## DESTROYED BY FIRE.

### Forests Fires Causing Great Destruction of Property in South Dakota.

Several Small Towns Reported to have Been Destroyed—The Fire Within Two Miles of Deadwood.

DEADWOOD, S. D., Sept. 22.—The forest fire on the east has reached the foothills two miles east of here, and the city is threatened. The property of Henry Stearns was burned, and also that of Charles Trevoe. The Stearns family drove two miles through the flames to this city. The condition of old Mrs. Stearns, Mrs. Henry Stearns, two boys, a baby and Frank Stearns, all exposed flesh was burned to a crisp. They will probably die. The smoke is suffocating and the scene is like Dante's Inferno. People are getting ready to move.

A bad fire is gaining great headway on top of the Buck Tail divide, threatening Central City and the county poor house. One hundred men are engaged in fighting it. Near Mountain a terrible state of affairs exists. The inhabitants of Terry, a mining camp of 500 population, have left the town to the flames. Everything will be a total loss, and the damage will amount to \$60,000. The Buxton mill and dwelling house, valued at \$12,000 was destroyed. The fire is raging with great fury over an area of seven miles long and six wide. The damage on Centennial prairie is as follows: Henry Frawley, Centennial hotel, \$12,000; Henry Trever, Cliff house, \$8,000; Charles Pfunder, \$6,000; Henry Stearns \$6,000; Charles Thompson, \$3,000. Charles Trevoe and wife, who were thought to have burned to death, have been found uninjured. Mrs. Stern is not expected to live. The Uncle Sam sixty stamp mill, and the town of Perry, twelve miles distant, have been destroyed. Telegraphic communication has been shut off from several points by reason of the fire, the full extent of the damage cannot be learned.

A fire is burning at the fair grounds, two miles from here, and the stable, race track and other buildings will probably be destroyed.

A train left here at 10 p. m. for Fort Meade to bring up three companies of soldiers to aid the citizens in controlling the flames.

**LEAD CITY SAVED.**  
LEAD, S. D., Sept. 22.—At noon today the timber fires were discovered heading for Lead from the west end, and the entire fire department, with many citizens, was called out. A very heavy wind brought the flames rapidly toward the city, and at 4 o'clock the entire force in the mines were put to work. At 5 o'clock, when the fire reached the city limits, the wind shifted, and at this writing (7 p. m.) is under control. Many families in the vicinity, however, have moved out their household goods, and the people are in great state of excitement. The fire has spread through the Bald mountain country, doing much damage.

A report just reached Lead that Runkel, a small town twenty-five miles from here, was destroyed by fire. One hundred and fifty homeless people from the burned section are now at Piedmont.

**Corbett Challenges the World.**

ASHBURY PARK, N. J., Sept. 22.—Immediately upon Charley Mitchell's arrival in New York an Associated Press reporter notified James J. Corbett, on a farm here, of Mitchell's open declaration to the effect that he would not fight Corbett at Coney Island under any circumstance, but only before the Crescent City or the Columbian club. Corbett smiled and said: "Well, that is only what I thought."

Corbett was then asked what he contemplated doing in the matter. He answered: "I am simply going to keep on training and will be on hand at the date set to fight Mitchell. If he flunks, any man in the world can take his place. That's all I desire to say concerning the matter. The public can judge for themselves."

## Carnegie Says Away With "Robber Barons."

Boston, Sept. 22.—Andrew Carnegie is in Boston, and he said to a reporter: "I regret that any manufacturers have appeared before the congressional tariff committee. The country has been led to believe that manufacturers are robber barons. I think the Democratic party should be allowed to arrange the duties on imports so that the 'robber barons' may be put to death. Would I have this done gradually? No; I prefer sudden death. The sooner reaction sets in, the better."

"I am certain that the industrial interests of the capitalists and the laborer would be best carried out by following the Chicago platform. While I believe the prosperity of the country depends on protecting manufacturers, still it is vastly more important that there should be no antagonism between labor and capital. The country has been led to believe that protection is robbery."

"I, for one, am not willing to reap any benefits from any species of robbery. If the tariff is robbery in the opinion of the American people, let it be abolished, and labor and capital and all industries live together in peace, each satisfied with the other. Any economical advantages the country may derive from protection are dearly bought if one class is set against another."

"If there is one robber left at the end of the next session of Congress it will not be possible for the Democratic party to put the blame on any one else. For this reason I regret to see manufacturers appearing before Congress beseeching it to stay its revolutionary hand."

## I. O. O. F.

MILWAUKEE, Sept. 22.—At the meeting today of the Sovereign Grand Lodge of Odd Fellows a request made by Archbishop Katzer for copies of the ritual and other printed matter relating to the work of the order was referred to the committee on the state of the order. Archbishop Katzer asked for the ritual in order to determine whether or not it contains anything that should prevent a Catholic from becoming an Odd Fellow. The grand sire decided that he had no authority to reveal the secrets of the order to any one not a member and referred the matter to the Sovereign Grand Lodge.

## The Fair Will Close October 30.

CHICAGO, Sept. 22.—The world's Fair will close on the night of October 30, and the next morning will see workmen laying a railroad track through different buildings to carry away the exhibits. There will be no extension beyond the time fixed by Congress. So the executive committee have decided and ordered the fair closed on the day named.

## Making the Most of Household Pets.

Whatever beast is kept it should have its own quarters in which it is at home and free from intrusion and to which it can retire when it chooses. This home should be kept clean and sweet by frequent changes of bedding and the use of soap and water. No one has a right to keep an animal in confinement who finds it too much trouble to attend to its health and comfort. It should be regularly fed on food that is most healthful for it, and what is quite as essential to its happiness and consequently to its health, it should be talked to and noticed as much as anybody.

I am certain many animals and birds suffer and die in our homes from pure loneliness and from being regarded by their human neighbors as creatures of an altogether different nature. Whereas the truth is, if one will but cultivate their acquaintance, he will be astonished to see how the dull and most stupid will wake out of its apparent torpor and show understanding and character.

I know a family very fond of pets, in which the creatures show most extraordinary individuality. Their cats do things no cat was ever before known to do; their parrots and other birds show what we call human nature in a wonderful degree, and their dogs almost talk. The reason is plain; the animal or bird is made one of the family. It is talked to and petted as well as cared for. Its intelligence develops, and the beast becomes very like the human being.—Olive Thorne Miller in Harper's Bazar.

## Strained In Artistic Surroundings.

It is really amusing and sometimes painful to see how men suffer from the artistic mania of their wives. I know of a case where a husband was not allowed to touch any of the furniture in the drawing room for fear he would disturb the effect of color and outline. He wisely stipulated, however, that he should have his own chair in the room, which he was to be at liberty to do with as he liked.

Being a man of infinite jest he managed to evolve the most delightful and comic situations when visitors were present, explaining that it was his want of artistic feeling which made it necessary for him to carry his chair about with him. He asked that when his friends contemplated their surroundings from an artistic point of view they should kindly consider him and his chair out of the picture. Needless to say it was not very long before all restrictions were withdrawn and he was allowed to work what havoc he pleased in the drawing room as well as everywhere else in the house.—Boston Globe.

## An Umbrella Is Good For a Shower.

A man was once advised to take shower baths for the general improvement of his health. A friend explained to him how to fit up one by the use of a cistern and colander, and he accordingly set to work and had the thing arranged. Subsequently he was met by the friend who had given him the advice and was asked how he enjoyed the bath.

"My dear fellow," said he, "it was capital. I liked it really well, and what do you think? I kept myself dry too."  
"Whatever do you mean?" exclaimed his friend, in natural surprise. "How ever could you manage to take the shower and yet remain quite dry?"  
"Why, you can't think for a moment I should be so stupid as to have a shower bath without an umbrella?" was the innocent reply.—London Tit-Bits.

## What Is the Old Reliable?

It is the oldest and most reliable railway in operation between the Twin Cities (St. Paul and Minneapolis and Chicago)—The Chicago, Milwaukee and St. Paul.

Its train service is more frequent than that of any other line, and unequalled in point of excellence, comfort, speed and safety.

It runs five complete and handsomely equipped passenger trains from the Twin Cities to Chicago each day—four of which pass through Winona, La Crosse, Portage, Watertown and Milwaukee, the other passing through Austin, Dubuque and Savanna.

It is the only road running trains lighted by electricity and has the exclusive use of the famous electric reading lamp in each berth. All trains thoroughly heated by steam, doing away with the old-time car stove.

It runs the latest library buffet smoking cars, the latest private compartment cars, elegant drawing room sleeping cars and free reclining chair cars on night trains. Dining cars (the finest service in the west) are attached to each train, serving first-class meals at convenient hours.

Everybody has heard of the renowned vestibuled, electric lighted, steam heated limited of "The Milwaukee." This is the most thoroughly and luxuriously equipped train running between the Twin Cities and Chicago. No extra charge. Leaves Minneapolis 7:30 and St. Paul 8:10 each evening; arrives Chicago 9:30 following morning.

The enormous traffic constantly carried over this road between Chicago and the Northwest has necessitated and resulted in one of the most solid and substantial roadbeds in this country, which, together with its unrivalled passenger train equipment and service, insures to its patrons the highest degree of safety and ease.

Now is the time to visit the World's Fair—the grandest opportunity the American people ever had of seeing the world in miniature. See that your ticket reads via "The Milwaukee" and thus secure the best possible service and unsurpassed accommodations—the very best to be obtained for your money.
