

TO GET \$4,059 IN CASH FROM YELLOWSTONE

BRITTON MAKES STATEMENT

Candidate for Alderman in First Ward Gives Reason for Candidacy.

H. O. Britton, Citizens' Candidate for alderman from the first ward, has given the following statement to the Record regarding the candidacy:

"Having been named by the residents of the first ward as a candidate for alderman, without my knowledge, I feel in duty bound to make the run. I have been a resident of Roundup for over two years, during which time I have been president and manager of Newton Lumber Co., which I was instrumental in organizing, and recently was elected a member of the board of directors of the Citizens State Bank. My interests are all in Roundup and I have the welfare of the city at heart. I am for a clean municipal government and for a better and greater Roundup. If it is the wish of the residents of the First Ward to have me as their alderman, I promise to give all questions coming up regarding the city due justice and consideration."

ED SAYRE WITHDRAWS

Makes Statement That He Does Not Desire to Be Candidate for School Trustee.

To the Editor of The Roundup Record, and the General Public:

You will please take notice that I am not a candidate for trustee of school district No. 55 of Fergus county, now Musselshell county, and that at the election to be held in the school house in Roundup I shall not accept any votes. Voter given to me will be given in vain for the reason that if elected I would refuse to serve.

Signed:
Ed. Sayre.

DECREASE IN REGISTRATION

208 Voters Register Against 255 Last Year--Books Open Again Tomorrow.

The registration for the city election to be held next Monday is considerably less than last year, a matter which may, in a measure, be accounted for by the fact that less interest is being taken as no mayor is to be elected. When the period of registration closed Tuesday evening, there were registered last 208 voters against 255 last year, a falling off of 47. However, registry Agent McVay will again open his books tomorrow for corrections and the registration of such voters as were prevented from registering during the regular period by reason of sickness or absence from the city, and it is possible that the number will be considerably increased. Interest is increasing, and about Monday night a good many will be sorry that they did not register.

Commissioners Arrive at Settlement With Yellowstone.

Musselshell the First County to Start Out Without a Cent of Indebtedness.

Musselshell county has now absolved itself of all financial ties with the three counties from parts of which it is comprised. The settlements made with Fergus and Meagher counties have already been mentioned in these columns. This week the boards of county commissioners of Musselshell and Yellowstone met in Billings to apportion the indebtedness and wealth of Yellowstone county. After being in joint session since Monday a settlement was finally reached according to the terms of which Musselshell county is to receive from Yellowstone \$4,059.08 in cash. Judge Pierson, a member of the joint commission, suggested this as a means of settlement after a deadlock seemed certain. The Musselshell county board felt as if they were entitled to about \$8,000, while the Yellowstone trio stood pat for an even break.

Commissioner Jenizen refused to sign the terms of settlement feeling that Musselshell county was not getting its pro rata share of the actual worth of the assets of Yellowstone county over and above the bonded indebtedness. The Yellowstone county board figured the assets of the county at \$237,000 and the indebtedness at \$210,000.

Musselshell county is the first new county in the state to embark on its own ship of state without a cent of indebtedness to hinder its progress. Instead of this it starts out with a nice little cash balance of over \$4,200 in the bank. This is entirely due to the ability of the board in driving a bargain.

Chairman Klein, County Attorney O'Neil and Deputy Clerk and Recorder Carleton returned from Billings in an auto last night, while Commissioners Jenizen and Neace returned to their respective homes direct from the Sugar City.

BOARD OF EXAMINERS

Examiners of Applicants for Positions in Coal Mines Appointed by Judge Pierson.

On Monday Judge Geo. W. Pierson of this district, announced the appointment of the following as members of the board of examiners of applicants for positions in and about coal mines:

James White, Jr., Klein.
Geo. N. Griffin, Roundup.
Joseph B. McDermott, Helena.

Mr. McDermott, who is state mine inspector, acts as ex officio chairman of this board. The board is appointed to serve for a period of two years, and its jurisdiction will include all of Musselshell county.

Clerk of the District Court Jarrett was notified of the appointments, and the appointees will be required to file their oaths of office with him.

JEALOUS.

—Robinson in New York Tribune.

CITY ELECTION IS DRAWING NEAR

Seven Candidates in the Three Wards for Aldermanic Honors -- Election Monday.

Monday, April 3rd, the citizens of Roundup will elect three new aldermen, one from each ward, to serve on the city council for a term of two years. Two complete tickets have been placed in the field, while in the First ward an independent candidate is also running in addition to the regular tickets. The tickets are as follows:

Citizens' Ticket.

H. O. Britton, First Ward.
W. J. Nix, Second Ward.
M. R. Swanson, Third Ward.

Union Labor Ticket.

John Dunn, First Ward.
Q. L. Sparks, Second Ward.
E. J. Rose, Third Ward.

Taxpayer's Ticket.

M. H. Wall, First Ward.

JOB OF TRANSCRIBING RECORDS LET

W. W. Berry and Frank Carleton Are Awarded the Contract for Transcribing Records.

Representative W. W. Berry, of Missoula, and Frank Carleton, deputy clerk and recorder, were awarded the contract of transcribing the records of Fergus, Meagher and Yellowstone counties, by the board of county commissioners at their meeting held last Friday. According to the terms of the contract entered into with the above parties, Musselshell county will pay six cents per folio of one hundred words and four and one half cents for indexing titles. There is no method by which an accurate figure can be arrived at regarding the cost of the whole job of transcribing the records at this time. Various estimates have been made, however, based principally on guesswork and the cost of similar work in other counties, according to which the cost will come somewhere between \$15,000 and \$20,000.

The work of transcribing the records cannot be commenced until the blank books come, which will probably be in a week or so. A large force of stenographers will be employed immediately by Messrs. Berry and Carleton, and upon the arrival of the books, the work will be pushed with all possible speed. It is thought that the job will require about six months to complete.

Ten bids for the job were opened by the commissioners. Two of these failed to enclose the required certified check for \$500, and two others which were for the photographic process were ruled out by an adverse opinion of the attorney general.

MINERS GO TO WORK AT MINE NO. 2

Settlement Between Operators and Miners Is in Sight.

Another Conference Being Held in Billings This Week to Take Up Matter Again.

Mine No. 2 of the Republic Coal Company resumed operations, the miners having gone back to work Thursday morning with the understanding that a settlement would be arrived at shortly. A telegram was received by John Dunn, president of the No. 3 local and a member of the executive board of the Montana district of the Mine Workers of America, from President Lewis advising him to instruct the men to return to work pending settlement of the difficulties between the operators and miners. The discharged men, over whom the difficulty arose, are given fifteen days in which to return to work.

John Dunn went to Billings yesterday where a meeting of the executive board is being held today and tomorrow. It is not known here definitely what turn the matter has taken, or upon what terms a settlement will be arrived at. The general impression is that the settlement, if any is reached, will be favorable to the miners, as the fact that they have been instructed to return to work would indicate.

REFUSES SACK OF REAL GOLD

Rancher Tendered \$2,300 in Gold Which He Refuses--Would Soon-er Have Ranch.

Last Saturday S. W. Raddue accompanied by Sheriff Fisco, both heavily armed, went out to D. K. Anderson ranch at the head of Pole creek with a money sack containing \$2,300 in real gold. The money was tendered to Mr. Anderson as final payment for his ranch which Mr. Raddue purchased last October, but which he now refuses to give possession of. Several checks and bank drafts had been sent to Mr. Anderson for the amount, but they were in every instance returned, the above procedure being finally decided upon as the last attempt to secure an amicable settlement. For two months since the first of January the \$2,300 has floated around between the Anderson ranch, the First National Bank of this place and a bank in Delevan, Minn., without finding anybody that would claim ownership. Nobody apparently wanted the money, in direct variance with the accepted order of things of the present day.

The case will now be threshed out at the next term of district court, and it will then be decided who becomes the possessor of the ranch, and who is to reluctantly take the \$2,300 which now goes begging for a guardian.

Gentlemen how can you be so cruel as to let your wife do the washing when you can have it done for 7c. per pound at American Steam Laundry?

NEW BANK EX- AMINER HERE

Harry Yeager Makes His First Visit to Roundup in Capacity of Bank Examiner

Harry Yeager, of Lewistown, who was recently appointed national bank examiner of Montana, was in the city Tuesday on his first trip in the capacity of his new position. While here he was the recipient of the congratulations of his many friends, who are surely pleased to see him land the position, and there is no doubt in their minds that he will make good. He examined the First National Bank of Roundup, which he found in excellent condition.

After passing the civil service examination and receiving his appointment, Harry was offered a district including part of the state of Pennsylvania, but he could not forsake of Montana. His district includes the state of Montana, there being fifty-seven national banks which he will have to look after.

COAL LAND RESTORED

Billings Land Office Receives Plats of Survey for Two Townships in Bull Mt. Coal Field.

The register and receiver of the Billings land office have given notice that the plats of survey of four townships have been received in that office, and that on and after May 4th, 1911, at nine o'clock a. m., they will receive applications for entries of land in such townships. The townships are as follows:

Township 5 N.,	R. 32 E.,
Township 4 N.,	R. 33 E.,
Township 7 N.,	R. 27 E.,
Township 7 N.,	R. 29 E.

Two of these townships 7, range 27 and 29, are located in Musselshell county and are right in the heart of the Bull mountain coal field. These townships were not surveyed until last year, and being included in the coal field, were not open to entry.

FIND GOLD IN MEAGHER CO.

Barney Tierney, an Old Time Prospector Has struck it Rich with in Townsite of W. S. S.

Barney Tierney, one of the oldest and best known prospectors of the Belt mountains has struck it rich. Barney Tierney has been searching for gold for a good many years. Now he has it.

He struck a gold lead fully 100 feet wide within the townsite of White Sulphur Springs and a few hundred feet of the Springs hotel.

Assays are being made under the direction of Prof. O. C. Mortenson of Great Falls. Messrs Manger, Babcock and Cameron have found within four miles of White Sulphur Springs the largest and widest vein of manganese ore found in the northwest and identical with the Black Hawk and Castle mountains. So far as proved the vein is at least 25 feet wide and no wall on either side.
