BECKER BEATS 'EM.

HE IS IN SPOKANE FALLS LOOKING FOR INVESTMENTS.

Car Richards, How Hard Fisher, Blower & Co. Find Themself Without Even a Red Quorum Today.

HELEN, Feb. 10.—[Special to the Tribune.]—Senator Becker had important business at Spokane Falls, and left on a special engine for that city at 11 o'clock last night, arriving there in due time. He is likely to make some investments in that flourishing city.

OUT OF THE STATE.

HE PASSED HOPE, Idaho, early this morning, where he overtook the regular train and continued westward.

SATURDAY NIGHT'S WORK ANNOUNCED.

His absence annuls all the work of Saturday night's eventful session. None of the bills passed have been signed yet and cannot be signed without a quorum in the open house.

RICKARDS & CO. UNPUBLISHED.

The republicans are unpublishing and do not know what to do next. There will be no legislation this session, which ends on the 20th inst.

THE PROCLAMATION ISSUED.

The Big Sioux Reservation Now Open to Settlers.

WASHINGTON, Feb. 10.—[Special to the Tribune.]—The president this afternoon issued his proclamation opening the Big Sioux reservation. Former announcement was premature.

REWARDS FOR MAIL CLERKS.

Mr. Wainmaker Will Reward Good Distributing Clerks.

WASHINGTON, Feb. 10.—General Superintendent of Railway Mail Service Bell announced in a general order to employees of the postmaster-general will present twelve good medals to clerks in each of eleven divisions. The twelfth medal will be awarded to the clerk, who, during the year, has performed the best service in the shortest time and with the largest number of separate counts representing the greatest number of postoffices.

THE LOST BILL KILLED.

BIRMINGHAM, Ala., Feb. 11.—The bill to license lotteries was indefinitely postponed in the house yesterday and will not be heard of again.

SUN RIVER LETTER.

Notes of the Village and Valley.—The Negro Question Discussed by the Literary Society.

(Special Correspondence of the Tribune.) Editor Cannon paid Great Falls a flying visit Saturday.

Four Shaw officers are convalescent. Lawyer A. D. Kellison and family of Crawfordville, Ind., will cast their lot with the Catsaraet City next June.

For a quiet, reserved, happy life Sun River is the place. The citizens of the valley and village are ingenious and accommodating.

With Grandma Strong at the helm our Sunday school is growing. Mrs. Strong has 24 grandchildren and two great-grandchildren, who take great interest in the Sunday school.

The Sun River Literary club debated at the last meeting the question: "Resolved: That the colored people be sent back to Africa." A. T. Kellison and H. W. Strickland affirmed. The negative was represented by Judge Burcher and Dr. W. C. Cook. The debate was spirited and interesting, each side bringing the house down with fresh anecdotes, and again holding them quiet with an argumentative, logical speech. The affirmative argued for the policy in favor, we opine, a few of which we will note:

(1) The 9th chapter of Genesis tells the origin of the "colored people." The atrocious violation of the 10th commandment brought upon him and his posterity a curse from God. The curse pronounced by Noah included color, thick skull and limited brain and slavey. "A servant of servants shall he be unto his brethren." The negro is an object of pity rather than of contempt, but churches and colleges and noble efforts of the descendants of Joseph ("God shall enlarge Japheth") can no more remove the curse than they can give power to escape death. To maintain a favored people in a high standard of excellence, necessitates the removal of an accursed people.

(2) Homes make communities, communities make nations. They make nations and states make nations.

(3) "Wouldst thou break the solid south and give a harmonious union?" (4) "Wouldst thou remove in a large degree the corruption of politics?" (5) Liberia, a colony established by the American Colonization society expressly for emancipated slaves, contains but one American negro family (five members) for each 7 1/2 sections of rich land. The grove is modeled after the U. S. constitution. It is given free to each man. White settlers are excluded from citizenship. We're banished from the negro's country, they should be not be excluded from ours?

The negative argued from the stand point of sympathy. OBSERVER. Sun River, Feb. 10, 1890.

The County Commissioners. The board of county commissioners met in special session Monday. The purpose of the meeting was to examine the bonds of the contractors for the Sun river bridges, but the bonds have not yet arrived so other business occupied the attention of the board.

The bid of E. H. Becker, chief engineer of the Montana Central railroad, for a bridge across Belt creek, below the sluice boxes was accepted. The bridge to cost \$200 and to be completed as soon as practicable. The bridge having withdrawn from

SNOWED UNDER.

VICTORY OF THE LIBERALS AT SALT LAKE CITY.

The Estimated Majority 850—Mormonism in Utah—Was Expected, and Therefore a Contest—It Will Avail Them Nothing.

SALT LAKE, Feb. 11.—The municipal election of this city, the anticipated result of which has attracted the attention of the entire country, passed off quietly yesterday contrary to general expectations. The city has been crowded for days with special police, detectives and deputy United States marshals for the purpose of preventing illegal voting, which only party claimed the other would resort to for the purpose of carrying the day.

The polls closed at 6 o'clock and liberal voters posted a bulletin in the windows of headquarters claiming a majority of 1,200. The news soon spread over the city and the gentiles took possession. Flags and lanterns were run up on every gentle building in the city, fire works were set up from hundreds of houses, bonfires were kindled and bonfires were seen on every corner. Hundreds of men in the paraded the streets with drums and horns, shouting like wild men over their victory. No such scene was ever witnessed in Utah as was seen in Salt Lake last night. The Mormons remain indoors and have nothing to say on the subject except that the election was carried by fraud and that they will surely contest it. They admit defeat but claim the majority will not exceed 400.

ACRE PROPERTY. There is an active demand for acre property and several big deals are on the tapis, one of which the Tribune will be able to announce in a few days.

TOWNSHIP COMPANY SALES. The Township company made the following sales of lots on Saturday and up to noon today: Lot 13, block 484, to H. T. Rogers, \$200; lot 3, block 179, to J. G. M. King, \$1,100; lot 15, block 450, to W. R. Dwyer and Otto Zimmerman, \$400; lot 1, block 485, to J. L. Largent, \$500; lot 3, block 486, to Frank Leonard, \$300; lot 3, block 492, to J. L. block 490, to P. J. Brosnan, \$4,700; lot 1, block 486, to Burg & Hildebrand, \$400.

New Terms of the District Court. By an order of Judge C. H. Benton, dated February 8, 1890, the terms of the district court in the eighth judicial district of Montana, will be held at the county seat of the respective counties as follows:

Pergus county: First Monday of April; third Monday of June; third Monday of September; third Monday of November. Cascade county: Third Monday of May; third Monday of August; third Monday of November; second Monday of February.

Dr. C. E. Jones, the dentist, has his office handsomely fitted up and already plenty of work to do. He is in Dr. Jones' building on Central avenue over the Bee Hive.

The advertisement of a house for sale on Eighth avenue South, between Second and Third streets, merits attention. The owner will close the deal promptly with the right kind of a man.

H. F. Collett has returned from a visit to England, which he thoroughly enjoyed. He is well spoken of in London where Mr. George Stephens, Bart. and others who have been here have made known his resources, merits and general prospects. Mr. Collett has returned with renewed confidence in Great Falls and expects to do considerable business during the coming spring. He says that Mr. Payne will return from England in a few days and come here after seeing his Dakota ranch to what.

An offer was made for the store of J. H. L. on Main street, but was rejected. James A. Murray sold to A. S. Ray a 80-foot front adjoining the latter's Main street for \$200 a foot. A three-story brick block will be built there.

The Northern Pacific Coming. Rumors reach us here are going to press that the Northern Pacific surveyors are at work on Box Elder creek, about 15 miles from town. The parties are reticent and will not talk.

It will be remembered that the Northern Pacific railroad has the whole distance between Billings and Great Falls, one-half mile north of Stanford cross-section, thus making a very short distance to be surveyed.

MONTANA SITTINGS. The shaft of the Lexington mine at Billings, 4 1/2 feet, being the deepest shaft in the state.

Hugh Monroe, who is now at the Pigeon agency, is said to be 106 years of age. He is the oldest of all old-timers of this region.

The aggregate number of children attending school in Montana is 40,000 and the population of the state is 240,000.

The directors of the Butte Racing association have decided to give a four-day's meeting in July, in addition to the regular August meeting.

A Deer Lodge man, who goes by the name of "Stoker," sold a one-third interest in a mine a short time ago for \$5,000 and went through with the money in a short space of five days. He is an old prospector and has several good mines, but if the money goes as fast in the future as it has in the past, above he will need to have a good many to enable him to properly celebrate the Fourth of July.

The returns of the special election, held yesterday, for the purpose of voting upon a proposition to bond the county for \$35,000 for the purpose of erecting a court house, indicate very clearly that the proposition will be defeated. So far but one precinct has returned a majority in favor of the proposition, and the majority in this city—Livingston Enterprise.

A K. of P. lodge has been organized at Red Lodge. Now Butte is going to have an electric street railway.

The Salvation Army is about to invade Missouri. Judge McHatten has refused a motion for change of venue in the Lloyd Sullivan shirvey case in the Silver Bow court, holding that he is perfectly competent to sit there.

A rumor comes from Butte to the effect that Cruse & Murray, the former the well known millionaire and bank president of Helena, contemplate the erection of a handsome three-story building early in the spring and intend to occupy the ground floor with a savings bank similar to that operated by Mr. Cruse in Helena.

Mr. R. L. Smith, a merchant at Dandee, Mo., says: "Chamberlain's Cough Remedy gives the best of satisfaction. The trouble is that people wake me up at all times during the night, wanting it for cramp." For sale by Lapeyre Bros.

CATARH CURED. Health and sweet breath secured by Shillit's Catarrh Remedy. Price 50 cents, Nasal Injector free. For sale by Lapeyre Bros.

The Irish-Americans are making ar-

THE STORY OF A YEAR.

PHOTOGRAPH FROM LIFE TAKEN ONE YEAR AGO.

PHOTOGRAPH FROM LIFE AS SHE NOW APPEARS.

"Look on this picture and then on that." The above faces are exact reproductions of photographs taken from Mrs. Morton D. Hartman, who resides at No. 55 West 25th Street, New York city. The first one was taken in November, 1887, while she was in the last stages of consumption, and she died in the hospital in 1888, when she was completely recovered and entirely cured of her disease. The second one was taken in 1889, when she was in the last stages of consumption, and she died in the hospital in 1890, when she was completely recovered and entirely cured of her disease. The third one was taken in 1891, when she was in the last stages of consumption, and she died in the hospital in 1892, when she was completely recovered and entirely cured of her disease. The fourth one was taken in 1893, when she was in the last stages of consumption, and she died in the hospital in 1894, when she was completely recovered and entirely cured of her disease. The fifth one was taken in 1895, when she was in the last stages of consumption, and she died in the hospital in 1896, when she was completely recovered and entirely cured of her disease. The sixth one was taken in 1897, when she was in the last stages of consumption, and she died in the hospital in 1898, when she was completely recovered and entirely cured of her disease. The seventh one was taken in 1899, when she was in the last stages of consumption, and she died in the hospital in 1900, when she was completely recovered and entirely cured of her disease. The eighth one was taken in 1901, when she was in the last stages of consumption, and she died in the hospital in 1902, when she was completely recovered and entirely cured of her disease. The ninth one was taken in 1903, when she was in the last stages of consumption, and she died in the hospital in 1904, when she was completely recovered and entirely cured of her disease. The tenth one was taken in 1905, when she was in the last stages of consumption, and she died in the hospital in 1906, when she was completely recovered and entirely cured of her disease. The eleventh one was taken in 1907, when she was in the last stages of consumption, and she died in the hospital in 1908, when she was completely recovered and entirely cured of her disease. The twelfth one was taken in 1909, when she was in the last stages of consumption, and she died in the hospital in 1910, when she was completely recovered and entirely cured of her disease. The thirteenth one was taken in 1911, when she was in the last stages of consumption, and she died in the hospital in 1912, when she was completely recovered and entirely cured of her disease. The fourteenth one was taken in 1913, when she was in the last stages of consumption, and she died in the hospital in 1914, when she was completely recovered and entirely cured of her disease. The fifteenth one was taken in 1915, when she was in the last stages of consumption, and she died in the hospital in 1916, when she was completely recovered and entirely cured of her disease. The sixteenth one was taken in 1917, when she was in the last stages of consumption, and she died in the hospital in 1918, when she was completely recovered and entirely cured of her disease. The seventeenth one was taken in 1919, when she was in the last stages of consumption, and she died in the hospital in 1920, when she was completely recovered and entirely cured of her disease. The eighteenth one was taken in 1921, when she was in the last stages of consumption, and she died in the hospital in 1922, when she was completely recovered and entirely cured of her disease. The nineteenth one was taken in 1923, when she was in the last stages of consumption, and she died in the hospital in 1924, when she was completely recovered and entirely cured of her disease. The twentieth one was taken in 1925, when she was in the last stages of consumption, and she died in the hospital in 1926, when she was completely recovered and entirely cured of her disease. The twenty-first one was taken in 1927, when she was in the last stages of consumption, and she died in the hospital in 1928, when she was completely recovered and entirely cured of her disease. The twenty-second one was taken in 1929, when she was in the last stages of consumption, and she died in the hospital in 1930, when she was completely recovered and entirely cured of her disease. The twenty-third one was taken in 1931, when she was in the last stages of consumption, and she died in the hospital in 1932, when she was completely recovered and entirely cured of her disease. The twenty-fourth one was taken in 1933, when she was in the last stages of consumption, and she died in the hospital in 1934, when she was completely recovered and entirely cured of her disease. The twenty-fifth one was taken in 1935, when she was in the last stages of consumption, and she died in the hospital in 1936, when she was completely recovered and entirely cured of her disease. The twenty-sixth one was taken in 1937, when she was in the last stages of consumption, and she died in the hospital in 1938, when she was completely recovered and entirely cured of her disease. The twenty-seventh one was taken in 1939, when she was in the last stages of consumption, and she died in the hospital in 1940, when she was completely recovered and entirely cured of her disease. The twenty-eighth one was taken in 1941, when she was in the last stages of consumption, and she died in the hospital in 1942, when she was completely recovered and entirely cured of her disease. The twenty-ninth one was taken in 1943, when she was in the last stages of consumption, and she died in the hospital in 1944, when she was completely recovered and entirely cured of her disease. The thirtieth one was taken in 1945, when she was in the last stages of consumption, and she died in the hospital in 1946, when she was completely recovered and entirely cured of her disease. The thirty-first one was taken in 1947, when she was in the last stages of consumption, and she died in the hospital in 1948, when she was completely recovered and entirely cured of her disease. The thirty-second one was taken in 1949, when she was in the last stages of consumption, and she died in the hospital in 1950, when she was completely recovered and entirely cured of her disease. The thirty-third one was taken in 1951, when she was in the last stages of consumption, and she died in the hospital in 1952, when she was completely recovered and entirely cured of her disease. The thirty-fourth one was taken in 1953, when she was in the last stages of consumption, and she died in the hospital in 1954, when she was completely recovered and entirely cured of her disease. The thirty-fifth one was taken in 1955, when she was in the last stages of consumption, and she died in the hospital in 1956, when she was completely recovered and entirely cured of her disease. The thirty-sixth one was taken in 1957, when she was in the last stages of consumption, and she died in the hospital in 1958, when she was completely recovered and entirely cured of her disease. The thirty-seventh one was taken in 1959, when she was in the last stages of consumption, and she died in the hospital in 1960, when she was completely recovered and entirely cured of her disease. The thirty-eighth one was taken in 1961, when she was in the last stages of consumption, and she died in the hospital in 1962, when she was completely recovered and entirely cured of her disease. The thirty-ninth one was taken in 1963, when she was in the last stages of consumption, and she died in the hospital in 1964, when she was completely recovered and entirely cured of her disease. The fortieth one was taken in 1965, when she was in the last stages of consumption, and she died in the hospital in 1966, when she was completely recovered and entirely cured of her disease. The forty-first one was taken in 1967, when she was in the last stages of consumption, and she died in the hospital in 1968, when she was completely recovered and entirely cured of her disease. The forty-second one was taken in 1969, when she was in the last stages of consumption, and she died in the hospital in 1970, when she was completely recovered and entirely cured of her disease. The forty-third one was taken in 1971, when she was in the last stages of consumption, and she died in the hospital in 1972, when she was completely recovered and entirely cured of her disease. The forty-fourth one was taken in 1973, when she was in the last stages of consumption, and she died in the hospital in 1974, when she was completely recovered and entirely cured of her disease. The forty-fifth one was taken in 1975, when she was in the last stages of consumption, and she died in the hospital in 1976, when she was completely recovered and entirely cured of her disease. The forty-sixth one was taken in 1977, when she was in the last stages of consumption, and she died in the hospital in 1978, when she was completely recovered and entirely cured of her disease. The forty-seventh one was taken in 1979, when she was in the last stages of consumption, and she died in the hospital in 1980, when she was completely recovered and entirely cured of her disease. The forty-eighth one was taken in 1981, when she was in the last stages of consumption, and she died in the hospital in 1982, when she was completely recovered and entirely cured of her disease. The forty-ninth one was taken in 1983, when she was in the last stages of consumption, and she died in the hospital in 1984, when she was completely recovered and entirely cured of her disease. The fiftieth one was taken in 1985, when she was in the last stages of consumption, and she died in the hospital in 1986, when she was completely recovered and entirely cured of her disease. The fifty-first one was taken in 1987, when she was in the last stages of consumption, and she died in the hospital in 1988, when she was completely recovered and entirely cured of her disease. The fifty-second one was taken in 1989, when she was in the last stages of consumption, and she died in the hospital in 1990, when she was completely recovered and entirely cured of her disease. The fifty-third one was taken in 1991, when she was in the last stages of consumption, and she died in the hospital in 1992, when she was completely recovered and entirely cured of her disease. The fifty-fourth one was taken in 1993, when she was in the last stages of consumption, and she died in the hospital in 1994, when she was completely recovered and entirely cured of her disease. The fifty-fifth one was taken in 1995, when she was in the last stages of consumption, and she died in the hospital in 1996, when she was completely recovered and entirely cured of her disease. The fifty-sixth one was taken in 1997, when she was in the last stages of consumption, and she died in the hospital in 1998, when she was completely recovered and entirely cured of her disease. The fifty-seventh one was taken in 1999, when she was in the last stages of consumption, and she died in the hospital in 2000, when she was completely recovered and entirely cured of her disease. The fifty-eighth one was taken in 2001, when she was in the last stages of consumption, and she died in the hospital in 2002, when she was completely recovered and entirely cured of her disease. The fifty-ninth one was taken in 2003, when she was in the last stages of consumption, and she died in the hospital in 2004, when she was completely recovered and entirely cured of her disease. The sixtieth one was taken in 2005, when she was in the last stages of consumption, and she died in the hospital in 2006, when she was completely recovered and entirely cured of her disease. The sixty-first one was taken in 2007, when she was in the last stages of consumption, and she died in the hospital in 2008, when she was completely recovered and entirely cured of her disease. The sixty-second one was taken in 2009, when she was in the last stages of consumption, and she died in the hospital in 2010, when she was completely recovered and entirely cured of her disease. The sixty-third one was taken in 2011, when she was in the last stages of consumption, and she died in the hospital in 2012, when she was completely recovered and entirely cured of her disease. The sixty-fourth one was taken in 2013, when she was in the last stages of consumption, and she died in the hospital in 2014, when she was completely recovered and entirely cured of her disease. The sixty-fifth one was taken in 2015, when she was in the last stages of consumption, and she died in the hospital in 2016, when she was completely recovered and entirely cured of her disease. The sixty-sixth one was taken in 2017, when she was in the last stages of consumption, and she died in the hospital in 2018, when she was completely recovered and entirely cured of her disease. The sixty-seventh one was taken in 2019, when she was in the last stages of consumption, and she died in the hospital in 2020, when she was completely recovered and entirely cured of her disease. The sixty-eighth one was taken in 2021, when she was in the last stages of consumption, and she died in the hospital in 2022, when she was completely recovered and entirely cured of her disease. The sixty-ninth one was taken in 2023, when she was in the last stages of consumption, and she died in the hospital in 2024, when she was completely recovered and entirely cured of her disease. The seventieth one was taken in 2025, when she was in the last stages of consumption, and she died in the hospital in 2026, when she was completely recovered and entirely cured of her disease. The seventy-first one was taken in 2027, when she was in the last stages of consumption, and she died in the hospital in 2028, when she was completely recovered and entirely cured of her disease. The seventy-second one was taken in 2029, when she was in the last stages of consumption, and she died in the hospital in 2030, when she was completely recovered and entirely cured of her disease. The seventy-third one was taken in 2031, when she was in the last stages of consumption, and she died in the hospital in 2032, when she was completely recovered and entirely cured of her disease. The seventy-fourth one was taken in 2033, when she was in the last stages of consumption, and she died in the hospital in 2034, when she was completely recovered and entirely cured of her disease. The seventy-fifth one was taken in 2035, when she was in the last stages of consumption, and she died in the hospital in 2036, when she was completely recovered and entirely cured of her disease. The seventy-sixth one was taken in 2037, when she was in the last stages of consumption, and she died in the hospital in 2038, when she was completely recovered and entirely cured of her disease. The seventy-seventh one was taken in 2039, when she was in the last stages of consumption, and she died in the hospital in 2040, when she was completely recovered and entirely cured of her disease. The seventy-eighth one was taken in 2041, when she was in the last stages of consumption, and she died in the hospital in 2042, when she was completely recovered and entirely cured of her disease. The seventy-ninth one was taken in 2043, when she was in the last stages of consumption, and she died in the hospital in 2044, when she was completely recovered and entirely cured of her disease. The eightieth one was taken in 2045, when she was in the last stages of consumption, and she died in the hospital in 2046, when she was completely recovered and entirely cured of her disease. The eighty-first one was taken in 2047, when she was in the last stages of consumption, and she died in the hospital in 2048, when she was completely recovered and entirely cured of her disease. The eighty-second one was taken in 2049, when she was in the last stages of consumption, and she died in the hospital in 2050, when she was completely recovered and entirely cured of her disease. The eighty-third one was taken in 2051, when she was in the last stages of consumption, and she died in the hospital in 2052, when she was completely recovered and entirely cured of her disease. The eighty-fourth one was taken in 2053, when she was in the last stages of consumption, and she died in the hospital in 2054, when she was completely recovered and entirely cured of her disease. The eighty-fifth one was taken in 2055, when she was in the last stages of consumption, and she died in the hospital in 2056, when she was completely recovered and entirely cured of her disease. The eighty-sixth one was taken in 2057, when she was in the last stages of consumption, and she died in the hospital in 2058, when she was completely recovered and entirely cured of her disease.
