TWO POLITICAL EXECUTIONS.

England Visits Speedy Justice Upon Her Rebellious Indian Subjects.

LARGE GRAIN SHIPMENTS FROM DULUTH.

Pillsbury Said to Be a Very Heavy Loser—He Denies the Report.

Secretary Mortimer Heard From—A Memphis Bank President Chloroformed.

SWIFT PUNISHMENT.

How England Deals with Those Who Violate Her Rights.

SOLEA, Aug. 13.—Another illustration of the swift punishment which England inflicts upon those who violate her rights or infringe upon her dignity in India was given today at Manipur, when two of the leaders of the massacre of the British officials in March last met their death at the capital.

The two men who were executed today were members of the reigning family of Manipur, but neither their high positions nor the appeals for clemency that have been made for them could save them from the vengeance of the law. Both appealed from the sentence of death that had been imposed upon them by the military court of inquiry before which they were tried but the viceroy of India, the Marquis Lansdowne, had decided that the interests of Great Britain demanded these men who had waged war against the queen and an abetted murder should die. They were soldiers, yet not for them was the honor of a soldier's death. They were taken from the prison, led to the scaffold and there hanged like ordinary murderers.

The principal victim of today's tragedy was Senapatty, or the commander-in-chief of the Manipuri army. He was the younger brother of the rajah of Manipur, and some years ago he drove the rajah into exile and placed another brother on the throne, who governed Manipur under the title of jibraj or regent. It was Senapatty who instigated the massacre of Chief Commissioner Quintin, Political Agent Grimwood, and others who lost their lives at the fatal Durbar in Manipur. The other victim was a Tongal general who violated a flag of truce under which Englishmen were decoyed from the residence of Manipur, which they had so gallantly defended against overwhelming odds when attacked by the Manipuri, and when they gave the order to the native executioner to strike the heads and feet from British prisoners. An immense crowd of natives witnessed the executions. There was no sign of any disturbance among the spectators.

Wheat Shipments.

CHICAGO, Aug. 13.—A dispatch from Duluth, Minn., says: In the last three months there have been 1,500,000 bushels of wheat sent through Duluth to the east by Minneapolis parties. A good deal of speculation has arisen regarding this shipment, and further consignments of 500,000 bushels that are now passing through this city. The Herald today says this wheat is being sent out of the country by Pillsbury and that every bushel of it represents a loss to the English syndicate running the Minneapolis mills of 20 cents. Last fall Pillsbury was a persistent hull and was a loud exponent of \$2 wheat and \$10 flour. In this way he loaded up with a great quantity of grain at prices ranging from \$1.10 to \$1.19 a bushel, and has carried a good share of the year's high as \$10,000,000. Since then wheat has gone off pretty steadily and a short time ago the Minneapolis syndicate found itself with not enough to make the 1,500,000 barrels of flour right on the eve of the biggest wheat crop the United States has ever seen and with the stuff worth about 30 cents a bushel. So this wheat had to be got out of the way. Hence the shipment of 2,000,000 to the coast by way of Duluth. The entire lot is sent through on a special cut rate on the Great Northern road, passing through its own elevators and on its own vessels to Buffalo and paying but a fraction of the rate to railways. The elevator and steamship that continued cuts in west-bound lake and rail rates from New England points are causing no uneasiness in the traffic from those points, which is now so light it is not worth fighting over, and strong lines are not particularly disturbed by cut-throat tactics, so their weaker neighbors secure what freight is moving. Is east bound situation, that is being watched with keen interest. The order to restore

east bound lake and rail rates goes into effect next Monday, and the opinion is general that it will be obeyed by all the lines. This opinion has been strengthened by the action of the St. Paul lines yesterday in agreeing to advance their rates from St. Paul and Minneapolis and eastern points, taking effect August 25. The new rates will be 30 cents to New York and 35 cents to Boston, which will make a basis of 20 cents to Chicago and 7 1/2 cents to Lake Superior ports on through shipments. It is believed that all lines are tired of doing business at unprofitable rates, and that the volume in traffic will now be so large that there be no excuse for cutting under agreed tariffs.

Pillsbury Vigorously Denies.

MINNEAPOLIS, Aug. 13.—Pillsbury being asked as to the truth of the statement, published under a Duluth date, states that the general tenor of the dispatch is that of a malicious falsehood, evidently promulgated by some one to do injury to his business. The figures are the grossest and wildest exaggeration both as to the cost and amount of wheat. He has purchased what wheat he has calculated would be required for milling on the markets every week in the year and at a cost below the present prices. The total requirement of his mills are over 15,000,000 bushels per annum if the mills were run unintercepted, and purchases have not been in excess of this amount. All the millers in Minneapolis put together have not purchased the amount stated in the dispatch during the past year, and comparatively little of the wheat has been purchased at the price named. On the contrary a great bulk of the wheat was bought below a dollar a bushel, which is about the present value of old wheat in Minneapolis.

MORTIMER HEARD FROM.

But When Looked for He Was Not to Be Found.

CHICAGO, Aug. 13.—Post-office Inspector Stuart received a dispatch last night from W. F. Mortimer, the missing secretary of the National Capital Savings and Building & Loan association, dated at Minneapolis, stating he had started for Chicago. Stuart went to the depot this morning to meet him, but he came not. The inspector thinks he changed his mind when he learned there was a warrant out for his arrest. Receiver Wilkins of the insolvent concern today demanded and received from Postmaster Stator all the letters addressed to it which have been received since Mortimer's disappearance. They are supposed to contain remittances. This money will be returned to the senders.

MUCH ADO ABOUT NOTHING.

All About Who Discovered the Source of the Mississippi River.

BERNE, Aug. 12.—In the international geographical congress Mr. Stout of New York read a paper by Mr. Harbut of New York on the pretended discovery of the true source of the Mississippi by Captain Glazier. Harbut's paper dealt in great detail with the history of Mississippi explorations and favored Nicollet's discoveries. The paper concluded with the statement that the American Geographical society desired to submit to the congress this history of the pretended exploration by a man whose own writings showed he had never even seen the head waters of the Mississippi. The delegates listened to the reading of the paper with marked attention and appointed a committee consisting of Major Post, officially representing America; Sir George Bower of England; Napoleon Ney of France; M. Claparede of Switzerland, and Mr. Hessewartzeg of New York, to consider the subject.

THE Y. M. C. A.

Papers Read Before the World's Convention of the Association.

AMSTERDAM, Aug. 13.—The world's convention of the Young Men's Christian association opened its second day's proceedings this morning. The session was opened by the reading of a paper in English by Robert Burn, secretary of the Oldergate street branch of the London association. Rev. Mr. Baumgartner of Berne, Switzerland, also read a paper in French on the subject and another paper prepared by W. D. Murray of Philadelphia, N. J. A paper of the American international committee was read by Mr. Dong lass, one of the American delegates.

IN DARKEST RUSSIA.

A Free Advertisement of the Work by Telegraph.

LONDON, Aug. 13.—The work entitled "In Darkest Africa" has met with a very good sale and today the second edition was issued. The book is devoted to an expose of the wrongs from which the Jews in Russia suffer, and the edition today gives long lists of fresh persecutions to which the Hebrews in that country have been subjected. A vast mass of statistics is presented to prove that the statement alleged to have been made by the czar that the Jews were connected with dynamite outrages is unfounded.

THE KANSAS KU KLUX KLAN.

The People of Bolton Township, Kansas, Considerably Worried Up.

A WOMAN WARNED TO LEAVE INSTANTLY.

Keokuk Visited by a Terrible Wind and Rain Storm—It Creates a Panic in the City.

The Two Per Cent Loan Plan Advocated by Secretary Foster a Dismal Failure.

Fearful Storm at Keokuk.

KEOKUK, Aug. 13.—A terrible wind and rain storm visited Keokuk this afternoon. Half of the shade trees of the town were blown down and small buildings were struck from their foundations. Lightning struck the amphitheatre at the fair grounds. Ben H. Jewell, bookkeeper of the savings bank, received a shock, at first thought to be fatal. There was a general panic throughout the city.

The Kansas Ku Klux Klan.

KANSAS CITY, Kan., Aug. 13.—Mrs. J. A. Wickline of Bolton township, who three weeks ago was brutally assaulted and nearly murdered, this morning found nailed to her door a letter, written in red ink with a skull and cross bones over it, warning her to leave the country or she would fill a coffin in less than a week. This is the same neighborhood where Mr. and Mrs. S. A. Donnelly were mysteriously murdered a week ago. People are greatly excited.

THE TWO PER CENT LOAN.

Foster's Plan for Continuing the 4 1/2 Per Cent a Dismal Failure.

WASHINGTON, Aug. 13.—Inquiry at the treasury department develops the fact that Secretary Foster's plan for continuing the 4 1/2 per cent loan at 2 per cent has so far failed to meet with the favor that was anticipated by its advocates. On July 2, when the offer was made to continue the 4 1/2 per cent bonds at 2 per cent, there were outstanding \$51,000,000 in 4 1/2 per cents, of which amount \$23,000,000 were held by 9,000 national banks as a basis for their circulation. Since then \$18,500,000 of the bonds have been continued. Of this amount \$3,000,000 came from private individuals and \$15,500,000 from 600 national banks, leaving \$8,000,000 4 1/2 per cents in the possession of 300 national banks and \$15,000,000 in the hands of individuals. These bonds, aggregating \$23,000,000, in order to be continued under the present offer must be presented on or before September 2, the date on which their interest ceases. Otherwise the secretary of the treasury must be prepared to redeem them on presentation or to make terms with their holders for extension of time at the present rate of interest, viz: 4 1/2 per cent.

The available cash balance in the treasury today outside of fractional silver coin and deposits in national banks is \$13,000,000, and is gradually increasing. While there is no question of the government's ability to redeem these bonds at maturity it is well known that it would prefer to continue them.

Large Failure of Lumbermen.

CHICAGO, Aug. 13.—St. John, Marsh & Co., dealers in lumber in Kansas and Colorado, made a voluntary assignment today to Morton E. Hull. The company was organized six years ago. Attorney Miller said: "The face value of assets are \$250,000 and they will certainly realize \$150,000. Liabilities are \$145,000. The failure is due to the stringency in the money market and the fact that failures of the Peter Lumber company and Howell have made it difficult for lumbermen to get accommodations at banks. The company's business has been in Kansas and Colorado, and its accounts are what are known as 'slow' in short collections could not be made fast enough to meet maturing obligations, and the assignment was made in order to treat all creditors alike. If given time the estate will pay dollar for dollar."

World's Fair Matters.

CHICAGO, Aug. 13.—Work was resumed on the mines and mining, horticultural electricity and transportation buildings today and work on others is to be resumed tomorrow morning. The board of control passed a resolution today authorizing Mrs. Palmer to call a meeting of the board of lady managers for Sept. 2.

CONRAD'S THE LEADING DRY GOODS HOUSE OF MONTANA.

319-316 Central Ave., Great Falls.

Our Bargains last week crowded our store daily. We expect our Bargains this week to overdo us. We guarantee the Largest Stock, the Best Assorted, the most Reliable Goods and the Lowest Prices.

INTERNATIONAL HOTEL,

Third Avenue and Fifth Street South. MCKENZIE & RAY, Proprietors. Best and cheapest house in the city. Rates—\$1.00 per day; \$6.50 per week. Everything new and first-class. Free bus to and from all trains.

THE CANNIBALS OF THE SOUTH SEA ISLANDS don't need them, but law, civilization and custom compel men to wear PANTS. During this scorching season the coat may be discarded for convenience, some men less scrupulous go a little further and lay the vest aside, but here the line is drawn. No matter what the weather may be the pants survive, you simply can't go without them. There are no less than two thousand males in Great Falls to-day that might glance down at their pants, breeches or trowsers and find they are bagged at the knee and frayed around the bottoms, and to this class we respectfully address ourselves. We have selected about 300 pair of

\$5.00

nice, fashionable cut, all-wool Pants, worth from \$6.50 to \$8, and offer them from now on for even \$5. There are in this lot many of ultra stylish goods, substantial and well made. Come while the line of sizes is still complete. Remember we soon quit the clothing trade in Great Falls and there is not a thing in stock but that we are willing to sell way under price. Put us to the test.
