

THE DAILY JOURNAL ESTABLISHED 1881. MILES CITY, MONTANA.

Friday, November 21, 1890.

GOV. FRANCIS E. WARREN, of Wyoming, has been elected to represent that state in the United States senate in conjunction with Hon. J. M. Carey, who addressed the people of Miles City during the late campaign.

THE River Press in advocating the cause of Fort Benton as the site for permanent capital, urges that it is "a city with abundant room for 500,000 souls." Why not make it a million or even two? We know of no boundary to its growth but the international boundary, but what the people of Montana want is a site for a capital that will be available in this generation. That's what we are looking for, Daniel.

HELENA's mayor finds his municipal crown plentifully interwoven with thorns, while his seat of honor has got more bent pins in it than was ever accumulated by an unlucky school boy. In a recent effort to depose the city marshal he was set down on by an almost unanimous vote, and immediately thereafter an ordinance was introduced, shearing him of all powers and privileges except that of writing the word "mayor" after his name, and even that is to lapse in May next. "Donald Bradford, mayor," seems to have committed the unpardonable offense of opening a jack pot with a pair of deuces.

It is stated tonight that the trouble in the Knights of Labor assembly which existed since Saturday morning, was caused by the discovery of an attempt to use the order for political purposes.

The above is an extract from an Associated press telegram from Denver, where the K. of L. magnates have recently been in session. We have no knowledge of the aims of the order elsewhere, but if it has any other reason for existence in Miles City save for political purposes, we have failed to discern it. If Mr. Powderly and his associates are at all in the dark on this point, they should send a walking delegate out this way and become enlightened.

SPECIAL INDIAN AGENT COOPER, who was in charge of the Northern Cheyennes during the exciting days succeeding the murder of Hugh Boyle, has been sent to Pine Ridge agency to investigate the situation and lend what assistance may be necessary in controlling the unruly Indians. A Washington correspondent noting this action of the department, refers to Agent Cooper's regime with the Cheyenne Indians and incidentally credits him with the killing of Head Chief and Slow Mule, the two boys who declared war against the agency and were killed. While Agent Cooper was on deck with a rifle during that exciting episode, we do not believe that he claims the credit of killing the boys, who it will be remembered were subjected to the fire of some fifty soldiers and civilians. The average Washington correspondent generally gets off his base when he attempts a western anecdote.

A Knowing Dog. A gentleman living in this city tells this for a true story: I have a little dog that stays in the house at night. This morning he came to my room about the time I usually get up, but although wide awake I did not stir. The little fellow tried to attract attention by rolling on the floor in front of the bed, and by so doing spread wide apart the folds of the mosquito net, whether purposefully or accidentally I do not know, but this is what followed: He got up and faced me for a moment, but as I did not seem to be awake he quietly took up one fold of the net with his teeth, and carrying it past the other as far as it would go let it fall to its place, and then softly went down stairs. The dog had never been taught anything of the kind, and if he did not reason what shall we call it?—St. Augustine (Fla.) News.

Getting Sea Temperatures. Herr Luders, of Gorlitz, has recently invented a thermometer for ascertaining the temperature of the depths of the sea. Its action depends on the different electric conductivities of substances at different temperatures. Inside a glass tube are fixed a spiral iron wire and a bar of carbon, which only touch at their lower ends. Their other ends are connected to copper wires, which constitute an electric circuit, and in this circuit there is a galvanometer which indicates the differences in the current due to the variations in the temperature of the contents of the glass tube.—New York Journal.

A Coincidence. Those who are interested in coincidences will find this quite remarkable. Our beloved friend, the Rev. Gideon N. Draper, died on the 8th day of December, 1889, when on a visit to his son in Yokohama, Japan. The day was Sunday. His father, Gideon Draper, Sr., died on the same day of the same month and the same day of the week in 1851. The grandson of the last named, who writes us the facts from Japan, tells us that this coincidence of the days of the week and the days of the month, he believes, occurs only once in twenty-eight years.—Christian Advocate.

The story is told of a German, who took the hands of his clock to the maker to have them fixed, because they did not keep proper time. Of course, the clock-maker demanded the usual fee, as in them lay the trouble. Bolls and the clock-maker, puzzled at the trouble on the exterior of a disordered condition of the blood within. If you have these indications, be wise in time, and take Dr. Fayer's Golden Medical Discovery. It puts the liver and kidneys in good working order, purifies the blood, cleanses the system from all impurities, from whatever cause arising, and forces up the functions generally.

"Golden Medical Discovery" checks the frightful invasions of Scrofula, and if taken in time, arrests the march of Consumption of the Lungs (which is Lung-scrofula), purifies and enriches the blood, liberates curing all Skin and Scalp Diseases, Ulcers, Sores, Swellings, and kindred ailments. It is powerfully tonic as well as alterative, or blood-cleansing in its effects, hence it strengthens the system and restores vitality, thereby dispelling all those languid, "tired feelings" experienced by the debilitated. Especially has it manifested its potency in curing Tetter, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Goitre, or Thick Neck, and Enlarged Glands.

"Golden Medical Discovery" is the only blood and lung remedy, sold by druggists, and guaranteed by its manufacturer, to do all that it is claimed to accomplish, or money paid for it will be promptly refunded.

World's Dispensary Medical Association, Manufacturers, No. 43 Main Street, Buffalo, N. Y.

\$500 OFFERED by the manufacturer of Dr. Sage's Catarrh Remedy, for an incurable case of Catarrh in the Head.

TARIFF LITERATURE FOR ALL.

The AMERICAN PROTECTIVE TARIFF LEAGUE is publishing a most valuable series of Tariff documents. These are prepared with a view to state the facts and arguments for Protection, whether in the interest of farmers, laborers, merchants or professional men. Each issue of the series appeals to those engaged in separate industries, and presents indisputable facts—comparisons of wages, cost of living, and other arguments showing the benefits of Protection.

Any single one will be sent on receipt of 2 cents in stamps except "Wages, Living and Tariff," which will be sent for 4 cents.

The whole list will be sent for 20 cents or any twelve for 20 cents, or any five for 10 cents, postage paid. Order by number.

No. 1—Wages, Living and Tariff. E. A. HARRIS. 10c

2—The Advantages of a Protective Tariff to the Labor and Industries of the United States. First Prize Essay, 1887. CRAWFORD D. HARRISON. 10c

3—Home Production Indispensable to a Supply, at Low Prices, of the Manufactured Commodities required for the People of the United States, and Adequate Home Production of these Commodities Impossible without a Protective Tariff. First Prize Essay, 1888. C. D. TODD. 10c

4—What are Raw Materials? Would Free Raw Materials be Advantageous to the Labor and Industries of the United States. First Prize Essay, 1888. HOMER B. DINGLE. 10c

5—Fallacies of Free-Trade. E. F. MILLER. 10c

6—Some Views on the Tariff by an Old Business Man. GEO. DRAPER. 10c

7—The Protective Tariff: Its Advantages for the South. C. F. EDWARDS. 10c

8—The Wool Interest. Judge Wm. Lawrence. 10c

9—Protection vs. Free-Trade.—A Historical Review. D. G. HARRIS. 10c

10—The Farmer and the Tariff. Col. THOMAS B. BOWLETT. 10c

11—Protection as a Public Policy. GEORGE S. BOWLETT. 10c

12—Reply to the President's Free-Trade Message. B. F. POSTER. 10c

13—The Progress of One Hundred Years. 10c

14—The Vital Question: Shall American Industries be Abandoned and American Markets Surrendered? 10c

15—Some in German, with Addition. 10c

16—The Progress of American Shipbuilding. 10c

17—The Tariff Not a Tax. HOMER B. DINGLE. 10c

18—Why Irishmen Should be Protectionists. 10c

19—What is a Tariff? Answers to a Workingman's Questions. 10c

20—The American Wool Industry. 10c

21—The American Wool Industry. 10c

22—The American Wool Industry. 10c

23—The American Wool Industry. 10c

24—The American Wool Industry. 10c
