THE LEGISLATURE.

The House Kills the Bill to Increase the Number of Supreme Judges.

The New Apportionment Bill Passed.
 Richards Vetoes the Proposed Increase of Bounties.

HELENA, March 2. The senate was in session nearly all day yesterday, but did not transact much business, beyond killing the bill to create a railroad commission and one regulating freight traffic.

The gentlemen who are looking for appointment on the supreme bench had better give it up and devote themselves to the practice of law. The bill increasing the number of justices from three to five had several severe struggles in the house during the various sessions of yesterday, but could not get through. The committee of the whole in the afternoon voted to non-concur in the bill, and immediately after voted directly the contrary, and then rose and reported progress. At night another effort was made to get back into committee of the whole, and the fight against it was so strong that it adjourned the house about nine o'clock, when there were two or three good working hours left. It requires a two-thirds vote to suspend the rules, and that is the only way the bill can be gotten up today, the last of the session. The chances of mustering sufficient force to get it through under these adverse circumstances is very doubtful. The house passed all the bills that were engrossed and ready up to the time of adjournment. One of the bills was that making a new apportionment of membership in the house. Representative Carpenter, of Lewis and Clark, is a member of the committee which considered it. He was not informed of any meeting of the committee, so that when the bill was reported to the house it was just about as the author drew it, and cut down the representation of this county from eight to seven. Then all efforts to amend the bill failed and the bill was put through with the state apportioned on a basis of the vote at the last election, instead of according to population of counties, as the constitution requires. As Judge Bach said, the apportionment might just as well have been made on the basis of church or Sunday school attendance.

Gov. Richards has vetoed the bill increasing the bounties on stock destroying animals, he says: "Experience has shown that too much care cannot be exercised in the enactment of bounty laws. When great care is not taken they may inflict a heavy tax upon the financial resources of the state without a corresponding benefit. It is still fresh in the memory of us all that only a few years ago it was necessary to reconvene the legislature to repeal the bounty on prairie dog, under the operation of which the treasury was rapidly being depleted. I regret exceedingly that I cannot see my way clear to approve the bill, as it is in many respects an improvement over the old law. My objection lies against the proposition to increase the bounty on wolves and coyotes from \$2 to \$5. In support of this objection I would respectfully call your attention to the fact that two years ago the legislature appropriated \$12,000 per annum to the payment of bounties. Not only was this appropriation of \$24,000 entirely exhausted, but the deficiency bill shows valid claims against the state for bounties in excess of the appropriation, of \$25,000. This expenditure by the state of nearly \$50,000 in two years for bounties was under the law providing for the payment of \$2 each for wolves and coyotes. This bill increases the bounty on these animals to \$5, and were it to become a law, it would, in my judgment, offer a premium for dishonesty, encourage fraud and necessitate an early session of the legislature to protect the treasury of the state from the demands made upon it."

Had a Walkway.
 CHICAGO, Feb. 28. Carter H. Harrison was today nominated by the democrats for mayor of Chicago, scoring an easy victory over his principal opponent, Washington Hising. The convention was called to order at Central Music hall. Several hours were consumed in listening to the claims of contesting delegations, and during the delay a delegation from the Fifth ward grew impatient at the delay and kicked in the door. It was pacified, however, and went outside again.

Capriv' Excited.
 BERLIN, March 1.—The question of international arbitration came up in the reichstag today through a question

asked by Dr. Barth, a leader of the free-trade party, who desired to know if the government would join the governments of Great Britain and the United States in an effort to establish arbitration as the method of settling international disputes. Herr Bebel, the socialist democrat, suggested that the future nationality of Alsace-Lorraine should be submitted to arbitration. This suggestion brought Chancellor von Caprel to his feet. The chancellor declared that if the question was submitted to arbitration and the arbitrators decided that Germany should surrender Alsace-Lorraine, the nation would refuse to acquiesce in the decision. Rather than give up that country Germans would prefer to shed the last drop of their blood. The chancellor's statement was greeted with cheers.

Will Receive Subscriptions.
 CHICAGO, March 1. In view of the fact that H. H. Kobsant, one of the proprietors of the Inter-Ocean, is one of the trustees to whom Gov. McKinley turned over his property, the editorial in that paper is significant. It says that the movement to raise a fund to pay McKinley's debts seems to be impossible, and that the trustees cannot, as is requested by many, open a subscription for that purpose, because the governor refuses to allow it, but it will be perfectly right for his friends to go ahead and send subscriptions to the trustees, with the assurance that they will be faithfully applied to the object intended.

Millions for the Red Men.
 WASHINGTON, March 1. The Indian appropriation bill was reported to the senate today. It includes \$8,786,376 for the purchase of the Cherokee outlet, making the grand total of the bill \$16,431,350. Among the items added to the bill were \$16,000 for the irrigation of the Navajo reservation, \$15,000 for negotiations by the Cherokee commission for the further purchases of Indian lands, \$100,000 for the payment of damages to settlers in the Crow, Creek and Winnebago reservations, South Dakota; \$210,000 for Indian industrial schools.

Developed Good Speed.
 BALTIMORE, March 1. The new cruiser Detroit left the Columbia iron works today to make a trial of her engines. When deep water, in which it was intended to speed her, was reached, thick weather came on and it was decided to return to the city. Splendid speed was developed in the channels according to the rotations made.

Very Good Performance.
 Several years ago a Hampshire baronet went to bed dressed as is customary, yet he invariably awoke naked in the morning and could not find any trace of his missing garment. A great number of shirts disappeared in this inexplicable manner, and as every nook and corner in the room was searched without result the baronet at last told one of his intimate friends, and requested him to sit in the room all night and watch developments. This the friend did, and after the baronet had for some time given audible evidence that he was asleep the watcher was surprised to observe him get out of bed, open the door and proceed with a quick pace along a corridor, descend the stairs and emerge into an open yard.

Suddenly the baronet, divesting himself of his only garment, seized a pitchfork and buried the linen in a dunghill. Afterward he proceeded leisurely back to his bed. In the morning the baronet, incredulous at what his friend related, repaired to the dunghill, and after digging for some time found several shirts stowed away in this anything but pleasant receptacle.—Boston Globe

When Traveling Was Dangerous.
 Houslow heath, Finchley common and Gadshill, in the neighborhood of London, were celebrated haunts of the highwayman, and the secluded roads of the highwayman, and the secluded roads of Epping forest, on the route to Cambridge, were often the scenes of plunder in broad daylight. These desperate robbers at last became so dangerous, and the peril of their attacks so serious to travelers of all kinds, as well as to the postmen, that the government passed a law making highway robbery an offense punishable by the death of the criminal and the confiscation of all his property. But robberies still occurred.

In 1783 mail coaches, protected by armed guards, took the place of post-boys. The coaches carried passengers, also, and as these generally carried arms the mails were better protected, but still daring and oftentimes successful attacks were made upon them.—St. Nicholas

About Ignorance.
 One speaker, referring to the prevalent ignorance about common things, said that he once saw a laborer digging flints in the chalk and asked him if he thought they grew.
 "No," was the reply. "I don't think about it; I know they do."
 "Then place a flint on your chimney piece and see how much it grows in a twelvemonth."
 "All right, sir, and do you do the same with a tater and see how much that grows."—Youth's Companion.

"SHE SECURED A BARGAIN."

A Woman's Familiar Remark
 OVERHEARD AT THE DRY GOODS STORE.

An Interesting Incident. A Chat Full of Interest to Women. Some Things are Told That are Not Generally Known. Why so Many Ladies Feel Tired and Worn Out After Visiting the Stores.
 "I secured a splendid bargain."
 I overheard a lady make this remark to a companion just after coming out of one of those extensive houses that conduct bargain counters. Her face was very earnest and her eyes sparkled, but I could see in the paleness, in the lines upon her face, that she had been suffering, and was even then suffering. I understood that she had saved money in the purchase she had made, but I could see that she had lost the greatest of all human bargains—good health.
 How many women there are today who are unhappy and suffering, and yet who do not fully realize why it is so. They feel weak, weary and often discouraged. They care little for food and less for exercise. Their sleep is disturbed, their minds are not at rest. They are unhappy. To all such the following experience will be interesting and valuable.

Mrs. M. A. Densing, who resides at No. 137 W. 127th street, New York, has passed through a most wonderful experience, which should be of interest and value to all ladies. She said: "A few years ago I was suddenly seized with an illness which I could not account for. My body was in constant pain and very sensitive, so that I could not bear the contact of any but the lightest garments. I can scarcely tell of the agony that I suffered during that time. The physicians informed me that I could not possibly live, and my friends were called in to bid me farewell. I was almost in the embrace of death when my husband sent for a remedy of which he had heard and gave me a small quantity. After talking a second dose, a peaceful and restful feeling seemed to steal over me, and for the first time in several nights I slept. From that time my recovery was assured. I grew gradually better until my health was fully restored, and I thank God that my life was spared through the agency of Warner's Safe Cure. It cured me, and I know that it will cure others."

Testimony that is beyond question is given by Mrs. R. F. McMurray, of St. Paul's avenue, Staten Island, who says: "My mother, Mrs. S. A. Vanderbilt and myself owe our health, and I almost feel our lives, to Warner's Safe Cure. I speak from a long experience. Recently I had a severe attack of influenza, arising from a cold, and the Safe Cure made me feel like a new person. Other members of our family and also many friends and acquaintances have received equal benefit, and all highly recommend it."

Mrs. J. F. Beale, residing at No. 363 Lexington avenue, New York, said: "About eight years ago I suffered from peritonitis and general kidney trouble, and in spite of the attendance of skilled physicians my ailments increased. Upon advice of some friends I began the use of Warner's Safe Cure, and was entirely cured. I feel as well today as in my early girlhood, and it is entirely due to this great remedy. Many of my friends to whom I have recommended the Safe Cure have been cured by its use, and their lives prolonged and their happiness assured."

Mrs. M. M. Simonon, of Buck-y, Mo., says: "My daughter, who was once the perfection of happiness and health, was for years afflicted with kidney and liver disease, complicated with scrofula, the hip joint being affected. She became so bad that the doctors wanted to unjoint the hip. I would not consent to it, and began administering a remedy I had heard much about, and am happy to say she is now cured, well and healthy by the use of Warner's Safe Cure."

Reader, the greatest bargain known to the world is good health. Do you not wish to secure and retain it?
