## DAY'S DOINGS IN WASHINGTON

Comstock Opposes Successfully a New Superior Bay Survey.

### THE HENNEPIN CANAL WINS A VICTORY.

President Harrison Leaves Washington to Attend the Garfield Services at Cleveland.

The Tariff Bill Will be Considered Today by the Senate Finance Committee.

WASHINGTON, May 28.—The senate today resumed consideration of the important liquor or "original package" bill. Among others Frick argued in support of the bill, there being no quorum present a vote was not taken.  
Senator Allison submitted a conference report on the array appropriation bill, but there being considerable discussion of the modified form of the sale of liquors at the canteen clause, he withdrew it to avoid interfering with the consideration of the imported liquor bill.  
In the house while the river and harbor bill was under consideration Comstock of Minnesota moved to strike out the clause authorizing the survey of an entrance to the bay of Superior at the west end of Lake Superior and requiring report to be made whether it is advisable for the government to cut a new channel or entrance to the bay opposite the opening between Frick's point and Comstock's point. The motion was, after a brief debate, agreed to. The committee thereupon reported the bill to the house.

Dockery of Missouri, moved to recommend the bill with instructions to the committee to report it with amendments. The motion was, after a brief debate, agreed to. The committee thereupon reported the bill to the house.  
On motion of Cannon of Illinois, a resolution was adopted setting aside tomorrow for the consideration of the public building bills.  
A resolution was ordered from tomorrow until Monday. The house then adjourned.

ANOTHER COMMUNICATION PROPOSED.  
Senator Blair, from the committee on education and labor, today reported favorably with some amendments the house bill for the appointment by the president of a commission of five persons to be selected solely with reference to their personal fitness and capacity for an honest, impartial and thorough investigation of the liquor traffic.

THE HOUSE TARIFF BILL.  
The senate committee on finance will begin the consideration of the tariff bill tomorrow morning at 10 o'clock. The first thing to be decided is whether or not a hearing shall be given to persons desiring a change in the schedules as made up in the bill as it passed the house.

AN INTERNATIONAL BANK.  
Representative Hitt, of Illinois, today introduced in the house a bill to carry into effect the recommendation of the International American Conference for the incorporation of an international American bank.

An Agreement Signed.  
NEW YORK, May 28.—All differences in regard to passenger rates in the north west were adjusted today. An agreement was signed by all the roads to restore passenger rates to the tariff in effect December 2.

The agreement goes into effect June 10 and will continue for 90 days. No roads can withdraw except on 30 days notice. It was signed in Chicago by the representatives of all roads whose executive officers could be reached there. Vice President Goddard of the Atchafalpa road brought it to this city. He presented it today to President Oakes, who signed it for the Northern Pacific and Wisconsin Central roads. After the St. Paul directors had voted in favor of it, it was signed by the road which added its signature. The situation in the northwest continues unchanged. Parties having charge of the movement to adjust rates in that section state that the matter rests entirely with Jay Gould. If he orders his subsidiaries to restore rates other roads will follow.

DENVER, May 28.—A report reached here this afternoon from Alliance that a wonderful rice strike has been made in the Goldenrod mine, which is owned by ex-Senator Tom Brown. The strike has created the greatest excitement in the county's part of 125 years.

The German Catholic Convention.  
MILWAUKEE, May 28.—The convention of German Catholics began work early today to make up for previous delays. Business was crowded through in a lively manner and final adjournment was taken before 11 o'clock. The first business was to finish the election of officers. Before the close of last night's session Gustave Ester, Milwaukee, was elected president, Edgar Hackner of La Crosse was elected vice president and John Gottschalk of Sheboygan second vice president. The executive committee is as follows: Martin Gert, Oshkosh; Hans Broecker, Racine; C. H. Langenburger, Appleton; Anton Gernale, Milwaukee. A joint committee consisting of Wm. C. Capper, John Lockman, J. C. Ludwig, J. J. Freesacker, A. Herms of Milwaukee was selected.

RESOLUTIONS ADOPTED.  
John C. Ludwig, chairman of the committee on resolutions, presented some setting forth a plan of organization for political work in the coming state campaign. The preamble asserted that in no sense are the societies political nor do they want to dabble in politics but oppose measures like the Bennett law and work for their repeal, was a matter of concern rather than politics. German Catholics will not further or oppose the interests of any political party, but will keep out of politics. It is the sense of this convention that the Bennett law born of the material spirit in legislation, before the conscience and it would be wrong to Catholic children not to take active part in opposing such measures.  
It was resolved that the German Catholic societies take an active part in the coming state campaign and organize for the purpose as follows: An executive committee of 18 shall be selected for the state, seven to reside in Milwaukee; also that a senate committee consisting of 38 members and an assembly committee consisting of 100 members be appointed who will be under the direction of the control of the executive committee. The duty of these committees shall be to watch carefully that no fraud or imposition of the measures referred to is elected to either branch of the legislature.  
The funds necessary to carry on the proper agitation shall be raised by voluntary subscription. This was adopted unanimously.

BILLS TO BE WATCHED.  
Another resolution was introduced by Ludwig and adopted was one calling for the appointment of a state committee of 5, of which two shall reside in Madison and three in Milwaukee, that shall look closely after bills that come before the legislature and report promptly measures that appear antagonistic to Catholics. This resolution provides also for the appointment of a committee of three members each period in the state whose duty it shall be to secure the necessary protests when called for by the legislative committee.  
Another resolution that was adopted was one recommending the organization of debating clubs in every congregation in the state, where young men may be encouraged to discuss questions of public interest.  
A resolution was offered proposing that a life insurance fund be created in each year or not until the following year will depend upon the action taken by the national convention which meets in September. An interesting scene was enacted in the committee room late yesterday afternoon while the convention was still in session. The Bennett law resolution had just been passed. Chairman Ludwig of the committee on resolutions had referred to the committee room, when Bishop Kasper, of Green Bay, passed through the hall to the committee room. He asked hurriedly to see the resolution. "I have not seen them," he said with the air of a man who had been misled. A priest handed him a German copy reminding that they had already been adopted unanimously. "I should have seen these before," said Bishop. He then called Ludwig to him and for an hour argued with him. The bishop then said he had no control over a child even if the parents did neglect it and he thought it was a dangerous thing to go on record as conceding such a right of the state. Chairman Ludwig was firm, however, and refused to change or re-submit the resolution. The bishop retired in a distressed mood.

## THAT RATE WAR IS ENDED.

Trunk Lines Have Agreed to Restore Former Passenger Rates.

### THE CATHOLIC CONVENTION ADJOURNS.

Butchers Organizing Against the Chicago Dressed Meat Monopoly.

General Telegrams From the Leading News Centers of the Country.

CHICAGO, May 28.—The end of the western passenger rate war is at hand. A meeting of the general passenger agents of the interested lines will be held tomorrow for the purpose of fixing a date for the restoration of rates. The Wisconsin Central has yielded and is now ready to become a member of a new association without any "kneeling" as to the speed of trains between Chicago and St. Paul. Indeed it has already signed an agreement. This removes the only apparent obstacle to the establishment of peace and there is no reason to doubt that the ten days notice required by law will be given tomorrow of an advance in passenger rates throughout the territory where they have been cut.

Railroad Men in Council.  
WASHINGTON, May 28.—The national convention of railroad commissioners met here today. The subjects which it was called to consider relate to railroad legislation, uniformly in railway accounting, railway construction, etc. Judge Cooley, chairman of the interstate commerce commission, called the convention to order and made a brief opening address. Judge Cooley was elected chairman and E. A. Mosley secretary.

The report of the committee on legislation appointed at the last meeting was then read. The report stated that there were two causes for lack of uniformity in railway legislation in this country, the first cause was want of harmony between the legislature of congress and that of state legislatures. The second cause was want of uniformity in the legislation of different states. The report recommended that the main features of the interstate commerce law be made part of the laws of the different states. It was also urged that laws be enacted by congress securing uniformity in the various details of railroad equipment and management with a view to the greater safety and comfort of employees and the public. The recommendations of the report were contained in discussing a series of resolutions embodying views expressed in this report.

A statement compiled by the statisticians of the interstate commerce commission, which shows the number of persons killed or injured in railway accidents in the United States during the year ended June 30, 1895. The statement shows that during that time 5,232 persons were killed and 39,930 injured. Of the number killed, 1,978 were employees, 810 were passengers and 2,444 were "other persons." Of the injured 1,253,133 were employees, 2,146 were passengers and 4,185 were other persons.  
The statement further says the railways of the United States carried 473,171,343 passengers during the year covered by this statement, from which it appears that there were in every 1,253,133 persons killed and one passenger in every 220,304 was injured. For the year 1888 the rates of casualty in England to passengers on the continent were 1,342,338 killed and one passenger in every 587,277 injured. In judging the above figures it should be noted that the passenger mileage for a given number of tickets sold is much greater in the United States than in England, a fact which mitigates somewhat the severity of the mitigation upon railway management in the United States disclosed in the above statement. The number of railway employees in the United States is given at 704,786.

Threatened with Lynching.  
SARASOTA, Fla., May 28.—The discovery was made today that John Williamson Moore and his son, Charles Moore, was also the probable murderer of a storm of indignation against the reason, Sheriff Smith today received information that a lynching party was being organized out of Moore's neighborhood and he placed a double guard on duty.

TOLEDO, May 28.—In the court of common pleas today, Madame Devere, who was found guilty of perjury, received a sentence of 10 years at hard labor. She was a clairvoyant who forged the name of Richard Brown, the well-known iron master of Youngstown, to notes amounting to \$20,000.

The Alabama democratic state convention has begun. It will probably be four days in session.

The Reading colliers have resumed work at Ashland.

## THE FIRST NATIONAL BANK.

An Increase of Reserves of \$245,000 in Three Months.

We publish elsewhere the statement of the First National bank of this city as made to the comptroller of the currency, showing the condition of the bank at the close of business May 17, 1896. In many particulars it is a surprising report. The growth of the bank's business since March 1, when the last report was made, is remarkable, the resources having increased in that short time \$348,000, being now within \$25,000 of a round \$1,000,000. The loans exceed \$500,000 while the deposits amount to the neat total of \$788,597. The surplus and undivided profits amount to \$245,000. The cash items sum up \$430,000. Is there another bank in the United States in a town of the population of Great Falls that can make such a showing as this? We doubt it. The stockholders of the First National have certainly good reason to be pleased with the management of this institution which will in a few days, if it has not already, declare a dividend of 50 per cent. on its capital stock. It is one of the instances of which Great Falls in general can well be proud.

McNAMARA FOUND GUILTY.  
The Chouteau County Grand Jury Dwell on Falsely and Poisoning.

BENTON, May 27.—In the district court today the jury in the McNamara case brought in the following verdict:  
"We, the jury in the above entitled action, do find the defendant, Patrick J. McNamara, guilty of robbery, as charged, and set forth in the indictment, and fix the penalty at imprisonment in the state prison for a term of five years."—B. Percy Clark, Foreman.

The suit of the River Press Publishing company against the board of county commissioners was tried before the court and submitted for its decision.

James Lantz is on trial for grand larceny.

In their report the grand jury say:  
We desire to call your attention to the acts of justice of the peace in summoning witnesses, thereby causing too much public expense, which we think entirely unnecessary.

His lawyers inquired into the indeterminate sale of poison and find in some instances that a record has not been kept of the same as required by law, and recommended that the proper officials look more closely into the matter and see that it is done.

We would also call your attention to the indeterminate putting out of poison on the ranges by persons who do not fully understand the law, and respectfully refer to section 312, page 456, of the statutes.

MINNEAPOLIS, May 28.—Posted receipts of wheat for the day were 113 cars; shipments 28 cars. There was good early demand local millers for selection and they sought their wheat trade. They wanted but little each and were soon filled up. Sellers found it a peddling market. When they had any that failed to meet the existing views of local millers the wheat was sold at a sacrifice. There was some demand from outside millers but it was little. Closing quotations were: No. 1 hard, 90 1/2; No. 2 hard, 89 1/2; No. 1 northern, 91 1/2; No. 2 northern, 90 1/2; No. 3 northern, 89 1/2; No. 4 northern, 88 1/2.

CHICAGO, May 28.—Crop reports were the principal influence today. Other news was scarce. Crop received considerable attention, the market at times was fairly active, though fluctuations kept within 1/4 to 1/2c range. The feeling was rather firm. Transactions were at higher prices than of late.

## THE GOVERNOR AND HIS BRIDE.

They Receive a Hearty Welcome on Their Return Home.

### EX-SECRETARY WEBB IS DISCHARGED.

The United States Grand Jury Finds no Grounds for an Indictment Against Him.

His Arrest was for Political Purposes As is Shown by the Result of the Investigation.

HELENA, May 24.—[Special to the Tribune.]—Gov. Toole and bride arrived by the Montana Central train today. They were met at the depot by a committee of officers of the National Guard and the governor's relatives. After brief salutations, the company entered carriage and were driven to the governor's residence. A serenade and parade of troops will be arranged for tomorrow.

NO GROUND FOR INDICTMENT.  
Such is the Verdict of the U. S. Grand Jury's Investigation in the Webb Case.

HELENA, May 26.—[Special to the Tribune.]—The United States grand jury came in this afternoon and reported that in the matter of the United States versus Wm. B. Webb and of the United States versus Louis Wertheimer, under bonds to appear at the United States circuit court, they have found the evidence not sufficient to warrant them in finding indictments against the said persons and therefore recommend their discharge and that their arrests be released.

There is other business before the grand jury which will probably be finished tomorrow afternoon and the United States circuit court adjourned until 5 p. m. tomorrow. The charge against Webb was appropriating moneys belonging to the United States, and this exonerates what was expected by his friends. The charge was made and the arrest brought about during the campaign.

Wheeler Will be Assayer.  
WASHINGTON, May 26.—Wm. D. Wheeler has been recommended by the Montana delegation for assayer of Helena and it is expected that he will be appointed tomorrow to succeed Braden.

SCHOOL BOOK TRUST.  
Harper Bros. in the Deal and New School Books are Likely to Come High.

CHICAGO, May 27.—A morning paper says that by the completion of three deals within the past few days the school book publishing trust has been completed, 80 per cent of the entire business of the United States having been taken in. Among the concerns which threaten its perpetuity were the Standard Publishing company of St. Louis and D. D. Merrill & Co. of St. Paul. They had a seven-year contract to furnish school books to the state of Indiana. They were brought into the fold a few days ago, having only the great New York house of Harper & Bros. to be feared. Negotiations were begun with them and the announcement is made, that for a consideration estimated at between \$750,000 and \$1,300,000, the firm has consented to go out of the school book publishing part of the business.
