It was about 16 below yesterday at 7 a. m. and moderated considerably toward the middle of the day. During the early afternoon a thaw set in and everybody said "the chinook is here." The probabilities are that the last day of February will witness the end of this cold spell.

A lively one-round contest drew quite a crowd in front of a Second street saloon about 10 o'clock Thursday night. The row started inside but as there was not sufficient room for the pugilists (?) they went outside to finish the scrap. A policeman came along and threatening to arrest them, they desisted.

The athletic exhibition in Sand Coulee Thursday night drew a packed house. It was almost impossible to get standing room. Nor did the audience go away dissatisfied. They saw one of the best shows of its kind to be found any where. Pete Shea goes to Assiniboine today to give an exhibition at that place. We have no doubt they will be as warmly received at that point.

A fair dealer in a certain well known resort went to his employer's safe about noon yesterday and took out some cash with the evident intention of starting the game. Previous to doing that he went out doors and that was the last seen of him or the money. A warrant was sworn out for his arrest, but from the last reports he was still abroad. He got away with about \$250. A reward of \$50 is offered for his apprehension.

Patronize home industries is one of the cardinal principles in building up a town. Keep your money at home if possible and let it help lubricate the channels of trade. Thousands of dollars go out of our city every year for ill-fitting, half-made clothes. This is rank injustice to our merchant tailors who are assisting in the up-building of our town, who have their homes among us and who spend their money here. Besides keeping your money at home you get a far superior article and one that may be relied upon to be as represented. Bear this in mind and when in need of clothing hunt up the advertisements of our home merchants and see what they are offering. In this issue will be seen the bargains offered by home merchant tailors. Give them a call.

River Press: "We deeply regret to announce the death of young Mr. Edward Cook, whose serious illness we mentioned several days ago. He died at the residence of a relative, Mrs. Thies, of this city, where he received every care and attention that kind friends could bestow during his last illness. His death is a peculiarly sad one, having been suddenly brought about by an attack of pneumonia, contracted while on a visit to Great Falls, from which he never rallied after his return to this city. The young man is a connection, through his mother's marriage, of the family of the late Mrs. J. O. Patterson of this city. He came out west a couple of years ago and has since been employed at the ranch of Messrs J. O. Patterson & Co., where he was familiarizing himself with the wool growing business. His mother came out last fall on a visit and spent several weeks with her Fort Benton relatives."

Mr. A. Guthrie, the well-known railroad contractor, who, with Foley Brothers, will build the Barker and Neihart branches, returned from Helena yesterday. He goes up to Monarch today to look after the construction of boarding houses, store buildings, etc. He says work will be started on the Barker branch soon as the weather permits. Foley Brothers and Guthrie have the contract for building the Neihart line also, and will commence work soon as the right of way matter is settled.

The special term of the district court commenced yesterday, and most of the forenoon was spent in arranging the cases for next week. Judge Benton instructed the clerk to issue writs for thirty petit jurors, to be returned by 2 o'clock Monday, and the sheriff is attentive to the same. During the afternoon several cases were either decided, set ahead on the docket or postponed to the May term. The most important criminal cases are set for next week. It is hoped that before many months the special judicial district for this county will be a certainty which will lessen his honor's labors.

Some one snatched a watch from Tim Sullivan's pocket while he was standing in a crowd on First avenue south, Friday afternoon, and skipped before the unlucky man could call an officer. Sullivan discovered the watch in Ruben's pawn shop yesterday morning, and demanded it from the money lender, but was refused. The attention of the authorities was called to the matter and Ruben was arrested on a charge of receiving stolen goods and when brought before Judge Race, reluctantly gave up the property. As he showed conclusively that he received the goods in good faith and with no dishonest intent, he was discharged.

The Montana Democrat comes to hand in an enlarged form. It is now an eight column folio and a paper the inhabitants of the Judith basin can point to with pride. There is no better evidence of the advancement of that section than is reflected by the material prosperity of our sprightly neighbor.

Another of those double numbers which the publishers of the Youth's Companion seem to delight in offering as a pleasant surprise to its readers comes to us this week. A careful reading of one of these special numbers makes it easy to understand why this favorite paper rarely loses an old friend and gains so many thousands of new admirers every year.

Ex-Senator McNamara of Big Sandy, who has been spending a few days in the city, went home yesterday. Interrogated by a TRIBUNE reporter previous to his departure as to the outlook for stock in his country, he said that he thought they would pull through all right unless we had more snow, which is hardly possible, as he was of the opinion that a thaw would shortly set in.

The shell exploded in the face of Mr. Peckover with what damage we could not learn. The accident happened at 2 o'clock yesterday about six miles from Shelby Junction. Both gentlemen are well known in Great Falls and vicinity.
