PRICE, FIVE CENTS

BECOMING LIVELY.

PRESIDENTIAL CAMPAIGN OPENING EAST AND WEST.

Helena, April 6.—The Democratic party in Montana is becoming more and more active in its preparations for the presidential campaign. The party is now in the midst of a vigorous campaign, and the people are becoming more and more interested in the contest. Illinois Reported Sectionally.

INDIANAPOLIS, April 4.—A private letter received a few days ago by one of the leading citizens of Indiana from a friend in Rome, stated that Mr. Blaine was completely broken down physically and that he was greatly depressed in spirit. The writer of the letter is an eastern republican of prominence, who has long been active as a party manager and who is a devoted admirer and intimate personal friend of Mr. Blaine. "No one," he writes "who could see Mr. Blaine as I saw him today, could question for one moment the sincerity of his declaration or entertain any doubt as to the reasons that induced him."

It says Mr. Blaine is rapidly failing and expresses fear that he will not live out the year. The high standing of this gentleman, his entire disinterestedness and his unequalled opportunities for knowing the actual condition of Mr. Blaine, leaves no room to question the absolute accuracy of his statement.

Incidents of the Strike. CHICAGO, April 3.—The Burlington continues its aggressive policy, and about 9 o'clock notified the police that it was going to deliver a train of freight to the Michigan Central railway. A detail of officers was sent to the Michigan Central yards and soon after the Burlington, bringing with Pinkerton detectives and various railway officials, pulled in. Beyond the usual curses and cries of "scabs" that invariably greet "Q" trains, there was no hostile demonstration. The cars were delivered to the Michigan Central, and the "Q" engine, Pinkerton and officials quickly disappeared from the scene. As soon as they had gone the Michigan Central switchmen notified the yard master that they would not touch "Q" cars. A strike on this road will therefore be precipitated whenever the order is given to move those now in the yard. The Burlington also announced they had 400 cars at Englewood, which they intended to offer the Lake Shore company during the day. Several switchmen on that line declared to a reporter that they would not handle them.

Signs of Coming War. BERLIN, April 3.—The sudden change in the position of the French political parties has re-awakened apprehensions for the future. Boulanger is now felt to be no special shadow, but a substantial force threatening the peace of Europe. If the dissolution of the chamber produces a strong Boulanger party, it will be taken here as an equivalent to a popular vote for war, and the convenience of the French to begin it will not be awaited. The entire press of the country realizes the danger of the position. The temporary acquiescence of the German people in the Russian peace protests is vanishing. Authoritative dispatches pronounce Russian action imminent.

The Coming Victory. WASHINGTON, April 3.—Major General Alfred H. Terry's personal letter to the secretary of war stating that he is in bad health and wishes to be placed on the retired list, continues to be the talk in army circles. He is on sick leave at St. Augustine, but his time expires this week, and he will be obliged to return to duty unless an extension is granted. He is 61 years of age and therefore not eligible for retirement until 1891, and not having served 30 years he cannot apply for retirement on that ground. General Crook comes next in order for promotion, but the friends of General Miles will make an energetic effort for his appointment.

Defending Society Women. NEW YORK, April 3.—Rev. Dr. Morgan Dix's recent sermon concerning New York Society continues to be the theme of earnest discussion. The anniversary of the White Cross Army was held last evening. Elbridge T. Gerry was the first speaker. "Some people," he said, "have of late been casting aspersions upon the purity in thought, in word, and in deed of our women of this society. The society was on today in New York in the lofty circles in which they live, and perfectly free from impurity. It is a mistaken idea to suppose that our wives and daughters in this community have the slightest impurity of thought or action."

The New French Cabinet. PARIS, April 2.—The new French cabinet is officially announced as follows: Floquet, president of the council and minister of the interior; Goblet, minister of foreign affairs; De Freycinet, minister of war; Admiral Krantz, minister of marine; Bizard, minister of justice; Peytral, minister of finance; Lockroy, minister of education; Loubet, minister of public works; Viette, minister of agriculture; Legrand, minister of commerce.

Attempted Suicide. BUTTE, April 4.—C. A. Kingman attempted suicide at Woodville yesterday by hanging. He was a leader in the faction fight there against postmaster Ford, and it is supposed that his unsuccessful effort to have Ford hounded had something to do with the rash act.

A Mammoth Refinery.

PHILADELPHIA, April 4.—It is stated by reliable authority that Claus Spreckles, the California sugar king, now in this city, has decided to build a refinery in Philadelphia and that the purchase of a site for it on the Delaware river front will be consummated soon. It is understood that \$5,000,000 capital will be put into the enterprise, all to be supplied by Spreckles himself, and that contracts for the erection of the machinery, etc., will be placed in a few days. The capacity of the proposed refinery is put at 7,000 barrels or \$2,000,000 pounds per day. The cost of the plant has been stated as \$3,000,000, and the annual output at \$35,000,000.

Flourist's Policy. PHOENIX, April 4.—In the chamber of deputies yesterday Floquet read a statement setting forth the policy that would be pursued by the cabinet. He appealed to the united republicans for their support, and asked them to leave to the government the question of a revision of the constitution. The ministry, he said, sincerely desired the adoption of well considered reforms and the maintenance of peace.

Japanese Traders Coming. WASHINGTON, April 5.—Ten Japanese arrived here recently. They were all manufacturers of Yokohama, on their way to the east to inspect the big establishments of New England and Canada. All were dressed in European style. On their way east they were passed by a train bearing machinery and cars for a cable railway to be established in the streets of Yokohama.

Brought to Light. NEW YORK, April 4.—According to the testimony in the Stewart trial case Mrs. Stewart made handsome presents. Among them was a check of \$10,000 for a wedding present which she gave Mrs. Prescott Hall Butler, and a deed of a house in Thirty-fourth street one door east of Fifth avenue, to William Smith, her brother.

Senator Gray Recommended. WASHINGTON, April 5.—A prominent democrat here states that he has information from a high Washington official that the entire cabinet favor the appointment of Senator Gray, of Delaware, to the supreme bench and that they have expressed their preference to the president.

Called a Draw. HELENA, April 5.—A prize fight took place yesterday at the Helena hotel springs, between Jack Duffey and Rogers. They fought nine rounds when the sheriff interfered and it was called a draw.

Preparing a Constitution. LONDON, April 4.—It is reported on good authority that Emperor Frederick considering the details of the new constitution to be submitted for Prussia and that Dr. Fredberg, the Prussian minister of justice, is his co-worker.

A New Mining Company. HELENA, April 5.—Articles of incorporation of the Hama Mining and Milling company have been filed with the territorial secretary. The object of the company is the working of the Hama, Magnet and Lily quartz lode mining claims, situated near New Chicago. The capital of the concern is \$500,000.

Handed Desperate. NEW YORK, April 4.—Miss Lila Bull, daughter of a prominent noble, Alabama, merchant, committed suicide here in a French restaurant by gas asphyxiation. The reason assigned was that she was unable to sell her unspectacular poems.

Disagreed. MINNEAPOLIS, April 4.—The jury in the famous Welch-Vilms libel suit disagreed, after being out 40 hours. The vote stood seven for conviction and five for acquittal. Welch is jubilant at the result, and predicates an acquittal at the next trial.

Zola on Bonaparte.

PARIS, April 3.—M. Zola has made a somewhat striking publication concerning Bonaparte. He says Bonaparte was a fact, as Gambetta was. Zola doesn't see why Bonaparte should not succeed in being a dictator. He may leap blunder upon blunder, but he will not damage his popularity in the eyes of the multitude. He represents an abstract idea. Since the death of Gambetta, France has been without a fact. Now she has obtained one again, and the mob proclaims him.

De Wolfe Transferred. HELENA, April 4.—At a meeting of the supreme court it was decided to assign associate justice De Wolfe to the Second Judicial District, which of course includes Butte. He will hold his first court in Deer Lodge. Justice Liddell will naturally take the Bozeman circuit which is made vacant by the change.

The Sugar Trust. NEW YORK, April 2.—The trustees of the Sugar Trust have declared a dividend of 2 1/2 per cent on the capital stock of \$45,000,000 for the five months the gigantic continuation has been in business.

The Mills Turb Hill. WASHINGTON, April 4.—The report of the majority of the ways and means committee, drawn up by McKinley against the passage of the Mills bill, attacks vigorously the free list, vehemently denouncing free wool and free tin plate.

No Fair Play. LONDON, April 4.—Phillips and Barnett, American sporting men, called on the Europa on Saturday for New York. They declare it impossible for an American pugilist to win in Europe. They maintain that Heenan, Kilrain and Sullivan all really won, notwithstanding the fact that draws were declared.
