VOL. 35.

ABERDEEN, MISSISSIPPI, FRIDAY, MARCH 24, 1911.

NO. 48

OBITUARIES AND TRIBUTES.
Obituaries will be accepted by The Weekly when not exceeding ten lines, free of charge. For each additional line a charge of five cents will be made and collected.
For Tributes of Respect and other publications, emanating from lodges or similar organizations, a charge of five cents per line will be made for every line contained. Count seven words to the line and make your own calculation as to the cost in each case.

TUBERCULOSIS EXHIBIT AT COLUMBUS.

There is being held in Columbus an exhibition, known as the tuberculosis exhibition, conducted by the National Tuberculosis Association for the study and prevention of that disease. This exhibition is being held in Columbus under the auspices of the Business League, Commercial League, Daughters of the Confederacy, Daughters of the American Revolution, King's Daughters, Y. M. C. A., Tri-County Medical Society, and the State Board of Health. This exhibition is purely educational and free from commercial features. There are no charges for admission.

The purpose of this exhibition is to make known to the people the wide spread and prevalence of tuberculosis or consumption, to point out the means for the prevention and cure, and at the same time to suggest practical methods to all who will join in the campaign against needless disease and premature death. There is nothing dangerous about this exhibition. There is no specimen of the disease or the human body but it is an eminently attractive exhibition. This exhibition will point out fundamental facts which should be known by every person. During the continuance of the exhibition there will be illustrated talks with a series of platform conferences and a program of special addresses twice daily. This exhibition consists of models of the various sanatorial and tuberculosis hospitals of the United States, charts, drawings and photographs of the disease in its different stages, also photographs showing the prevention of the disease and the effect of certain conditions that induce this disease. There will be talks made in a few of the surrounding cities by Dr. L. C. Rouse, member of the Public Health and Sanitation of the State of Mississippi, and the object of his talk will be to encourage interest in this exhibition and to pass upon the people the necessity for everyone to be educated about consumption. This exhibition will continue for the next ten days and the management is very anxious to have one day set aside and to be known as the Anti-tuberculosis day, for the schools and the citizens of Aberdeen to visit this exhibition and to see the great work that is being done along the line of prevention and cure of consumption.

Editor Aberdeen Weekly:
For the information of the taxpayers of the county, I present some figures on the cost of our Circuit Court so far as the criminal business is concerned, showing the value, in dollars and cents, of the office of County Prosecuting Attorney. In making these figures I have taken into consideration only the Grand Jury, State Witness, Sheriff and Circuit Clerk expenses, because the expense of the Petit Jurors, Stenographer and Statutory Allowances to the Officers is the same year after year, while those items which I include can be made larger or smaller according to the effort made in attending to the details of each.

I have taken Six Terms of Court, or Three Years, and made an average cost for each item, same being as follows:	
Grand Jury Expense, average per term,	\$545.00
Sheriff, Self and Deput.	1011.00
Clerk Cost, State Cases	162.00
State Witness Fees	477.00
Total Average, Cost per Term,	\$2185.00

Average amount collected from fines, witness fees, jury and stenographer tax etc., \$170.00
Average Net Cost, per Term, \$2015.00

Expense March Term, 1911	Grand Jury, 386.00
Sheriff, Self Deput.	811.00
Clerk Cost, State cases	56.00
State Witness Fees	185.00
Total Cost March Term, 1911,	\$1438.00

Amount Collected from fines, witness fees, jury and stenographer, tax, etc., \$438.00
Net Cost March Term, 1911, 1000.00

Reduction from average cost here tofore, \$1015.00
Average Yearly Amount of fines collected by Justice of the Peace, during past five years, \$1150.00
Amount of fines collected from April 1st, 1910, \$3100.00
Gain in past year, \$1950.00
Very Truly,
Ben H. McFarland,
Co. Pros. Atty.

Doubtless in a very short time Aberdeen will have free mail delivery. The United States Inspector has been here during the week, and has looked over the situation and appeared pleased. The business houses and residences have already been numbered and everything is in readiness and everything is in readiness and everything is in readiness.

WE ARE NOT AFRAID.

The editor of the Weekly is a candidate for the legislature. He has nothing to conceal as to where he stands. He believes as Thomas Jefferson, that a majority of the people ought to rule. We have our convictions, and will always openly express them, but do not arrogate to ourselves superior judgement to the preponderance of our fellow-countrymen. If the majority say that we are wrong, we will conscientiously trample our convictions under foot, and obey the instructions of the sovereign people.

We are not afraid to let the voters know how we are affected on any question, and had rather stay at home, espousing the cause we believe to be right, than to go to the legislature under false pretenses. One thing is certain, however, and that is, that if the editor of this paper should go to the legislature that he will faithfully execute the instructions of his constituency whether they are his ideas or not. We see things as we see them, and shall advocate them in the light of our convictions, but shall never arrogate to ourselves superior intelligence to the vote as expressed by a majority of the people. Now, we are tooth and nail for Vardaman in the Senatorial race. We are this way, because we believe he represents the best interests of our beloved State, but if a majority of our fellow-countrymen say, by their votes, that we are wrong, we will concede the point, and be just as loyal to Mr. Percy, or Mr. Alexander, as the case may be.

ABSURD ISSUE.

The most absurd issue ever projected into a legislative campaign, is the "Tick question."

This is distinctly a matter between the people and candidates for supervisor. If the people of any county do not want tick eradication, they can regulate their desires by voting for supervisors who are pledged against the tick law. It is not for any one person to say whether this quarantine ought, or ought not to be. The question is left to the intelligence of the majority of each county.

Political education to the people that matter for itself. Because one county does not want the benefits of a particular law, is no reason why it should seek to deprive other counties that may need it, of those rights. Especially is this true, when the law leaves it entirely optional with local authorities to avail themselves as their constituency may wish.

The Weekly does not mean to say whether the people of Monroe county need the tick law, or not. To be plain, it does not exactly know, but we do know that the voters have the opportunity of expressing their convictions when they vote for supervisors. The thing which the Weekly now wishes to stamp as a fictitious issue is the projection of this question into the legislature campaign. It has no more place in it than a hog in a parlor, and the voters are hereby warned to not be detracted away from the main issues by subterfuges that appeal, only to ignorance, and prejudice.

Now, any man of ordinary intelligence knows that the statutes of the State, or the United States, do not force upon the people of Monroe county a tick quarantine, unless our Board of Supervisors so elect. Every person, also knows, that the supervisors had rather carry out the popular sentiment than not. This article concludes with the statement that questions of this nature are obtruded into the legislature campaign to obscure others of greater importance. The voter, who will suffer himself to be deceived from his main interest by such absurdity, is to be pitied indeed.

There will be many slick tricks turned in politics this year. Keep your eyes open, and you will see them ALL.

PROSPECTS OF GROWTH.

Uncle Sam has ulterior designs upon Mexico and the Central American States bordering the Panama Canal. It is highly logical that this government should control the territory contiguous to such a project. The ambition of nations are like those of men to grow. The limits of the North American continent are not beyond the ambition of the United States. This vast territory comprehended in a strong, centralized government would be able to dictate to the world. Mexico is in a state of tumultuous dissatisfaction. The populace are disgusted with the Diaz rule, and Diaz himself is tired of the strenuous and cruel ordeal of years. The whole Mexican territory is in easy attitude to become a part of the United States, and the expected may happen as diplomatic and war measures may develop. Of course the Countries of Europe and Asia are looking on with envious solicitude, and will obtrude interventions to keep this nation from becoming the master of the world.

The Weekly does not express its opinion as to the wisdom of what is written above. It merely writes of what it sees written on the walk.

THE FARMERS UNION MEET.

The Monroe County Farmers' Union, which will meet at Rural on March 30th and 31st, will not discuss politics, but nevertheless politics will be obtruded as an outside question. Members of this valuable organization are citizens of the State and county, and are vested with responsibility to discharge a patriotic duty to both. Therefore, on the outside of this organization, these members are free to exploit their political opinions and preferences as other citizens. Issues and men will be as freely considered each member from his own viewpoint, as if he did not belong to the Union. The object of the Union is not to stultify its members' political views, but to leave free to indulge as each chooses. While this is true the organization has given each light to act in all relations of life, domestic, social, political and otherwise.

My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Eclectic Oil. The pain ceased and the child sank into a restful sleep. Mrs. Nancy M. Hanson, Ham-bury, N. Y.

MR. VARDAMAN WILL SPEAK HERE.

Mr. Vardaman is expected to address the people of Monroe County at Aberdeen about April 15th. He does not need a Circuit Court to get a crowd. Thousands of people will flock to hear him, whatever the date he announces to speak in this county. Mr. Vardaman is the greatest reformer since the days of any body, and points the entire south to a policy that means perpetual peace and prosperity to this section. Whatever the date he announces to speak, don't fail to hear him.

Don't use harsh physics. The reaction weakens the bowels, and leads to chronic constipation. Get Doan's Regulents. They operate easily, tone the stomach, and will cure constipation.

WANTED.

An honest, intelligent, Monroe County man, who knows how to work every day and is not afraid of work, to do soliciting for the Monroe chapter of the Southern Mutual Fraternal Union. To the right man who will work every day, we will make a proposition out of which others are earning from \$100 to \$1500 per week. For themselves and families. Send your name and address to: Southern Mutual Fraternal Union, 1100 Broadway, New York, N. Y.

The Price Argument

Buying a wagon just because the price is cheap, is like picking the shell. Once in a while, you pick a winner. But, usually, you pick a loser. It is always unprofitable and hazardous—except for the man who runs the game; much more unprofitable than buying a cheap wagon. The wagon you can't get for less, but the cheap wagon you can't get for less. There is always something wrong with it, something needing mending or fixing, a constant expense to its owner.

The Studer wagon is a profitable investment from the day you take it home, a wagon you are proud to own.

We Need Them All.

An adequate negro school building, a city hall, and paved streets are crying needs of Aberdeen at this time. The election to secure all these things will take place April 11th. Let every body weigh these matters, and vote the best interests of the town. We cannot grow unless we make effort in that direction. The town is in fine financial condition to make investment for development. Now is the time to put a good foot forward and push internal improvements. Let us be up and doing—vote for the bonds, and put Aberdeen in the wagon of progress.

Speedy Relief From Kidney Trouble

"I had an acute attack of Bright's disease with inflammation of the kidneys and bladder, and dizziness," says Mrs. Cora Thorpy, Jackson, Mich. "A bottle of Foley's Kidney Pills overcame the attack, reduced the inflammation, took away the pain and made the bladder action normal. I wish that everyone could know of this wonderful remedy." For sale by J. L. Shell & Co.,

Messrs. Percy and Alexander, are assiduously engaged in attempts to destroy Vardaman. Their speeches are couched in language to smirch his character and to create prejudice. If these gentlemen have any merits to present to the voters why they should be chosen to the United States Senate over Mr. Vardaman, why don't they talk them out, instead of trying to kill off a man, whom the people know better than they.

Mr. Vardaman has stood the test of public life, as editor, as governor of the State, and all else. The people will not heed a character attacking campaign with all the lights before them.

ARE WE ABLE?

Securing a site for a city park is a more considerable question than many would think. The citizens of no town can enjoy recreative blessings without such a place. It is idle to say that we don't need it. The history of thousands of cities, through hundreds of years, denies the assertion. The thing to do is to secure a central location for a city park while it may be had. It takes years to make a park. Better begin now, if we are able, and the Weekly thinks we are able.

INFLAMMATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women."—Mrs. V. M. Scales 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from these distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, E. J.
