attitude to embrace Christianity. We admit, however, that the enforcement of morality is distinctly a political prerogative, but the incentive originates in the demands of a Christian people for the good of humanity, both here and hereafter. If this is true, it would seem that the field of moral suasion is on the hustings, as well as in the pulpit; in the world as well as in the church, and where immorality is vice abound more than anywhere else. Too often, however, the commercial interests of a city are preferred to the moral and social good of its citizens, and talent discredits itself in spinning fallacious arguments favoring evils that have proven blights to all communities that have suffered them. The man of God, whose mission is to teach salvation of the body here, and the soul hereafter,

**WELCOME WORDS TO WOMEN**  
Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them. Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases. It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trade with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.,—take the advice received and be well.

**Law provisions, as requested by said competitors.**

Upon favorable report of Supervisors Eikner and Ritter, change in Smithville and Quincy road, first district near C. Vaughn residence, was granted and the road established as a public highway.

**QUARTERLY REPORT OF SUPERVISORS.**

Supervisor Ritter reported as follows: "I beg leave to report that the condition of the roads of the second district are in better condition than ever before in the history of the county."  
Supervisor Lowe reported: "Owing to good weather and exceedingly systematic work, the roads and bridges in the fourth district are in better condition than usual in mid-winter."

Supervisor Einker: "I beg leave to report that the roads of the third district are in better condition than ever at this season of the year. There are some few mud-holes which are being looked after and repaired by the contractor."

Supervisor Bailey: "I beg leave to report that the roads of the fifth district are in excellent condition, partly owing to the mild winter and largely attributed to the good work of the contractor."

**Proceedings of the Board of Supervisors.**

JANUARY TERM 1909.  
Present—R. W. Eikner, President; S. D. Ritter, J. H. Sullivan, A. C. Lowe, W. L. C. Bailey, members; T. O. Jones, Sheriff; C. P. Smith, clerk.  
Report of E. E. Cowley, Superintendent of Education, was examined and approved.  
Report of N. Tubb, County Treasurer, was examined and approved.

Upon report of Supervisor Bailey, Ruby Miller, Chas. Miller and Bettie Miller negro minor children of the fifth district, were apprenticed to Steve Walton, negro, all forms of the law having been complied with.

Upon petition of E. J. Alexander, Lon Goodman, negro minor, was appointed to said E. J. Alexander, in accordance with statute in the premises.  
Supervisors Lowe, Bailey and Ritter were appointed as a committee to examine books and accounts of county Auditor for 1908, provided for by section 348, code 1906.

The firm of Leftwith and Tubb was retained as county attorneys for 1909, on same terms and compensation as prevailed last year.  
The Board ordered the county Treasurer to transfer from the common county fund to the sixteenth section school fund in interest at six per cent on \$4,706.54, from June 28, 1907, to June 28, 1908, the said \$4,706.54 having been heretofore borrowed by the county.  
The county Treasurer was directed to apportion equally to the five districts of the county of the general ad valorem road tax fund now in the treasury on account of the taxes for fiscal year 1908 and that he make report of said apportionment at February term.  
Lands of J. A. Irvin and others in second district, annexed to stock

**Grandmothers and Grandfathers Who Believe in Pe-Ru-NA.**  
"I CAN recommend Pe-Ru-NA as a good medicine for chronic catarrh of the stomach and bowels. I have been troubled with it severely for over a year, and also a cough."  
"Now my cough is all gone, and all the distressing symptoms of catarrh of the stomach and bowels have disappeared. I will recommend it to all as a rare remedy."—Mrs. F. E. Little, Tolono, Ill.  
"I HAD catarrh of the stomach, bowels and lower internal organs. Had a great deal of pain in my right hip, which felt like rheumatism. Also pain in my internal organs. The water was highly colored, my back was weak, and constipated, and very restless."  
"I commenced to take Pe-Ru-NA according to directions, and began to improve. I have taken ten bottles of Pe-Ru-NA and I feel anything in the throat I take a swallow of Pe-Ru-NA and I am all right."—Mr. W. D. Smith, Sr., 2400 Forest St., Port Huron, Mich.  
"BY following your instructions and taking your Pe-Ru-NA and Manna I am cured of catarrh."  
"I had catarrh for twelve years and quite a bad cough so I could not sleep nights. I do not have any cough now. If I feel anything in the throat I take a swallow of Pe-Ru-NA and I am all right."—Mr. W. D. Smith, Sr., 2400 Forest St., Port Huron, Mich.

**BE PROSPEROUS IN 1909.**

**Mr. Farmer:**  
Do you want to be prosperous this NEW YEAR?  
Of course you do. Like every other modern and up-to-date farmer you will seek the best ways and means of obtaining that prosperity which should be yours.  
**Best Guarantee.**  
The best guarantee of a successful crop is a liberal use of fertilizer. You cannot afford to leave out fertilizer in cultivating a crop. The number of farmers who have saved a dollar's expense and lost ten dollars in the crop is legion; and strange to say, many of them begin to economize in the very article that they should increase in use—FERTILIZER. Economy in fertilizer is the last proposition that the farmer should entertain.
