

GREAT FALLS TRIBUNE.

Northern Pacific Time Table
'Montana Short Line.'
New Time Table Taking Effect Nov. 1st, 1884

SPRAY OF THE FALLS.

Murphy, Maclay & Co. have received several loads of new goods the past week.
The development of the Sand Coulee Co.'s mines is being pushed forward with vigor.

Dan Samples has sold his cattle to the Milner Live Stock Co. The price paid is not known.
The government will employ about 350 men in the Park this year in the construction of roads and bridges.

The present month has been an exceptionally disagreeable one, high, chilling winds prevailing most of the time.
The party who took a trip to the collar off a stray horse near Sun River last week, will please return the same to the Maud S. stable.

Wm. Morgan has moved from Sun River to his ranch on the Missouri, about eight miles above Great Falls. He informs us he will start a dairy.
W. H. McKay & Co. have contracted to erect several brick buildings here this summer, and will also erect an office in town for their own use.

Louisa Sherman and George Clarke were married at Castner's ranch on Wednesday evening of last week. Judge Campbell performed the ceremony.
Our readers' attention is directed to C. B. Jacquemin & Co.'s ad. in another column of this issue. This firm is perfectly reliable, and solicits your patronage. Mail orders will receive prompt and careful attention.

The flouring mill at this point will be of great importance to Great Falls. It will be the means of bringing ranchmen from all sections within a radius of seventy-five or eighty miles here, being, as it is, the only flouring mill, worthy of that name, in northern Montana.
Mrs. Isabella Lowman, of Ruby Hill, Park county, Nevada, wishes to know the whereabouts of her son, Reese J. Linkin, who left Nevada two years ago for Montana and was last heard from in Butte. He is 27 years of age and of light complexion. Further description is not given. Territorial papers please copy.

Advices were received in Helena last week ordering change of station for the two Paymasters, U. S. A., now in Helena, notably Major John E. Blaine and Major Henry Clayton. Major Blaine, who has been stationed in Helena since 1875, the date of his appointment, has been ordered to New York, and Major Clayton to Baltimore.
Great Falls is particularly fortunate in having such a variety of building material. A building can be erected here of almost any desired material. Lumber is cheap; brick of an excellent quality can be purchased as cheap, if not cheaper than at any other point in the Territory; rock of several varieties are contiguous, and of a quality which has few equals in the world.

Will Hanks, the proprietor of the former Sun River Sun, having removed his outfit to Great Falls, has finally completed his preparations and makes his bow from that place in the first number of the GREAT FALLS TRIBUNE, issued last Thursday. The new paper is a four-page, 23-column journal, printed on handsome paper and replete with interesting and newsy reading. We greet the rising of the Sun in Great Falls with wishes for a successful course—Helena Herald.

The opening up of quarries of the varied building stone in this section would have its effect in attracting a railroad. Building stone of the quality we have here, is not found everywhere, and this industry is likely to be of great importance in a few years, inasmuch as competent judges have declared they never saw their equal. A good quality of stone will command a price in advance of what many may think, and within the next few years building stone from Great Falls will find a market in many of the eastern cities, or we miss our guess.

America's greatest gala day is drawing close at hand, and it would be about the proper thing for Great Falls to prepare for celebrating it in true U. S. style, with plenty of powder, fire-crackers, ginger-bread and selt. It would be the means of drawing a large crowd here, who could spend the day very pleasantly and profitably to themselves and also to our business men. Let some public-spirited man take hold of this matter and the balance will come to his aid financially, and we can have a regular old-fashion celebration, with all the accompaniments. Now don't all stand back.

Mr. Ray, representing S. C. Ashby & Co., Helena, and also acting as agent for the Rocky Mountain Husbandman, made us a short call one day last week. He was particularly impressed with the situation of Great Falls and its many advantages, and predicts for it a flattering future. He says the business men of Helena feel kindly disposed towards us and are looking with interest at every move that is

made in this direction. The connection by rail of Great Falls and Helena within the next eighteen months, Mr. Ray remarked, was not improbable, as Helena was obliged to secure cheaper fuel, and looked towards the Sand Coulee coal fields to supply it.
The erection of a commodious school building here is being discussed, and there is no doubt but that arrangements will shortly be perfected looking towards its early accomplishment. This is a move in the right direction, and we are pleased to see the manifest interest which our people are taking in the matter. Nothing will benefit Great Falls more than an institution of this kind. It will be the means of bringing many people from the isolated sections contiguous, not enjoying school privileges, to Great Falls, to give their children the benefit of an education. The selection of a competent instructor to take charge of the school is a matter of great importance, and our trustees can not be too careful in making a selection. Morality should be one of the qualifications, and in our view the most important.

The building of a wagon road up the Missouri, and the establishment of a ferry across the river just above the mouth of Sun river, has finally been decided upon, and the preliminary survey will be made without delay. A gentleman who has recently been over the route says it is practical, and wonders that the road has not been established before. It will shorten the distance between Helena and Benton some twenty miles and will be a better road at all times of the year than the present one. We are pleased to see this enterprise pushed forward, and the gentlemen who now have the matter in hand will succeed in having it in good condition by the middle of the summer. As soon as completed this will be the main traveled road between Helena and Benton, and no one need be surprised to see a new stage line in operation between Great Falls and Helena before the snow flies. The practicability of the road is not questioned by any who have been over the line, and the divestment of a share of the travel between the capital and the head of navigation will be a big thing for Great Falls.

PERSONALS.

The Gibson returned from Helena last week.
Thomas Wall was in from Otter creek last week.
James Gibson, of Sun River, has moved to Choteau.
David Wilson, of Deep creek, was in town last week and purchased a load of supplies.
E. D. Hastie, of Sun River, and William Ralston, of Choteau, have returned from the north, where they have been for the past few weeks.
