LOCAL ITEMS.

Saratoga chics at Smith & Haynes. C. L. Foss was a Sunday visitor from Bouton. All trains are running clearly on schedule time. Leave orders for Constock's coal at Skinner's store. Great preparation is being made for the Leap Year ball to-night. Go to Bill Bullard for Best's Milwaukee beer in any quantity. Several heavy, extra freight trains passed through, west bound, yesterday. D. Hanley and Chas. Furler, both of St. Paul, were at the Maqueen yesterday. J. Wilkinson represented on the Maqueen register, yesterday, hailing from Chicago. Didn't look much like spring, yesterday, although Sunday was a day of drip and thaw. H. S. Lewis, a well known stock rancher of Howard, M. T., was in the city, yesterday, on business. Just received at Ed Arnold's, direct from French manufacturers, choice doeskin and broadcloth for full dress suits. Anyone failing to receive a valentine this morning can be informed of the reason thereof by applying at this office. Two great enemies—Hood's Sarsaparilla and impure blood. The latter is utterly defeated by the peculiar medicine. The remarkable quietude of the city last night may be attributed to the exodus of the cowmen who have been with us, for these many days. L. N. O'Dell and wife are at the Maqueen, from Big Horn City, Wyo. Mr. O'dell was formerly engaged in the stock business in that section. Major Wyman says that the ice contractors for this end of the Northern Pacific road are getting along finely and that the ice is in excellent shape. Dr. Redd has returned from the Kirwan & Langley ranch on Tongue river, where he was called to attend a young Englishman named Grosvenor. The patient was doing better when the doctor left the ranch. At the Catholic church, yesterday morning, Father Pauwelyn officiating, Mr. Edward Flynn and Miss Katherine Golden were joined in the bonds of matrimony. Ed Flynn is one of the old-timers and is to be congratulated upon having secured as a partner for life so estimable a lady as Miss Golden. The bride is a sister of Mrs. Jas. Colman.

One small particle in the eye pains the whole body. Use Warner's Log Cabin Extract. It will cure many a pain.

Probate Judge Staehle issued a license to wed, yesterday, to Edward Flynn and Katherine Golden, both of this city.

Wm. Var Gasken went up to Henry Davis' place on the Yellowstone, yesterday, to bring in a small herd of beef cattle for the home market.

Regular meeting of the Miles City Building Association this evening at 7:30 o'clock. H. B. WILEY, Sec.

Jno. McGinghan, a private in G Co., 5th Inf'y, and one of the participants in a recent prize ring encounter, has become insane and is now in irons at Fort Keogh.

The freshly decorated Maqueen house dining hall will be in a blaze of glory—electric light and waxen tapers—at 8 o'clock this evening, and the leap year party will be in full swing.

The JOURNAL has received from Lieut. R. F. Bates, of the chief engineer's office of the Department of Dakota, a very accurate map of the department and is much obliged therefor.

A plentiful sprinkling of ashes along the city sidewalks would be greatly appreciated by a back-sliding public. At one spot, and within thirty minutes, seven falls were noted and all the prostrated ones were remarkably sober.

Nice pure Michigan apple cider just received at Flaharty's.

Johnny Zook, Sam Birdsall, and Ed McGhee made a clear start for their up-country ranches yesterday. The boys have been making quite a stay in the city and Mr. McGhee must return for jury service at the coming term of court.

To-day is Shrove Tuesday, more readily remembered from the old-time custom, particularly in the south, of providing the luscious pancake as an indispensable dessert, to a good dinner. Tomorrow will be Ash Wednesday, the beginning of the season of Lent.

The team of bays driven by Capt. Ewers of Fort Keogh, became unmanageable in the city, yesterday, and took a lively spurt up Main street, around Eighth and in the direction of the railroad grade. Capt. Ewers was alone in the sleigh at the time and in a little while succeeded in reducing the refractory steeds to the ranks and brought them back from their little jaunt decidedly winded, but otherwise in good condition.

The spirit of celebration in the Chinese quarters was infectious Sunday, and their American contemporaries ably abetted the riot and riotous with an whollish and general exhilaration, moved thereto from the remembrance of the days "when you and I were young." A number of acrobatic young men scrambled to the heights of the bank block and delivered a snowball, accurately thrown, in rotation with each bunch of Celestial firecrackers. The Chinamen got tired out long before the Americans, however, and had nothing in common with the after-celebration.

A Smith & Wesson revolver, 28 cal., with name of an English maker on stock. Finder will receive reward by leaving same at the Maqueen house.

To Carpenters and Builders. On or about the 15th of March bids will be called for, on the construction of a post bath house at Fort Keogh, the structure to be of frame, 16x15 on the ground and 10 feet high. This will be a nice little job for some of our mechanics who have been resting all winter.

Sudden Death. Private James Dunn, of G Co., 5th Inf'y, expired quite unexpectedly on Sunday morning at Fort Keogh. He had but recently re-enlisted for his fourth term, a condition of such re-enlistment having been exacted by Capt. Romeyn that he should sign the pledge. This Dunn did, and last week while on a visit to Miles City with a party of comrades in arms, he in observance of his pledge abstained from liquor, but to be sociable, supplied himself with a bottle of Jamaica ginger from which he drank freely. On his return to the post he was prostrated with a nervous attack, and although showing some signs of rallying, died as above stated on Sunday morning. Deceased was about 42 years old and a good soldier when not influenced by liquor.

In Brief, and to the Point. Dyspepsia is terrible. Disordered liver is misery. Indigestion is a foe to good nature. The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food,

bad cookers, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a race of dyspeptics.

But Green's August Flower has done a wonderful work in reforming his sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

The Cheyenne & Northern. In reply to a letter of enquiry, addressed to the construction department of the Union Pacific railway relative to the extension of the Cheyenne & Northern branch to Buffalo, Wyo., the editor of the JOURNAL is in receipt of a reply from V. G. Bruze, chief engineer, stating that "while we have such an extension in view, we are not prepared to commit ourselves with you just yet on the subject." It is therefore evident that the report that the C. & N. was to be extended to Buffalo may be regarded as official.

Pure Kentucky apple brandy at Ben Smith's 75c a p. n.

Mendacious Misrepresentation. Charlie Gould sends us a copy of the Lincoln (Neb.) Journal, containing a notice of an orange of extraordinary size that is on exhibition in that city, grown—so says the venacious reporter—by Hon. C. H. Gould on his Florida property.

This is a clear case of back-sliding, as we are in condition to prove. The facts are that the orange was grown on Charley Gould's tree claim on the north side of the Yellowstone in Custer county, Montana, from which his orange and banana crop was harvested and shipped early in November last. The orange grove in Florida won't work.

Two Ways. Choose which! There are two usual ways of doing what Nature sometimes does ineffectually, namely to relieve the bowels. One is to swallow a drastic purgative which evacuates stools, but only with pain, the other is to take Hostetter's stomach Bitters, the effect of which is not violent, but is client thorough, and which does not gripe the intestines. If the first is selected, the person employing it need not expect permanent benefit and he cannot hope to escape the debilitating reaction which leaves the organs as bad or worse of than before. If, on the other hand, he resorts to the Bitters, he can rely upon the restoration of a regular habit of body, consequent upon a renewal of a healthful tone in the intestinal canal. Bitters arouses a dormant liver, imparts a beneficial impetus to the action of the kidneys, and counteracts the early twinges of rheumatism, a tendency to gout, and malaria in all its forms.

PROPOSALS FOR WAGON TRANSPORTATION.—Office of Quartermaster, Department of Dakota, Saint Paul, Minn., February 10, 1888.—SEALD PROPOSALS for Wagon Transportation required in this department during the fiscal year ending June 30th 1889, will be received at this office until 12 M., on MONDAY, the 12th day of March, 1888, in open envelopes addressed to the Quartermaster's Department at Chicago, Ill., and sealed with the name of the bidder, Major and Quartermaster U. S. Army.

Scrofula. Probably no form of disease is so generally distributed among our whole population as scrofula. Almost every individual has this latent poison coursing his veins. The terrible sufferings endured by those afflicted with scrofulous sores cannot be understood by others, and their gratitude on finding a remedy that cures them, astonishes a well person. The wonderful power of

Hood's Sarsaparilla. In eradicating every form of Scrofula has been so clearly and fully demonstrated that it leaves no doubt that it is the greatest medical discovery of this generation. It is made by C. I. HOOD & CO., Lowell, Mass., and is sold by all druggists.

OFFICE OF BOARD OF HEALTH, MILES CITY, M. T., Feb. 10, 1888. To the public: The board of health wishes once more to remind the public that small-pox seems to be spreading throughout the northwest. It is reported from Dakota on the line of the Northern Pacific railroad, at Glendive, only 70 miles east of us, and at various places in the territory on our west. The board of health wishes to urge the public to use every precaution to ward off the disease. Remove all decomposed vegetable and animal matter from your cellars and back yards, enforce absolute cleanliness about your residences and get vaccinated without delay. Do not await the appearance of the disease in our midst.

SCRIBNER'S MAGAZINE.

Prospectus for 1888. -- Beautiful Christmas Number.

The holiday issue, now ready, is complete in itself, containing no serial matter. The cover is enriched by an ornamental border printed in gold. The price is as usual, 25 cents. It contains the most delightful stories, poems, and essays by distinguished writers, and superb illustrations.

Among the important articles to appear during the year 1888 are the following—Send for prospectus:

ROBERT LOUIS STEVENSON will contribute regularly to each number during the year. He will write on many topics, old and new, and in a familiar and personal way, which will form new bonds of friendship between the author and his thousands of readers. In the first paper, entitled "A Chapter on Dreams," appearing in the January number, he relates incidentally, in connection with the general subject, some interesting facts concerning the origin of the now famous story "Strange Case of Dr. Jekyll and Mr. Hyde."

RAILWAY ACCIDENTS, by W. S. CHAPLAIN, will be the first of an especially important and interesting series of papers on railways, their administrations and construction, including great engineering feats, famous tunnels and passes, and, indeed, those branches of the subject which in this day engage the attention of the whole country. The illustrations which will accompany this series will be very elaborate, original and beautiful. The authors and the titles of the future articles will be announced later.

DR. D. A. SARGENT'S papers on Physical Proportions and Physical Training will be continued by several of our increasing interest, with as rich and unique illustrations as those which have already appeared.

ILLUSTRATED ARTICLES of special interest will be those on the Campaign of Waterloo, by JOHN C. ROPE; on "The Man at Arms," by E. B. BLASHFIELD; two papers by EDWARD L. WILSON, illustrating results of recent Egyptian research; a further article by WILLIAM F. APTHORP on a subject connected with his recent contribution on Wagner, and many others of equal interest.

PROFESSOR SHALER'S articles on the Surface of the Earth will be continued; and articles on two of the most interesting groups of contemporary European writers will be accompanied by rich and novel portrait illustrations. ELECTRICITY in its various applications as a motive power, explosives, etc., will be the subject of another group of illustrated articles of equal practical interest, by leading authorities upon these topics.

MENDELSSOHN'S LETTERS written to his friend, Moschles, at a peculiarly interesting time of his career, will furnish the substance of several articles of great interest to musical readers, which will be illustrated with portraits and drawings from Mendelssohn's own hand.

THE FICTION will be strong, not only in the work of well known writers but in that of new authors, in securing whose cooperation the Magazine has been so fortunate during its first year of publication. A serial novel, entitled "First Harvest," by FREDERIC J. STIMSON, will be begun in the January number, and early in the year novelettes will be published by HENRY JAMES and H. C. BUNNER. The short stories are of noticeable strength and freshness.

ILLUSTRATIONS. The Magazine will show increased excellence in its illustrations. They will be more abundant and elaborate than ever. It is the intention of the publishers to represent the best work of the leading artists, and to promote and foster the most skillful methods of wood engraving.

SPECIAL NOTICE.—To enable readers to possess the Magazine from the first number (January, 1887) the following inducements are offered. A year's subscription and the numbers for 1887, bound in two volumes—cloth, gilt top. \$4.00
