CONGRESS FOLLED.

The New York Times Gets Interviews with 122 Members on the Silver Question.

A Large Majority of These Favor the Repeal of the Bullion Purchase Law.

NEW YORK, June 12.—The Times, with the object of obtaining the opinion of individual members of both houses of Congress, telegraphed each the following message: "On equally good security money now loans in England at one-quarter the rate in the United States. In the opinion of prominent financiers, if the Sherman law is to be repealed, immediate relief will result from prompt assurance thereon, resulting in a flow of cheap money from London to America. Will you oblige the Times by wiring briefly, at our expense, whether you favor the repeal of the Sherman law and what plan of issue you favor?"

One hundred and twenty-two have been heard from, eighteen Senators and 104 Representatives. Of this number eighty-eight favor the repeal, twenty-six are against it and eight undecided. Of this number fifty-three democrats and thirty-two republicans favor the repeal; eleven democrats and seven republicans are against it; five democrats and three republicans are undecided and four populists, three socialist labor and one independent are against it. The schemes outlined embrace the plan of the silver men for free coinage, the populists' demand for more money whether of silver or paper, and of the more conservative who believe in a national currency issue, the continuance or extension of the national banking system and the establishment of state banks of issue.

Cardinal Gibbons Favors Sunday Opening of the World's Fair.

NEW YORK, June 12.—The World today published an authorized interview with Cardinal Gibbons in regard to the proposed closing of the World's Fair on Sunday. Cardinal Gibbons is quoted as saying: "We believe the Lord's day to be not only a day of rest and religious observance, but a day on which innocent recreation is allowable. If a visit to the Fair comes within that limit, the opening of the Fair to provide innocent recreation on Sunday afternoons cannot be considered a desecration of the day. Having performed the religious duties required of them in the morning, our Catholic people are free then to spend the day in such recreation as becomes Sunday. These and other reasons lead me to believe that the Fair should be opened on Sunday afternoon, and that more evil will result from Sunday closing than from the opening."

After Ainsworth.

WASHINGTON, June 12. At the inquest this afternoon of the Ford theater accident there was an exciting scene. Charles Barnes, a brother of one of the men killed, walked forward and shook his fist in Col. Ainsworth's face, shouting: "You murdered my brother, and shan't sit here intimidating these witnesses." Col. Ainsworth started to speak, when the excited clerks began shouting for him to sit down, shut up, and the like, followed by cries of "Hang him! Hang him!" and men sprang forward as if to execute the mandate. They were finally quieted, however, and the inquest adjourned.

Died in the Chair.

SING SING, June 12.—John L. Osmond was electrocuted shortly before noon for the murder of his wife, Mary, and his cousin John C. Burchell, in New York City, in October, 1891. Osmond had the opportunity to escape on the night Pallister and Roehl got away, but refused to take advantage of it.

Montana Postmasters.

WASHINGTON, June 12.—The President to-day appointed Montana postmasters as follows: John N. Harder, Castle, Mont.; F. W. Bucksen, Kalispel, Mont.

Wool Shearing Record Broken.

The best known wool shearing record was broken May 28th, 1893, at Frank W. Smith's ranch on Beaver creek, Dawson county, Montana, by J. Marquis of Breckenridge, Mo., who is one of the crew of the Waddington O'Neal shearing outfit. Mr. Marquis sheared three hundred and two head of fully matured, thoroughly wooled sheep and tied his own fleeces, in one working day of the crew. The best known American record is two hundred and seventy-six head, made by a Californian. The best Australian record is less than three hundred

head. Mr. Marquis sheared one hundred and ninety head on May 27th, and two hundred on the 28th. He was convinced he could lower the American record and Mr. Smith gave him the right to lower the record if he could, and he succeeded beyond his own expectations. The crew consists of ten shearers and they average one hundred and fifty head per day per man, which is above the average of shearing crews. Mr. Marquis has an affidavit signed by fifteen witnesses that the record was made fairly and not by taking any undue advantage, which is usually the case in such contests.—Glendive Independent.

A Slim Benefit.

The entertainment given by Rube Allyn and Chas. Colini at the old post-office building last night, for the benefit of the Miles City band, was we regret to say, a matter of expense rather than of revenue to the band. This was no fault of the two performers who took upon themselves the big job of giving a two hour's entertainment in alternate acts, but somehow the public did not seem to take kindly to the enterprise and a slim attendance failed to give the local beneficiaries enough to cover the expenses. As has been intimated the entertainment was really good, both of the performers being clever in their lines. Mr. Allyn as a recitationist and Mr. Colini as a basso and guitar soloist, all of the latter's numbers having the stamp of artistic excellence. But in a two-hour's program where each succeeds the other in rapid succession, with little or no variation in the selections, a performance must of necessity become monotonous and tiresome. Had the entertainment been brought to a close at 10 o'clock, a highly pleased audience would have been dismissed, but its continuation until nearly eleven told on the capacity of people who know when they had had enough of even a good thing, though this rare perception was not, we regret to say shared by all. Some few who demanded double and triple encores to almost every number on the program betrayed the lack of appreciation of that fine point where praise becomes persecution to performer and audience alike; a failing which we have heretofore had occasion to refer to, in the days when shows were not a novelty to our people.

Mixed.

A little misunderstanding due to Town Clerk Charles N. Marsh's absorption in the dog taxing business happened in Hingham the other day. A young man walked bashfully into his office, and when his turn came he busily asked Hingham's veteran town clerk for a license.

"What name?" asked Mr. Marsh. The young man gave his name, and the clerk wrote it down on a dog license.

"What breed, age and color is it?" was the next question.

"I didn't know you had to tell that," said the young man.

"Have to do that in order to identify them," said Mr. Marsh.

"But Mrs. — knows her. She has worked there a long time."

"Eh, what's that?" said the clerk.

"Why, we think of getting married," whispered the young man.

Mr. Marsh's stanchouse friends think it was strange that he couldn't spot that sort of a customer at first glance.—Boston Globe.

The Grand Central

Railroad station, Chicago, is being fitted up for hotel purposes during the world's fair. This magnificent fire proof structure located at the corner of Harrison street and Fifth avenue in the very heart of the city, will devote the 3rd, 4th and 5th floors to this purpose. It will be run on European plan; each room will have hot and cold water, electric lights and be steam heated. The office and ladies' parlors, etc., will be located on the third floor and the building will be supplied with all modern conveniences. There will be from 100 to 200 rooms for guests.

This acquisition to the hotel facilities of Chicago will be appreciated by those who wish to be safely housed in a fire proof building, conveniently located itself. Those desiring accommodations can secure them by addressing Mr. T. P. Clifford, the manager, at Chicago. The hotel will be opened May 15th, 1893. The Grand Central station is the Chicago depot of the Northern Pacific railroad (Wisconsin Central division) and by taking that through car line to the world's fair city, visitors will avoid the discomfort of transfer of themselves and baggage through the city. From this station trains run direct to the World's Fair grounds during the day.

Passing of the Snake.

Readers of newspapers must have noticed that during the last five years the breed of newspaper snakes has greatly deteriorated in intelligence and general accomplishments. Time was when Georgia and Alabama snakes wriggled along on the tips of their tails and picked cotton bolls, when they grew to enormous lengths and performed under proper training many acts of domestic service. All this is changed now. The reptilian kingdom has experienced a setback in its progressive march toward intellectuality. As a consequence, newspaper writers have been obliged to fall back upon such commonplace animals as the cat and dog.—Omaha World-Herald.

Specimen Cases.
 S. H. Clifford, New Castle, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepard, Harrisburg, Ill., had a running sore on his leg of eight years standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well.

John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box of Bucklen's Arnica Salve cured him entirely. Sold at John Wright's drug store.

The World's Fair—What It Means.
 It means that from May 1st until Oct. 31st there will be an exhibition in Chicago the triumphs of all the ages. The rarest and choicest specimens of the handiwork of man from the nations of the earth will be there to instruct and delight.

That for six months Chicago will be the most cosmopolitan spot on the globe.

That the American people will have the wonderful opportunity of mingling with and observing the habits and characteristics of the people of every nation in the world.

That "villages" of the different foreign countries, constructed by and made up entirely of people direct from such countries, will be a most interesting feature of the fair.

That the American citizen, of whatever foreign birth or parentage, may carry himself back again to the land of his origin by visiting and studying these foreign "villages."

That a few days or weeks spent at the World's Fair will be worth years of travel.

That this is the grandest opportunity the American people have ever had for interesting study and pleasure, and that a trip to Chicago during the next six months would be the event of a lifetime.

The Chicago, Milwaukee & St. Paul Railway offers the best and most frequent train service from St. Paul and Minneapolis to Chicago. The only line lighting its trains by electricity. The most perfect dining service and the best sleeping cars in this country. Ask your agent for tickets via "The Milwaukee"—the Government's Fast Mail Line, or address
