

THE COMMERCIAL CONGRESS.

As may have been anticipated the commercial congress of western states, which met in Kansas City the 14th inst., looked horns on the tariff and money questions. The majority of the committee on resolutions reported two to which the minority take exceptions. The one favors "the issue of legal tender notes redeemable in gold and silver in quantity sufficient to do the business of the country." The other favors a tariff for revenue only. The committee stood eleven for the resolutions and eight against them. When it is taken into consideration that the object of the congress is "the advancement of the mutual interests of western agricultural and mining states," that "farmers," as one said, "need cheap manufactured goods and fair prices for the food products which they create," and that "the desperate condition of western farming interests and the eager desire of the farmers to find a remedy therefor," it is surprising that any two opinions can exist in the congress as to the necessity of a greater volume of money to meet the business wants of the country, or that any material diversity of sentiment prevails as to the wisdom of a high protective tariff.

There can be no question that tariff reduction will be approved by the congress, and that an increased volume of money will be favored, but upon what lines is not so clear at the present writing. The report of the minority of the committee will doubtless influence to some extent the action of the congress upon these two very important questions and give color to its resolutions, but there is no danger that President Harrison's suggestions and advice embodied in his letter to the body will be heeded. He very gravely told the farmers, in effect, that they didn't know what they were about; that it is silly for them to ask for better prices for their products through the opening of foreign markets, because that would make all manufactured goods cheaper, and as we would, at the same time, have to open our ports to cheaper foreign goods the wages of labor would be reduced. Hence the Tribune does not believe the congress will take an undue amount of stock in Harrison's letter of advice.

CHEAP SUGAR.

Republican newspapers are "pointing with pride" to the fact that under the operation of the McKinley tariff which takes the duty from sugar that article is now cheaper to the consumer. Now if cheap sugar is such a good thing why not give the workmen and laboring poor of the country cheap clothing, cheap blankets, cheap boots and shoes, cheap hats, cheap reapers and mowers, cheap agricultural implements of all kinds, cheap axes, cheap tinware, cheap cashes for struggling families, cheap drugs for the suffering poor, and a reduction of the price of all articles which enter into the homes of the laboring men of the country? Surely if cheap sugar is such a blessing why should the people of the country be denied the blessings which would follow the reduction of the duty on all other articles of consumption? Will those who are using cheap sugar to coax republican deserters back into the party fold please answer? Don't all speak at once.

THE ANTI-TIGHTS LAW.

Here is the section of the Minnesota anti-tights law which has been so heartily ridiculed by the theatrical profession and others in that state. It will be seen that the Minnesota legislature very impartially included one-legged girls in the prohibition, thus maintaining its consistency in its position that that there is danger to the rising generation in the exhibition of one or more nether limbs when dressed only in tights and gyrating upon the stage.

The correspondence between this government and Italy has emphasized the fact that the United States do not insure the lives of Italians or any other foreign born resident who chooses to make a home in this country.

THE LATE GENERAL SHERMAN SECURED THE SERVICES OF A CELEBRATED SCULPTOR TO MODEL HIS BUST.

That may be found necessary in the effete east but out here in the wild and woolly west every man models his own bust.

AND now comes Prof. Germania Lee of Paris with a new cure for tuberculosis. His cure consists in confining the patient in a close chamber where the air is saturated with creosote encyclopaedia. It is said some remarkable cures have been effected by him.

Now that it is ascertained Washburne is elected mayor of Chicago it is presumed these republican journals which threatened to boycott the world's fair if Cregler were counted in will revise their utterances in the interest of that great enterprise. "All blows the wind that profits nobody."

The presentation of a hickory cane to President Harrison by the Birmingham (Ala.) postmaster must not be construed as a reflection on the earnestness and rigidity of the president's backbone. The donor is doubtless an old time admirer of General Jackson and may have had "Old Hickory" in mind when he passed the rough, unyielding sapling to the president.

There is no foundation in fact for the rumor that Tom C. Power will resign his seat in the United States senate. The thrifty Tom does not propose to follow the footsteps of Edmunds. The climate at Washington agrees with him and he will worry along in the senate chamber for the next five years when he will give place to a democrat and retire upon the laurels he may win as a law maker.

It was Edmunds who said to Sanders when Senators Clark and Macmillan were contending for their seats before an adverse and hostile senate majority: "Fear not brother, all will be well." Edmunds knew nothing about the real merits of the case but right or wrong he proposed to support Sanders and Power. He has resigned. It is well. Judas Iscariot hanged himself after betraying Christ. Edmunds betrayed an outraged and indignant people and left the senate. Go to the head of the class Iscariot!

FILED FOR RECORD.

- APRIL 18. The following instruments were filed for record: David Churchhill et ux, to John R. Woolwine, block 1, townsite of Clint; \$200. Alvin Sweet et ux, to Thomas G. Carter, the southeast quarter of section 23, in township 18 north, of range 4 east; \$800. Thomas McMahon et ux, to Almon W. Weston, lot 15, block 12, Johnston; \$2350. Margaret Kennedy to Thomas G. Carter, the south half of the southwest quarter of section 23, township 18 north, of range 4 east; \$800. Fred M. Young et ux, to Thomas G. Carter, the east half of the southwest quarter and the west half of the southeast quarter of section 19, in township 18 north, of range 4 east; \$800. Benjamin Stevens to Thomas G. Carter, the south half of the southwest quarter of section 27 and the north half of the northwest quarter of section 30, township 18 north, of range 4 east; \$800. R. W. Copeland of Stonefall, Tex., to Minnie V. McMahon, lot 15, block 12, Johnston; \$200. Charles E. Feely filed pre-emption patent for the northwest quarter of section 12, township 18 north, of range 25 east. Phineas A. Herbage filed a coal certificate to the following property for the coal therein: The east half of the southeast quarter, the northwest quarter of the southeast quarter, and the southwest quarter of the northeast quarter of section 21 in township 19, north of range 3 east. Oswald C. Morton filed a coal certificate for the south half of the northwest quarter, the southwest quarter of the northeast quarter and the northwest quarter of southwest quarter of section 25, in township 19, north of range 4 east. John J. Hurley filed a coal certificate for the east half of the southeast quarter of section 23, the northeast quarter of the northwest quarter of section 25, and the southwest quarter of the southwest quarter of section 21, township 19, north of range 4 east. Lewis E. Sorrick filed a coal certificate for the north half of the southwest quarter of the northwest quarter of section 24 and the southeast quarter of the northeast quarter of section 23, township 19, north of range 4 east. W. A. Chessman filed a coal certificate for the northwest quarter of section 17, township 19, north range 5 east. Walter J. Harber filed a coal certificate for the southwest quarter of the southwest quarter of section 13, the northwest quarter of the northwest quarter of section 21 and the northeast quarter of the northeast quarter of section 23, township 19, north of range 4 east.

While President Harrison is enjoying the hospitality of the people of the South Secretary Blaine is at Washington fighting one of the hardest diplomatic battles known in the history of the nation single-handed and alone. Harrison has unlimited confidence in Blaine and so has his party—so much, indeed, that the former will have to do some mighty hard rustling to prevent the latter from becoming the republican candidate for the presidency in 1892.

If Harrison is depending upon Carter to swing Montana republicans to his support in the republican national nominating convention next year, he is reckoning without his host. Blaine has a strong pull upon the faithful in this state, among whom may be counted a large majority of the leading members of his party. They have always stood by him and if he wants the nomination for the presidency he will get the Montana delegation Carter or no Carter. Stick a pin there.

The cordial reception tendered President Harrison by the people of the South evidences the high respect they entertain for the exalted office he fills, and their loyalty to the government he represents. No one can note the sincere kindness with which he is received by the masses, and the ovations which meet him at every principal point on the line of his journey without feeling assured that the "bloody chasm" is indeed bridged, and that the people of these United States are bound together in a union which cannot be severed.

There is no question concerning the successful cultivation of sugar beets in this section of northern Montana. Mr. Dan Dutro of Fort Benton last year raised several hundred pounds upon just such bench lands as surround Great Falls. They were grown without irrigation and were really too sweet for table use. He sent several pounds to Claus Spreckels at San Francisco for analysis and the returns showed a percentage of saccharine matter far in excess of those raised in California. The sugar beet in Idaho will become an important factor in the prosperity of this favored portion of Montana.

There is no question concerning the order today throughout this broad land of ours. Let the citizens of Great Falls do their share of the work. A tree or a shrub should be planted for each man, woman, and child in it. If this be done during the next ten years and in the meantime proper care and attention given them, what a beautiful sight this pleasant city will present to the resident as well as to the visitor. Let the good work be continued from Arbor day to Arbor day until every yard and lawn be beautified and every highway shaded. Plant trees and shrubs today!

It is said that Secretary of the Treasury Foster is beginning to worry over the matter of ways and means. With the numerous disbursements for pensions and public works in view and no surplus in sight the financial affairs of the nation are not so rosy as they were a year ago before the last congress opened wide the doors of the treasury vaults to the economists that hang around Washington. A thousand millions of cash is a deal of money for one congress to spend, but that is the size of the sum the last one got away with.

It was Edmunds who said to Sanders when Senators Clark and Macmillan were contending for their seats before an adverse and hostile senate majority: "Fear not brother, all will be well." Edmunds knew nothing about the real merits of the case but right or wrong he proposed to support Sanders and Power. He has resigned. It is well. Judas Iscariot hanged himself after betraying Christ. Edmunds betrayed an outraged and indignant people and left the senate. Go to the head of the class Iscariot!

Harrison is "living" the southern heart by his well timed speeches and making a host of friends on the line of his journey.

NEW LUMBER YARD.

F. A. Hammond & Co. begin the erection of Sheds and Side Tracks to-morrow. That Great Falls is continually attracting the attention of capitalists and business men as the most promising field for new enterprises is strongly emphasized by the fact that one of the largest lumber companies in the Northwest will to-morrow begin the erection of lumber sheds and side tracks for the accommodation of their business. Mr. C. M. Vogt, the manager of this new company, has looked pretty thoroughly over the Northwest for a good business opening, and it is his firm belief and that of the capitalists he represents that there is not another city that offers half the advantages that are to be found right here in Great Falls for capital, brains and pluck. He thinks the illimitable resources of the country tributary to this city justify the most extravagant views of our future growth.

With regard to his business, Mr. Vogt stated that his firm had secured two blocks between Eleventh and Thirteenth streets and Eighth and Ninth avenues north for their yards. This will give them a track frontage of 800 feet, which will be ample for the present. They will carry in stock all kinds and every variety of lumber, including sash and doors, interior and exterior finish work, and will contract to furnish buildings with all kinds of lumber and mill work. Part of the lumber of the new firm has already been shipped and it is likely they will be ready for business this week.

BOARD OF TRADE MEETING.

The Congregational College Question Comes up for Further Discussion—Other Matters. A special meeting of the Board of Trade was held last night in the office of J. K. Clark & Co., President Gibson presiding. After listening to the minutes of the previous meeting, the board devoted some time to the question of bids for the Congregational college. Messrs. Tracy and Beckon were ap-

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced he world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

THE FLATHEAD COUNTRY.

Mr. Taenhauser Spends Four Weeks Investigating Its Resources.

He Finds a Rich Agricultural Region and a Land Abounding in Natural Resources.

People Are Flocking There by the Hundreds Some Promising Towns in Perspective.

Joe Taenhauser, our well-known fellow-townsmen, returned last week from a four weeks' trip through the Flathead country. Mr. Taenhauser is so favorably impressed with the region he has just visited that he expects to remove there with his family in about six weeks. Leaving Great Falls Mr. Taenhauser made direct for Ravalli on the line of the Northern Pacific, from which point the Flathead is more accessible than from any other, and hence it is through Ravalli that all supplies for that section are sent. It is also asserted that there are now 30,000 pounds of freight there awaiting shipment to the foot of Flathead lake.

From Ravalli a stage ride of 45 miles landed Mr. Taenhauser at the foot of the Flathead lake, and thence by steamer 30 miles Demersville was reached. This place is by far the liveliest town in that section of the country, and people are flocking in there at the rate of 100 to 120 daily. In fact the steamer accommodations on the lake are so crowded that more boats are to be put on it ones. Two new stern-wheel steamers are now being built for this service and they will be ready in time to get their share of the summer traffic.

Many unskilled laborers are also going into the country and it is feared unless they have the means to reach the big tunnel on the Great Northern, extension the majority will not be able to find work. Skilled mechanics though are in great demand. Living in Demersville is about as cheap as in Great Falls; the Montana house, run by Sam Hicks, formerly of this city, charges \$1.25 per day, while at the Hunt hotel first class accommodations can be had for 85 per day.

Whitefish lake was the next point visited by Mr. Taenhauser. This lake is thirty miles from Demersville and is a veritable paradise for sportsmen. Trout and game of all kinds—both large and small—are found in abundance. The country in this section, and in fact the whole Flathead valley, is said to be as fine farming land as any one could wish, and it is dotted with ranches from one end to the other. Berries grow wild there in abundance. Fruit, however, is scarce and is usually imported from California. The soil, however, is well adapted for delicious fruits, and in time will receive proper attention. Last year the wheat yield of this section was from 65 to 70 bushels per acre, and oats ran as high as 90 to 100 bushels per acre. This gives one a better idea than any thing else that could be said of the wonderful fertility of the soil. Ranchers are now actively engaged in seeding and plowing and preparing for the coming season, which promises to be bountiful. Columbia Falls, in the estimation of our enthusiastic townsmen, is bound to become a good city. It is in the midst of a productive agricultural region, is surrounded with plenty of timber and has abundance of good coal adjacent. With these advantages as a nucleus Mr. Taenhauser thinks Columbia Falls will become no mean rival for the trade of that section of the country.

pointed to act in conjunction with the Rev. Cary in soliciting cash subscriptions for the college. It was the wish of the board that the president go to Butte the fifth of next month to present the claims of Great Falls before the Congregational college committee, the meeting having been changed from Bozeman to the Smoky City and the time postponed to that date. In Mr. Gibson we will have a representative who will present our claims in a masterly manner. The president stated that the Town-site company will arrange the power house at the dam so that anywhere from fifty to five hundred horse power can be supplied to manufacturers on the bench in that vicinity. There was talk about offering a bonus to the Great Northern company to extend their line into the Judith. Hereafter the board will meet on Wednesdays instead of Saturdays and all should be present. W. T. Burg and E. M. Hughes were elected members. After some railroad talk the board adjourned.

Cascade County Sunday School Convention. Last evening there assembled in the office of Lawyer Pomeroy the following gentlemen: Revs. Cory, Pope and Reid, Messrs. Pomeroy and School. Rev. Coombe being unwell could not be present. A communication was read from Rev. F. B. Kelsey of Helena, respecting the forming of the Sabbath schools into a county organization and electing a delegate to the state convention of Montana to be held in Bozeman June 23, 24 and 25, and upon motion a temporary organization was instituted with Rev. F. Cory as chairman and Mr. S. Pomeroy as clerk.

It was resolved that a convention should be held May 21 at Great Falls and that a committee consisting of the pastors of the Evangelical churches of the city form a committee of arrangements to call the convention, and fix the program. Further particulars will shortly be given. It is, however, a matter for congratulation that such important business is under way and we hope that the Sabbath schools of Cascade county will be greatly stimulated by the proposed organization.

Interesting Letter. The following letter is splendid evidence of the merits of Chamberlain's Cough Remedy for the relief of any case of cough. WYREDO, Ill., Jan. 24, 1891. Messrs. Chamberlain & Co., Des Moines, Iowa. Gentlemen, Your letter of recent date received today. Your remedies have given my customers good satisfaction, especially Chamberlain's Cough Remedy, which is considered better than any other. Respectfully yours, W. E. ENGLISH, Druggist. For sale by Lapeyre Bros.

Our agents make \$100 to \$500 a month selling our goods on their merits. We want county and general agents, and will take back all goods unsold if county agents fail to clear \$100 and expenses after a thirty days' trial, or a general agent less than \$150. We will send large illustrated circular and letter, with a special offer to suit territory applied for, on receipt of three recent stamps. Apply at once and get in on the boom. Address Remer Manufacturing company, Pittsburg, Pa.

Hoiter Lumber Co. Have just received 16 cars of Doors, Windows, Building Paper, Tar and Iron Roofing, Ballster Goods, large Plate and Colored Glass, Windows for Residences, Gable Ornaments, Minnesota Drop and Split Siding, Wisconsin Basswood Ceiling, best for Stores and Large Rooms; Ready Made Store Doors with Double Thick Glass; also a large stock of Fire Panel Doors, No. 1 Glass, Residence Doors, Locks, Batts and Trimmings. Call at the Stone Block—south side.

ROYAL BAKING POWDER Absolutely Pure. A cream of tartar... Highest of all in leavening strength—U. S. Government Report, Aug. 17, 1889.

The Celebrated French Cure, WARRANTED "APPRODITINE" or money to cure. IS SOLD EVERYWHERE POSITIVE CURE FOR ALL cases of Gonorrhea, Syphilis, or any disorder of the genital system. BEFORE and AFTER. Tobacco or Opium, or through youthful indiscretion, over-indulgence, or such as Loss of Brain Power, Weakness, Boiling down Pains in the back, sexual weakness, Hereditary Nervous Prostration, Neuritis, Epilepsies, Leucorrhoea, Discharges, Weak Memory, Loss of Power and Impotency, which are developed often lead to premature old age and insanity. Price \$1.00 a box, 6 boxes for \$5.00, sent by mail on receipt of price.

Faber's Golden Female Pills. For Female Irregularities, nothing like them on the market. Never fail. Successfully used by prominent ladies monthly. Guarantee to relieve suppressed menstruation. SURE! SAFE! CERTAIN! Don't be humbugged. Save your health and money, take no other. Sent to any address secured by mail on receipt of 10¢. Price, \$2.00. Address, THE APHRO MEDICINE COMPANY, Western Branch, Box 27, PORTLAND, ORE. Sold by Great Falls druggists.
