## TOO MUCH WATER.

## Rockford, Ill., Flooded and an

## Immense Amount of Dam-

## age Done by Water.

## It was a Miniature Johnstown

## Flood and Similar to it in

## Many Respects.

## Rockford, Ill., Flooded.

ROCKFORD, Ill., June 14.—At least \$500,000 worth of property was destroyed in this city and vicinity last night. Never since 1857, when the waters rose and overwhelmed nearly all Rockford, has such a disastrous flood visited this section. For three hours the rain fell in torrents, vivid lightning played and following each flash came terrific peals of thunder. In a surprising space of time every street was a turbulent river. The creeks swelled and in a moment devastating floods were sweeping through the Kent and Keith creek valleys. Each creek drained an immense area of country and from every side came contributions to the waters until the creeks had become destructive torrents. Down the Keith creek district came a flood sweeping everything before it. The mad waters spread over the lowlands, filling cellars and creeping up to the first stories of residences, driving occupants of houses from their beds. The lumber piles in the rear of factories were picked up by the water and borne along, the planks and railroad ties proving battering rams which took down the bridge spanning the creek at Railroad avenue. While the fire department and police were working in Woodruff's addition word was received that persons living around Kent creek were in distress and asking for the patrol and assistance immediately. On Cedar street the scene was awful. Men, women and children were out in the rain, many weeping and ringing their hands and all excited. It was a miniature Johnstown flood and similar in many respects. Before the people were hardly aware of it the water was rushing down the creek and came into their houses, driving families out into the darkness and rain. Parts of the city was flooded, and hundreds of people rendered homeless. The spectacle this morning presented a scene of desolation and ruin. The wreck of the Milwaukee road presented the worst appearance. The rails under the cars were twisted and bent into a circle. All the railroad companies suffer heavily, and every bridge over Kent and Keith creeks was swept away.

## DEVASTATED BY HAIL.

SIBLEY, Iowa, June 14.—An electric storm, accompanied by hail, struck here Thursday night, carrying with it buildings, windmills, etc., and filling the streets with debris. Five thousand window lights were knocked out and everything green was pouched into the ground by the hail. The crops are a total wreck. A waterspout broke north of here, and only for the presence of mind of the engineer, the St. Paul train going north would have been deluged with water. He reversed his engine and backed down here. The water was but four feet in front of his engine. The canal lock is almost a wreck. The damage in town will exceed \$10,000. Otto creek is a mile wide.

## DAMAGED BY LIGHTNING.

JACKSON, June 14.—A heavy storm of wind and rain passed over this vicinity yesterday and to-day. No injury has been done to crops. The residence of Rev. Speers and the Lutheran church were both struck by lightning to-day within the space of an hour. Loss on church, \$200; fully insured. On Speers' residence slight insurance.

## SEVERELY SHOCKED.

ST. CLOUD, June 14.—A rain of ten hours' duration fell here to-day, completely deluging the streets and causing several minor wash-outs. The rain was accompanied by vivid lightning and terrific thunder. During the storm a Mrs. Whitlock, living in the western limits of the city, was severely shocked by the lightning striking an adjoining unoccupied house.

## TRACK WASHED OUT.

MADISON, Wis., June 14.—A terrific storm raged throughout the southwestern part of Wisconsin and the northern portion of Illinois last night, and a perfect deluge of water fell. Washouts occurred on the Illinois railroad near Dodgeville, Wis., several miles of track being washed away.

## Large washouts are also reported on

## the St. Paul road near Mineral Point,

## Wis.

## VISITED BY A TWISTER.

ROCK ISLAND, Ill., June 14.—A cyclone visited this community last night, damaging houses and outbuildings to the extent of \$3,000 within three blocks in the city and in South Rock Island township, unroofing four houses, demolishing barns, uprooting trees, leveling fences, crops, fruit trees and berry bushes. A great amount of damage was done, but no lives lost.

## Killed by a Bolt of Lightning.

PARIS, Ky., June 14.—A terrific lightning and thunder storm passed over the northern part of this county yesterday. Two of a fishing party were killed and two others badly injured. They were fishing at the pond of Berry Bedford, five miles from the city when the storm came up, and took shelter under a couple of cattle troughs. After remaining there a while they agreed to start for home, and as they came from under the shelter lightning struck it and Joseph Sheeks, aged 18, and Lish Wilson, colored, aged 15, were killed. Blanton Sheeks was badly burned about the face and one of his eyes forced from its socket and hanged down his cheek. Edward Kennedy was also stunned and dazed and knew nothing for several hours, although able to walk home, a distance of two miles. When he arrived home he was asked about the other boys, but was unable to tell or give any account of them. After a while Blanton Sheeks was seen coming and he was so disfigured that his family supposed that he had been in a fight. All he could say was: "The trough," meaning that the other boys could be found in the trough, and he has since been unconscious and will probably die. A searching party was sent out and the two dead boys found where he indicated. This morning Kennedy is able to talk and says he remembers putting the three boys in the trough, believing they were all dead.

## The Commissioner's Idea.

WASHINGTON, June 14.—The commissioner of Indian affairs has an idea that the best way to settle the Cheyenne Indian trouble is to transfer and consolidate the Cheyennes and Crows and put them on a reservation by themselves; but this proposition does not meet the approval of Chairman Dawes, of the senate committee on Indian affairs, and the reason is plain, because the Cheyennes and Crows are never friendly and are liable to make a great deal of trouble among themselves, and this trouble would be sure to extend to outsiders. It is quite possible, however, that some arrangement may be made whereby the Northern Cheyennes may be transferred to Pine Ridge agency and consolidated with the Sioux at that point. The Cheyennes and Pine Ridge Sioux are understood to be on friendly terms and it is believed that they would come in and inter-marry and become fairly good Indians before reaching the happy hunting grounds if some such plan as this should be carried out.

## Running a Line Toward Castle.

LIVINGSTON, June 14.—D. Robertson, in charge of a survey party consisting of nine men besides teamsters, left here late this afternoon for Castle. He is acting under instructions from J. McHenry, Northern Pacific engineer, and is instructed to report to Geo. O. Foss, at or in the vicinity of Castle, who will give him instructions what to do. Mr. Foss left here some time ago in charge of a party of surveyors and worked up the Shields River valley, locating the proposed route for the railroad. With two crews in the field, both working on the Shields River route, it looks as if Livingston would have a railroad soon to the Castle mines. The two parties will probably combine and cross-section the location survey back to Livingston.

## In Regard to Poor Tax.

A good many people, says the Independent, appear to labor under a misapprehension in regard to the collection of poor tax. Several suits have been brought to test the law which holds employers responsible for all employees. Section 906 fifth division general laws, reads as follows: "It shall be the duty of the respective assessors of the several counties of the territory (state) to collect the special poor tax now required by law of each person as pay no property tax at the time the same is levied, and for the purpose of enforcing collections the said assessor shall have the power and authority to use therefor in the name of the territory of Montana by attachment or otherwise, and may serve all papers and process necessary to be served

## In such proceedings, and be entitled

## to the same fees as are allowed sheriffs

## for like services; provided, that such

## fees shall in all cases be paid by the

## parties owing such tax. Said individ-

## ual, company, corporation or associa-

## tion shall be liable for such tax to the

## amount of any sum owing to such em-

## ployee and may pay the same to such

## assessment upon receiving a receipt

## therefor, the sum so paid to be deduct-

## ed from the wages or salary of such

## employee or employees by the said indi-

## vidual, company, corporation or associa-

## tion who are required to furnish a

## true and correct list of the names of

## such employees."

## The law is quite plain, and any at-

## tempt to evade its provisions only en-

## tails extra expense.

## Substantial Dist.

The lead melting outfit that accompanies the work of pile laying in the streets has probably suggested the following bill of fare which was found in the street yesterday:

## HOTEL DE BUCKNER.

## BREAKFAST.

Mud roll . . . . . 10c

Lead on toast . . . . . 15c

Mud Bologna . . . . . 10c

## DINNER.

Lead soup with hemp . . . . . 75c

Gov't slugs on j-shell . . . . . 25c

Bar lead with gravy . . . . . 50c

Joint of 8-inch pipe with must-

rooms . . . . . \$1.00

Ribs of pig lead, broiled . . . . . 50c

## SUPPER.

Cold lead . . . . . 10c

Water from 2nd strata . . . . . 50c

## A Big Show.

With the John Robinson show, which exhibit at Miles City Thursday, June 26th, are the largest number of artists to be found with any show in America. There are ten lady horse-

back equestriennes, among whom will be found Miss Josie Demott, the acknowledged heroine horsewoman of the world. There are 21 male and female acrobats and gymnasts, there are seven male, two, four and six horse riders, one boy rider who rides and drives 30 ponies, fifteen aerial and bicycle artists, twenty gymnasts, and specialists and ten comic clowns. Truly a big show and surely a good one. Don't forget the date, June 26th, at Miles City.

## Races on the Fourth.

At a meeting of the Fourth of July committee held yesterday it was decided to drop one of the trotting races, and by combining the purses have one trotting race that would induce horses from the outside to enter. There will now be one trotting race only with a purse of \$150, divided \$100 to first horse, \$30 to second and \$20 to third. Mr. Allerton feels confident that under this arrangement a noise will be entered from Bismarck and two from Glendive. The race will be free for all, mile heat, best two in three. No other change in the program was made, but it is probable that the purse for the military race will be slightly increased.

## The World Enriched.
