CAREY-COFFEY

Married at Helena Last Wednes-
day—Take Wedding Trip to
the Coast.

Helena Record: The marriage of Miss Jennie C. Coffey, oldest daughter of Mr. and Mrs. John Coffey, and Mr. John C. Carey, took place Wednesday morning at the Cathedral of the Sacred Heart. The church was beautifully trimmed with potted plants and vines and was filled with the friends of the bride and groom. Promptly at 8 o'clock the bridal party entered the church to the strains of the wedding march from Lohengrin. Miss Elizabeth Coffey, sister of the bride, as bridesmaid, preceded the bride, who came in on the arm of her father who was met at the steps by the groom, who was attended by William Jacobs. The ceremony was performed by Rev. Father Day.

The bride wore a gown of white crepe de chine over white taffeta silk and carried a bouquet of white roses and maidenhair fern; she wore a veil and wreath of orange blossoms in her hair. The bridesmaid wore a brown suit and hat to match. As the bridal party left the church the organ pealed Mendelssohn's wedding march.

At the home of the bride's parents on Boulder avenue a wedding dinner was served to about 60 of

their friends. The parlors and dining room were decorated with roses and carnations.

Immediately after the dinner the newly married couple left in a shower of rice for the coast, after which they will return to Roundup, their future home.

Mr. and Mrs. Carey received many exquisite gifts of silver, cut glass and china from friends in Helena and other parts of the country.

Mrs. Carey has lived in Helena all her life and is one of the prettiest and most attractive of the Helena girls.

Mr. Carey lived in Helena for two years, but is now in business at Roundup, Mont. He has many warm friends in Helena.

Before going to Roundup, Mr. Carey was engaged as bookkeeper in the Union Bank & Trust company at Helena, which place he left to take a position as head bookkeeper for F. M. Wall & Co. Mr. Carey was born in Wilmington, Ill. The young couple returned to Roundup Sunday morning.

T. A. MARLOW HERE

Pres. of National Bank of Montana
and Director of National Bank
of Roundup here.

T. A. Marlow, president of the National Bank of Montana of Helena and a director of the First National Bank of Roundup, came in on Monday's evening train from Helena to take a look at the much-talked-of "Queen City of the Musselshell."

This was Mr. Marlow's first visit to Roundup and he was most agreeably surprised at the substantial character of the town as well as its size, which he considered marvelous considering the short time it has been in existence.

While here Mr. Marlow was shown the mines of the Republic Coal Co. and also the properties of the Roundup Coal Mining Company, and after viewing the splendid resources, both mineral and agricultural, which Roundup has at its very doors, he declared himself as having unlimited faith in the future growth of the city.

Mr. Marlow is a prominent figure in Montana financial and political circles, and the fact that he is connected with the First National Bank of Roundup gives that institution a high standing in the banking world. Mr. Marlow left again for Helena Wednesday morning.

EAGLES ORGANIZE NEXT MONDAY

Grand Treasurer McRae Will Be Here
Monday to Organize a Local
Aerie of Eagles.

J. W. Hall, who has been devoting considerable of his time the past month in an endeavor to have an Aerie of Eagles established in Roundup, received word Tuesday from Finley McRae, grand treasurer F. O. E. stating that he would be in Roundup next Monday evening to install the local aerie. The aerie here will start out with a membership of almost a hundred. Every member in good standing and those whose names are on the charter list are requested to be present at the new skating rink Monday evening.

In connection with the organization of this order here preparations are being made for a big free dance and supper next Tuesday evening; the night after the organization, to which everybody is invited.

H. E. Marshall, the big Musselshell Valley Merchant with stores at this place, Harlowton and Martinsdale, was in town Tuesday and Wednesday in business in connection with the building of his new store. He left for his home at Martinsdale yesterday morning.

Percy Koerner returned Wednesday morning from a visit to his home in Langdon, N. D. He was accompanied by Messrs. Dooley and Matthews, two young men from his home town, who we understand will take up land here and will become permanent citizens of Fergus county.

Miles City is to have a new C. M. and St. P. depot, work on which is to commence at once according to H. B. Earling, superintendent of the road. The dimensions will be in the neighborhood of 175x22 feet, height one story, the style ornamental, material concrete blocks to the height of about the middle of the windows, above that pressed brick of a light color. The building will contain ladies and gentlemen waiting rooms, lunch counter, dining room, baggage and express rooms. The platform will be of brick. This is about all that can be said of the proposed building at this time, but Miles City people may be assured that the completed structure will be a pleasure to the eye and a credit to the town.

NEW PLAN

Commissioner Bennett Suggests a
New Classification of Public
Lands in the United States

In his annual report for the last year Commissioner Fred Bennett of the general land office, recommends the withdrawal from entry of all public lands which may be irrigated which are now capable of being utilized for homes. On that point he says:

"The proper step to take would be to classify the lands of the United States in order to ascertain what public lands, which in their present condition are incapable of affording a home, are susceptible for irrigation to a cost even much greater than that now entertained by the reclamation service, and to withdraw these lands from entry awaiting the time when they can be irrigated by made homes either under the United States government or under the Carey act. It will be only comparatively few years before an irrigation project which will cost as high as \$200 an acre is considered practicable, the market for the land justifying such an expenditure. No one can be hurt by such a withdrawal, for desert land which cannot be reclaimed by the individual effort of a settler can never become a home until water is brought to it by the government or state or by the expenditure of vast sums by private enterprises."

Mr. Bennett says the land office has recommended that suits be brought on timber claims aggregating \$377,510.

"There were secured," he added, "234 indictments for fraud, which resulted in 63 convictions and 60 acquittals, the remaining cases not yet having been tried. Two thousand eight hundred and eighty-five entries were cancelled because of adverse reports by special agents. By reason of individuals there have been recovered from fraudulent entry during the fiscal year 1907-8, a total of 384,600 acres, exclusive of many relinquishments."

The total receipts of the office of the year were 12,715,709, an increase over the previous year of \$1,162,581.

The total area of land originally entered during the year is 19,090,366 acres, a decrease of 1,907,209 acres as compared with 1907. The total area upon which final proof was made is 8,068,044 acres.

Attorney Carl Thompson was a Melstone visitor Sunday.
