A SOUDANESE THREAT.

The African Power to Turn the Nile

The warlike Soudanese, who have so stoutly resisted the introduction of civilization into their land, are now found, according to Sir Samuel Baker, to be masters of the situation to a degree for which even the fall of Khartoum has not prepared the outside world.

If the work is done a fertile land nearly equal in extent to the states of Illinois, Indiana, Ohio and Michigan will be changed into a desert and a population of millions will be blotted out of a country that is the oldest in history.

It is a figure of speech when we map of Europe; the wild spearman of the Soudan have it in the hollow of their hands to alter in fact and deed the map of Africa.

The annual meeting of the stockholders of the First National Bank of Miles City will be held at the banking office on Tuesday, January 25, 1889, for the election of directors.

Consumptive patients and persons suffering from lingering disease are not, as a rule, bald, and more frequently than otherwise seem to put a great deal of strength into their hair.

The Origin of Names.

Many explanations have been given of the origin of the present ugly name of "Rotten Row," the fashionable drive in Hyde park, but this is the most likely one: it was once the Route de Roi.

A Rope Walker's Coolness.

If I myself do not feel nervous, I am afraid the many persons I have carried on my back across the rope have felt a trifle perturbed, save when they have been professional assistants.

Writing with a Quill.

Nearly everybody in England writes with a quill. You find them put for public use in courts, in banks, in telegraph offices and postoffices—in fact, everywhere where people must write.

JAMES MEANS' \$3 SHOE UNEXCELLED IN STYLE UNEQUALLED IN DURABILITY AND PERFECTION OF FIT. JAMES MEANS' \$4 SHOE CANNOT FAIL TO SATISFY THE MOST FASTIDIOUS.

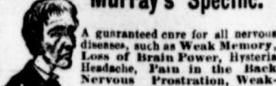

Such has been the recent progress in our branch of industry that we are now able to affirm that the James Means' \$3 shoe is in every respect equal to the shoes which only a few years ago were retained at eight or ten dollars.

Now, kind reader, just stop and consider what the above signifies so far as you are concerned. It signifies you that if you keep on buying shoes bearing no manufacturer's name or local retail price stamped on the sole, you cannot tell what you are getting and your retailer is probably making you pay double what your shoes have cost him.
