Supt. Finn's suggestion that the Northern Pacific road might quit running for two or three months, as reported from Livingston in this issue, is quite a novel idea. It looks as if the "old man" wanted to go hunting along with Skew and that Mrs. Dorsey, although this last named gentleman was never known to kill anything.

It was only a few weeks ago that Frank Conley broke several arms or legs and went east for repairs, and now comes the news that his estimable wife has been run away with—by a horse—and suffered a fracture of the arm. There will be less hugging in the family for a time, probably, but Frank will not allow himself to remain in arrears, when he is able to pay.

The World's Parliaments.

The British parliament compares favorably in size with those of other nations. With 670 members in the house of commons and over 533 in the upper house, it is far and away the largest in the world. France comes nearest with 584 in the chamber of deputies and 306 in the senate. Spain comes next with 431 in congress and 261 in the cortes. Then comes the Austrian reichsrath with 553 and 245 in the lower and upper houses respectively, followed by Germany with 337 in its reichstag and 58 in its bundesrath. The United States has 356 representatives in congress and 83 senators.—London Tit-Bits.

Raphael experienced temptations to suicide. He himself says: "I tied the fisherman's cord which I found in the boat eight times around her body and mine, tightly as in a winding sheet. I raised her in my arms, when I had kept free in order to precipitate her with me into the waves. At the moment I was to leap to be swallowed forever with her, I felt her pallid head turn upon my shoulder like a dead weight and the body sink down upon my knees."—New York Times.

The Truth Out. Clara—There! I knew it. He has proposed this evening and she has accepted. Dora—They are acting like other people. Merely polite, that's all. "That's only a blind. He Was Conscientious.

Here is a good little story told by George Tyler, a young newspaper man who is actively engaged in theatrical management: "One of my theatrical friends," said Mr. Tyler, "was not many seasons ago doing the Romeo to a very bad Juliet in a country town in Kansas. Even that rural audience could hardly stand the performance. Dozens of the auditors hissed. At length only one man was noticed as maintaining an absolute silence. At last the man who sat by this fellow said: "'Why don't you join in the fun?' "'It wouldn't be fair.' "'And why?' "'Well, I came in on a pass, but if they don't improve darned if I don't go out and buy a ticket and begin on 'em.'—St. Louis Republic.

Her First Want. A woman dropped into a Chicago newspaper office. She was bright and clever, but absolutely penniless. She stated her case plainly. She had been lying ill in a hotel for six weeks, with no money to employ a doctor, and only the sparse care that an overworked chambermaid was able to give her. Would the editor help her? He would. He gave her a subject for a special, advanced money on it out of his own pocket and said, "Now, my girl, you'd better go and see a doctor right off." "Oh, no," she said. "I must have a fall hat first."—Chicago Letter.

He Heard Pa Tell Ma. "Your hair isn't wet," said little Tommy to Mr. Flyer, who was calling. "No, of course not. What makes you think my hair was wet?" he asked, very much surprised. "I heard pa tell ma that you couldn't keep your head above water."—London Tit-Bits.

Guilty. Jones (in a loud whisper)—There's the fellow that fired on the train— Detective—Hello, you rascal! I've got you dead to rights! Fire on a train, will you? Prisoner—Yes, you fool! I'm the fireman.—Cleveland Plain Dealer.

The city of Albany has been beautified by the unveiling of the King Memorial fountain. The statue, which is the work of J. Massey Rhind, is illustrative of childhood, youth, manhood and age, gathered about the rock of Horeb.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten-fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure that you get the genuine. It is taken internally, and is made in Toledo, O., by F. J. Cheney & Co. Testimonials free. Sold by druggists, 75 cents per bottle.

Salt Rheum 5 Years

"When I was a Boy,"

Writes Postmaster J. C. Woodson, Forest Hill, W. Va., "I had a bronchial trouble of such a persistent and stubborn character, that the doctor pronounced it incurable with ordinary medicines, and advised me to try Ayer's Cherry Pectoral. I did so, and one bottle cured me. For the last fifteen years, I have used this preparation with good effect whenever I take

and I know of numbers of people who keep it in the house all the time, not considering it safe to be without it." "I have been using Ayer's Cherry Pectoral in my family for 30 years, with the most satisfactory results, and can cheerfully recommend it as being especially adapted to all pulmonary complaints. I have, for many years, made pulmonary and other medicines a special study, and I have come to the conclusion that Ayer's Cherry Pectoral occupies a position pre-eminent over other medicines of the class."—Chas.
