

Local News.

FOR THE CAPITAL.—C. W. Turner, Esq., of this city, started for the capital on Monday for a short visit.

GO TO THE "WOODSHEDS" and get a Rum Punch when you visit the Capital, by your Carriage and Tobacco at D. R. BARKER'S, 2nd and 3rd streets.

THE VISITS OF THE COACH during the past week have been few and far between; but no one is to blame, unless it be the clerk of the weather, who has rendered staging almost impossible.

FINE MEATS.—Our butcher shops present quite an attractive appearance, every hook, nook and corner being filled with the choicest meats for the holidays.

ADDITIONAL SALARIES.—A memorial has been adopted by the Legislature asking Congress to increase the Judges' salaries to \$5,000, and the Secretary to \$4,000 per annum.

THE HOLIDAYS are quietly passing off in Bozeman without any unusual demonstration. Several of the boys have imbibed more than a reasonable allowance of the over-jovial, but no fights are noted, except one between two dusky representatives of the fifteenth amendment, which terminated without serious results.

THE "WOODSHED SALOON" has removed to the new brick, where fine liquors and good cheer prevail.

THE VALLEY in the more secluded parts, is now filled with elk, deer and antelope, which have been driven down from the mountains by the severity of the late storms; but they are reasonably scarce, as few care to tunnel through the snow-drifts to capture them.

TEMPORARY SCREENING.—Drew's saw-mill in Middle Creek canyon, has suspended operations for awhile, owing to the ice gorge in the mill-race; but its enterprising proprietor promises his patrons to again be in operation the "first thaw"—rather an indefinite promise however.

FOR HOT DRINK GO TO THE "WOODSHED."

GENTLE REMINDER.—All persons indebted to us are notified to come forward and make payment. All of our outstanding bills and accounts must be settled on or before the first day of January. A word to the wise is sufficient. BLUM & ENCESSER.

FLATHEAD PASS.—The country around the mouth of the Flathead Pass seems to be deeply enveloped in snow, and the owners of stock in that vicinity are very uneasy in consequence. Their supply of straw and hay is said to be limited. This is the first winter since the valley's settlement that the snow has been so deep for stock to subsist on the wild grass in that section.

NOTICE.—All persons indebted to the undersigned are hereby notified that payment is expected on or before the first day of January. This notice is intended to apply to every one, and accounts not settled by that time will be placed in the hands of an attorney for collection. F. F. FRIDLEY.

SOL KELLER BARBOUR dealt over the bar at the Woodbine Saloon.

THE MAIL from Virginia city to this place has not come direct for a week or two past, on account of the deep snow on the divides. We believe an attempt has been made to send it via Helena, but the irregularity of its arrival at this place, satisfies us that the attempt has been very unsuccessful.

WE UNDERSTAND that, as soon as the road becomes sufficiently free from snow to admit of travel, Mr. Galien intends again changing the Bozeman and Virginia stage route back to the old line direct, via McDonald's ranch and Lower Hot Spring creek.

A WARNING.—Notice is hereby given that I will not be responsible for any debts contracted or bills purchased in my name, or the name of Condemning & Co., at the Mouth of the Musselshell, unless an order is given by me for the same. L. M. BLACK.

AMPUTATIONS.—A. J. Hunter yesterday amputated three toes of a teamster, whose name we failed to obtain, considered necessary by being severely frozen.

THE PARTY at Hamilton was largely attended by the party going people of Bozeman. A large number of sleighs, bearing over the snow-mantled road many a happy couple, left our city in the afternoon of Monday. Dancing commenced at an early hour and continued until 10 A. M. on the following day.

HOLIDAY GOODS.—A large and attractive stock of Holiday Presents, Toys, Stationery, Cakes, Nuts, Fancy Goods, etc., etc., especially ordered for the coming Christmas Holidays, just received at G. M. LEVY'S.

MOVEMENT FOR TIMBER LANDS.—H. N. Maguire, of the Bozeman Land Agency, informs us that a number of "timber ranches" have been located in the last few days. Being, for the most part, outside the lines of survey, they are secured under the local law.

A DANGEROUS PREVENTIVE MEASURE.—Some of our citizens whose chickens-roosts have lately been feloniously visited have set "guntraps," we are told, the intention of which is to prevent future lawless interlopers with a plait more or less of bird-shot. The result may be to transfer the cost of maintaining these public nuisances from the general to the hospital fund.

NOTICE.—All persons indebted to B. F. McDonald are requested to come forward and settle. His accounts are in the hands of Wm. B. Randolph, with whom settlement will be made.

A SEVERE TEST.—A number of our ranchmen invested extensively in small fruits of the cultivated varieties last spring and summer. Should they come safely through this trying winter there will be no further doubts about the susceptibility of our climate and soil to produce all the fruits indigenous to the temperate zone.

LEGAL ADVERTISING.—A bill introduced in the House by Hon. E. P. Vinton, of this county, to regulate the price of printing legal advertisements, was put on its third reading and passed by yeas 22 to nays 10. The bill makes one hundred words a square, for which it allows \$3 for the first insertion, making a reduction of over one-half.

HOLIDAY GOODS! A Complete Stock of TOYS and a large assortment of Goods FOR HOLIDAY PRESENTS. Just received at HOLZMAN & BRO'S.

Under this heading in our last issue appeared an article, in relation to the reported action of Mr. J. V. Bogert, the grain contractor of Fort Ellis, in connection with Messrs. Willson & Rich, merchants of this place. The article was based upon a current rumor which has prevailed in the community for some time past. Mr. Bogert on Thursday last called upon us, and stated that the report was not correct, that he had promptly paid our ranchmen for their grain when delivered, and in many cases before it was delivered; that only during about two weeks' time, by some failure of proper connection, was he out of funds. Mr. Bogert also demanded a retraction of the article, which we very properly, under the circumstances refused to make. Since that time we have received the following peremptory communication from the gentleman:

BOZEMAN, Dec. 21st, 1871. To the Editor, Proprietor & Publishers, of the "AVANT COURIER" of Bozeman, M. T. Sir:—The article headed "Coercion" in your issue of the 14th inst., containing wholly untrue and unfounded facts, I demand, as my right, its retraction in your next issue.

Mr. Bogert might have spared himself some unnecessary trouble in the super-scription. There is but one editor, publisher and proprietor of this paper, and every article published as original is written by the person whose name appears as such. This paper is not run by outside editors or in the interest of any particular individual. In reply to Mr. Bogert's peremptory demand we have this to say: We published the article headed "Coercion" upon a report that has been current in our community for more than a month past, and if true, it is an injustice to our farmers; if not true, it is certainly an injustice to Mr. Bogert to circulate such a report, and a wrong to Messrs. Willson & Rich, who have maintained a reputation for honorable, fair dealing in our country. We made no accusation against Mr. Bogert, but expressed the hope that the report was not true. We therefore have nothing to retract. We have no personal feeling in this matter, other than the interest of the people whom we represent. We entertain no malice towards one or more of you, but published the article in what we considered a regular line of duty. As to the truth or falsity of the report, we have not committed ourselves as yet; but as to the foundation of the article—the report—we refer Mr. Bogert to any business man of Bozeman. We understand that Mr. Bogert is taking steps to contradict this report, by securing the names of all (?) those who have delivered grain to him to a paper setting forth that they had been promptly paid. We are certainly anxious as to the result. We can scarcely believe that the good people of this country, who have always stood so high for honesty and veracity, would circulate a report, without reasonable cause, calculated to affect the character and good standing of a stranger coming among them.

REMOVAL OF THE LAND AGENCY.—Mr. Land, records, etc., have been removed to the law office of Page & Coleman, corner Main and Bozeman streets, where I will hereafter be found. H. N. MAGUIRE.

ALMOST A FIRE.—The handsome residence of Mr. Odell, almost opposite this office, came very near being the scene of a conflagration on Tuesday, about noon. On account of a defective fire, the ceiling and second floor was ignited, and began to assume a destructive shape, when it was duly discovered by Mrs. Odell and extinguished. People should be careful in regard to their flues and stove pipes in cold weather, when warm fires are a necessity.

THE UNDERSIGNED will pay the highest cash price for County Warrants. Parties will consult their own interest by calling before selling elsewhere. L. M. BLACK.

THESE SLING ON HAND at Maguire's Bozeman Land Agency will have plates furnished upon without charge.

THE NEW YEAR will be ushered in by the people of Bozeman by a grand ball at the hall of Messrs. Odell & Chapman. It will be a fitting close of the holidays, which have not been characterized by a single party. Unusual efforts are being made to render the occasion a proper celebration of the advent of the New Year, and everybody is expected to attend. A good supper will be prepared and served at the Guy House.

OPEN HOUSES.—We understand that many of our citizens will keep open houses on Monday to receive their numerous friends and wish them a "Happy New Year." The printing office is always open, but should some of our numerous subscribers who have promised us divers sacks of XXX make the connection before that time, we will promise all who may call a fresh pot of paste and a cheery greeting.

PRELIMINARY EXAMINATION of this case has been concluded by the final commitment of the accused for trial, but having been petitioned for and refused, Geo. S. Coleman was retained for the prosecution on the preliminary examination by Chinese friends of the murdered Mongolian. It seems that the murdered Chinese had many friendly relations among his countrymen, as is thus substantially demonstrated. It is understood however, that Mr. Coleman was only employed on the preliminary examination. Owing to the length of the case, and the conflicting character of the testimony, as evinced on the preliminary hearing, it is safe to predict that this will prove the most tedious and expensive criminal case yet conducted for trial in the District Court of this county.

BLANKS! BLANKS!! We have on hand and for sale blank Claim Deeds, Warranty Deeds, Mortgages, Summons, Executions, etc., neatly printed and cheap. Will do for any county in the Territory. Sold in lots of from one to ten thousand.

THE WEATHER AND ITS EFFECTS.—We are now undergoing the severest winter ordeal that has visited Montana since its settlement. The snow is from twelve to eighteen inches deep in the valley, consequently grass cannot be obtained for the numerous large herds of cattle and horses that are scattered over our extensive valley. The result is that they have commenced dying rapidly, and unless a favorable change in the weather takes place soon, the herds will be sadly decimated before spring. This unusually severe winter is not confined to this Territory, but extends throughout the country. We learn from our Dakota exchanges that stock in that Territory is also perishing.

NEW ARRIVAL.—FRESH ORANGES, PEACHES, NUTS, AND CANDIES, BOOTH'S OYSTERS, SMOKING TOBACCO, And a large stock of FINE CIGARS. S. L. HOLZMAN & BRO.

AGAIN BLOCKADED.—The road from this place to the Crow Agency is again blocked by snow, and has been during the past ten days. Col. Black sent over three trains about two weeks ago loaded with flour and supplies for the Indians, which were caught on the other side of the range by the snow storm, and have not been able to return. The supplies were evidently sent in the nick of time; they were started over at the earliest moment when the range became passable after the first severe storm which rendered transportation impossible, and it appears they just managed to get into the Agency, when the second heavy fall of snow again rendered the range impossible to pass. The trains sent out by Col. Black were O'Rea's mule train, which was expected to return in a few days; Coak's bull train, and a bull train belonging to himself. Nothing has been heard from them, and fears are entertained for the safety of the stock, as there is no hay or grain to feed them at the Agency, and the presumption is that the snow is so deep on the valley that grass cannot be obtained.

NOTICE.—The accounts of Robert H. Lemon, in and about his business at Fort Ellis, having been placed in my hands for collection, all persons indebted to him will please call at our office in the Court House Building, Bozeman, City at once and arrange the same, or costs will accrue. December 6, 1871. STREET & TURNER, Attorneys at Law.

FIRST OF JANUARY.—The manner of doing business in Bozeman is more like that of the States than probably any other point in the Territory. Instead of bills being rendered weekly or monthly, as is the custom in the various western settlements of Montana, the business men of Bozeman have to wait as a general thing from six to twelve months for their money. Hence, the first of January is a day of bills to debtors, and is a day for a general settlement of all outstanding accounts. We hope all may be able to liquidate their liabilities, and commence the New Year under happy auspices.

\$50.00 REWARD! Lost, between the store of Willson & Rich and the bridge, A Medium Size Gold Watch. The finder will receive the above reward by leaving it at the store of W. Willson & Rich.

MAIL FACILITIES.—It is safe to say that our efficient Delegate, Hon. W. H. Claggett, will use every effort not only to increase mail facilities in this Territory, but will devote his attention to every other measure looking to the interests of his constituents. While our Territory is blessed with numerous mail routes, in their general distribution some sections have been badly neglected, and none more so than the Missouri valley settlement, in Meagher county, which is one of the most productive valleys in the Territory, and contains a population of industrious farmers, in number second alone to the Gallatin. At least three post offices should be established in that valley. We would suggest to Mr. J. E. Fox and other prominent men of that valley to get up petitions in regard to the establishment of post offices at suitable places in the valley, &c., and send the same to Mr. Claggett, who will certainly give the matter his attention.

DISTRICT FAIR ASSOCIATION.—A meeting of stockholders of this Association is called at Gallatin City, on Sunday, the 31st inst., for the purpose of electing officers for the ensuing year. We hope there will be a good attendance, and that good energetic men, identified personally in the interest, development and prosperity of the counties comprising the District, will be elected to office. We understand that a contract has been let to complete all the buildings necessary for the holding of a first class Fair, and it is to be hoped that the Association will not relax in the effort to make the Fair of '72 an honor to our country and the District.

STAR SPANGLED BANNER.—This favorite family paper takes its 100,000 readers by surprise in the issue for January, 1872, just received. It is enlarged to same size as New York Ledger, and appears in an entire new dress, elegant new heading, border, type, etc. It contains one-half more reading than formerly, and is greatly improved in every respect. This number contains four splendid stories, poetry, wit and wisdom, sketches, knowledge in a nut shell, money maker's mirror, children's department, health department, farm and farmer, cook's corners, ladies' boudoir, pen and scissors, club basket, and the "rogue's corner," a special feature of this excellent paper. One thousand awlinders, quills and hangers were named and exposed during 1871. The publishers of the "Banner" give a new and superb "Prang Chromo" and their large and first-class paper a whole year for only 75 cts. Try it. Copies can be sent at this office, or from any newsman, or by sending 75 cts. to the publishers, STAR SPANGLED BANNER, Hinesdale, N. H.

VIENNA CITY, December 30.—One of the burrs in the Silver Spring mill burst to-day, seriously injuring two men, Mead and Louis, but it could not be traced to any bad quality of the flour. The concert given by the ladies of this place last evening, for the benefit of the Episcopal Sunday School Christmas Tree, is said to have been a success. The weather is mild. It snowed a little during the day. On Monday, Hank Powers was quite severely burned yesterday morning while examining the flues of a furnace pan of grease, which took fire in the stove and threatened the destruction of the house. The Free Masons of this city are making arrangements for a grand festival to be held at their hall on the evening of St. John's day.

Bozeman Wholesale Market. CORNER 2ND AND 3RD STS. BOZEMAN, M. T. A. LAMME & CO. CURRICULATED WEEKLY BY THE HOUSE OF A. LAMME & CO., Bozeman, Feb. 28, 1871.

Our market reports we have no very important changes to make. There has been a small advance in the jobbing price of a very few of the leading staple groceries, but the retail prices are about the same. Holders of goods sent down to accommodate as many of our customers as possible by selling small lots to parties as cheap as they would job larger lots.

In the articles of sugar and coffee there has been an advance of from three to five cents in the jobbing price. Our main staple at present, which is flour, remains firm at our former quotations. The mills are grinding to their full capacity, and much of the flour would go to other markets but for the severe cold weather, severity of food on the roads, and the consequent difficulty of procuring transportation.
