THE FIGHT ON.

The Rebels Open Fire on Rio de Janeiro and One Fort Sides With Them.

If They Win President Peixoto Will Have to Retire.—The City Reported in a State of Great Excitement.

BUENOS AYRES, Sept. 14.—Dispatches received here announce that the bombardment of Rio Janeiro by the insurgent war vessels yesterday.

LONDON, Sept. 14. The Exchange Telegraph Company says that private advices have been received from Brazil that the insurgent fleet is bombarding Rio Janeiro and that one of the principal forts in the harbor has sided with the rebels.

The Daily News has the following from Rio: "The attack on the forts began at 9 o'clock. The garrison of the largest and strongest fort has declared for the rebels. The bombardment of the town began at 11 o'clock. The town has a desolate appearance. The people who are compelled to remain are greatly excited. All business is at a standstill, and the air is full of alarming rumors."

WASHINGTON, Sept. 14.—Secretary Gresham has received the following cable from Minister Thompson at Rio: "At 11 o'clock this morning revolutionary forces bombarded forts commanding entrance to harbor, also arsenal on the wharf in the center of the city. A few shells were fired into the city, and a woman was killed in her residence. Commercial telegrams have again been forbidden. The Charleston has not yet arrived."

The dispatch practically disposes of the hopes of the navy department that the cruiser Charleston had reached Rio, and it is now believed that she went direct to Montevideo without touching any Brazilian port.

Five Thousand More to Go to Work.

WHEELING, W. Va., Sept. 15.—Orders were given today for the resumption of work in every department of the big Riverside Iron and Steel Works Monday. The works give employment to nearly 5,000 men, being the third largest establishment in the Ohio valley.

The Navahoe Declared Winner.

COWES, Isle of Wight, Sept. 14.—The Navahoe has been awarded the prize in the race for the Brenton's reef cup, which, according to first calculations, was thought to have been won by the Britannia.

The Name of Stebbins.

The Stebbins family is fairly numerous. It is not now a classic name. Its owners wear it ignorantly. More the shame for them. It is by right a classic name, borne as it was by the first of Christian martyrs—St. Stephen, sometimes spelled Stephen. Steven is the Dutch way of spelling it. Spell it in Spanish—Esteban. Drop the initial silent e and then you have Steban. Among the ignorant the step to Stebbins is very short. And the honorable name of St. Steven takes on degradation, even as the fine old Norman-French name L'Amant becomes the homely Dolman-Davenport Democrat.

Fortunes From Eggs.

It is astonishing what immense sums capitalists receive in the course of the day. The combings of women's hair sell at 80 cents a pound. This means \$200 to the knights of the loom. "Mermos," as they are called, are another source of profit. These are the scraps of buttons and dressmakers and bring about \$30,000 a year. The old bones are another source of profit and bring about \$100,000 a year. The papers, cores and crust of bread all go to different industries and bring a not less fabulous sum.

As for the election bulletins, which to the number of 1,325,000 are pasted up on the walls of Paris, they are much sought, especially immediately after an election, for the making of buttons.—Paris Letter.

Wonderful Smokeless Coal.

Some wonderful "smokeless coal" is reported from the Onachita river district in Arkansas. The vein is 42 inches wide. The coal burns without smoke or poke, and one ton will go as far as 10 of the ordinary variety. Twenty per cent of it is oil, which makes a point you can't burn at all.—New York Recorder.

Deserving Praise.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. John Wright, Druggist.

"Useful Information"

Is a heading much resorted to by "retired physicians" and people whose "sands of life have nearly run out." The publishers of our standard dictionaries or encyclopedias tell the pure truth when they offer their works as "mines of useful information," and in the same class are reliable and first-class railroads like the Burlington route. When this road offers to give you, free of charge, "useful information" about ways and means of safe, swift and comfortable railway travel you may place entire confidence in what is told you. They have no disposition to deceive you, and if they had are too shrewd not to know that "honesty is the best policy." Therefore before taking a trip anywhere write to W. J. C. Kenyon, Gen. Pass. Agent, St. Paul, Minn., and learn what are the advantages of the Burlington as a route.

Sticks In Mercantile Life.

Many young men choose a mercantile position for the present only without thought or intention of making it a permanent business. The result is that oftentimes we find these men at 30 years receiving no more pay than they did when only 18.

There is an army of this class of young men behind counters today. They stand listlessly in their departments and are as unobservant of what's going on around them as are the inanimate figures which one sees at the entrance of clothing establishments.

Many of them let slip grand opportunities of becoming great business factors in the commercial world and have doomed themselves to the treadmill of common drudgery. Singleness of purpose implies self reliance, without which a young business man is not thoroughly furnished for a successful business career.—Dry Goods Economist.

Pleasure In the Heavens.

There is a satisfaction in learning the names and positions of the stars that does not belong to the study of the planets. The stars apparently never change so far as their position relative to each other is concerned. The planets are always moving, and to those who do not watch the heavens with particular attention it is a cause of surprise very often to find a "new star" adorning a certain section of the heavens. If, however, this newcomer be carefully observed from night to night, it will be found to change its distance from the fixed stars, and the observer will discover that it is a planet and at liberty to wander about from place to place under the sole condition that it obeys certain rules of motion. When the bright stars that grace the heavens become familiar to observers, they will know just what to expect on each succeeding season.—New York Times.

Customers Too Particular.

Some years ago the proprietors of a so called "ulster house" in London placed in their windows a placard setting forth a new rule of their establishment, namely, that no orders given by Americans would be executed unless the orders were paid for beforehand. The proprietor on being interviewed declared that American ladies were much too hard to please—infinity more so than English ones. They insisted upon having their things made to fit or they refused to take them. "I had an ulster sent back to me the other day, for instance," he remarked, "by an American customer merely because it was longer in front than it was at the back." Only that and nothing more!—Lucy Hooper in Home Journal.

The Yezidees, a peculiar Turkish sect, cut off the head of any one who inadvertently speaks the word "devil," "satan" or anything with a similar meaning.

A Million Friends.

A friend in need is a friend indeed and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption, coughs and colds. If you have never used this great cough medicine, one trial will convince you that it has wonderful curative powers in all diseases of throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at John Wright's Drug store. Large bottles 50c and \$1.

The World's Fair—What It Means.

It means that from May 1st until Oct. 31st there will be on exhibition in Chicago the triumphs of all the ages. The rarest and choicest specimens of the handiwork of man from the nations of the earth will be there to instruct and delight.

That for six months Chicago will be the most cosmopolitan spot on the globe.

That the American people will have the wonderful opportunity of mingling with and observing the habits and characteristics of the people of every nation in the world.

That "villages" of the different foreign countries, constructed by and made up entirely of people direct from such countries, will be a most interesting feature of the fair.

That the American citizen, of whatever foreign birth or parentage, may carry himself back again to the land of his origin by visiting and studying these foreign "villages."

That a few days or weeks spent at the World's Fair will be worth years of travel.

That this is the grandest opportunity the American people have ever had for interesting study and pleasure, and that a trip to Chicago during the next six months would be the event of a lifetime.

The Chicago, Milwaukee & St. Paul Railway offers the best and most frequent train service from St. Paul and Minneapolis to Chicago. The only line lighting its trains by electricity. The most perfect dining service and the best sleeping cars in this country. Ask your agent for tickets via "The Milwaukee"—the Government's Fast Mail Line, for address.

Named the Baby.

WASHINGTON, Sept. 14. The new White House baby will be known hereafter as "Esther." This old-fashioned name has been selected for the child by the president and Mrs. Cleveland. It is stated that the selection of this name has no significance at all to the partiality of the parents for scriptural denominations, and that it means "a star" and "good fortune."

Dr. Sunderland of the First Presbyterian church, where the Cleveland family worship, will in all probability perform the sacred ceremony, christening the little one Esther.

This name is known to be a favorite of Mrs. Cleveland. After Baby Ruth was christened she remarked in the presence of a number of friends that if she ever had another daughter she intended to name it Esther. Mrs. Perrine, mother of Mrs. Cleveland, wanted to name the newcomer, but Mrs. Cleveland insisted, and after a family conference the president decided that Mrs. Cleveland should have her say, and so it will be Baby Esther. As soon as this decision was reached the president came into his office and notified his secretary, Mr. Thurber, and the latter at once informed the press.

Glass Factories to Resume.

PITTSBURG, Sept. 15.—Within the next ten days twenty-two flint glass factories throughout the country will be in operation, after a shut down of nearly four months. This will give employment to nearly 10,000 men. The factories starting up will run on the partial payment plan while the financial stringency lasts. About fifty per cent of the money is retained by the employers. By October 1 it is thought fifty factories will be in operation.

Pollard-Breckinridge.

LEXINGTON, Ky., Sept. 15.—It is now said by persons in a position to know something of the intentions of Col. W. C. P. Breckinridge that, in his cross petition in the now famous Breckinridge-Pollard seduction and breach of promise suit, he will deny that Miss Pollard can lay her downfall at his door and that he was in no way responsible for her undesirable career; that he had nothing to do with her until he knew her character was not good.
