GREAT FALLS, MONT.

James Barnes, Jr., Building a Spectacular House.

Contractors White & Latta have commenced building a modern cottage for James Barnes, Jr., in Black Eagle Falls addition. The house will contain nine rooms besides closets, bath room and pantry, and will cost nearly \$4,000.

White & Latta are building a five-room house on Fifth avenue North for Lieut. Anderson of Fort Assiniboine.

John Glass is superintendent of the work at the Lapeyre block, and is having it carried out with his customary energy and ability. The wood piles have been driven. They will be covered with a foot of concrete on which a heavy stone foundation will be placed. This will insure the security and permanence of the building which will be one of the solidest and strongest in the city.

Recent real estate sales are as follows:—Jacob Schmitt, lot 12, block 410, \$800; Jacob Schmitt, lot 8, block 196, \$1,000; Jodie E. Conrad, lot 12, block 246, \$1,500; C. A. Madison, lot 11, block 448, \$750; Peter Vaubank, lot 2, block 197, \$800; J. H. Johnson, 3 lots in block 197, \$1,300 and 3 lots in block 191, \$1,200; J. H. Bauer, lot 4, block 197, \$400; C. E. Wells, lot 5, block 874, \$2,000.

THE OLD BOARD MEETS AGAIN.

Judge Dyas Reopened Happy-City Engineer King Made Building Inspector.

Alderman Webster presided over the city fathers Wednesday eve. Judge Dyas was rendered happy by the second and final reading of the amendment to the telephone ordinance. The Judge promised that people will soon be able to "hello" at each other over the wires.

Tuck & Huester of Helena, were awarded the sewer contract as Mr. Gorse had failed to provide bonds. Mr. Tuck satisfied the council that he had the wherewithal to guarantee the performance of the contract. Alderman Clinton moved that Mr. Gorse's check for \$300 which had accompanied his bid be returned to him. City Attorney Leslie held that the city could retain the check, and no further action was taken.

City Engineer King made building inspector in order to check the building of houses which are not in accord with the building ordinance. Blain Dunn received a formal permit for his new brick building. The council dismissed the election returns and parted to meet again on Tuesday.

WATER FOR TREES.

A Satisfactory Agreement Between the City and the Water Company.

The Great Falls Water company has agreed to provide water in abundance for the city parks and trees for \$100. By this agreement the city obtains for an almost nominal sum, plenty of water for the trees which have been recently planted. By its aid the trees will take a good start and will adorn the city by their green leaves and ornamental appearance.

THE BOSTON & MONTANA SMELTER.

Mr. Parsons Returns—All the Enterprises in Good Shape.

Mr. Parsons of the Boston & Montana company returned today. He has accomplished much business of importance relative to the smelter during his absence. A great deal of material and machinery has been ordered by him for it. The electric light and street railroad enterprises are also in good shape.

The New School District.

To the Editor of the TRIBUNE.—Allow me a small space to answer a slur against commissioner Hawkins. First, allow us to say we supposed the commissioners were elected to observe the best interests of the whole county. If so, how could they in justice to this whole constituency, allow district No. 1, or Great Falls, to

hold, bond and tax as they pleased, a territory comprising a large part of Cascade county for all time to come, to the detriment of all said territory except that immediately surrounding Great Falls? No, believe Mr. Hawkins and Mr. Dekey both acted justly and fairly in thereby establishing a precedent whereby Umi, Sun River, the smelter and much other territory, instead of just taxation, may be set off, to the best interests of the county. This course will make friends instead of enemies.

It also believe Mr. Hawkins spoke his honest sentiments when he said he should make enemies, but should do his duty in the matter. Society must be at a poor level when a public officer cannot do his duty without receiving censure in the pusillanimous manner dealt him by his critics. J. C. BEBER.

MESSRS. MOHLER AND SIEMENS HERE.

The General Manager of the Great Northern Arrived Today.

Mr. Mohler, the general manager of the Great Northern, and Peter Siemans, the well-known contractor, arrived in the president's car today. They will visit Neihart and Barker before returning. It is understood that Mr. Mohler has come out on an inspection tour. He found promise of a large grain crop in Dakota where there has been enough moisture for the purpose. Abundant rains are expected later on. Mr. Mohler is confident that North Montana will receive its share of moisture in the coming rainy season. Mr. Mohler is conducting with much success, the general management of the Great Northern system. He succeeded Mr. Mansel in that important position. It is hoped that Mr. Siemans, who is a partner of Senator Arrington, has come here with a view to a contract connected with the Neihart and Barker branches. He helped build the Montana extension, and is generally ready for the largest undertakings.

President Hill intended to come with the party but he had to leave for New York on business.

SUPPLIES FOR THE SOLDIERS.

Bids for Coal, Wood and Other Commodities.

The following is a list of the lowest bids received at Fort Shaw for furnishing the various military posts with supplies:

FOR PORT SHAW.
Eleven hundred cords of wood, W. F. Burgoyne, \$1.05; 70,000 pounds of oats, P. Y. Burgoyne, \$1.25; 50,000 pounds of corn, W. F. Burgoyne, \$1.05; 17,000 pounds of bran, W. F. Burgoyne, \$1.60; 170 tons of hay, M. L. Smith, \$14; 50 tons of timothy hay, M. L. Smith, \$18; 6 tons of coal, G. W. Quail, \$16.

FOR PORT ASSINIBOINE.
Two thousand cords of wood, W. F. Burgoyne, \$1.05; 50,000 pounds of corn, W. F. Burgoyne, \$1.05; 30,000 pounds of bran, W. F. Burgoyne, \$1.74; 30 tons of coal, W. F. Burgoyne, \$18.

FOR PORT MAGNINER.
Twenty-five thousand pounds of corn, W. F. Burgoyne, \$2.08; 22,000 pounds of bran, W. F. Burgoyne, \$2.78; 27,000 Helens oats, W. F. Burgoyne, \$1.74.

A Jumper Route.

Claims are getting valuable down in the Milk river valley. It appears that a man named Ed. Mariett has a claim about one-half mile from the town of Chiswick, which he has been "holding down." A man named Kush, a German, concluded that he wanted to jump somebody's claim and he said so publicly to the report goes, Mariett had warned Kush off his claim on one or two occasions, but it appears Kush thought he was probably a heavier man than Mariett and could "hold the claim down." Mariett and more of it, which he proceeded to attempt to do yesterday afternoon.

Mariett then took a hand in the game, met Kush's bluff, raised him three times with a life and raked in the pot, Kush not being able to stay long enough in one place to see the raise. In other words he skipped. The only damage was a scratch on Kush's leg from a bullet. No acres' worth of land was reported, though it is expected Mariett will have to appear for a hearing—River Press.

CASUALTY REMARKED.

"I have been here for several weeks," said a prominent visitor in our city today, "and am becoming more pleased with it every day. Its beautiful location and healthy climate make it a most desirable place to live in. And," he continued, "the work and energy I see displayed by all who have the best wishes of the city at heart, fully convinces me that Great Falls is shortly to become the leading city of Montana, if not of all the great northwest."

California Pioneers.

Boston telegram: The California Pioneers of New England, an organization composed of men who in '49 went to the gold diggings in California in a body, have departed on a visit to the scenes of their pioneer life. They were accompanied by several members of the "New Jersey" club. This society takes its name from the fact that its members sailed for California from Boston, May 1, 1849, in the ship New Jersey.

PROGRESS ALL AROUND.

The Sun River Bridge—The Building of the Road to Canada.

The person who does not occasionally take a drive around the city can hardly appreciate the improvements which are being made. A trip across the river in company with an enthusiastic yet conscientious real estate man will show you much that is pleasing to the owners of north side properties.

The piling for the approach to the Sun river bridge is all driven, also the piling for the eastern abutment. The bridge will consist of two spans, with a stone support in the middle of the stream. The contractors think they will have the work finished on May 10.

Driving on beyond the "Y" of the Great Northern feels the supplies which are being collected for the Canadian road. Here are thousands of ties, hundreds of heavy steel rails, hundreds of kegs of spikes, tons of plates and other material used in making a track for the iron horse.

Where last week on the prairie there was no trace of a road except the stakes, is now seen a nicely graded road-bed all ready for the ties and rails. The tents of the contractors and workmen make quite a town near the fair grounds. The road-bed of the Canadian is ready for the ties for about eight miles out.

The grade for the Great Northern branch to the smelters is also completed ready for the ties. Track-laying will be commenced on both these roads next week.

REVISION FINDS FAVOR.

Montana Wheels Into Line—What Rev. J. Reid Says.

Rev. J. Reid has returned from the Synodical meeting at Boulder. "What was done in regard to revision?" he was asked by a TRIBUNE reporter.

"This question" Mr. Reid replied was referred last fall to a committee. The chairman, Rev. T. V. Moore, summarized the various recommendations of the ministers and churches. Among these were suggestions that the word "elect" in chap. X, sec. 8, should be omitted and that it read "infants dying in infancy are regenerated, etc." The statement of the doctrine of preterition contained in chap. III, sec. 7, was considered too strong and it was proposed that the section referred to be eliminated. Chap. X, sec. 8, is advised to remain with the exception of the latter part, dealing with those "not professing the Christian religion" which it is deemed desirable should be stricken out. Chap. XXV, sec. 8, "There is no other head of the church, but the Lord Jesus," all that follows relative to the pope, being antichrist etc., is also to be stricken out. All these suggestions upon revision were approved and also an overture to the general assembly declaring that an urgent need existed for a new creed, and that the present time was auspicious. It was desired that a council be held composed of the Reformed and Presbyterian churches of the world, to draw up such a creed as far as may be in the words of scripture," and that such a council should be convened in the city of New York, when formed and convened, should be the working creed of the church. But whether it should supersede the Westminster Confession, or merely summarize and explain, can be determined by the church when such a creed is formulated."

HERE'S A SENSATION.

The New York World Opens Up Its Batteries Upon Henry Hill.

New York, April 13.—The World this morning begins an attack upon Henry Hill. The article is entitled: "The opening chapters in a curious social and contemptuous society; how a social secret was guarded and hidden; the mayor of Hillton's influence over Stewart at last discovered; the motive for the grave robbery made clear."

The article asserts that the influence of the facts already known as to the passing of the Stewart fortune into Hillton's control, it closes with the declaration that the Stewart will case will be reopened and all the facts brought out. The article will be continued in future editions of the World.

No Show for Harrison in Portugal.

Lisbon, April 16.—The elections for the 50 elective members of the house of peers have been held and have resulted in the return of the Conservative and Progressist candidates. Not a Republican was elected.

A Negro Pugilist's Fate.

St. Louis, April 16.—Local sports are talking of nothing but the feat of "Big Six," a heavy-weight negro pugilist, who on wager beaten an ox to death. He caught the animal by the horns and tutted it between the eyes four times. Then drawing back at arm's length he ran his head against the ox, knocking the four-legged brute to the ground, the ox dying in five minutes. The negro's hand was considerably swollen, but he has not suffered any serious inconvenience.

SHE WAS POISONED!

Not by anything she drank or took, but by bad blood. Is it any wonder she feels "blue?" In most cases blues are only another name for bad blood. A man or woman feels unhappy. Life seems dark. The heart is heavy. Bad blood is carrying its poison all over the body, and we call it "blue."

Read these experiences: Mrs. C. G. Hutchinson, of Pittston, Pa., says: "I consider Dr. Acker's English Blood Elixir the best medicine in the world, not only for blood troubles, but also for dyspepsia, with which I have been afflicted."

"Both my wife and myself firmly believe that Dr. Acker's English Blood Elixir is the best of all blood medicines, and will remove all impurities from the blood."

Geo. V. Spurrer, Valley City, Dak. "This grand Elixir is sold by druggists in all parts of America. It is a pure, honest medicine, not a cheap cathartic. Try it to-day."

For sale by Lapeyre Bros., Great Falls, Mont.

Notice of School Meeting.

Notice is hereby given that there will be held an annual school meeting of the school district No. 1, of Cascade county, Mont., on April 23, 1890, for the purpose of electing two trustees.

Notice of School Election.

Notice is hereby given that a meeting of the legal voters in School District No. 1, will be held at the house of P. Mevrick, in section 50, township 21 north, range 3 east, on Saturday, the 30th day of May, at the hour of 8 a. m., for the purpose of voting a tax for the support of three months' school of any term, and the resolution of any business that can be legally done at said meeting. By order of the board of school directors.

Farm for Sale.

A fine farm of 160 acres, all fenced; 40 acres under cultivation; good house, barn, granary, and other buildings; a new building 40x40 feet; miles east of Helena, the terminus of the Great Northern railroad. Reasons for selling—poor location. Address the Tribune Office.

SPECIAL INDUCEMENTS TO THOSE WHO DESIRE TO BUILD IMMEDIATELY

THE SITE OF IMMENSE FACTORIES. AN IMMENSE DAM TO BE BUILT. THE BEST PLACE TO INVEST.

The BOSTON & MONTANA COMPANY have selected NORTH GREAT FALLS as the site of their IMMENSE FACTORIES, which will furnish constant employment to thousands of workmen whose CASH WAGES will circulate every month in NORTH GREAT FALLS and vicinity.

An Immense Dam is now under contract to be constructed across the Missouri River above Black Eagle Falls at NORTH GREAT FALLS at a cost of a Half Million Dollars, and will furnish power for Hundreds of Mills. Other improvements will rapidly follow which will create a demand for more mill frontage and the Couler, Rainbow and Crooked falls will be utilized, all of which are within a few minutes' walk of NORTH GREAT FALLS.

The GREATEST RISE IN VALUES OF REAL ESTATE during 1890 will be in NORTH GREAT FALLS by reason of the MILLIONS to be EXPENDED in that vicinity in improvements during the year.
