Start of Baseball Season Chilled by Weather

Despite the Cold Wind and Misty Rain Glendive "Champs" Easily Win Game—Entire Team in Good Form

The Glendive "Champs"—and we hope that they will stick to that nickname in both the spirit and the letter—again justified the use of that cognomen by walloping the strong Sidney team on the local diamond Sunday afternoon to the tune of 7 to 2.

It was a seven-inning game, the contest being called at that stage by Umpire George Taylor on account of the weather, which was anything but inviting to both the players and spectators.

It was cold, and windy and rainy and altogether a poor day for such an event as the opening of the baseball season in this part of the state.

Both teams played well under the conditions. Glendive making two errors and Sidney six. Two hundred and forty-six people attended the game, the total receipts being \$124.00, nearly half of the attendance being the Sidney rooters who came in at noon on their special train and accompanied by their excellent band.

"Red" Leiper for Glendive, was in better form than Sidney's twirler, Despain, who was wild at times, giving four bases on balls.

The misty rain was responsible for the slowness of the game, fully a dozen

fouls being made with the slippery ball.

Bachman, who played right field, showed that he is there as a runner, getting to first every time out of three times up. Leiper made three hits while Thrasher, Broderick, Hanson and Bachman, got a single each.

The Sidney bunch are a team of good ball players and it will be a surprise if we beat them as easily on Sunday, when we cross bats with them on their home diamond.

The special train leaves the depot at 9 A. M. sharp, so be on hand promptly with your noise producer and a lemon for your voice.

The score by innings follows:

	1	2	3	4	5	6	7
Glendive	2	0	4	0	1	0	*—7
Sidney	0	1	1	0	0	0	0—2

SUMMARY—Three base hits—Leiper 2 and Lachapelle. Two-base hits—Lafayette. Double plays—Foss to Thrasher; Bachman to Thrasher. Bases on balls—off Leiper 1; Despain 4. Struck out—by Leiper 2; Despain 6. Wild pitches—Despain 3. Passed balls—Lafayette 2. Hit by pitcher—Fleming by Despain. Umpire—Taylor. Time of game—1 hr. 40 min. Scorer—G. G. Hoole.

FIRST CLUB STAG PARTY AN ENJOYABLE AFFAIR

To say that the first stag party given by the Dawson County Club last Saturday evening was an enjoyable affair is but putting the matter in mild and senile language. As the neatly typewritten invitations vaguely hinted, they had a "Heluvatyne", and everybody went home happy.

Judge C. C. Hurley made a perfect toastmaster, and introduced the speakers with a style of humor and irony all his own. His remarks and stories were much enjoyed.

The two large tables were filled and after the banquet, which was served to the hungry members at nine o'clock, was finally disposed of, the program began in earnest.

The Judge called first on Dr. R. E. Hathaway, the "Chauncey Depew" of Dawson County, and the spell-binding doctor of medicine did himself proud by a very appropriate and well delivered address.

Hon. C. A. Thurston followed with a short introductory address in which he apologized in a "Uriah Heepian" manner for his short-comings as an orator, and concluded his remarks by reading a home-made "pome", an effusion of his own which we print in full at the end of this article.

Heath and Eustrom, the musical twins, showed how nicely the strains of mandolin and piano go together. They were followed by the Hon Daniel L. O'Hern of Miles City, judge of the 16th judicial district of the state of Montana.

"Dan" made a great talk. After he got through telling us what a fine, nice, clean, well-kept, sanitary and healthful place Glendive was as compared to other Montana cities, we made up our minds right there and then to go up to the city hall on Monday and pay up our taxes. He referred to the new dug out in which the baseball players can hide while they are at the bat and stated that many times last year he found himself wishing for just such a place of refuge.

Howard Melaney then sang a solo and answered an encore by singing "Chinatown" with Roy Eustrom, with an ensemble chorus by the members.

Dr. Dan J. Donohue then made one of his characteristic addresses. We never hear the genial doctor speak at a public gathering but what we subconsciously allow our minds to revert to the time he was prevailed upon to deliver that famous address of his (Continued on Page Two)

FIRE CHIEF O'MALLEY MARRIED TO TUNE OF FIRE WHISTLE

At exactly 4:30. o'clock. Tuesday morning the fire whistle blew a long loud blast that the uninitiated took as an indication of a fire and in consequence many nightgowns and nether extremities limbs were seen exposed to the chilling morning air.

It was a false alarm as regards a fire, but a true one as regards the marriage of Fire Chief Frank J. O'Malley to Miss Nellie Brennan, which ceremony it was intended to herald. The ceremony was performed at St. Juliana's Catholic Church by the Rev. Fr. E. Curran, following a special wedding mass.

Dominick Cavanaugh was best man and Miss Gertrude Dwyer stood up for the bride. After the ceremony, the entire party repaired to the home of the bride's sister, Mrs. J. W. Young, where a wedding breakfast was served and hastily eaten.

The couple was muchly harassed by a score or more of their friends, but they finally succeeded, amid a shower of rice and old shoes, to evade them and boarded No. 1 at 5:15 A. M., for Miles City where they intended making connections with the Milwaukee road for an extended honeymoon embracing, (we use the word advisedly) such cities as Milwaukee, Chicago, St. Louis, and the Twin Cities.

The Monitor joins with their legion of friends in extending to them the heartiest wishes for a long and a happy married life.

MECHANICAL BRAINS LIFT BANK DRUGGERY

First National Bank Has Specially Designed Machine For Handling Accounts

SUPERCEDES HAND POSTING

With the help of machinery most of the drudgery of the old fashioned book-keeping methods have been cast away. The hours spent by weary brained posters camped on high stools soon will be forgotten. For machines have been perfected which really seem to think and which accomplish with wonderful smoothness the details of the modern accounting system.

We long have had adding machines, counting machines, change makers, and many other labor saving devices, but it remained for the Burroughs Adding Machine Co., to make a machine that not only will post ledgers, but take balances as the posting is done.

At the First National Bank one of these machines has been installed. They are utilized for the making out of the depositors accounts and statements and for the posting of the ledgers.

To understand best what the machines mean to a busy bank one must see the actual operation. Hundreds of checks naturally come into the bank daily and each must pass through its regular channel. A record must be made of each one and the accounts of the individual depositors must be handled separately.

Before the advent of the machines the detail work of posting the ledgers was a tiresome task. The checks had to be listed along with the deposits, each list had to be added separately then the checks had to be deducted (Continued on Page Eight)

GLENDIVE MAY HAVE A REAL SWIMMING POOL

If the proposed plans are carried out as outlined by the management of the Glendive Swimming Club, the city of Glendive will have a swimming pool on this side of the river this summer which will equal in facilities and surpass in size the municipal pool in Billings.

Mr. Frank Hughes of the local electric company stated that if a site is secured from the Northern Pacific Railroad company opposite the electric plant, and the tank built either by the City or by the City and the Chamber of Commerce jointly or by combining the financial and moral strength of these two bodies with the present 300 members of the Glendive Swimming Club, he will donate free of charge, the water which is now being used in the new condensers.

This water is being pumped constantly from the river up to the basement of the new electric building and is used to condense the steam back into water for the boilers, running over a series of copper pipes where its temperature is raised from 10 to 15 degrees. At the present time this semi-heated water is being wasted.

The proposition will be put up to the city council at their next meeting by the Swimming Club, and then submitted to the Chamber of Commerce at the next meeting of the Board of Trustees on June 1st, and the action of these two bodies reported at the first opening meeting of the Swimming Club.

In the meantime the matter will be taken up with the railroad authorities in an effort to secure the site.

Enoch Harpster of the Glendive Meat Market has just purchased 300 head of cattle, cows and calves, from an outfit near Miles City, and will place them on his Home farm on Belle Prairie.

The Rev. N. Wakeham, the Baptist Missionary from Forsyth, arrived in town on Tuesday. He is doing some special church work in eastern Montana, most of his time being devoted to the organization of Sunday Schools. He will preach Sunday morning at 11 o'clock at the Court House.

New City Officials Inducted Into Office

City Council Holds Important Meeting--Chamber Of Commerce Committee Makes Request of Council

The city council held its first regular meeting of the month on Monday evening, the occasion being made notable by the stepping out of office of Mayor T. F. Hagan and Alderman Whetham and the induction into office of newly elected Mayor A. A. Baker and Aldermen Tom Kean and Ray Lowe.

All the city officials, except the treasurer, and alderman Einar Rivenes were present, the latter being confined to the Glendive General Hospital following a very serious operation.

Alderman Andrew Larson, being the oldest member of the council, was elected President of that body, his position being to fill the mayoralty chair in the absence of that official.

The regular bills were allowed and the reports of city officers read and approved.

Mr. Hagan tried hard to get the new mayor to make a speech but his arguments in that direction were unavailing, the genial doctor of dental surgery insisting that "Silence is Golden."

A petition of Jens Rivenes to extend the water mains so as to serve his property on the South Side was favorably acted upon.

The sum of \$11,529.00 was transferred from the water fund to the general fund of the city, the book transaction being necessary in order to keep the city accounts under their proper head.

The following officers were nominated and their appointment ratified by the council:

Clerk, August J. Colin.
Engineer, F. H. Handforth.
Weighmaster, M. E. Galvin.
Police Chief, C. A. Kinney.
Patrolmen, Warren Miller and John Butler.

Committees
Water and Sewers Committee, Messrs. Larson and Rivenes.

Finance Committee, Messrs. Rivenes and Kean.

Streets and Alleys, Messrs. Larson and Lowe.

Police Committee, Messrs. Kean and Lowe.

A local milkman complained strenuously of the dumping nuisance near

GLENDIVE CHAMBER OF COMMERCE BOARD OF TRUSTEES MEET

Pick Worst Day For Fourth Celebration—Funds Given for Children's Picnic—Library to be Helped.

At the regular monthly meeting of the Board of Trustees of the Glendive Chamber of Commerce, which was held Tuesday evening, several important matters were taken up and disposed of by that body.

An appropriation was made for the big school picnic which will be held at the city park across the river tomorrow, Friday. The money will be spent by Superintendent Brown, who has the affair in charge, to defray the cost of prizes for contests in which the school children will take part.

An appropriation of \$250 was made to the Woman's Club to be used for the purchase of books for the new Public Library in the City Hall. The money will be paid into the Library fund by the Chamber each month for five months at the rate of \$50 per month.

So far as could be learned from Secretary Rasmusson, no appropriation (continued on page two)

his place on the south side and gave the city council a certain time within which to find another city dumping ground. Nothing definite was done in the matter, however.

City Engineer Handforth reported that the large 100-h.p. electric motor had been shipped from the electric plant to the pump works and that the entire equipment was expected in this city about June 10th, when it will be installed in the city pumping station.

A committee of the Chamber of Commerce then arrived and requested that the council write the N. P. Ry. Co., with a view to their remedying the conditions caused by the open sewers under the Beasley Block and under the proposed apartment house on Meade avenue, which water comes from the round house and the railroad ice house in the north end of town. It was decided to submit a plan to the railroad calling for the piping of the water under the streets direct to the river, instead of through a ditch down to the big coulee near the N. P. Hospital.

The council carried a motion to extend the water mains on Gibson street to McDougall street and west to River Avenue in the Prospect Heights addition.

The motion to allow the new county agriculturalist, George F. Piper, the free use of a small unoccupied room in the rear of the city clerk's office, was carried with one dissenting vote, that of Alderman Lowe, who held that as the new county booster was being paid by the county, state and government, he should be in a position to pay for his office room. Mayor Baker contended that the occasional use of the room by the agriculturalist, whose work is of such a nature as to reflect great benefits to the city as well as county, should be free, the same as the use of the library room by the Woman's Club, and his opinion was affirmed by the vote as referred to above.

The contract for the opening up of north Merrill Avenue within the city limits was awarded to George Williams while Bert Belknap got the contract for the work beyond the city limits from the county commissioners.

COLONEL EDMOND BRONSON DIES SUDDENLY AT CHICO

Friends of Colonel Edmond Bronson, county clerk and recorder of Richland county, will be surprised and grieved to learn of his death at Chico Hot Springs on Tuesday of this week.

The popular county official had gone to the health resort last week in an effort to rid himself of the rheumatism from which he had been a long-time sufferer.

His deputy, Jesse Dawe, formerly of this city, arrived in town yesterday afternoon from Sidney and left on No. 3 for the Springs, where he will take charge of the body pending the action of Col. Bronson's two daughters, who are said to reside at Missoula.

If they decide to allow the body to be buried in Sidney, his adopted town, residents of that city, as well as all his friends in eastern Montana, will no doubt unite in giving our beloved old-timer one of the greatest funerals ever held in the entire state of Montana.

He was truly a "Grand Old Man", beloved by all; and may his soul rest in peace.

LOCAL VETERINARIAN CATCHES LAW VIOLATORS

Cattle Smugglers caught Red-Handed Have No Respect For Law The New Proclamation

Deputy State Veterinarian A. J. DuFrene, who returned to Glendive early in the week, spent the greater part of the past ten days investigating stock and cattle conditions along the Wyoming and South Dakota state lines.

His investigation resulted in the capture of two of our Montana citizens who had been trailing cattle into the state in violation of Governor Stewart's proclamation of Nov. 7th, 1914, and which will be in effect until next Saturday when his proclamation of May 1st takes effect.

The prisoners were also guilty of violation of our Live Stock and Sanitary Laws, which laws are made solely for the protection and not the harassing of the live stock industry of Montana.

DuFrene, in an interview with the Monitor man yesterday stated:

"In carrying out their dastardly work, the smugglers usually ship to Belle Fourche, S. D., or some other point near the line and then trail them across."

"It seems that some of our citizens have but very little respect for our state laws," said the Veterinarian; "and furthermore, do not hesitate to jeopardize our Live Stock interests which is our mainstay and practically the only big industry that eastern Montana can depend upon."

The Governor's latest proclamation which Dr. DuFrene referred to, was issued by the popular executive on May 1st to take effect on Saturday, May 15th, the important features of which follow herewith:

Exceptions to Embargo.

"Importation of cattle, sheep, other ruminants and swine into Montana is prohibited from all states in the United States with the exception of Oregon, Washington, Idaho, Wyoming, Utah,

(Continued on Page Eight)

MRS. W. T. PERHAM LOSES ELECTION CASE

The trial case of Mrs. W. T. Perham versus T. F. Hagan and Jens Rivenes, which was held in the District Court last Saturday before Judge C. C. Hurley resulted in a dismissal of the case on account of lack of evidence and Mrs. Perham was given 60 days in which to file a bill of exceptions.

This decision enables Mr. Hagan to retain his place on the Board of School Trustees pending the result of such action on the part of the plaintiff's attorney.

The trial, which drew out a large number of morbidly curious people, the majority of them women, was of such nature that the least said about it the better.

MRS. GRACE O'NEIL'S CASE SETTLED OUT OF COURT

The case of Mrs. Grace V. O'Neil against the N. P. Railway Company and Joseph Luxem, the continuation of which was soon to have been held at Helena, was settled out of court by the payment of a check for \$8,000.00 received this morning by Attorney Desmond J. O'Neil, attorney for the plaintiff.

The original suit as filed, asked for damages amounting to \$30,000.00, on the grounds of permanent injuries being sustained last year by the plaintiff crossing the railroad right of way and being struck with a shunted freight car.

Attorneys John Brown of Helena and Desmond J. O'Neil of Glendive represented the plaintiff.
