## TWO BIG FIRES.

### Chicago and Minneapolis Were Visited by the Fire Fiend Yesterday.

The Senate Hotel at Chicago Burns and Five Lives are Lost—\$1,037,000 in Property Destroyed at Minneapolis.

CHICAGO, Aug. 14.—A hotel fire, resulting in the death of a number of guests occurred this morning in a three story structure on Madison street near Fifth avenue. A man who jumped from the top story was killed and about half a dozen others were suffocated or burned to death. The body of Harry Godfrey, seven years old, was recovered. The building was a dilapidated structure, occupied by a restaurant on the first floor, and by the Senate hotel on the upper floors. Thirty guests were in the building when the fire broke out. Those who perished in the fire were caught like rats in a trap, unable to make their escape.

Three additional bodies have been taken from the ruins. The bodies have not been identified.

LATER—The total number of killed is five.

The fire was occasioned by the overturning of a hall lamp.

### The Minneapolis Fire.

MINNEAPOLIS, August 14.—Two fires presumably the work of incendiaries, destroyed over a million dollars worth of property yesterday afternoon. The fires broke out within a short time of each other. The first fire broke out in a stable in the rear of the Cedar Lake Ice company's house and soon spread to the ice house proper. From there, fanned by a quick breeze, it spread to Clarke's box factory and then destroyed the boiler works of Lintzes, Connell & Co., including a \$27,000 riveting machine. The Lenhart Union Wagon Works was totally consumed, also a quantity of lumber belonging to various firms. The Cedar Lake Ice Company lost \$5,000, the Clarke Box company \$30,000, Lintzes, Connell & Co., \$40,000, and the Union Wagon Works \$15,000. On this the total insurance is about one half.

The fire stopped last night at Twentieth avenue, north, after burning nearly a square mile of territory. It destroyed about one hundred and fifty houses, averaging in value from \$500 to \$3,000; forty million feet of lumber, worth \$480,000; ten million feet of lath and ten million feet of shingles, worth \$400,000; thirteen mills, mostly saw mills and sash and door factories, and a number of ice houses and smaller concerns, bringing the total loss up to about \$1,580,000, with estimated insurance of \$750,000.

An unknown child was burned to death, and Thomas Fallon lost his life from heart failure due to the excitement. The injured are, Taylor, firemen; Capt. Fred Krate, firemen and Bert E. Garrett. Several hundred people are homeless.

## Congress.

### SENATE.

WASHINGTON, August 14.—Vorhees has introduced a bill authorizing the issue of national bank notes to the full value of bonds deposited. The bill was accompanied by a letter from Secretary Carlisle urging its immediate passage. The bill would add \$19,000,000 to the circulation. It was referred to the finance committee.

Numerous petitions on the silver question were presented and referred and one for the annexation of the Hawaiian Islands, the latter coming from the San Francisco chamber of commerce.

Senator Palmer, of Ill., introduced a bill to provide for the erection of a government building at Chicago, on the present postoffice site, to be finished in eighteen months, at a cost of \$4,000,000. Senator Hill, of New York, introduced a resolution declaring it the sense of the Senate that nothing but financial legislation be undertaken during the present session. It was laid on the table.

Vest then addressed the Senate on his resolution in favor of bi metallism and free coinage of gold and silver. He likened the Sherman act to a "houseless and homeless dog, without a kennel to hide its dishonored head," but declared he would not vote for its repeal without a guarantee that silver should be treated as a money metal.

## HOUSE.

After the appointments of committees to enroll bills, the silver debate resumed.

Boutner, democrat of Louisiana, spoke in favor of free coinage.

Lawton, democrat of Ohio, followed in favor of repeal of the purchasing clause; Patterson, democrat of Tennessee spoke on the same line.

## Trail Herds.

The large number of cowpunchers in town is accounted for by the presence of in this vicinity of three trail herds—two for the N-N and one for the Circle Diamond, the latter being destined for the Milk river country. The first of the three was an N-N herd, which was crossed yesterday, the Circle Diamond will cross to-morrow, and the other N-N the latter part of the week.

## For an Evening Party.

A bright table game is called "book title illustrating." Paper and pencils are dealt out. Each participant makes a mental choice of a book title and keeps it sedulously concealed from the rest. Each then proceeds to make as telling and graphic illustration of his title as the limits of time and paper will admit of. Much elaboration is not desirable, as that consumes time and makes the movement of the game too slow. Space must be left at the top of the paper for a list of guesses.

When time is called and work ceases, each passes his sketch to his next neighbor, who after a brief study registers his guess at the title at the top of the page and turns it down on the under side, then passes it on to his next left hand neighbor, receiving in turn another sketch on his right. Each paper thus makes the round, returning finally to its original owner, who writes on it the correct title, which is then compared with the recorded guesses.—Harper's Bazar.

## An Unpardonable Offense.

A young woman condemns herself in the eyes of good society who is observed to enter alone with a young man a place for public refreshment, be the restaurant or tearoom ever so select. Bred under other conditions of a society so necessarily varying as that in our broad America, a stranger visiting New York for instance, might readily and innocently make a mistake of this nature, and blush at finding herself condemned for it. In the same category of offenses is ranked that of maidens visiting places of public amusement under the escort of young men alone.

Many parts of the south and west allow this to be done with the smiling consent of good society, but in eastern cities it is considered a violation of the code of good form, and for the comfort, if not the convenience, of the girl considering it, had better be ranked among the lost privileges upon which social evolution may look back with fond regret.—Mrs. Burton Harrison in Ladies' Home Journal.

## A Grease Filter For Boilers.

A filter for removing grease, which often passes into boilers with the feed water, consists of a metallic chamber or filter box in which are a series of gratings, and between these gratings are placed layers of wire gauze and flannel of a special texture, which forms the filtering medium. The feed water from the donkey pump enters the filter box from one side, passes upward through the filter cloths and thence out to the boiler, the scum passing away through another outlet. By this means it is found that all grease and greasy matter, as well as other impurities, are arrested by the filter cloths, which can be readily taken out for cleaning or renewal. The filter is equally applicable to land and marine boilers.—New York Telegram.

## A Desirable Neighbor.

Mrs. Binks—That woman we just passed is the nicest neighbor I ever had. Friend—Neighbor? Why, she didn't so much as glance at you.

Mrs. Binks—That's what I like about her.—New York Weekly.

## The Only Way.

Day—There is just one way to get waiters who will not consider it a hardship to do without whiskers.

Weeks—What?

Day—Hire girls.—Truth.

It will cure sick headache, indigestion, constipation, and drive malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 35c per bottle. Sold by John Wright.

## A Poor Man.

The peripatetic walked into the country editor's office with a woebegone look. The editor was busy crediting a subscriber with a cord of wood on account.

"Can you give a poor man a quarter?" appealed the tramp.

"What's your name?" inquired the editor.

"William Jones."

"Well, Mr. Jones, my name is Muggins, and I want to say to you in reply to yours just received that I can at times give a poor man a quarter, and, Mr. Jones, I do; but his name is Muggins. Good morning, Mr. Jones," and the editor went on with his work.—Detroit Free Press.

## Left Handed Cooking Utensils.

"Evidently a man made that frying pan, and that stew pan, and this wide mouthed basin," growled the cook. "To have put their mouths on the wrong side, as if all womankind was left handed! You see it is most natural for any one to turn out fool from small vessels with the left hand, leaving the right one free to scrape out what still may adhere to the bottom and sides. Then there's that small oil stove with the handle so put on that upon setting it down, the singlass is turned from y. a. and the stove has to be completely turned around in order for you to see the state of the flame when once lighted.

"Such things are very annoying, when so unnecessary. Anybody who cooks, and knows how utensils must be handled, would see at once that the skillets and pans small enough to be held by the left hand when being emptied of food, ought to have the mouths on the opposite side from that where most makers put them. I wish they would rise and explain.—Housewife.

D. O. Hall of Sparta, Pa., is one of the finest coin collectors in the state. It comprises over 6,000 pieces and contains a coin of each of the Caesars, said to be the only complete series in the United States.

Letter Carrier Charles Tyler of New York city has been 48 years in the service, and in that time, it is estimated, walked 300,480 miles. When he entered the service, there were only six carriers attached to the office. Now there are about 1,300.

## The World's Fair—What It Means.

It means that from May 1st until Oct. 31st there will be an exhibition in Chicago the triumphs of all the ages. The rarest and choicest specimens of the handiwork of man from the nations of the earth will be there to instruct and delight.

That for six months Chicago will be the most cosmopolitan spot on the globe. That the American people will have the wonderful opportunity of mingling with and observing the habits and characteristics of the people of every nation in the world.

That "villages" of the different foreign countries, constructed by and made up entirely of people direct from such countries, will be a most interesting feature of the fair.

That the American citizen, of whatever foreign birth or parentage, may carry himself back again to the land of his origin by visiting and studying these foreign "villages."

That a few days or weeks spent at the World's Fair will be worth years of travel.

That this is the grandest opportunity the American people have ever had for interesting study and pleasure, and that a trip to Chicago during the next six months would be the event of a lifetime.
