DECLARED A DRAW

But He Couldn't Knock McCarthy Out in Twenty Rounds.

The Fight Was a Hot One From Start to Finish But the Nonpareil Had the Best of It.

NEW ORLEANS, Sept. 6.—The Dempsey and McCarthy fight was declared a draw in the 20th round. John Duffy was referee. Time was called at 9:15. McCarthy was on the aggressive. Dempsey scored a body blow, then landed on the head, then landed both hands with heavy swings on the head and jaw.

In the second round Mac scored a right on the body, while Dempsey was fighting for the head. Mac caught a heavy swing on the jaw and the round closed in Dempsey's favor.

In the third round the men clinched, then Jack landed a right on the jaw which nearly knocked Mac down. In the fourth Jack landed a heavy blow on the stomach, another on the nose and got away. In the fifth Jack was the aggressor, and scored a left on the nose and a right on the body. In the sixth Mac did a heavy swing which nearly lifted Jack off the ground. Mac caught a left on the jaw. Both landed heavily.

In the seventh, both men swung heavy body blows, but the round closed in Jack's favor. Round 8—Mac clinched to avoid punishment. He missed a right on the jaw and nearly fell through the ropes. Dempsey continued his terrific rights on the body; both landed their lefts on the head and fell on the ropes. There were several clinches in the round mainly due to Dempsey's generalship. Jack landed two rights on the jaw just as time was called.

From this until the 20th round Dempsey did all the execution, but he could not knock his game opponent out. The purse of \$2,000 was divided.

Knights of Pythias.

WASHINGTON, Sept. 6.—The supreme lodge Knights of Pythias devoted its morning session today discussing the proposed new statutes and adopted a new system of transfer of membership. The new rules provide that by paying dues for 90 days a knight may retain his membership in the old lodge unless admitted to another within that time. Reports of the committee favoring the exclusion of liquor dealers from future membership in the order and restraining of German lodges from performing the ritual in their language are ready for presentation, but will probably not be considered until late in the session.

Crowded With Refugees.

DULUTH, Sept. 6.—There are over 1,000 destitute refugees from the Hinckley and Sandstone fires now in Duluth. Over \$81,000 has been raised for relief and food. Clothing and lumber are being donated liberally.

The relief society yesterday sent 100 of the unfortunates to friends and relatives in other cities. One sad feature of the catastrophe is the large number of cattle, horses, sheep and hogs, as well as fowls, that miraculously escaped the flames and are now slowly dying from hunger.

Generous Jim Hill.

ST. PAUL, Sept. 6.—Subscription for the fire sufferers jumped up rapidly today. The first came from President J. Hill of the Great Northern railway and was for \$5,000. Accompanying this was another \$5,000 from President Hill's associates in the Great Northern. Altogether the money contributions will aggregate about \$25,000. Minneapolis has already raised \$12,000 and is rapidly increasing the amount, and Duluth has a fund of \$10,000.

Fire in Michigan.

ISHPEMING, Sept. 6.—This city is again enveloped in smoke, fires in the forests having started afresh. The damage is confined to crops and timber as the fire is some distance from the settlement. Reports from lumber towns west of here say all are safe as yet, but the danger is by no means over. Hundreds of men are still fighting the flames throughout the upper Peninsula.

Long Lived Russians.

It has long been a well established fact that abnormal longevity is more common among the Russians than among any other of the European nations. From an official report collated from well authenticated local registers it now appears that the government of Kiev takes the first place of all Russian provinces in this respect. During last year, it is officially stated, there were 14 centenarian deaths registered in that government. In the city of Kiev one man died aged 110 years, while within the suburban circle two women died aged respectively 102 and 104 years.

In Berdichev two men reached the respective ages of 101 and 114 years. In Vasilkov another patriarch died in his one hundred and fifteenth year. In the same district there died a Jewess aged 105; in Sventigodolka, a man of 110 years; in Tarascha, another of 105; in Uman, two men aged respectively 106 and 102 years; in Radomyzyl, a Jew aged 107 and a Christian aged 103, and lastly, a man of 105 years died at Tcherkassy. Here are 14 persons, dying within the same year and within the limits of one district, whose united ages amount to 1,489 years. According to the Saratov journals there is still living in that government an ancient veteran of the first Napoleon's army, formerly Lieutenant Savin, and since 1812 known as Nicolai Alexandrovitch Savin, who has celebrated 126 birthdays.—London News.

What is the Cause?

A young woman who is not a spiritualist looked up the other day to see the photograph of a deceased friend on the mantelpiece oscillating to and fro. At first she thought the motion was caused by the wind, but it continued with such absolute regularity that she finally rose and closed doors and windows, which made not the slightest difference. After an hour or two the picture ceased vibrating, and a lamp and a pile of books on a table took up the same motion and kept it up all day and all the next day.

Since then, a week ago, the looking glass attached to her bureau has swayed slightly at intervals. The movement is slight, but sufficient to be plainly seen, and in the case of the mirror the objects reflected seem to dance slightly up and down as a consequence of its motion. The house and street on which it is situated in a suburban town were absolutely quiet when the movements began, and there was no visible nor conjecturable cause for the phenomenon, and the young woman argues, not unreasonably, that there is no conceivable reason for a spirit to jiggle the furniture. But the facts remain, and facts are stubborn things.—Philadelphia Press.

In Twenty Years.

Twenty years of age is young, and yet, while the school and college graduates of today have been growing to maturity, many important events have taken place, and great changes witnessed. In 1876, the nation's Centennial was fifty celebrated by the great exposition at Philadelphia, and Colorado was admitted to the union, taking the title of "The Centennial State." Alexander Graham Bell exhibited his first successful telephone to a number of scientists in 1877. Thomas A. Edison discovered in 1878 a method of dividing the electric current which made it available for house-lighting. In 1878, gold was sold at par in Wall street, New York for the first time since 1890. President Garfield was murdered by Guitau in 1881. The suspension bridge between New York and Brooklyn was opened for travel in 1883. The Washington monument was finished and dedicated in 1886. The greatest World's Fair in history was held at Chicago in 1893. The grand railway systems of the west have received their development in that period of two decades. In that period the grand Burlington Route has progressed from a road of 1,500 miles to cover the larger-portion of ten western states with 7,000 miles of splendidly equipped railroad, affording the traveler who desires to visit any important city west of Chicago, unrivaled facilities. For time tables, maps and tickets apply to any agent of the Burlington or connecting lines, or address W. J. C. Kenyon, Gen. Pass. Agent, St. Paul, Minn.
