

## THE DEAD STRIKERS BURIED.

A Large Concourse of People Turn Out to View the Funeral Cortège.

## EIGHT THOUSAND PEOPLE AT THE DEPOT.

The Seven Coffins Were Placed in a Large Trench and Buried Together.

The Presence of the Militia Has a Quietening Effect Upon the Striking Workmen.

SCOTTSDALE, Pa., April 3.—The special funeral train bearing the bodies of seven of the victims of the Morewood shooting left Mount Pleasant at 2:50 and arrived here at 3:20. The train was composed of six coaches packed full and standing room was at a premium on the platforms. The bodies were taken off the train at the depot and placed in large road wagons. The funeral cortège did not move until the regular train arrived at 3:37. The large public square was not spacious enough to hold the great crowds of people and the delegations that arrived on the regular trains had to form on Pittsburg street and the roadway. The foreign element did not take kindly to the road wagons being used as hearse to bear the remains of their countrymen to their last resting place, and the coffins were taken out and six of them were carried to the cemetery, a distance of one mile, and the seventh was placed in a hearse. The procession moved at 4 o'clock, headed by Standard miners, the Cornet and Scottdale bands, both of which played the "Dead March," the entire distance. There were fully 8,000 people at the depot, but scarcely half this number went to the cemetery, and a large majority of those that did follow the remains were Poles, Slavs and Hungarians. American flags were conspicuous and a number of delegations carried banners. The workmen nearly all wore badges and crests, and when the coffins were lowered into a large trench which was twelve feet long and seven feet wide, a number of workmen threw their badges and crests on the coffins. Father Lambing and Father Schmeigle conducted the funeral services according to the rites of the Catholic church, which were simple but impressive. After the services, Rev. Schmeigle delivered an address in the Polish language, in which he exhorted his countrymen to return peacefully to their homes, to commit no breach of law and to abstain from intoxicants and show signs. Rev. Lambing made a brief address in English to the same effect. Though the town was overcrowded with all classes and conditions of people, there was not the least disturbance and every thing passed off in a manner creditable to the workmen. After the funeral a great mass meeting was held at Everston, across in Fayette county. The speeches were conservative in tone but the men were encouraged to remain steadfast. The responsibility of the Morewood shooting, Vice-President Penna said, was on the shoulders of the guards and coke companies. The town is quiet tonight and the large crowds have gone to their homes. The funeral procession soon formed about fifty yards from where the companies are, and marched past the Frick Coke companies' office. Firemen blocked around the militia, talked to them in broken English, and were evidently much interested. The appearance of the soldiers no doubt had a quieting effect on them. The soldiers were all closed at noon, and intoxicating liquors could not be had in town.

UNIONTOWNS, Pa., April 4.—It is rumored that an effort will be made to resume at Leith and Redstone the works of the Frick company on Monday morning. A written notice served on Sheriff McCormick today by the Frick and McClure Coke companies, gives color to the belief that a general resumption will be attempted at once. The Frick company notified the sheriff that they would look to him for protection at all their works. Superintendent J. B. Brennan served a similar notice for the McClure company. Sheriff McCormick said tonight he would be obliged to impose a large number of deputies into service. All his deputies at present are concentrated at the Jintown and Adelaide works. Today Judge Ewing granted a postponement in the injunction cases of H. C. Frick and company against Master Workman Wise, Vice-President Penna and others, owing to their attending the funerals.

TOUG BOAT SUNK.  
CLEVELAND, April 4.—The tug Tempest, owned by the Cleveland Saw Mill & Lumber company went to the bottom of Lake Erie late this afternoon, near the entrance to the harbor. Forward Leomin, engineer; Wm. Hughes, fireman, and H. Hershey, raftsman, were in the engine room and went down with the tug. Capt. John Murray and a raftsman, escaped. The tug was towing a raft of logs from the lake shore, west of the city, and as she turned to enter the river was caught in the trough of a sea and overturned. She went to the bottom like a stone.

## PREPARING FOR THE STRUGGLE.

The Leading Astronomers and Scientists of the United States Want Control of the National Observatory.

ST. LOUIS, April 4.—The leading astronomers and scientists of the United States are now uniting their forces for the struggle from which they confidently expect to emerge victorious. The next congress will be memorialized to transfer the control of the United States observatory at Washington, otherwise known as the United States national observatory, from the navy department to the hands of a purely scientific and astronomical board, which shall thereafter constitute the astronomical department of the government machinery. The leading astronomers concerned in this movement claim there is a great deal more need of a change than there was in the case of the transfer of the weather bureau from the war to the agricultural department. The cause of the movement was a step recently taken by the United States naval observatory which inflicts the greatest injury upon various astronomical observations of the country, that is, the practice established of supplying the Western Union Telegraph company with time signals for commercial use, thereby cutting off the former source of revenue for observatories.

## THEY WON'T ENLIST.

The Noble Red Man Does Not Want to be a Soldier.

WASHINGTON, April 3.—The news received at the war department of the result of efforts being made by western army officers to carry out the provisions of the army appropriation bill, authorizing enlistment in the regular army of 2,000 Indian recruits, is very discouraging. Officers report that Indians will not enlist in infantry under any circumstances, as they will not enlist in cavalry except as scouts, because they do not care to bind themselves to five years' service, nor to be subject to removal to distant parts of the country. Then, too, they want their women with them, and a great majority of the bucks are physically unfit for military service. It is doubted whether a single Indian company can be recruited in the west. But the outlook in the south is more hopeful. At Mount Vernon barracks, Ala., where Apache Indians, who led the Geronimo campaign are placed, it is said that all of the Indians, some thirty five or forty, are about to enlist. These Indians are said to be progressing rapidly in the path of civilization, and a most incredible fact is reported that the renowned warrior Geronimo, who was for years the terror of the west, is now a prominent teacher in a local Sunday school, and attends services regularly every Sunday morning, to keep order.

## THE VANCOUVER SHORT LINE.

Great Northern Railroad is Preparing to Go North of Fraser River.

NEW WESTMINSTER, April 4.—For a month past engineers have been quietly at work surveying the line of the Westminister-Vancouver Short Line railway, and a gang of men were recently sent out to begin clearing the right of way. Hoy, president of the company, says the line will be built and running this year. This new line will be a short cut to Vancouver from Westminister of only twelve miles, and the run can be made in twenty five minutes. By the C. P. R. the distance is twenty six miles, and the time one and a quarter hours. It is rumored that the Great Northern is at the back of the project, but President Hoy denies it. However, the Great Northern talks of bridging the Fraser at Westminister, and if it does it will certainly find its way to Vancouver, and the Short Line is the only charter now in existence with an entrance to Vancouver from the south. It will probably be found in a month or two that this is a part of the Great Northern's scheme.

## JOE BURNS' BENEFIT.

It Will Take Place at the Conique Next Friday Night.

BUTTE, April 4.—Joe Burns will be given a benefit at the Conique next Friday, in which nearly all the wrestlers and pugilists of any note in Butte will take part. King and Bush will give an exhibition of Greco-Roman wrestling. Joe Maguire will have a set-to with another light-weight boxer, George Kessler will spar a few rounds with any corner, and Peter Schumacher will wrestle two bouts with James and William Burns, meeting them singly at first and then both. Big Bert will also wrestle a single bout with any corner. After his bout with the Burns boys, Schumacher will offer to wrestle any one in the audience catch as catch can style, two out of three times.

## Corrected Returns.

PROVIDENCE, R. I., April 4.—Returns from Wednesday's elections, as corrected by today's advices, show the vote for governor to have been as follows: Burton, (nationalists,) 384; Davis, (dem.), 22,249; Ladd, (rep.), 20,995; Larry, (pro.), 1,829. These figures show Davis' plurality was 1,254, but he lacked 900 votes of a majority necessary to elect. The completion of legislation shows in the senate 22 republicans, 7 democrats, 1 independent and 6 to be chosen; house, 34 republicans, 19 democrats and 19 to be chosen, which will give republicans on joint ballot a majority of one, with their present strength.

## CHICAGO MUNICIPAL ELECTION.

A Split in the Democratic Ranks May Defeat the Straight Party Ticket.

## FIVE CANDIDATES FOR THE MAYORALTY.

Contention in the Order of the Brotherhood of Railway Trainmen.

Rumors of Parnell's Marriage, but Not to the Notorious Mrs. O'Shea.

CHICAGO, April 6.—The election tomorrow will close one of the most peculiar and hotly contested municipal campaigns in the history of this city. No less than five candidates are making the contest for the mayoralty, and as between four of those it is impossible to forecast the result. The friends of each in all apparent candor claim about the same number of votes, viz., 55,000 to 60,000, for their respective favorites, and each party has so much confidence in its summary of the complicated elements which enter into the struggle that considerable money has been wagered on each candidate. The first candidate in the field was Elmer Washburn, ex-chief of police of Chicago and ex-chief of the United States secret service bureau. He was put in nomination prior to the holding of the regular party convention, ostensibly by the independent citizens' movement, but it is understood his chief support primarily came from a secret organization whose object is to minimize the influence of the foreign elements in the city administration, and which claims to have 25,000 voters in its ranks. Its platform, as condensed in its campaign announcement, is: "Physical and moral cleansing of the city."

There are two democratic candidates: DeWitt C. Crozier, present incumbent and Carter H. Harrison, who has served several terms as mayor. Some time before the democratic nominating convention was held Harrison began his canvass and catering to bad elements on the part of the existing administration and promising reforms in these directions. When the convention met the Harrison delegates accused their opponents of fraud and withdrew from the convention and nominated their favorite, while the others nominated Crozier. Each claimed to be the regular democratic nominee. The state central committee took the matter up and decided that Crozier was regularly nominated. In the meantime Harrison had received the endorsement of the personal rights league body, made up largely of Germans, who are continued in the field and has been making a picturesque personal canvass. Then the republican convention met and nominated Hempstead Washburn, a son of the late Elihu Washburn, the United States minister to France during the Franco-Prussian war. He is running on the platform which promises application of business methods to the administration of city affairs and the divorce of the police force from politics. The fifth candidate is Thomas Morgan, a nominee of the socialistic labor party. The fight between the two factions of the democratic party is particularly bitter, and the state organization is taking an earnest interest in it because of its possible effect in the state at large in the next general election. There is no possibility of forecasting results.

## Anacosta Democratic Convention.

ANACOSTA, April 6.—The democratic city convention will be held at Evans' opera house tomorrow afternoon at 2 o'clock. It will probably be an entirely harmonious gathering. No opposition has been developed to the nomination of Dennis Shovelin for mayor, and he will doubtless be nominated by acclamation. It will be an unexceptionable ticket from top to bottom, and of its success at the polls there isn't the shadow of a doubt. It is admitted that the "Labor Citizens" ticket is losing ground daily, chiefly because the workingmen more and more are becoming disatisfied, not so much with its personnel as with the methods that obtained in its nomination. The week remaining before the election bids fair to be a lively one, but of complete democratic success no reasonable man entertains any doubt.

## Vote in Anacosta.

ANACOSTA, April 6.—Day was ready to break yesterday morning when the count of the vote cast at Saturday's school election was completed. There was no opposition to Dr. M. Rockefeller. Out of a total of 1,977 votes, he received 1,572.

Of the other candidates for the three-year term, Otto Stalman received 1,227, D. F. Hallahan 1,223, T. C. Davidson 757, J. A. Gibson 750. For the two-year term, Daniel Dwyer received 1,213 and George Ball 754 votes. For the one-year term, Joseph Peters received 1,204 votes and J. S. Wiener 741. The official returns setting forth these figures are signed by D. D. Walker, H. Redmond and I. P. Kirby, trustees of district No. 10, and by A. L. Stone and L. A. King, clerks.

## Strife in the Brotherhood.

GALESBURG, Ill., April 6.—S. E. Wilkinson, grand master of the Brotherhood of Railway Trainmen, has discharged Charles T. Salisbury, John G. Glenn, and Charles Buchanan, grand trustees of the brotherhood. In a circular issued to lodge the grand master gives as his reason for this action that the grand trustees have failed to make a proper examination of the books of the grand secretary and treasurer and of the editor of the Trainmen's Journal, and to place the editor under a bond, and that the grand trustees usurped authority in issuing a circular containing untrue statements, and in overruling the action of the seventh annual convention on two points. Salisbury denies the authority of the grand master to discharge them, as they were elected by the brotherhood, and says they are still serving, regardless of the order. It is thought the action will stir up a great contention in the brotherhood.

## The Parnell "Mystery" to Be Cleared Up.

LONDON, April 6.—A sensation was caused in the lobby of the house of commons this evening by the rumor that Parnell has been privately married since the O'Shea divorce proceedings. According to this rumor the lady whom Parnell married is not Mrs. O'Shea. Several Parnellites in the house of commons were interviewed on the subject tonight, but they refused to say more than that the "mystery" of their leader's inner life, often referred to recently as certain to clear Parnell's character, will shortly be explained.

## A Coming Bonanza.

BUTTE, April 6.—The Hecla mine, owned by C. H. Clark and located about four miles and a half north of Thompson Falls, was stocked by J. Chauvin two months ago for \$50,000 in 250,000 at \$2 each. Of this number 4,000 shares of the treasury stock were placed among the smelter men of Butte, it is said, in less than forty-eight hours after incorporation. The name of the corporation is the Gray Copper, Gold, and Silver Mining company, and since its organization developments have been vigorously pushed under the direction of C. H. Clark, the president of the company. The ore encountered in running the tunnel is said to be very high grade, the assay value of one carload to be shipped from the mine running from 50 to 60 ounces in silver per ton. The vein from which the ore was taken was only eight inches wide out to a foot and is increasing in depth as it is attained. Members of the company say the indications are good for a four foot vein when the base of the hill is reached. The company intends to run the tunnel 200 feet, which will give over 200 feet of stoping ground, and expects to ship the first car load of ore about April 15. One of the members of the company says also that the mine is creating considerable excitement about Thompson Falls, and that the stock which was put on the market at 25 cents per share is now held at 50 cents by the owners. It is rumored that Missoula and Minneapolis capitalists recently purchased the extension of the Hecla, paying \$225,000 therefor. Samples of ore from the Hecla are on exhibition at Chauvin's furniture store on West Broadway.

## Money Easy.

NEW YORK, April 6.—Money easy, paying from 2 1/2 to 3 1/2 per cent, last loan closing at 36 3/4; prime mercantile paper, 6 1/2; sterling exchange quiet but firm at 48 1/2 for 60-day bills, and 48 1/4 for demand.

Pig iron, dull; American, \$16 1/2; Copper, nominal; lake, April, \$13 7/8. Lead, dull, barely steady; domestic, \$4 3/4; Tin, quiet, easy for spot; Straits, \$20 3/4; Bar silver, 98.

## Wheat Lower.

CHICAGO, April 6.—Extreme weakness characterized the opening of speculative trading. Wheat started 1 cent lower than it closed on Saturday. Corn was almost equally limp. Considerable recovery took place but not until late in the session after the shorts had had abundant opportunities to cover their sales of Saturday and the early part of the day. Flax seed \$12 1/2.

## Business Outlook.

NEW YORK, April 3.—R. G. Dun & Co.'s weekly review of trade says: The actual condition of business does not improve, however, but hopeful anticipations are warranted. Interests of property in many forms are for the time affected, and meanwhile the usual demand for money in April settlements has made markets rather closer, though speedy realization is expected.

## Another Murder.

GALESBURG, Ill., April 4.—A mysterious crime has taken place near Abingdon. The body of William Kellum, a farmer, was found last night in a mud-hole on his farm and at the inquest today the jury decided that he was killed by some person unknown for robbery.

## New York Stock Market.

NEW YORK, April 6.—Burlington, 84 1/2; Northern Pacific, 26 1/2; preferred, 70 1/2; Northwestern, 100 1/2; preferred, 123 1/2; St. Paul, 58; preferred, 110 1/2; Manitoba, 108 1/2; Omaha, 24 1/2; preferred, 80; Duluth, 25; Wisconsin Central, 19 1/2; Great Northern preferred, 80 1/2.

## THE HELFNA CITY ELECTION.

The Republicans Made a Clean Sweep in Every Ward of the City.

## THE CITY COUNCIL A TIE POLITICALLY.

The Proposition to Issue Bonds to Take up the Floating City Debt Carried.

The Death Rate in Chicago Last Week the Highest Ever Known in That City.

HELENA, April 6.—[Special to the Tribune.] The republicans carried the day with a whoop, electing I. M. Klein-schmidt mayor by 428 majority, James B. Walker city treasurer by 120 majority and Judge Sanders was re-elected almost unanimously, his majority being 1,041. Democrats elected three out of eight aldermen. The council is a tie politically. The republicans will probably contest the Harriety election in the Sixth ward. His majority was 40. Irregularities in accepting votes is alleged. The proposition to issue bonds to take up the floating city debt was carried.

## Chicago's Death Rate.

CHICAGO, April 6.—The death rate last week was the highest ever known in Chicago, being 1.00 per 1,000 per annum. The deaths numbered 900, of which 509 were from la grippe and lung diseases. Today a marked falling off in the death rate is noted.

## THE COKE REGION QUIET.

Talk Among the Operators of Starting Their Plants.

PITTSBURGH, April 6.—Though quiet the affairs today in the coke region were decidedly interesting to both sides. Operators made a most determined effort to start several of their plants with but doubtful success. The strikers on the other hand simply ignored the works and up to late tonight not an outbreak or raid whatever had been attempted, notwithstanding a general alarm was felt even at an unexpected lighting of a match in the vicinity of the plants. The large Frick and McClure companies, following their policy of resumption, made the effort to start their plants today while other smaller companies seemed content to await the result. At the Frick general offices it is reported that 100 men are at work at Adelaide, forty at Morewood, and that coke is being shipped from the Jintown and Sterling works. The Coalbrook plant of the McClure company is still being operated without much trouble. On the other hand Master Workman Wise says but four men are working at Morewood and a corporal's guard would cover the remainder and that the entire region presents the appearance of total idleness, except at plants where an amicable adjustment has been made. That this movement today is simply a starter is shown by the action of several companies who have notified the sheriff of Fayette county they intend to start up tomorrow or later in the week, and that he will be held responsible for all damage if their works are not guarded. Many arrests have been made today, among them being M. McDonough and Wm. Coleman, two prominent leaders of Morewood affairs, who were released on \$1,000 bail. Military companies are still stationed in Scottsdale and Mount Pleasant having nothing to do. Their presence, however, is a guarantee of peace. The real struggle began today requires their presence and the only fear is they may be needed when Leith, Cochran, Leisenring and other former battle grounds start up tomorrow as had been decided by the operators. Men still hope for a compromise and believe one possible.

## Republican Sweep.

CINCINNATI, April 6.—The entire republican ticket has been elected here as follows: Mayor, John B. Mosby; city auditor, Dan W. Brown; corporation counsel, Theodore Horstman; city treasurer, Henry Ziegler; justice of the peace, Edward Tyrell; police court judge, Rufus D. Smith. The ticket was elected by majorities ranging from 100 to 5,000; Mosby having the smallest majority on the ticket, a little over 100. Out of thirty members of the board of legislation the republicans have elected twenty-one, leaving nine for the democrats.

## A Democratic Sweep.

DURBUCK, Iowa, April 6.—The entire democratic city ticket was elected today. Steward's majority was 800. All the republican candidates for aldermen were defeated. Three democrats and two independents being elected.

## All Quiet at Scottdale.

SCOTTSDALE, Pa., April 3.—All reported quiet in the coke region with the exception of a stir in Scottsdale caused by the centering there of a funeral here in a long trench prepared to receive them. The strikers gathered here already in such numbers that it will hardly be possible to house them, and by tomorrow noon 10,000 men will be present at a funeral, which will be conducted by Rev. Fathers Lambing and Smith. A special train just brought in 7,000 militia from Mount Pleasant, and companies will be here in the afternoon as trouble is feared from the strikers when they see their strikers buried, who, they say, are simply murdered. Mayor Fettsdale has ordered that all saloons close tomorrow, and a strong special police will also be sworn in to assist in preserving order.

PITTSBURGH, April 3.—Late tonight indicate a sudden and unexpected movement of strikers toward Mount Pleasant. The guard at that place has been alerted and it is hardly considered the fact that troops are generally ordered there. Tonight Col. Hawkins hurriedly ordered at Mount Pleasant, gathering five of his companies and hastily starting for that place. He refused to give a continuation, which was either the points, Morewood or Scottdale, where funerals of the dead rioters are taking place. The region is again in a ferment. The reports of an anticipated riot are active.

B. C. Frick was interviewed tonight but had little to say, except that no more of his plants had started under the supervision of the guards and he was awaiting developments. Officers of the McClure company lay the entire blame on Vice President Penna and Master Workman Wise, whom they say worked men up by ill advised speeches.

## MOUNT PLEASANT, Pa., April 3.

Private Wiley today detailed Private of the 18th regiment, who is a linguist, to circulate among the strikers and other striker and learn moods and what if any schemes were on foot. Tonight he reported to Wiley that trouble was imminent. The killing at Morewood was entirely justified. Every precaution is taken by the militia to avoid trouble. Private Keller's warning created a great deal of excitement. Sentinels are now being placed at a collision between the strikers and soldiers occurred near the McClure guardhouse this morning. A soldier was wounded by the militia. A collision between the general public and strikers was averted. A late hour tonight in which strikers are holding a big meeting. The feeling of nervousness prevails among the soldiers.

## CHARGED TO ITALIANS.

Attempts to Wreck Railroad Track to Avenge Their Countrymen Assassinated. PARKERSBURG, W. Va., April 3.—A considerable commotion among road lines in this state and there are indications that Italians are avenging their countrymen by destruction of property. Two attempts to wreck the fast line on the Burlington & Ohio railroad detected in time to prevent loss. A few minutes before the New York press passed a narrow cut near the track walker discovered several pieces of iron wedged tightly between the rails. An hour later the Chicago press barely escaped a disaster near the same point by a similar obstruction. The large depot and store building on the Burlington & Ohio at this station was blown up with dynamite, completely wrecking the building, causing serious loss. All three companies are charged to Italians in the neighborhood where they happened.

## The War Cloud Vanishing.

WASHINGTON, April 3.—There have been developments in Italian negotiations. A dispatch from Marquis di Italian premier, the substance of which has already been succinctly given in news dispatches from Rome, was before the cabinet by Secretary Bryan and discussed for a time. Later the secretary said he would not be able to give the exact text of the marquis' note, but that it will not be made public. The secretary has prepared his reply.

## New Incorporations.

HELENA, April 4.—Articles of incorporation of the Madison Mining & Reduction company, with a capital of \$100,000, were filed with the secretary of state yesterday. Operations are to be carried on in Madison and Silver Bow counties. The incorporators are Anthony H. Barrett, Edwin H. Irvine, and Jerome Roach of Silver Bow county. The St. James Consolidated Mining company, with a capital of \$500,000, filed articles of incorporation yesterday. Operations are to be carried on in Madison and Silver Bow counties. The incorporators are Frank Marion, P. Sanford, Horace Savage, and Annie Sadler, all of Meagher county.

# BUY LOTS IN NORTH GREAT FALLS.

THE SITE OF IMMENSE FACTORIES.

The BOSTON & MONTANA COMPANY have selected NORTH GREAT FALLS as the site of their IMMENSE FACTORIES, which will furnish constant employment to thousands of workmen whose CASH WAGES will circulate every month in NORTH GREAT FALLS and vicinity.

# AN IMMENSE DAM BEING BUILT.

An Immense Dam is now being constructed across Missouri River above Black Eagle Falls at NORTH GREAT FALLS at a cost of a Half Million Dollars, and will furnish power for Hundreds of Mills. Other improvements will rapidly follow which will create a demand for more mill frontage and the Coulee Rainbow and Crooked falls will be utilized, all of which are within a few minutes' walk of NORTH GREAT FALLS.

J. O. Gregg, 826 N. Sixth Ave., Great Falls  
Special Inducements to those who desire to build immediately.
