He Was Relieved.

The other day a person dropped in front of a police station and was carried inside. A moment after a woman forced her way in through the crowd gathered around the door, exclaiming:
"My husband! My poor husband! Clear the way and let in the air!"
She then busied herself by taking off the man's cravat and performing other little offices until a surgeon arrived, when the patient gradually recovered his senses. On this the sergeant in charge observed that it was a happy relief for his distressed wife as well as for himself.
"My wife!" exclaimed the man.
"Why, I am a bachelor!"
On seeking for the woman it was found that she had disappeared and with her the watch and purse of the patient, which she had adroitly abstracted under the very eyes of the police.—London Tit-Bits.

A Touch of Nature.

He was the worst boy in school; she was the teacher. She was angered by his stubbornness; he was defiant. She took him to the hall for punishment. Angriily she administered the penalty, and—then somehow a great wave of pity for the boy swept over her. She looked at the worn coat of the little fellow. She thought of the frail body deprived of nourishing food. She thought of the hard and loveless home and of the starved soul of the poor kid.
Tears sprang to the teacher's eyes as the boy waited for further punishment. Then he saw the tears. His own eyes grew moist and overflowed. Thinking of how the poor boy had no chance, in an impulse of love she put her arms around the boy, and they cried together.
That is religion.
She and the boy both found it.—Morrell (Kan.) News.

To Make a Glass Cutter.

A glass cutter can easily be made with an ordinary mapping pen and a small piece of carborundum or carbide of silicon. Cut off a part of the nib to form a small tube. Fit a crystal or part of one of carborundum into the tube, take it out again and dip one end in cement and replace it. Next wind a piece of fine wire tightly around the tube and part of the handle and fix it in a notch cut in the latter. Put it aside for a day to allow the cement to harden. A glass cutter made thus will do its work as well as the expensive diamond and a great deal better than the ordinary wheel cutter.

Why He Is Disappointed.

"I am disappointed," said the doctor, "if I don't make a hundred dollars a day."
"Oh, come off!" they cried. "What are you giving us? You know you never make a hundred dollars a day."
"I know it," he assented plaintively, "and so I'm always disappointed."

To The Stockgrowers Of Montana

The Montana Stockgrowers' Association has become a state-wide organization, and we believe it is to the interest of every stockman in the State of Montana to belong. The Association is a member of the National Live Stock Association, and in a great many other ways is a benefit to stock raisers.
Early this fall the Association will issue a new double indexed Brand Book containing the names and brands of the members. This book will be distributed free of charge to all members, Stock Inspectors and Sheriffs. This book will also be in the hands of the Inspectors maintained by the State at terminals—Chicago, South St. Paul, South Omaha, etc. All Montana cattle are inspected at these points, and unless shippers produce bills of sale, or their brands are known, the money is returned through the office of the Secretary of the State Board of Stock Commissioners to the owners.
Join the Association at once and have your brand printed in the new book.
The membership fee to the Association is \$5.00 per year. This office will gladly furnish the necessary blanks or give other information to any stockman who wishes to join.
