CLEVER AD BY THE ST. PAUL

Has Big Map of Montana Showing Plowman Turning Furrows of Dollars.

Of the many advertisements of Montana which have during the past few months attracted no little attention in eastern periodicals and daily newspapers of large circulation one deserving special attention is that of the Chicago, Milwaukee & St. Paul railroad. The background for the ad. is a map of the country pierced by the Pacific coast extension of the St. Paul. Owing to the arrangement of the figures in the drawing, the state of Montana, and it is labeled in big black letters, forms the largest part of the map which may be seen.

A giant is ploughing right across the state. The furrow which he is following is begun in the southern part of the commonwealth, and is headed towards Lewistown. Instead of a neatly turned strip of dirt, the plough has left a heap of dollars. The inner edge of the furrow shows plainly, and beneath the ground looks to be formed, not of earth, but of dollars one piled on top of the other and edge to edge.

The point of the ploughshare is in the vicinity of Harlowton, and the hind feet of the giant's team are on the north bank of the Missouri river beyond Lewistown. Over the ploughman's left shoulder can be seen the Pacific ocean, Tacoma and Seattle. Running at right angles to the beam of the plow is the extension, with all stations of present importance between Missoula and Lemmon, South Dakota, in big print and in plain sight. The name of Butte is printed in even larger capital letters.

This is only one of many advertisements of this state and of the northwest which are expected to bring the largest influx of settlers and homeseekers during the coming year that this section has ever seen.

TO ELECT OFFICERS

Commercial Club to Have Annual Election of Officers Next Tuesday.

Among the matters of importance to come up before the regular meeting of the Commercial Club of Roundup to be held next Tuesday evening is that of the annual election of officers. A full attendance is desired and every member should make it a point to be present.

The general impression seems to be that present set of officers of that organization is an excellent one, and will without a doubt be retained for another year.

"SHORTY" OPENS CAFE

Ralph Hines Opens Merchants' Cafe in Fraser Building.

Ralph Hines, familiarly known as "Shorty" erstwhile proprietor and chef of the Lone Star Restaurant, has opened a new eating house in the Fraser building on First Street east which is to be known as the Merchants' Cafe. The building has been neatly arranged inside for a restaurant, and, as "Shorty" has the reputation of being a chef of no mean ability he will no doubt experience a lively business.

The Record still has a number of copies of the big souvenir holiday edition left. Get one to send to the folks back east. Fifteen cents a copy, two for a quarter.

The best place to get your pianos is the Art Music Store. Lewistown.

MOUNTAINEERS ORGANIZE

Local Cabin of Mountaineers Organized With 65 Charter Members.

A local cabin of the Fraternal Order of Mountaineers was organized here Monday evening with sixty-five charter members, this establishing a record for the number of names on the charter list of any cabin in the state in towns much larger than Roundup, and comes within fifteen members of the Anaconda cabin when it was first organized. Grand Chief Mountaineer Pease, who has been in Roundup several weeks in the interest of the order, was highly pleased with the results displayed in this new order by the members was a matter of much comment by him.

The following is a list of the officers chosen at the meeting for the ensuing year, being installed the same evening by Mr. Pease:

B. F. Bruckert, Past Chief Mountaineer.
F. C. Martin, Chief Mountaineer.
A. L. Haight, Vice Chief Mountaineer.
J. R. Carey, Secretary.
C. R. Cheney, Treasurer.
Mrs. B. F. Bruckert, Chapel.
Mrs. A. L. Haight, Lady Diana
Mrs. A. T. Miller, Lady Almoner
Miss Rachel Johnston, Lady Guide.

Arthur Wilson, Guide
Herman Grimmert, Guard
Ferdinand Klokow, Sentry
Board of Trustees—G. E. O'Neil, A. T. Miller, Dr. Welsh.

After the installation of the officers dancing was indulged in until midnight and a very pleasant social time spent by the newly made brother and sister Mountaineers. The Cabin will meet every first and third Monday in the month, and the new lodge hall of Bushnell & Thompson is now being negotiated for as the regular meeting place.

ELOPEMENT NIPPED

Would-Be Lochinvar Now Languishes in the County Bastille.

Lewistown Daily News: Kid Edwards, a prize fighter, and a young girl of Lewistown, whose name The News has been requested not to publish, were stopped by a deputy sheriff at Harlowton from eloping Friday.

The girl's disappearance was noticed by her parents Friday morning, and upon inquiry found she had run away with this fellow Edwards.

The sheriff at Harlowton was notified, and stopped them at that place. Under Sheriff Tullock left on the noon train Friday and returned that evening with the couple.

The girl is under age, and the feeling against Edwards, who has no visible means of support, ran high. He is being held at the county jail awaiting the movements of the girl's parents.

Notice of Election.

A special meeting of school district number 55, of Fergus county, Montana, for the purpose of instruction and granting authority to the school trustees, to sell the old school house. The polls will be open between the hours of 2 o'clock and 6 of the afternoon of Saturday, January 16th, 1909.

J. M. Pyles,
Ed Marcyes,
F. Robinson,
Trustees.

Date this 17th day of December 1908.

Claud Cummings is spending the Holidays with his home people in Bozeman.

ST. PAUL BUYS COAL FIELDS

Milwaukee Railroad Buys 6000 Acres of Coal Land in Vicinity of Roundup.

President A. J. Earling of the Chicago, Milwaukee & St. Paul announced recently that by the purchase of from 5,000 to 6,000 acres of coal fields in Yellowstone county south and east of Roundup, that railroad will save more than a million dollars annually in fuel in the operation of its Pacific coast extension.

The coal, which was long thought to be worthless, has been discovered to be just as good as that obtained in Illinois and the situation of the fields will save a haul of a thousand miles. The vein will produce at least 8,000 tons to the acre.

DISCUSS NEW COUNTY

Commercial Club Committee Confers With Rep. Thompson on County Division.

The Commercial Club committee on county division had a conference Thursday of last week with Rufus Thompson, representative in the state legislature from this county, to discuss the proposed new Musselshell county, which is to be formed from portions of Fergus and Yellowstone counties. Altho having large business interests in Lewistown he was forced to admit that the proposition of forming a new county is a meritorious one, and should it be defeated, would greatly retard the growth and development of this section. He was very favorably impressed with the proportions of the proposed new county.

Mr. Thompson was prevailed upon to bring the matter before the legislature, but did not express himself definitely on this subject which is somewhat of a delicate one in his position. It is believed, however, that out of respect to this section which claims Mr. Thompson as a resident more or less, he will father the bill providing for the desired change.
