The Bennett Law Denounced.

MILWAUKEE, June 4.—The German Lutheran anti-Bennett law convention was called to order at the west side Turner hall shortly after 1 o'clock by Christian Koerner, editor of the Germania, who represents the head and foot of the Lutheran belt.

After the appointment of a committee on credentials, Mayor Peck appeared on the platform and made a pleasant little speech of welcome. The mayor was followed by T. W. Von Gatzhausen, a prominent German lawyer, ex collector of customs Conrad Kreg, Prof. Basuma B. Anderson, ex-minister to Denmark, and Dagmar Koss, another editor of the Germania.

All spoke of the Bennett law as an unnecessary infringement on civil and national liberty.

Resolutions were adopted. They protest against the Bennett law because it is unnecessary and unjustly curtails the civil and religious liberty. It gives the school board an opportunity of discriminating between the German Lutheran school boards and other school boards without regard to the rights and customs of the churches or their schools. It prescribes certain studies as the medium of instruction. The Lutheran school boards are afforded an opportunity to urge proper not given them. The resolutions also declare that regardless of former party affiliation the German Lutheran school boards should vote for such candidates only as pledge themselves to work for the repeal of the Bennett law.

MING COULDER THIRIVING.

Gratifying Progress Made in Cultivating the Soil.

(Special Correspondence of the TRIBUNE.)

MING COULDER, May 31, 1890.

Seeing communications from various portions of Cascade county, a word of real good, sound truth from this beautiful region may not be out of place. This region is second to none in beauty, fertility and

VARIETY OF RESOURCES.

There are hundreds of acres in grain, much of it six inches high and completely covers the ground. Lampen & Burdock have 100 acres of grain that looks well. Mr. Galley has over 70 acres and John L. Smith 30 acres, all of which looks very fine. The Brown Brothers, Hilda Potts and Frank Ogilvie each have large crops that are making the farmers laugh at their rapid growth.

PLenty OF RAIN.

has fallen, not in long, heavy showers, but in showers of frequent intervals and the farmers are encouraged to put out larger grain and vegetable crops. Besides grain the garden crops are looking exceedingly well.

NEW SETTLERS.

The choice lands are nearly all taken and the new comers are going to work with energy plowing, fencing and building. Mr. Nickerson is one of the late comers, but he has put in 30 acres of fine wheat and is making good progress with his farm work. Mr. Jeffers, another new settler, has traveled over much of the western country and says he never saw in any springs of sparkling water, such fine, loose soil, and such good timber anywhere else in Montana. He has taken up a ranch and will make his home here. Anyone who wants a fine farm and is willing to undergo the hardships accompanying the building of a home can do no better than to come to this region.

Mr. Richard Sawyer has sold out to Mr. Murdoch; Mr. Harriman and Frank Nixon have sold their ranches to George Keser. Mr. Keser has built a large house and probably expects to take a life partner in a few weeks.

BRIGHT PROSPECTS.

The farmers here are confident of a large crop of grain. Various estimates have already been made of the yield. I think wheat will yield 40 bushels per acre, oats 60 bushels and barley 30 bushels.

This section is badly in need of a good road to Great Falls and it seems only just and fair that the county commissioners should appoint viewers and have a road built. Several thousand bushels of grain will be raised in this section this year and the road would encourage us to grow larger crops next year.

Mr. Richard Sawyer has sold out to Mr. Murdoch; Mr. Harriman and Frank Nixon have sold their ranches to George Keser. Mr. Keser has built a large house and probably expects to take a life partner in a few weeks.

BLACK BUTTER.

Good Tidings From That Part of Choteau County.

(Special Correspondence of the TRIBUNE.)

ROBART, June 2.—Your correspondent since writing last has visited most of the ranchers and stockmen from Choteau northward to this place and we find the country covered with green grass fully six inches high. This entire section of country has had an abundance of rain and the prospects for stockmen and ranchers are flattering.

We were surprised to see a sheep ranch so well equipped and so systematically and economically managed as are the "Black Box." These gentlemen have 25,000 sheep and expect to raise this season 8,000 lambs. There are run on seven ranches besides the summer camps, which are connected by a system of telephone wires. In lambing season they use a crew of men at night, which they believe pays them largely. On the head waters of Birch creek a number of prospectors cut up horse men, including Messrs. Halliday, Harker, Kropp, Collins, and others are to be found. In this vicinity the gray wolves are numerous. Mr. James Collins reports a loss by wolves this spring of some calves, also five sucking and eight yearling colts.

The sheep men on the upper Dupuyer report considerable loss through the winter, also in lambing. We noticed Mr. J. Burd of Dupuyer seemed to be doing a

A GOOD BUSINESS.

at this place, which is on the line of the Piegan reservation. He is building up quite a trading point. Hershberg Bros. and Silverman & Cohen each have a branch store here and report business good. In this vicinity are thousands of acres of fine land as can be found for settlers. Anyone wishing to locate a ranch can do no better than to come to the vicinity of Birch creek.

QUARTER TRACK.

A Dangerous Trust Broken.

MASON CITY, June 3.—Agents have been instructed to sell binding twine of various kinds at an average of 4 cents below the price of last year. This is believed to indicate that the binding twine trust which has imposed such burdens on farmers of this and other states has been broken. This reduction of price will save many thousands of dollars to Iowa farmers alone.

George D. Estlin Dead.

HELENA, June 3.—George D. Estlin, an old and well-known newspaper man, formerly of the "St. Paul Globe" and late editor of the "Helena Independent," died at Warm Springs, Montana, today.

More Beed-Like Schemes.

WASHINGTON, June 3.—The majority report in the case of Miller vs. Elliott from the Seventh South Carolina district, was submitted to the house committee on elections this morning by Chairman Rowell. The report is somewhat sensational in that at the very beginning it declares that the entire South Carolina registration and election laws are unconstitutional. The basis for the declaration as stated in the report is that the state law imposes a number of restrictions upon the exercise of the right of suffrage which are in conflict with the state constitution.

Amendment to the TARIFF BILL.

WASHINGTON, June 4.—Senator Sherman today proposed and had referred to the finance committee as an amendment to the tariff bill the wool schedule prepared by the national wool growers association. Senator Washburn also proposed to amend the bill by putting white pine lumber on the list.

IOWA VISITED BY CYCLONES.

The State Institute at Glenwood Wrecked and Several Lives Lost.

LOVELAND IS ENTIRELY DESTROYED.

A Great Anti-McKinley Bill Meeting Held in Philadelphia.

Aleck McInire Presides Over the Large Assemblage.

COUNCIL BLUFFS, June 3.—A special from Elmwood, 15 miles southeast of here, gives news of the disaster brought on that city by the great storm this morning. The special states that a terrific storm passed over the city last night, shortly after midnight. A heavy black cloud advanced upon the city from the west and the low rumble that preceded it was suggestive of danger. The blackness of the night was frequently dispelled by vivid flashes of lightning. The storm moved with great rapidity and about one o'clock it reached this place. Rain fell in torrents and was lashed about by a strong wind. The hissing of the lightning was followed by a deafening clap of thunder.

The state institute for its victims Willie Cline of Clark county and Wesley Emory of Monroe county, and their little bodies were crushed almost to a pulp. Six others were more or less injured by the falling of the chimney. Several other buildings were wrecked. The storm was the most severe that ever visited this section. Specials from Creston, Atlantic and other points, show that the storm was equally severe in these places.

An Intemperate Meeting.

PHILADELPHIA, June 3.—A business men's meeting for the purpose of protesting against the passage of the McKinley tariff bill was held at the Walnut St. theatre this afternoon. Alexander K. McClure presided. The list of vice presidents included the names of the most prominent business men in Philadelphia. The hall was crowded. The tobacco, tin plate and woolen industries were largely represented. The speakers were Congressmen McAdoo of New York, Springer of Illinois, Byrum of Indiana and Breckenridge of Kentucky. Ex-President Cleveland sent a letter of regrets.

Aid Appreciated.

NEW ORLEANS, June 3.—The Louisiana legislature formally thanked congress for all given during the flood.

Opposing the Tariff.

BIRMINGHAM, June 3.—All except the United States delegates to the anti-slavery conference have formally adopted the Congo tariff as defined by the convention.

Swaps Away Entirely.

COUNCIL BLUFFS, June 3.—The storm which prevailed over this section last night demolished what was left of the village of Loveland. The river, swollen by the cloud burst, Saturday night, which carried away a number of buildings, overflowed its banks from last night's storm and carried everything before it.
