the M. E. conference met again Friday morning, in business session.

The book concern reported a capital of \$2,957,000 with net profits amounting to \$284,000 for the year past.

The bank clearances for the five days ending last evening were \$250,385. At this rate the week's clearings will not be less than \$300,000.

S. J. Kinsey, assistant foreman of the Great Falls Tribune, was in town last week looking after his mining interests in this vicinity.

Livingston is to have a new opera house, designed by Architect Cobb.

John Gerin was quite sick Friday night but yesterday was reported better.

The record for a half mile dash on a circular track was broken at Butte on Friday by April Fool. Time, 47 seconds. Good for the Montana circuit!

Thomas Murphy is in Benton defending William Welch in an extradition proceeding. William is better known as "Billy the Kid" and is wanted across the line for horse stealing.

Joe Kaufman, postmaster at Cascade, sends us the following list of advertised letters remaining at his office: G. W. Emerson, Paul Ferran, Carl Gustafson, W. J. Hill, G. H. Harper, King Bridge Company, 2; Pat Lynch, Louis Saquer, Moose Sayer, Mrs. G. W. Black.

Freeman & Largent is the title of a new firm of attorneys who are now established in room 10 in the Dunn block. Both gentlemen are graduates from the Ann Arbor law school and, according to popular report, are well versed in the many highways and byways of their profession.

From Mr. McSwenny, who arrived yesterday from the Judith country, the Tribune learned that the Burlington railway survey party is now camped on Sage creek and is making good progress toward this city. The line crosses the Judith at Utica, and keeps as close as possible to the mountains, the evident intention being to tap the rich and extensive Yogo and Wolf creek mining districts. The party is a large one and is doing the work thoroughly.

Twenty-two cars of wool were brought in from Armingston Sunday.

Two hundred and seventy thousand pounds of wool belonging to E. A. Hanson of Sage creek have been purchased by E. P. May for his firm in Boston.

The wool receipts for last week were 511 sacks, 168,172 pounds, yesterday about 14,000 pounds were received. Shipments last week amounted to twenty-one cars.

A license was issued yesterday to William Coombs of Choteau and Miss Annie Williams of Great Falls. The happy couple were united in wedlock by Rev. Coombe yesterday morning at the Milwaukee.

The Sands Cattle & Land company, through Hon. J. F. Taylor, the manager, have purchased of Jack Waite 2,200 head of yearling lambs and of the Sage Creek Sheep company 1,800 straight yearling ewes. The price paid was \$2.85 and \$3 respectively. Mr. Taylor says there are no better sheep in Montana than the 4,000 head he has just purchased, as noted above.

The case of Stevenson vs. Gelsthorpe, for alleged malpractice, which was tried in the district court of this county and a verdict rendered in favor of the plaintiff, was reversed yesterday by the supreme court. This may be taken as a vindication of Dr. Gelsthorpe in this matter and he is to be congratulated on the result. The evidence of the physicians who testified in the case, with one exception, we believe, was to the effect that there was no malpractice in the surgical operation and treatment of the doctor, and the reversal of the verdict by the supreme court is what was expected.

A Tribune representative visited the race-track yesterday in company with Julius Horst and found the work of preparation for the forthcoming meeting progressing rapidly. The grand stand

is completed and the finishing touches are being put on the stables, which will furnish stalls for over 100 horses. The water-pipe is laid and the next few days will see the tank finished and the grounds abundantly supplied with water. Work on the track goes on daily and it is now in splendid condition. When the meeting opens on Aug. 17 everything will be in apple-pie order down to the smallest details. The prospects for a successful meeting are flattering in the extreme.

C. F. P. Conybeare, district prosecutor of northern Alberta, and T. W. Clarke, another attorney from Lethbridge, have been in the city several days. Mr. Conybeare has been attending to the dominion's interests in the case of William Welch, "Billy the Kid," who is now held for extradition on a charge of horse stealing. Mr. Clarke has arranged with the local baseball and football teams for games in Lethbridge during the races, which take place on September 10th and 11th. Lethbridge also proposes to have several games of Rugby, a tennis tournament, lacrosse matches and a pigeon shoot. The district attorney said that quite a number of Lethbridge gentlemen would be present at the August races.

REVERENDS, POTENT AND GRAVE In Session Meet—A Strong Report by Rev. Van Orsdell.

The M. E. conference met again Friday morning, in business session.

The subject last evening was "Christian Education" and was treated by Rev. Dr. Tower. The speaker first announced that he would limit his discourse to Christian universities and colleges and would not discuss Christian education in the public schools.

"The importance of these schools," he declared, "two-fold." First, there was their individual influence on the student. In sending a boy to school the first circumstance considered should be the selection of a place where the prevailing influence should tend to develop a loftier manhood and should add a permanent tone to his character. He should be not merely intellectually educated but should be able to answer his soul's question, "Is there a God?" Educated in Christian beliefs he goes into life rejoicing in a rainbow of hope.

"Second these institutions are important to society at large. The university is the largest and mightiest productive force in the world. The principles underlying all great inventions have been nourished at the fountains of university knowledge. Christianity should permeate all institutions of learning that while the march of material civilization may progress with lightning rapidity, it shall not go beyond Christianity. Influences which, pervading the masses, determine their belief and actions, come from these higher institutions. The world listens to the teachings of education and will eventually be dominated by them. Ought the thought reigning in such places to be Christian or otherwise? Cultivated Christian boys and girls become the world's greatest evangelists. The conversion of one soul may work more good than the conversion of a thousand others, and great seats of learning should likewise be fountains of Christian life.

orous remarks, stirring the congregation on to deeds of righteousness. A hymn was sung and then the assemblage arose and after singing the doxology were dismissed.

MORNING SERVICES. The conference spent Saturday in transacting church business. The students examined for advancement were all passed and promoted one year.

Bishop Bowman delivered a very interesting discussion on the duties of a minister. He said that the labor of Montana pastors had been experienced in the east in its early days, remarked that the preacher must be a pastor and advised them to instruct the people upon the moral obligation of Christians to contribute to benevolent objects.

At 11:30 the election of a ministerial delegate to the general conference took place. The general conference is made up of about 700 delegates and meets once in four years, remaining in session about a month. As previously stated in the Tribune it meets in Omaha in May of next year. Rev. F. A. Kiggins was selected ministerial delegate for the Montana conference, and President Tower of Montana university alternate.

THE EVENING SERVICE. The subject last evening was "Christian Education" and was treated by Rev. Dr. Tower. The speaker first announced that he would limit his discourse to Christian universities and colleges and would not discuss Christian education in the public schools.

"The importance of these schools," he declared, "two-fold." First, there was their individual influence on the student. In sending a boy to school the first circumstance considered should be the selection of a place where the prevailing influence should tend to develop a loftier manhood and should add a permanent tone to his character. He should be not merely intellectually educated but should be able to answer his soul's question, "Is there a God?" Educated in Christian beliefs he goes into life rejoicing in a rainbow of hope.

"Second these institutions are important to society at large. The university is the largest and mightiest productive force in the world. The principles underlying all great inventions have been nourished at the fountains of university knowledge. Christianity should permeate all institutions of learning that while the march of material civilization may progress with lightning rapidity, it shall not go beyond Christianity. Influences which, pervading the masses, determine their belief and actions, come from these higher institutions. The world listens to the teachings of education and will eventually be dominated by them. Ought the thought reigning in such places to be Christian or otherwise? Cultivated Christian boys and girls become the world's greatest evangelists. The speaker closed with a few earnest words for the Montana university, just established and requiring and deserving the support of every Christian within its reach.

He was followed by Lieut. Gov. Richards, one of the university trustees, who remarked that he had testified his confidence in the university by sending to it one of his sons and had been gratified to observe a material progress in the young gentleman.

In the recorder's office a deed, dated September 5, 1888, was filed whereby Ernest Crutcher, for \$1,000, transferred to Jennison L. Perkins of Helena, the southwest quarter of section 20, in township 20 north, of range 1 east.

A deed from Younger Lawler to Margaret Murray of Selkirk, Scotland, for part of section 3, in township 20 north, of range 5 east.

An assignment by Emma H. Adams to Charles H. Herzog of a contract with the Townsite company for lot 1 in block 453.

Even John Doe failed to show up before Judge Morehouse yesterday morning with his old-time plain drunk. The afternoon, however, made up for the morning in excitement. Agreeable to her promise in \$500 bonds Laura Bell made her appearance. Several of the Second street elite were present. Laura appeared in a modest gray gown with an elongated bird of prey upon her bonnet. Maggie Murphy, the complaining witness, is a black-eyed maiden, and stood a three-hour's examination and cross-examination most excellently. Nothing new was developed. Maggie said she quit Laura's place yesterday morning and ran to the police court, fearing bodily injury. Her garments she left behind and has not seen them since. The attorney succeeded in wrangling through three hours of the spectators' giggled at tales of feminine secrets and heart burnings.

The case was continued until 1:30 Monday, when Maggie will be further examined and cross-examined.

From San Antonio. Aug Hornung, a well-known manufacturer of boots and shoes at 820 Nolan street, San Antonio, Tex., will not soon forget his experience with an attack of the cramps, which he relates as follows: "I was taken with a violent cramp in the stomach, which, I believe, would have caused my death had it not been for the prompt use of Chamberlain's Colic, Cholera and Diarrhea Remedy. The first dose did me so much good that I followed it up in twenty minutes with the second dose, and before the doctor could get to where I was I did not need him. This Remedy shall always be one of the main stays of my family." For sale by Lapeyre Bros., druggists.

Every style of blank books at Calkins' book store.

There is lots of fun on the river these beautiful cool evenings at 61.

Twenty-five bars of Laundry Soap for 21 cash at S. L. Dunham's, 401 Central avenue, 1101f.

Disolution Notice. The firm of Buckingham & Olson is this day dissolved by mutual consent. J. H. Buckingham will continue the business under the firm name of Buckingham & Co. and will collect all accounts due the old firm and pay the indebtedness. J. H. BUCKINGHAM, JOHN OLSON.

Dr. G. O. Peck also made a few vig-

AN IMPORTANT ENTERPRISE.

Organization of the Montana Mining and Investment Company of This City.

Promise of a Successful and Profitable Career—Large Capital and Extensive Mining Operations Assured.

It is but a short time since the Montana Mining & Investment company of this city was organized, and yet it has achieved a success that may be considered phenomenal. As the name indicates, this is to be an investment company, operating for the most part in mining property. It is proposed to accumulate a large sum and invest the same in good mining property in the Belt mountain districts or elsewhere, where good returns are promised. At present there is no more inviting field for investment in the world than in the mining districts of Neihart, Barker and Wolf creek. Many fortunes have already been made there and the camps are but in their infancy. It only requires business foresight, judicious investment and careful management to insure success in mining operations in these districts, and the character and standing of the men at the head of the Montana Investment company guarantees that none of these requirements will be lacking. Mr. T. E. Collins, president of the First National bank of this city, is president of the company. L. W. Curtis, who was connected with the American Express company for so many years, secretary and B. H. Powers, treasurer. Among the stockholders and active managers are Hon. Paris Gibson of the Great Falls Water Power & Townsite Co., C. W. Taylor, traveling auditor American Express company, J. W. Sprague, editor Express Gazette, W. F. Lee, cashier Canadian Express, T. W. Thomson, editor Minot, Barker, and many others of prominence at home and abroad.

Stock in this company is sold in amounts from \$24 up and may be paid entire in cash or monthly installments of \$2 a month. Agents are already at work in hundreds of cities and towns and in this way it is expected to distribute the stock into the hands of many thousands. The standing and integrity of the men in management is a full guaranty that the funds of the company will be judiciously invested and the interests of the stockholders carefully guarded.

When a sufficient amount of money is accumulated in the treasury investments will be made under the direction of the trustees and only on the advice of competent mining experts. It is proposed not only to buy mining property but to work the same and thus bring in profits and dividends to the stockholders. The operations of the company will be conducted as carefully and judiciously as if the money was wholly that of the trustees. The advantage of many joining in an enterprise of this kind is that a large capital is secured, enabling the company to go forward with its operations on an extensive scale.

The Tribune is informed by Secretary Curtis that the success of the company is already assured. The stock is being taken more liberally than was expected and its plan and purpose is generally approved. Besides being, as we believe, a profitable investment for the shareholder, the company, with the ample means at its command, will do a good part towards developing the great mineral resources of this favored region.

MONTHLY PAY ROLL.

Large Sums of Money Put Into Circulation in This City and Vicinity.

In a talk with Cashier A. E. Dickerman of the First National bank yesterday the fact was brought out that Great Falls has an immense pay roll, much larger than any one imagines who has not given the subject consideration. The companies and firms subjoined, doing business through the First National bank, pay out \$175,000 a month, and as this is but one bank out of six the reader can estimate for himself the total of the money that is turned into the channels of trade and commerce at this place.

The corporations and firms named by Mr. Dickerman number 43 and are as follows:

Boston & Montana smelter, Butte & Montana Commercial Co., Shepherd, Seims & Co. and W. A. Riley, Great Northern R. R. extension, Foley Bros. & Guthrie, Neihart and Barker branch, Great Northern Railway Co., Great Falls & Canada Railway Co., Montana Stage Co., Great Falls Water Power & Townsite Co., Cornucopia, Belt Mountain, Black Diamond and Foyl Mining companies, Townsite & First National bank building, Wm. Roberts, Reid & Goodin and Roberts & Jones contractors, F. A. Hammond & Co., lumber merchants, Boston & Great Falls Electric Light & Power Co., Great Falls Street Railway company, Horst & Renner, Park hotel, Hotchkiss & Hawkins, A. T. Schmitz & Co., Tramm's company, Mark Tuck and White & Latta, contractors, Valk Bros., brewers, J. T. Eaton, city of Great Falls, I. X. L. Consolidated Mining company, Commonwealth Mining company, Running Wolf Mining company, St. James Consolidated Mining company, Sweepstake Mining company, Mountain Side Mining company, Great Falls Iron works, Ira Myers & Co., Holter Lumber company, Ray Frederick & Co., Great Falls Water company, Sun Brick company, Bartholmew & King, brick yard, Lock & Co., brick yard, and the Great Falls Realty company.

Privileges Sold. The privileges of the North Montana Fair association were sold last night in front of the Park hotel. The bar privileges were secured by O. M. Lambert for \$800. Judd Bros. purchased the restaurant privileges for \$40 and the ice cream, etc., for \$80. Dyas & Jones were the auctioneers.

CITY COUNCIL PROCEEDINGS.

A Large Number of Petitions, Ordinances, and Bills Come In for Consideration. The City Council met Monday evening. There were present Councilmen Gaunt, Tracy, Fletcher, Beachly, and Carrier, with Mayor Hotchkiss in the chair. The minutes were read and approved.

The report of the city treasurer was then read. The balances are as follows: Park fund, \$2,716.64; Street fund, 2,356.68; Water fund, 4,687.16; General fund, 171.14.

A statement of city indebtedness followed. It showed in regular warrants an indebtedness of \$1,824.20; interest on bonds, \$455.42; by cash, \$171.14; bonds, \$50,000, with \$250 interest.

A request was then read for building on the east half of lot 11, block 416. The request, made by Charles Wegner, was granted.

A petition for an extension of water mains to the recent additions was granted.

Chief Judd then presented his report for the month. Seven fires were reported. The two most destructive of these were the Milwaukee house, loss \$1,300 on building and \$1,500 on fixtures and stock; the Milwaukee beer garden, loss on building \$1,800, on stock and fixtures \$3,100. Total loss for the month amounts to \$8,230. The new alarm system contracted for by the city was reported as having arrived and its erection promised shortly. The purchasing of a new hose cart was recommended and the report also recommended that the new cart and one of the carts now owned by the city be placed one on the north and one on the south side of the city.

The report of the city engineer recommends that a connection be made for building 406 on Central avenue with lateral sewer in block 315; also connections with buildings at 123 Third street and 422 Second avenue south. Ordinance No. 1, to prevent the accumulation of stagnant water was then read. Also an ordinance to protect fences and trees in the city by forbidding the hitching of horses to trees and fences; also an ordinance to establish the grade of Central avenue, Fourth avenue north and First avenue south as graded by the city engineer; also an ordinance to regulate placing of telegraph, telephone and other poles, forbidding the making of excavations for poles without the permission of the council; also an ordinance to prohibit the obstruction of public grounds by forbidding the erection of fences and other obstructions before streets or alleys; also an ordinance to provide for the levy and collection of a poll tax in the city, providing a poll of \$3 per head and of 2 mills on each dollar of taxable property, 30 per cent of which is to be paid to the county treasurer. On motion the rules were suspended and these ordinances passed.

The bids on a lateral sewer in block No. 248 were \$1,476.33 by Allison & Knight, \$615 by Robert Heffer, \$585 by McKay Bros., McKay Bros.' bid was pronounced irregular for several reasons and the contract was awarded to Robert Heffer.

The auditing committee reported favorably on the following bills:

Table with 2 columns: Name and Amount. Includes Andrew Ericson (\$8,430), Robert Heffer (\$207.50), Howard Criss (\$250), Nels Lagerstad (\$212.50), George March (\$8.75), James Mansfield (\$37.75), Allan Black (\$340), E. S. Paulson (\$7.50), Goodrich Lumber company (\$15.00), Jacob Pfeifferly (\$3.50), E. B. Preston & Co. (\$10.00), E. H. Judd (\$77.70), C. H. Clarke (\$147.00), Theodore Burget (\$10.25), P. McDonald (\$90.00), A. S. Fletcher (\$141.00), A. Holden (\$97.50), G. B. Worley (\$182.50), G. B. Worley (pay roll) (\$466.00), James B. Wolf (\$20.00), Samuel French (\$90.00), Sol Yates (\$90.00), White & Latta (\$28.00), Jenn Lippincott (\$90.00), Gattaparcher Rubber Mfg. Co. (\$500), John Martin (\$90.00), J. M. Burns (\$90.00), Ernest Wright (\$90.00), G. H. Trent (\$145.25), G. H. Trent (\$125.00), G. H. Trent (care of prisoners) (\$15.50), Alfred Olson (\$61.25).

On motion the bills were allowed.

A petition for the extension of water mains to Fifteenth street on Third avenue north was referred to committee.

The profile for the sewer on Fourth avenue south was then laid before the council by the sewer committee. It provides for a 24 inch ditch and the cost is estimated at \$2,000. The report of the committee was accepted and the city engineer ordered to advertise for bids.

The committee also recommended the extension of the water mains to Thirtieth street on Fourth avenue north. This was also allowed.

A petition for leave to erect a corrugated iron addition in the rear of a lot adjoining the Gen restaurant by E. M. Osborne was granted.

The committee on jail reported, recommending a new jail but desiring to see plans and specifications for the new building before reporting specially on any one.

The auditing committee reported advising that the reports of the foremen of the various hose companies be accepted. The reports, however, being somewhat confused, further time was granted the committee. Authority was granted the fire marshal to secure rope to keep curiosity seekers and meddlers from fires.

The committee on levying taxes reported the total taxable property in the city as \$5,758,000. The levy for city purposes must be eight or ten mills. This as recommended, should be apportioned as follows, park, 3-8 mill; sinking, 3-8 mill; water fund, 2 mills; street, 1 mill; general, 4 mills; 2 mills for sewer purposes; making 10 mills altogether.

Hon. Paris Gibson protested against cutting down park appropriations. He offered if the levy should reach \$4,500, to see that it was supplemented by \$1,000. This proposition was considered. The final levy determined on was 2 mills for street fund, 1 mill for sewer fund, 5 mills for general fund of which \$4,500 should be placed to the credit of the park fund and \$5,000 to the sinking fund. Council then adjourned.

Wisconsin Ceiling, Flooring, Siding, clear Lumber, California Redwood and Molding. All Sizes. Screen Doors. Holter Lumber Co.

THE BOSTON & MONTANA.

What It is Doing in Butte and What It Proposes to Do—Its Great Properties. Butte Miner.

The Boston & Montana company's mines and smelters are in operation and under the able management of Captain Thomas Couch and his able corps of superintendents the company is reaping the harvest to which its enterprise entitles it. At the Lewisohn shaft the new hoisting engine is being put in place and will be completed in a short time. The task of putting in a station at the 600-foot level is about finished, and on the starting of the new hoist sinking for the 1,000 will be resumed. A new ore bin has also been erected near the shaft, and in a short time the whistle of the locomotive will be heard under the chutes where a track will be built by the Montana Central people in order to load the cars with ore for the new smelter at Great Falls. It is the intention of the Boston & Montana company to run levels from a depth of 1,000 feet in the new shaft to the ground of the Mountain View and then to the Harris & Lloyd property, both of which belong to the company. Levels from this depth on the low ground will strike the Mountain View veins at a depth of 1,400 feet, and the Harris-Lloyd at a depth of about 1,000 feet. The scheme is a great one, and in addition to making a grand outlet for the ore, will supply fresh air to all the company's mines. The new shaft is to be supplied with a large Cornish pump, and it is the intention to have just full enough to the levels from the Mountain View and Harris-Lloyd to permit the water from these two properties flowing to the new shaft, where it can be handled with ease. Many needed improvements have lately been made about the company's plant, and at present the entire works are turning out their usual quantity of copper, silver and gold.

Buy a lot in South Great Falls. Prices range from \$50 to \$200. J. K. Clark & Co., over the First National bank, agents.

"August Flower"

For Dyspepsia. A. Bellanger, Propr., Stove Foundry, Montagny, Quebec, writes: "I have used August Flower for Dyspepsia. It gave me great relief. I recommend it to all Dyspeptics as a very good remedy."

Ed. Bergeron, General Dealer, Lauzon, Levis, Quebec, writes: "I have used August Flower with the best possible results for Dyspepsia."

C. A. Barrington, Engineer and General Smith, Sydney, Australia, writes: "August Flower has effected a complete cure in my case. It acted like a miracle."
