VOLUME VIII.—NUMBER 10. GREAT FALLS, MONTANA, SATURDAY MORNING, NOVEMBER 22, 1890. PRICE FIVE CENTS

Breaking the record.
Some records are like the last—easily broken. Other records have established so high a standard that only the highest specimens of humanity, physically or mentally, can hope to equal or surpass them. A record which is worth making is worth preserving. We value our record as highly as we do our business prosperity. They cannot be separated, because one depends upon the other. We have established our reputation by studying the interests of our patrons, being ready to meet every possible demand and by anticipating all the desires that come to a man, either in social or a business life. The advantage of dealing with us is that we can enable you to meet any possible emergency, that what we sell is never out of proportion to the price which we charge and that when you buy you have paid not a cent more than the value of your purchase. We are now offering the biggest bargains in the

TAILOR MADE SUITS AND OVERCOATS

At prices heretofore unheard of. If you are going to buy a suit this fall or winter, come in and get our prices.

Speaking of Suits

Reminds us that never since we opened in Great Falls have we sold so many fine suits in imported Casimeres and Woosters—both sack and three and four button cutaway frocks—as in the last 30 days. When an elegant English Wooster suit that is made up, lined and trimmed in the very best style and workmanship—can be bought at from \$15 to \$22.50—goods that are honestly worth \$30—it is nothing strange that our patrons appreciate our efforts in this direction and buy liberally.

In Overcoats

We are making the same sweeping reductions. We now offer an elegant English Melton Overcoat—lined with fine serge and satin sleeve lining—for \$15. They can't be bought for less than \$20 elsewhere. A \$30 coat for \$25 and so on, too numerous to mention.

Our Boot and Shoe Stock

Is complete in Men's and Boy's wear. Most everybody has read of the celebrated Douglas \$3.00 shoe. We have them and can recommend them to every customer as the best medium priced shoe made in the world. Our stock of fine hand sewed shoes and boots is complete in the leading makes. We can fit any one and we warrant every shoe.

Our Hat and Cap DEPARTMENT.

Ah! Here is where we shine. Has anyone told you of those genuine Seal Skin Caps we are selling at \$5? No. Well, come in the store and look at them. They were bought long before the McKinley Bill passed, and if we were not so consistent a democrat we would have advertised them before the election. But everything has gone up, you know, so we just waited for a chance to spring them on an unsuspecting public, when the elect was made; and by this way we have a "little richest thing" in a Seal Skin Cap you ever saw, something that would make an elegant and everlasting Christmas present. In Silk and Derby Hats we show Knox's celebrated goods. Their latest productions for 1890-91 are now in stock. Everything in the Hat line at such low prices.

Give us a call if in want of anything in the Clothing, Furnishing Goods, Hat and Cap, Boot and Shoe line.

THE INDIAN TROUBLE

Gen. Miles Gives His Opinion on the Subject—The Matter will be Settled within 48 Hours.

THREATENING OUTLOOK AT PINE RIDGE

Troops are Rapidly Concentrating on the Scene, and will be Able to Crush the Indians.

The Forces Sufficient to Protect the Lives and Property of Settlers But the Scare Continues.

CHICAGO, Nov. 19.—Gen. Nelson A. Miles, commanding department of Missouri, when interviewed by an Associated Press representative this evening, had before him many telegrams from the northwest, as well as official communications from the war department at Washington. Usually General Miles has upon his countenance a pleasant smile for all who call, but those who know him well can discern an expression of anxiety and worry, although the general does not let words express that which his countenance portrays.

"What is the situation this evening, general, up in the Indian country?"
The general at once looked up from his desk and replied: "Same turbulent spirit among the Indians is manifested at Rosebud, Pine Ridge and Cheyenne agencies. There is a more threatening state of affairs existing at Pine Ridge agency than elsewhere, and my latest official reports are that troops have gone to Pine Ridge agency from Rosebud agency. General Brooke left the railroad station at Rushville this noon for Pine Ridge and he with his command of three troops of cavalry and five companies of infantry will reach there by daylight. At the same time Lieut. Col. Smith will reach Rosebud agency with three troops of cavalry and three companies of infantry."

"In my opinion," continued the general, "these forces will be sufficient to protect the lives and public property at these agencies and control the Indians there. If the Indians do not commit any serious overt act before the arrival of troops, or immediately upon the arrival of this force I am of the opinion that the appearance of troops will have a most quieting effect. I have received information that night before last 'American Horse,' who is one of the Sioux tribes, had a narrow escape from assassination from the turbulent Indians at Pine Ridge agency. This Indian is a prominent Sioux chief, and a friend to the United States Government. He has been so regarded for years, and always inclined to be peaceable and loyal. To nothing but turbulent, hostile and defiant spirit of the Indians can I attribute this attempt to murder 'American Horse.' They are seemingly angry because 'American Horse' opposes the turbulent spirit manifested by the Indians."

THE INDIANS SUBROBED.

Troops from the West Arriving Every Hour and Increasing the Forces.

ROSEBUD AGENCY, N. D., Nov. 19.—When the Indians on this and Pine Ridge agency woke up tomorrow morning they will find themselves surrounded by the strongest body of United States troops which has been mustered in since the defeat of Geronimo. It can be predicted that if some unfortunate act on the part of the soldiers does not add to the excitement of the redskins, the threatened uprising will never occur. It is now plain that Gen. Miles has not been idle during the past week, for troops now arriving, come from most of the posts in the west. Small details have been moving in this direction for the last three days, and the whole has been so smoothly and quickly done that not a word of warning has reached the Indians. This great movement will be known to history as a masterpiece of strategic warfare, after that no gun be fired during the whole trouble. Doubtless the quick response of the army will entirely quiet the bucks now in such fever over the strange "ghost dance." It would be impossible for the Indians to mount and start out on expeditions, for the morning will find them completely in the possession of soldiers, so completely, in fact, that not even the maddest will furnish them an excuse to go upon the warpath.

No Trouble at Pine Ridge.

PIERRE, S. D., Nov. 19.—Special Indian Agent Goyette today started for the Two Little tribe of Bad River Indians, where it is understood some partially civilized Indians have decided to join in the dance. Capt. Nyville will urge them to remain on their terms. No one anticipates any serious trouble on account of the Indian outbreak, though a few cattle are reported stolen by the Indians from ranches northwest from here.

Feeding the Savages Sioux.

CHAMBERLAIN, S. D., Nov. 19.—The winter supply of clothing and annuity goods are being delivered to the Sioux agencies. To encourage the red men as much as possible in working for themselves, Indian agents have given contracts to a number of industrious Indians who have secured teams and are delivering supplies to the agencies from the railroad, which is several miles distant from the agency. The Indians are paid a good price for their work.

WILL SUE THE UNITED STATES.

The Cherokee Strip Stock Association Claims Damages.

KANSAS CITY, Nov. 19.—The Cherokee Strip Live Stock association has determined to commence proceedings against the United States government for the latter's action in forcing cattlemen to vacate the Cherokee strip before the expiration of the lease with the Cherokee Indians. The first step in these proceedings will be taken tomorrow when the company will bring suit against J. R. Stollens, one of the company's tenants who declined to pay the last year's rent because the company's lease from the Indians was not valid. He based his refusal upon the government's claim that the Indians could not lease their lands. This suit is expected to determine the validity of the company's case. Then the company will sue the United States government for losses sustained in premature marketing of their cattle besides the loss of two years' profits on business denied by the government, who ordered them from the strip that length of time before the expiration of their lease. Their claim against the government will amount to three or four millions of dollars.

The Financial Outlook.

NEW YORK, Nov. 19.—The shrinkage in the volume of business at the stock exchange, which was so marked yesterday, made further progress today and the returning dullness indicated that no material demand for stock existed, indeed more selling by the bears and the tone of the market was weaker than it has been since Saturday morning, resulting in many marked losses for the day.

The bears were more aggressive than usual on the market. There was a renewal of the old tactics of which speculative reports reflecting upon the financial standing of prominent firms in the street was one of the favorites. The monetary situation was the most influential factor, however, in restriction of buying, and while money was much easier during the latter portion of the day, its scarcity in the forenoon told severely against prices.

The Post says: "The money market is in a much more demoralized and abnormal condition than the stock market."

Huron Will Fight for the Capital.

HURON, S. D., Nov. 19.—A caucus meeting was held here last night to take action looking to the investigation of the frauds perpetrated at the late election so far as it affects the capital location question. Speeches were made by Mayor Rice, Hon. W. A. Lynch, Hon. J. W. Shannon, Editor Cummings, Col. Elson, Hon. Geo. Cooper and others. No such enthusiasm has characterized a Huron gathering in years as that manifested last night. The following resolution was unanimously adopted and cheered to the echo:

Resolved, That it is the sense of this meeting that the capital contest should be continued vigorously to the point of thoroughly investigating and contesting the election if necessary, and that all the details should be committed to the present capital committee with power to name such attorneys and agents as they may see proper.

Will Ask the Chippewa to Move.

ST. PAUL, Nov. 19.—Among the arrivals at Hotel Ryan are Wm. Hoyens, professor of law of the university of Notre Dame, South Bend, Ind., and A. H. Mahone, manager of the Charleston Star, Charleston, W. Va. These two gentlemen form a commission to treat with the Turtle Mountain band of the Chippewa Indians. President Harrison was authorized to appoint three members—two republicans and one democrat, the latter being Isaac Pennington of Mount Holly, N. J. He was taken sick at Chicago with pneumonia and was unable to proceed. Their commission is to visit the Turtle Mountain Indians and endeavor to get them to remove from their present location near these mountains to some reservation—possibly White Earth in this state.

Will Support Parrish.

NEW YORK, Nov. 19.—Assistant President Carns, through T. C. O'Connor, M. P. and J. C. Gill, M. P., says that the Irish envoys are firmly resolved to stand by the leadership of Parrish. They think this course dictated not merely by gratitude for Parrish's imperishable service in the past, but by the conviction that his leadership is absolutely essential to the cause of their movement.

Three Hundred Sioux Missing.

MANDAN, N. D., Nov. 19.—Things are fairly quiet in town, though the country people are much excited, the citizens feel safe. A party of Proe Indians skipped over to Bismarck this morning on the east side of the river. They state that the Sioux, who have been excited, and reported 300 Sioux warriors are missing from their reservation. Nobody knows where they are.

Cherry Creek, Wyo., Nov. 18.—The troops at Fort Russell, under the command of Col. R. Haffley expect to leave this evening for the Pine Ridge agency. Baggage and equipment have gone forward the troops are ready to start one hour after marching orders have been received.

Rates Will not be Reduced.

CHICAGO, Nov. 19.—Whether no solution of the northwestern passenger rate problem has been reached, the threatened reduction of rates between St. Paul and Chicago has been temporarily averted.

Chicago Cattle Market.

CHICAGO, Nov. 17.—Cattle—Firm; prices a shade higher; steers \$2.75@3.15; cows, bulls and mixed \$1.00@2.75; Texas \$2.15@2.40; stockers 2.00@2.75; Sheep—Firm; Natives, \$2.75@4.75; westerns, \$4.00@4.40; mixed sheep lambs, \$4.00@4.90.

The Metal Markets.

NEW YORK, Nov. 18.—Pig iron steady and quiet. Copper neglected; Lake, \$16.30. Lead, dull and weak; domestic 4.85. Tin, unsettled, closed steady, straits, \$50.15. Bar Silver 92.

LOOKS LIKE A TRUST

The Wealthy Manufacturers of Harvesting Machinery Organize a Company.

THE LARGEST OF THE KIND IN THE WORLD

McCormick, Deere, Wood, Miller, Conger and Bushnell City the Poor Farmer.

And May Give Them Better Binders at Lower Prices, but It Looks Doubtful.

CHICAGO, Nov. 19.—There was organized in this city during the past few days one of the largest corporations in its line in the world. A charter was filed in Springfield today and the new company will be known as the American Harvesting Co., for the manufacture of harvesting machines, with a capital stock of \$5,000,000. The directors of the new company will be Cyrus McCormick, Wm. Deering, Walter A. Wood, Lewis Miller, Col. A. Conger and Gen. A. S. Bushnell.

"The purpose of the new company is the building of harvesting machines," said Col. Conger, when questioned by an Associated Press reporter. "The present demoralization of business necessitated the formation of the new company. I can recall over eighty different companies engaged in the business which have failed entailing a loss upon farmers, laboring men and manufacturers and others of between \$30,000,000 and \$40,000,000. While some companies have been successful, the general condition of the business was such it became necessary to give farmers better machines at lower prices, if possible, without disaster to the manufacturer. For several years manufacturers have been selling machines at so low a price as to give them no fairly compensating profit. The cost of materials has been advancing so that it has become necessary to raise the price of machines to farmers or through economy, produce and distribute them more cheaply, as it is the purpose and expectation of this new organization to do. It is no less the interest of binder manufacturers than of farmers themselves that the latter should obtain under twice as reasonable prices, and the hope of effecting this object is one of the important reasons for the formation of this new company. Freight will be saved by having the machines made at a factory located so that there will be as few as possible of long shipments and unnecessary expenses, burdensome to both maker and user. There is no intention to raise prices of machines. We do not expect to check competition the election if necessary, and that all the details should be committed to the present capital committee with power to name such attorneys and agents as they may see proper."

Desires Against the N. P.

ST. PAUL, N. D., Nov. 19.—Julius Thomas, of the United States court, handed down an opinion in the case of Edward S. Fell vs. the Northern Pacific railroad. This case was tried in the district court for Statesman county and came up on a motion of the defendant for a new trial. The plaintiff was a carpenter and boarded a freight train at Eldred to ride to Jamestown, and was ejected with violence, and abusive language. The jury rendered a verdict for the plaintiff in the sum of \$500 although he was not permanently injured. The court holds he is entitled to receive exemplary damages on account of wanton conduct of the conductor and refusal a new trial.

An Ad. for the Burlington.

ST. PAUL, Nov. 19.—The Burlington has added something unusual to its service between St. Paul and Chicago, in the latest perfection of Pullman construction for their restful train. Its handsome twelve section drawing room sleeper, in which carved wood gives place to plush, and nicker takes the place of marble; eye chairs are substituted for the usual mahogany seats, and other novelties are added. It is an advance in railroad equipment worthy of special note.

Wholesale Stealing.

NEW YORK, Nov. 19.—Forger Smith of Mills, Robinson & Smith was today committed for trial in default of \$10,000 bail.

At the office of Deming & Logan, attorneys for W. A. Watson, assignee of Mills, Robinson & Smith, a statement of the liabilities and assets of the firm was made public this afternoon. From this Watson says the defalcations upon the firm will amount to about \$300,000, as near as he is able to approximate it and the amount of Smith's personal stealing will reach nearly \$150,000.

Little Better Feeling in Chicago.

CHICAGO, Nov. 19.—The market from the extremity of demoralization at the opening recovered some semblance of returning calm after the middle of the session and following the sensational decline the prices gradually recovered and averaged higher at the close of the day than at the corresponding time yesterday.

Ten per cent discount on clothing catches Strain Bros.

When you feel languid, try Kennedy's very old whiskey the best in town.

WORK WILL NOW BE COMMENCED.

Gen. John B. Newton Chosen to Direct the Building of the Great Illinois Canal.

CHICAGO, Nov. 19.—The big canal from Chicago through the watershed separating the great lakes from the tributaries of the Mississippi, was advanced in important steps today. Impatience at the slow progress apparently being made when money for the great work had months ago been voted by both nation and state was brought to a climax at the afternoon's meeting of the board of commissioners. The majority of the board voted in favor of measures looking to appointment of a supervising or consulting engineer. The idea was to secure a man with a record that would guarantee energetic pressing of the immense undertaking to a successful conclusion.

Buffalo Bill to the Rescue.

LANSING, Neb., Nov. 18.—Specials from Cody and Valentine say that the settlers there are very much alarmed and are coming in in increasing numbers for protection from the threatened outbreak of the Indians. Indians have been trying to buy ammunition at Cody and it is said young bucks have expressed their contempt for soldiers.

Forty-five members of the Buffalo Bill show passed through Fremont this morning on their way to Pine Ridge agency. They said they would use all their influence among their friends there to prevent the outbreak and thought they would be successful.

G. A. R. Growing.

HEADQUARTERS GRAND ARMY OF THE REPUBLIC, BIRMINGHAM, ALA., Oct. 1, 1890.

Circular Letter No. 2.

COMRADES:—Since being elected Commander-in-Chief I have visited ten departments, six of which are east of the Missouri river, and have been more than gratified to observe the hearty spirit of comradeship everywhere prevailing, and the growing pride in and devotion to our noble order. The thought seemed to be in every mind and the words on every lip that the Grand Army of the Republic should be made to round up one half million comrades this year. The inspiration of this thought was not mere pride in numbers, but the advantage of membership to individual and public benefit, and the advantage of numbers in increasing the order in its lofty work of Fraternity, Charity and Loyalty. It is on the ground of individual and public benefit that it becomes our duty to increase our membership. There are yet several hundred thousand worthy veterans who served with us on land or on sea, not yet with us in this organization. If we do not bring in fifty thousand or more of them this year the fault will be our own. This means an addition of about ten to every hundred members. Who doubts but this can be easily done? What comrade will fail to do his part? What Post will not hold its own? Let our department commanders at once take the leadership and direction in this work in their respective departments. I have seen enough to know that they will find cordial and enthusiastic response, both from individuals and posts. This is the best season of the year for the recruiting service to be made effective and successful. It should not pass without our achieving results as grand as our possibilities are great.

Yours in F. U. and L.,
W. G. VEASEY, Commander-in-Chief.

WEAVERS

In a Name?
Shakespeare says, "A rose without a name would smell as sweet," nevertheless, just at the dawn of this last decade of the nineteenth century, in the year of grace 1890, there is quite a good deal in a name.

How Do We Do It?

A clothier without a name and reputation is heavily handicapped in the race for trade. People like to buy from dealers whose established record is a guarantee for fairness and honesty.

Our name, A. NATHAN, The One-Price Clothier, has been before the public of Northern Montana for years and has an established reputation for honesty, fair-dealing and hearty endeavor to please customers.

The reputation of a clothier is the accumulated evidence of many transactions with many customers. A good name can only be founded on continued merit in merchandise and fairness in dealing. We can be surpassed in neither.

Our name has a value to you. It specifies a place where you can save money by buying better goods for less money than elsewhere. Try us and see if this good name is not well deserved.

Perhaps you may hear our customers speak of the tailor made clothing we carry, the work of Stein, Block & Co., wholesale tailors. There is so much in them to talk about it can't be half told. The fit, the fabric, the fashion, that extreme "fineness of finish" you can't find in other makers. When we call their suits tailor made, we mean every suit is made as much by hand as possible, no machine button holes or flimsily sewed on buttons, but enough said. The name Stein, Block & Co., wholesale tailors, attached to all their work, speaks for itself.

Our fall goods are coming in. We are receiving the best goods of every kind in our line that can be found.

The latest styles in hats, neckwear and handkerchiefs continually in stock.

Shirts in quality, style, pattern, workmanship and prices that will suit you.

While we carry the best goods to be obtained, we also carry an immense stock of goods to suit all kinds of trade. We do not carry the cheapest grades, but will sell you good goods at prices that will surprise you; cheaper than the cheapest grades can be bought elsewhere. It will be to your interest to see our stock. Step in when you can. We'll be glad to see you whether you purchase or not.

If you cannot come yourself send your order and it will receive immediate attention. Don't forget that we guarantee the price of every thing we sell. Yours respectfully,

A. NATHAN,
The One-Price Clothier
