 Past. Chaplain I. Newton Ritner preaches once each month and conducts a devotional service every Thursday evening, beginning at 7:30 o'clock. During mid-winter, these services are suspended.

## TAMMANY WINS.

### The Famous Lamplighter Loses His Colors to the King of the Turf.

Lamplighter Sets the Pace Until the Stretch is Reached, When the Montana Horse Goes to the Front.

NEW YORK, Sept. 29.—Over 12,000 people went to Guttenberg today to see the match race between Tammany and Lamplighter, the great three-year-old racers of the year. The purse was \$5,000 and a side bet of \$2,500. The horses were in the best form, and the track as fast as any in America. Lamplighter was ridden by Taral and Tammany by Garrison. Lamplighter led by a length and a half all the way till the turn of the oval, less than half a mile from home, was reached. There Garrison moved Tammany up until his head was at Lamplighter's tail.

Taral did not urge his colt until the stretch was entered, and he saw Garrison after him in dead earnest. Swinging around the wide turn Garrison began to move faster. Within ten lengths Tammany was head and head with his rival. Taral used spur and whip, but it was no use. Garrison also cut Tammany ruthlessly, though there was no occasion to do so. Marcus Daly's great colt went to the front easily, and finished three lengths ahead of Lamplighter.

Enthusiasm was not so great as it would have been had Lamplighter won, although Garrison was carried to the jockeys' room on a floral horseshoe by his admirers. Tammany clearly proved his superiority over Lamplighter in the race.

Fractional time—Eighth, :32½; quarter, :24½; three-eighths, :37; half, :49½; five-eighths, 1:02; three quarters, 1:14½; seven-eighths, 1:27½; mile, 1:40½; eighth, 1:53; quarter, 2:06½.

## A PHILADELPHIA OFFER.

Manufacturers Want to Form a Silver-Tariff Combination.

PHILADELPHIA, Sept. 29.—One hundred and fifty leading manufacturers of this city, headed by Wharton, the banker and well known financier, have drawn up and signed a proposition offering the silver senators aid in their fight against the repeal of the silver purchase law, provided the latter will combine to prevent any tariff legislation. As over one-half the manufacturers who signed the paper are Republicans and this community has favored repeal, this new movement has created a sensation in business circles. The circular contains these three propositions to the silver senators:

1. That the United States shall admit silver bullion from American mines to coinage in its mints upon the payment by the owner of a seigniorage absorbing three-fourths of the difference between the London price of bullion and its value when coined.
2. That foreign bullion shall be admitted only for coinage purposes at a seigniorage absorbing all of the difference between the London price and its value when coined.
3. That the United States shall invite at once a conference of those nations of the world which have not committed themselves to gold mono-metalism. This would include especially the nations of North and South America, Japan and in Europe, France, Russia and others. These nations are as deeply interested as we in resisting the attempt to increase the power of gold through the degradation of the power of silver, and many of them, particularly those of America and Eastern Asia, are those to whom we may most easily and advantageously sell the excess of our manufacturing industries. Such a conference should exclude England and Germany. It is the conclusion that without them it would direct the money policy of the world, preserve the integrity of bi-metalism and prevent the enslavement of the United States and others by the capitalist classes of the two great creditor nations.

## Chicago Cattle Market.

CHICAGO, Sept. 29.—Mason, steers, 1361 lb, \$3.65; 1433 lb, \$2.80; 1511 lb, \$3.45. Murphy Cattle Co., steers, 1248 lb, \$3.65; 1092 lb, \$3.15. Rea Cattle Co., 1355 lb, \$3.40; 1261 lb, \$3.30; 1058 lb, \$2.50. Berry & Boice, 1201 lb, \$3.50; 1131 lb, \$3.

## They Want Grover.

WASHINGTON, Sept. 28.—Director General Davis, of the World's Fair, is here to try to secure the presence of the President at the close of the exposition.

## Wanted Cleveland's Chair.

WASHINGTON, Sept. 28.—Police Officer Heller had a violent struggle today with an insane man who in some mysterious manner got into the White House and was looking for President Cleveland. The appearance of the officer probably saved the President from assault.

How the fellow got inside the building no one knows. He was not seen to enter the front or rear doors. He appeared in the hall on the lower floor as suddenly as though he had come through the ceiling. The colored cook, whom he met, he questioned. He said he wanted to see "Father."

"Who is father?" the cook asked.

"Cleveland, of course," was the response.

Just then Policeman Heller appeared upon the scene, and asked what was wanted. He saw at a glance the man was not altogether right.

"Your father is out in the garden," he told the mysterious visitor; "come with me and we will find him."

The policeman immediately started toward the door. The intruder, thinking he was going to meet the President, followed, but the officer said that he would land him at the watch box in a few minutes. They appeared at the little watch box, where a policeman was on duty. Before he knew what was going on the prisoner grabbed Heller's black jack from his pocket, evidently thinking he was getting a pistol. He tried to use the black jack on the officers, but they grabbed him and struggled. It lasted but a few minutes before the man was overpowered at the station. The crank gave the name of Joseph Washington. He refused to tell where he lived. No one at the station remembers ever having seen him before. When asked what he wanted at the White House he replied:

"I wanted that chair."

"What chair?"

"The President's chair."

"Don't you think the President fills it satisfactorily?"

"No; I don't want the reply. I intend to get it by fair means or foul. Give me a pistol and I'll show you how I will get it a-d quick."

He was held for examination.

## Wisconsin Central.

MILWAUKEE, Sept. 28. This morning the matter of the Wisconsin Central claim against the Northern Pacific for rental came up in the United States court. The Central demands the payment of all the back rental that was due under the lease when the receivers took possession and also for forty days their possession continued. The receivers want to pay only the net earnings of the road for the period for which the Central demands rental. The Central people claim the Northern Pacific owes the \$500,000.

## Wool Growers at the Fair.

CHICAGO, Sept. 29.—The weather is bright and cool and the grounds were thronged with sightseers.

The wool, cotton, hemp and flax growers of the United States are in session in Assembly Hall for the purpose of forming an association embracing all these industries. Among the prominent wool growers present are Jacob Kasenberger, of San Francisco; W. H. McClellan, of California, and E. B. Norton, of Wisconsin.

## Mineral Entries Cancelled.

WASHINGTON, Sept. 28.—Assistant Secretary Sims has ordered cancelled the mineral entries of Paris Gibson on valuable lands near Great Falls, Mont. The lands are very valuable, and will go to the state as school lands. Gibson was formerly a resident of Minneapolis. The case was argued on behalf of the State by Miss Ella Knowles, the lady lawyer who is assistant attorney general of Montana.

Magna Charta, the great charter of Englishmen's liberties, is preserved in the British museum. It is somewhat stained by time, but King John's seal and name are still quite legible at the bottom of it.

## Specimen Cases.

S. H. Clifford, New Castle, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepard, Harrisburg, Ill., had a running sore on his leg of eight years standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well.

John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle of Electric Bitters and one box of Bucklen's Arnica Salve cured him entirely. Sold at John Wright's drug store.

## The Yearly Income of a President.

There is a general idea that the president's salary of \$50,000 a year is all that he receives, and that, when compared with the salaries paid the sovereigns of Europe, the sum is not enough. This is a mistake. In addition to his salary, the president receives \$38,064 to pay the salaries of his clerks and subordinates. His private secretary has \$3,250; his assistant gets \$1,800; each of five messengers, \$1,200; the steward, \$1,800; each of the two doorkeepers, \$1,200, while other employees are paid in proportion down to the man who takes care of the fires, who receives \$864.

In addition \$8,000 are allowed for incidentals, such as stationery and carpets; \$12,500 for repairs and refurnishing; \$2,500 for fuel; \$4,000 for the greenhouse, and \$15,000 for the stable, gas and other incidentals. In all the president and his household cost the country more than \$125,000.—San Francisco Argonaut.

## The Queen as a Gardener.

In former days the queen herself was fond of gardening. Each of her children had a little plot of ground to cultivate, and these tiny gardens are even now kept up carefully, just as the children had left them. The queen was one day tending her flowers at Osborne with watering pot and rake in hand, when Mario, the great tenor, came along. He was on his way to sing in the palace at the command of the queen, and being delighted with the garden had sent his carriage ahead and was walking alone. Suddenly he came upon the lady with the watering pot. "Would you be so good as to direct me to the apartments of the queen?" he asked. "What can you want there?" said the lady. "I want the queen because I am Mario and am to sing for her." "Vous voila arrive. I am the queen," was the reply. Mario was her slave from that hour.—New York Sun

The work performed by the human heart each 24 hours is equal to the lifting of 12½ tons to a height of one foot in the same length of time.

## Now Try This.

It will cost you nothing and will surely do you good, if you have a cough, cold or any trouble with throat, chest or lungs. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to give relief or money will be paid back. Sufferers from la grippe found it just the thing and under its use had a speedy and perfect recovery. Here the students of agriculture could have experimented with every product of the soil, that matures in the temperate zone and fitted themselves for the pursuit of scientific agriculture in any portion of the country. But it was not to be, and more's the pity.

## What is the Old Reliable?

It is the oldest and most reliable railway in operation between the Twin Cities (St. Paul and Minneapolis) and Chicago—The Chicago, Milwaukee and St. Paul.

Its train service is more frequent than that of any other line, and unequalled in point of excellence, comfort, speed and safety.

It runs five complete and handsomely equipped passenger trains from the Twin Cities to Chicago each day—four of which pass through Winona, La Crosse, Portage, Watertown and Milwaukee, the other passing through Austin, Dubuque and Savanna.

It is the only road running trains lighted by electricity and has the exclusive use of the famous electric reading lamp in each berth. All trains thoroughly heated by steam, doing away with the old-time car stove.

It runs the latest library buffet smoking cars, the latest private compartment cars, elegant drawing room sleeping cars and free reclining chair cars on night trains. Dining cars (the finest service in the west) are attached to each train, serving first-class meals at convenient hours.

Everybody has heard of the renowned vestibuled, electric lighted, steam heated limited of "The Milwaukee." This is the most thoroughly and luxuriously equipped train running between the Twin Cities and Chicago. No extra charge. Leaves Minneapolis 7:30 and St. Paul 8:10 each evening; arrives Chicago 9:30 following morning.

The enormous traffic constantly carried over this road between Chicago and the Northwest has necessitated and resulted in one of the most solid and substantial roadbeds in this country, which, together with its unrivalled passenger train equipment and service, insures to its patrons the highest degree of safety and ease.

Now is the time to visit the World's Fair—the grandest opportunity the American people ever had of seeing the world in miniature. See that your ticket reads via "The Milwaukee" and thus secure the best possible service and unsurpassed accommodations—the very best to be obtained for your money.
