Work and Sleep.

...take it is to be taken from recreation is to get up greater recreation and the cement put in order at the weather and the office. A man necessarily requires honors or office—also a majority of us naturally desire to attain to a certain rank—but he must work and sleep. Therefore, that he every means to proceed among these things to be kept in when a man denies himself food and the exercise both to brain and body is robbing his life of its value. Let him be cheerful, the body is like an engine will run well and long well oiled. Contentment and cheerfulness are the oil which keeps the nerves from going out.—New York Ledger

He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He also recommends it to others and they say it is the best medicine they ever used.
