BIGGEST AND BEST OF ALL.

J. J. STIPEK, Proprietor.

A LONG TRAMP

Carl F. Raupp of Tacoma arrived in Glendive last Friday morning. Mr. Raupp is attempting a feat of pedestrianism in a 3,000 mile walk from Tacoma to Chicago. At the start he was accompanied by two companions, but they fell by the wayside at Spokane. Each city reached is checked by the mayor, who affixes his signature to the documents carried by Raupp.

The walker left Tacoma without a cent and depends upon athletic exhibitions to furnish his means of support. Saturday evening he gave a boxing contest with a local man in the Jordan Hotel which was well attended. Mr. Raupp does not travel on Sunday, so he remained here till Monday before continuing his eastward tramp.

Large Audience Enjoys Old Favorite, "Kerry Gow"

Bernard Daly and an excellent company appeared at the Broadway theater last evening in the old favorite, "Kerry Gow," Joseph Murphy's famous play. The house was well filled and its pleasure was manifested by liberal applause. Mr. Daly's singing was the best feature, the old favorites being rendered in a manner to arouse the audience to the highest pitch of enthusiasm. The dancing by Miss Curtis and Anna McNaughton was also a very pleasant feature.

The play is always a favorite and the company with Daly is well able to produce it in a most satisfactory manner. The performance will be repeated this evening.—Anaconda Standard, Monday, March 2nd. At Glendive Opera House, Friday evening, March 6th. Seats on sale at Rivenes-Wester Hardware Co.

BUY BIG MONTANA RANCH.

Indianapolis Men Obtain Possession of 20,700 Acres Clarke Tract.

Referring to the purchase, recently closed, of the A. B. Clarke ranch in Custer county by W. H. Dye and others of Indianapolis, the "News" of that place says:

"The number of Indianapolis ranch owners has been increased by almost a dozen within the last few months. News from Miles City, Mont., that the deal is closed whereby William Holton Dye, of this city, has bought the famous A. B. Clarke ranch, means that Hugh McGowan, Harry Milligan, Thomas E. Spann, Clarence Stanley, Dr. O. G. Pfaff, Dr. R. L. Blakeman, Dr. H. O. Pantzer, R. W. Reed and Elmer W. Stout have become ranchmen. The men named, together with Dye, form the Tongue River Ranch Company, which has taken over the 20,700 acre Clarke ranch bought by Dye.

A. B. Clarke whose range horse sales were the largest events of the kind in the country, died within the last year, and his property in the irrigated district of central eastern Montana, was sold by the estate. Dye, who already had 96,000 acres of land leased in North Dakota bought the Clarke property at \$10 an acre for the irrigated and nonirrigated land.

The forming of the company to take over the property was done for the purpose of stocking the ranch with sheep and horses. Twenty thousand head of sheep and 100 head of horses will be bought. Several of the Indianapolis men interested have visited the property and others expect to spend their summer vacation there.—Miles City Journal.

Orino Laxative Fruit Syrup is a new remedy, an improvement on the laxatives of former years, as it does not gripe or nauseate and is pleasant to take. It is guaranteed. Glendive Drug Co.

COPPER CITY AGAIN ASTIR

Reopening of the Properties of the Amalgamated Company Gives Joy.

Butte, March 1.—The news for which Butte and Anaconda have been waiting for nearly six months came yesterday with the arrival of John D. Ryan, managing director of the Amalgamated Copper company, and tomorrow operations will be resumed in all of the properties of the company and of the Butte Coalition company. The smelter at Anaconda will commence the reduction of ores at once. In the mines of Butte and at the Washoe smelter at Anaconda men will be given employment as rapidly as application is made, until as large a number of men will be engaged in the great copper industry as during the most prosperous times of the camp, which was just before the curtailment order went into effect on September 12 of last year. At that time more than 10,000 men were employed in the mines of the Amalgamated Copper company, and nearly 3,000 in the smelter at Anaconda.

The resumption of operations will be to the capacity of the Washoe smelter and the Boston & Montana smelter at Great Falls. There will be no curtailment whatever, and how rapidly the output of the mines reaches the normal stage will depend only on the ability to secure skilled miners. The standard of efficiency of all men in the employ of the company will be much higher than ever before, and every man will be required to perform faithful work wherever employed.

Operation of the Washoe smelter to its full capacity, which is about 14,000,000 pounds of copper per month, will enable the North Butte and Butte Coalition properties to be operated to the extent which existed before curtailment. It will be only a short time before the smaller companies will resume operation, it being understood that the Washoe smelter will take all the custom ore that may be sent to it.

Billings Bombast Brazenly Beaten

After winning fourteen games straight, the Billings basket ball team made a trip to Glendive on Tuesday, and went down to defeat before the local team by a score of 33 to 20. It was a comparatively clean fought game, and showed to true advantage what a championship team Glendive possesses. Neal of Billings was referee of the first half, with Strain as umpire. In the second half the officials were reversed in position.

The halves were of twenty minutes each, and brought forth some vociferous rooting. A little jangling was indulged in as usual, but there was not enough of it to be taken into consideration.

After the game a dance held the attention of the large crowd for several hours. The boys realized a neat sum with which to further the inter-

ests of local basket ball lovers. Miles City is scheduled to be the next victim of the victorious local team.

The Glendive basket ball team went to Beach Friday last, and played a game at that place in the evening, clearly demonstrating for a second time their superiority over the local team by a score of 34 to 16. The hall, however, was too small for the players to work to the best advantage. The Glendive players were more than pleased with their treatment at Beach.

The basket ball teams of the Dawson and Custer County High Schools got together in a pretty contest at the Opera House on Saturday evening. The resulting score was a victory for the fast little local team by a figure of 14 to 4. The high school players are planning various other games.

WOLF POINT ITEMS

Well, here I be again with my tale of woe.

Vern Hubbard had the misfortune of drowning a team Monday while hauling a load of hay from the reservation to his ranch, about eight miles above this city.

Mr. Twible and Dr. Butler of Glendive passed thru this city Friday.

Mrs. Purdy spent a few days with Mrs. E. J. Fuller the first of the week.

H. J. Cusker was in this city on business Friday.

J. B. Randall, Morace Lund and Nels Hvim were in this city on Saturday last.

Jos. Pipal called on friends and relatives the last of the week.

Miss Eva Fuller visited with her parents on the south side the last of the week.

Vern Hubbard called on friends in this city Sunday.

Charles Wallace made a flying trip to the Kronkright ranch the last of the week, hunting cattle I guess.

Lee Burch and relatives were business callers in this city the last of the week.

The Misses Kronkright were visitors in this city a few days ago.

Mrs. A. L. Burch spent a few days at the Fuller ranch the last of the week. Mr. Thompson, Mrs. Fuller's father, is very ill.

Cactus.

Ruling for Health Officers

Helena, Feb. 28—In an opinion by Attorney General Galen today, the authority of the county health board to instruct its officers not to make investigations which necessitate traveling or other expenses, and also as to the authority of a member of the board to make inspection of probable unsanitary conditions are defined.

The board may establish reasonable rules which are subordinate to those of the state board. Whether such rules or orders are reasonable could only be determined by the particular facts of each case.

"Any member of the board has authority to make inquiry or inspection of alleged unsanitary conditions for the information of the board, but it seems to be the intention of the law that a quarantine should be established by the county health officer in accordance with the rules and regulations of the state board of health," said Mr. Galen. "It is probable that no particular rule could be made applicable in all counties."

NO CASE ON RECORD

There is no case on record of a cough or cold resulting in pneumonia or consumption after Foley's Honey and Tar has been taken, as it will stop your cough and break up your cold quickly. Refuse any but the genuine Foley's Honey and Tar in a yellow package. Contains no opiates and is safe and sure. Glendive Drug Co.

PATENT OFFICE IN SCANDAL

Proof That Government Men Have Sold Valuable Patent Office Secrets.

Washington, Feb. 27.—Three arrests here today brought to light a scandal in the patent office which has been under investigation since early February and which revolves around an invention valued at \$500,000.

The parties arrested are Ned W. Barton, third assistant examiner of the patent office; Henry W. Everding, a patent attorney of Philadelphia, and John A. Heany an inventor of York, Pa.

They have been indicted by the United States grand jury for conspiracy to defraud the government and for destroying public records.

The indictment charges that the three men "with an intent to steal and destroy" carried away from the patent office certain letters, specifications and amendments relating to patents and unlawfully and wilfully destroyed them.

Conspiracy Alleged.

The investigation was made on information that as a result of a conspiracy John A. Heany had been given a patent on an invention for manufacturing filaments and electrodes for electric incandescent lamps. The facts disclosed by the investigation were of such a character that they were presented to the grand jury. It is alleged that Barton, Heany and Everding conspired more than twenty of the largest electrical concerns in the country to get the same patent.

All of these concerns had filed applications for a patent, but from

of the charges would be proved. The indictments.

The indictments were brought under section 5403 of the Revised Statutes. They set forth that September 2, 1907, there was on file an application by Heany for a patent on an invention for manufacturing filaments and electrodes for electric incandescent and arc lamps. They were filed in the office January 19, 1905. With the application were other papers and specifications, and a letter dated March 28, 1905, addressed to Heany, bearing the stamped signature of Commissioner Patents Allen, Acting Examiner Cowles of division 37, of which Barton was examiner, and Assistant Examiner Day.

An amendment to the application was filed in July, 1905. Papers in this case were destroyed, according to the indictment.

Regarding Mineral Lands.

Helena, Mont., Feb. 21, '08. It is requested that all persons having had conflicts with the Northern Pacific Railway Company, wherein the mineral land classification in Montana is involved, communicate with the undersigned as speedily as possible, in order that such cases may be investigated by the committee duly appointed by the Montana Mining Association on such duty, and be incorporated in a report soon to be submitted to the president of the United States with a request for an investigation of the alleged fraudulent classification of the mineral lands of Montana.

John A. Rowand,

Chairman of committee on Mineral Land Classification.

MONTANA PATENTS

Granted this week. Report by C. A. Snow & Co., Patent Attorneys, Washington, D. C.—E. Collins, Ekakala, Tire attachment—S. E. Kimball, Powderville, Vehicle-axle—For copy of any of above patents send ten cents in postage stamps with date of this paper to C. A. Snow & Co., Washington, D. C.
