A MEMORABLE RACE.

Salvator and Tenny Race for \$10,000.—A Graphic Description of the Contest.

NEW YORK, June 25.—Thousands visited Sheepshead Bay race track today to see the great match race between Salvator and Tenny. It was a perfect day in June. Salvator put in the first appearance on the track. He looks in good shape and the general verdict is that he is fit to run for any purse.

When the bugle blew the expectations of the crowd were raised to the highest pitch. Race goes on down to see a great horse race and their expectations were more than realized.

Five thousand dollars each with \$5,000 added by the club; to carry 122 lbs. good track; stewards to decide; one mile and a quarter. Salvator, 122, Murphy, straight 122; Tenny, 122, O'Neil, straight 122.

Grand spectators of horse flesh, they are, both of them, and their riders appear like part of the animals, so perfectly they are fitted in their seats.

Now the race is at the post. Caldwell with a bit of red riding in his hand is waiting impatiently for them to get on even terms so that he may come in for no share of condemnation from losers.

AT THE STARTING POINT.

Now the race is at the post. Caldwell with a bit of red riding in his hand is waiting impatiently for them to get on even terms so that he may come in for no share of condemnation from losers.

A CRITICAL MOMENT.

Now the battle rages in earnest. Stable boys lining the fence on the turn can see the crack jockey take a firmer grip on the reins.

THE HORSE STRUGGLE.

As the splendid animals come bounding home, Garrison, the white jockey, is riding like a devil, and how the multitude can see him plunging the wicked spurs in the heaving flanks of the willing racer.

THE HORSE STRUGGLE.

Salvator had won the race, however, by the shortest of short heads, but the race was twenty yards further, Garrison's magnificent riding would have landed Tenny a winner.

After their defeat the Frenchmen retreated up the shore a short distance from the scene of conflict, and renewed their efforts to get built. Later, the British having secured the bait they wanted, took up their nets and yesterday the French were fishing where the British had been.

THE HONOR AND INTEGRITY OF THE MANAGEMENT OF THE LOUISIANA STATE LOTTERY COMPANY are now fully established all over the country.

Our outside readers may not appreciate all that this railway means in connection with the prospects of Lethbridge. They may not know how intimately the prospects of the town are bound up with the success of the company; they may not know that the primary object of the road is the carrying of Lethbridge coal to Montana, and that the market on the other side of the line is practically unlimited.

THE EXPENDITURE OF THE COMPANY IN developing and improving their mines will foot up to not less than \$100,000.

By September the railroad from Lethbridge to Great Falls will be completed and in running order. Apart from the cost of construction, the sum to be spent this year in Lethbridge on increased rolling stock, engines, and accommodations, on machine shops, engine houses, cottages, etc., will amount to about \$200,000.
