It is said that Baltimore to arrange for the purchase of the stock by which the Baltimore & Ohio will be operated in harmony with the Richmond Terminal.

It is also reported that the Northern Pacific has joined with the Richmond Terminal in the deal and would use the Baltimore & Ohio as an eastern connection. The deal is also said to include a provision for an arrangement by which the Pacific Mail steamship line will make the terminal point and give the Northern Pacific railroad trans-Pacific service.

THE STORMS HAVE FULL SWAY.

Telegraph Lines Prostrated Throughout Ohio and Indiana.

CURTAILING OUR NEWS REPORT.

The Livingston is Moving in the Matter of Securing a Railroad to Castle.

Lead Advanced Five Points Yesterday While Silver Dropped One Notch—Copper Steady.

ST. PAUL, June 11.—Very severe storms in Indiana, Illinois and contiguous states are prevailing and telegraph lines are prostrated in every direction, while in some sections railroad traffic is suspended. The storm is general in the region named.

At ten o'clock last evening the agent of the Associated Press at St. Paul wired us that owing to the storm the news report for tonight will necessarily be short. The wires being down in almost every direction no report of consequence was received at St. Paul, and that state of affairs left the papers on the northwestern circuit short of news.

LIVINGSTON WILL NOT BE LEFT.

The Board of Trade Meet and Take Action Regarding the Road to Castle.

LIVINGSTON, Mont., June 11.—The business men of this city met in the club rooms last night to take final action concerning the Castle road. The meeting was called to order by Wm. M. Thompson. A telegram was read from the Northern Pacific officials asking what Livingston was going to do concerning the proposed railroad to Castle from this city. A motion was made and adopted that Livingston would grant the Northern Pacific railroad company a one hundred foot right of way from this city to Castle provided the construction of the road would be commenced during the year 1890. A committee was then appointed to telegraph the Northern Pacific officials the action of the citizens. This morning a telegram was received from T. F. Oakes saying the proposition had been received and would have their careful consideration.

An Evening Paper's "Fairy Story."

CHICAGO, June 10.—An afternoon paper publishes a long and sensational article in relation to the death of a tailor named Gustave Canton, though when brought down to a succinct statement of the fact, it seems merely a sensational case. The story was first told by a workman named John Stier, who said that on February 26th, last, when passing Michigan avenue, Superintendent John Miller called to him to come inside. He went inside and found Miller sitting in a new grave. The coffin was partly covered. Miller said to him that he believed the man in the coffin was alive. Stier listened and heard a series of distinct raps as if made by knuckles of some one on the inside of the coffin. Miller, however, continued to fill in the grave, and Stier ran into the street, covering the coffin with the man's coat. Miller, so Stier told him subsequently, opened the grave and found the body distorted and every evidence that death had occurred at that time. He was questioned by the reporter, said that in burying Canton, he heard noises from the coffin and to make sure took off the lid and saw the man was dead. He stated the testimony both of his eyes and nose to that effect. He replaced the coffin lid and began again to fill the grave. As things were quieted at that time, he thought it would be a good job to scare him, in which he succeeded to perfection. He clinched it by telling him the "Fairy story" on examination subsequently. The noises in the grave he believed were caused by water running in around the coffin. Inquiry at the hospital elicited the information that Canton had heart disease and the attendants of the institution scouted the idea that the man could have returned to life in the coffin.

ANOTHER TRAIN ROBBERY.

The Express Messenger Killed and \$10,000 in Cash Stolen.

LITTLE ROCK, Ark., June 10.—Early this morning the express car attached to the north bound train was robbed between Camden and Texarkana by four masked men, and ten thousand dollars taken. Express Messenger Bishop was killed. The robbers made good their escape.

Sarah Althea Knocked Out.

SAN FRANCISCO, June 10.—The supreme court of California today reversed the judgment of the lower court granting alimony and counsel fees to Sarah Althea Sharon in her well known divorce case against Wm. Sharon. The alleged son-in-law of marriage on which she based her claim was declared by U. S. circuit court in 1888 a forger and therefore is null and void.

WASHINGTON, June 10.—For the fourth time the republican representatives were in caucus tonight upon the subject of a national election law. The caucus resulted in the work being referred to a committee.

Northern Pacific Has Control.

The Silver Bill in the Senate.

WASHINGTON, June 10.—The senate finance committee will take up the house silver bill tomorrow morning and expectations are that it will be reported to the senate in the afternoon. FROM THE FOOT HILL REGION.

What the People of Upper Belt are Saying and Doing.

Becher declared that an honest, kindly interest in your neighbors' affairs was not inquisitiveness, and that to talk about them in a kindly way was not gossip. If you step up to an oil painting of any merit and examine it closely, critically, you will see nothing but rude outlines and blotches of paint and color. Viewed from a distance with proper light the tones all harmonize, lights and shadows blend together in a beautiful harmonious whole, and the picture is complete. So with humanity. If we disintegrate conduct and sit in judgment on certain actions without considering their relation to the necessities of the person's condition in life and his plans, which must necessarily all concentrate around the one individual, we see only crude outlines, dabs and blotches. But if we view from afar off, leaving the personality untroubled, each person, as a rule, is complete in himself and for himself, a unit in an harmonious whole. We may speak of his affairs but never venture to interfere.

Henry McLaughlin has sold his improvements on the crop—of wheat, this year than last and declares he did not have half a crop last year. N. T. Wilson thinks there is no doubt but that the Michigan colony will have a school now follow "an suit" and viewed from a distance the sublime whole will not be at all incongruous.

Mr. Whitaker has gone back to Michigan, leaving two sons and a daughter here to look after his interests. He will return in the fall accompanied by the remainder of his family.

Mr. York has settled permanently on the claim held by Charles Kidder. A young man named Bronson, recently from Caro, Mich., taking possession of the claim York received. He is already busy putting up a house and making other improvements.

Mr. Dulcine and son, from Iowa, are cropping at the ranch of Mr. (Harold), near Kirby, but are negotiating for a location with the Michigan colony.

Mr. Hall is hauling now to get his whole quarter section fenced, presumably that he may keep his band of cattle inside his own enclosure.

UPPER BELT.

A Wonderful Piece of Ore. A monstrous chunk of ore was taken from the Mountain Consolidated mine at Britte on Monday and drawn to the Annacosta office. It was too large to put on a two-horse wagon, and a four-horse team was required to haul it. It is nearly solid copper and silver. It has been bound with hoops of iron and boxed up, preparatory to shipment, probably to Europe.

MONTANA MEETINGS.

Wool Season Opened.

The first wool of this year's clip to come to this market arrived Monday. The bags bore the well known brand of G and were from Clark Brothers ranches above Cheyenne. The wool is fine, even and smooth and considered to be the very best quality. The Clark Brothers will probably shear 50,000 pounds of wool this season.

WEEK WOMEN.

The more sensitive nature of the female sex renders women much more susceptible than men to those numerous ills which spring from lack of harmony in the system. The nervous system gives way, sick headache is frequent, the appetite is lost, and other ailments peculiar to the sex cause great suffering. Hood's Sarsaparilla is peculiarly adapted for such cases, and has received the most glowing praises for the relief it has afforded thousands of women whose very existence before taking it was only misery. It strengthens the nerves, cures sick headache and indigestion, purifies and vitalizes the blood, and gives regular and healthy action to every organ in the body.

A Big Chicago Sensation With a Very Filmy Foundation—Heavy Rains in the Dakotas.

KANSAS CITY, June 10.—The opening day of the spring meeting of the Kansas City Jockey club was derby day. The crowd numbered something over 12,000 people. It rained torrents last night but the day opened warm and clear and the track was in fair condition, though a trifle sticky. B. Carrigan Riley was entered for the derby, but showed up lame while working this morning, besides he had too heavy weight for a sticky track, 120 pounds, and his owner scratched him. The winner, however, was a Kansas City horse, Varge D'or, owned by William Mulkey, owner of Lepemeir, who won last year's derby. There were eight entries for the derby: Last Love, 107; Blue Vail, 112; Varge D'or, 120; Lord of Harem, 112; Red Light, 122; Pilgrim, 122; Riley, 120; Morse, 117.

When the bugle called the horses to saddle only four jockeys went up, one of them, Dolschkins, who had been entered at the last moment. The other three were Vail, Varge D'or, and Lord of Harem. Pool odds were: Blue Vail, 9 to 8; Varge D'or, 3 to 1; Lord of Harem, 5 to 3; Dolschkins, 7 to 2. Blue Vail and Dolschkins were favorites with the betting fraternity, but Varge D'or was backed heavily from the inside. The drum tapped at first jump. None of them were in a hurry. They ran in a bunch to the quarter where the Lord of Harem showed his tail. Varge D'or led a little and the at half he was in the lead by half a length. Blue Vail neck and neck for place with Dolschkins two lengths behind. Then Dolschkins made her running for a quarter for all that was in her. She led at three quarters by a length, but soon ran out and fell back dead, only two lengths ahead of Blue Vail, who was not in after the mile. Varge D'or kept his lead a length ahead of Lord of Harem into the stretch and at the betting stand increased it to two lengths and won as he pleased, three lengths ahead of Lord of Harem.

First race—one mile, 3-year-olds and upwards, Churchill Clark won three lengths ahead; Or, second; Panola; third, Time, 1:56 2-3.

Second race—five furlongs, for 2-year-olds; Parapet won by two lengths; Dewberry, second; Shawnee, third. Time, 1:11 4-5.

Third race—the Derby. Fourth race—six furlongs, heats, for three-year-olds and upwards; Kire won by May Hart, second. Time, 1:29 2-3.

Fifth race—one mile and over, for 3-year-olds and upwards; Madolin won easily by three lengths; Metal second; Regardless, third by a head in front of Vice Regent. Time, 3:01 1-5.
