

AS TO RECIPROCITY.

"None of the great European nations have touched it... The Tribune understands that the Inter-Mountain doesn't know what it is talking about."

Yes, the Tribune understands that the Inter-Mountain doesn't know what it is talking about. It is "talking through its hat."

But it won't go down with the great European powers. They want reciprocity in all or nothing. Spain has consented to reciprocity with her Cuba.

It is a little singular that republican prints, the Inter Mountain included, find more beauties in free sugar and free trade, on the reciprocity plan, than they find in all the rest of the McKinley tariff.

The Inter Mountain seems to know a great deal more about Sam Hauser and Sam Schwab and Helena and the Northern Pacific mineral land steal than it does about reciprocity.

The discharge of Editor McKnight by the supreme court of the state for alleged contempt of Judge McHatten's court should create no surprise.

The Boston Globe rises to remark that "as Mr. Blaine continues to improve in health the president occasionally uses his discretionary power in the matter of reciprocity by tinkering with a few odds and ends in some distant country, in order to divert attention from Mr. Blaine's great winning point."

The Pittsburgh Post hits the nail squarely on the head when it says: "Reciprocity doesn't seem to be crowding Great Britain out of the Brazilian market."

The Leader cannot shield itself behind the "request of respectable physicians and the legal authorities," for withholding the name of the physician implicated in its scandal story.

GRASS-FED BEEF.

There is some truth in the remarks of the Drovers' Journal concerning grass-fed beef. But they do not apply with the same force to Montana range beef as to eastern grass-fed stock.

It will be many a day before western range cattle are "corned up," and will be longer before the Chicago market can get along without western range beef.

RAIN MAKER MELBOURNE is puzzling the incredulous at Canton, Ohio, with his machine. An exchange says his effort has been to produce rain on every Sunday.

INGALLS has come to the conclusion that the enfranchisement of the colored man was a mistake. This is singular.

GREAT FALLS has plenty of lawyers and physicians and newspaper men, but it does need a competent veterinary surgeon.

THE discharge of Editor McKnight by the supreme court of the state for alleged contempt of Judge McHatten's court should create no surprise.

THE PITTSBURGH POST hits the nail squarely on the head when it says: "Reciprocity doesn't seem to be crowding Great Britain out of the Brazilian market."

THE LEADER cannot shield itself behind the "request of respectable physicians and the legal authorities," for withholding the name of the physician implicated in its scandal story.

THE SEATTLE TELEGRAPH is responsible for the statement that a Cleveland firm bought last year for \$11 a box the quality of tin used for roofing, spouting and general tinning.

FARMERS who can hold their wheat can hold it just as well as individual growers as they can by entering into a combination of growers.

THE LEADER cannot shield itself behind the "request of respectable physicians and the legal authorities," for withholding the name of the physician implicated in its scandal story.

EUROPE'S WHEAT SHORTAGE.

At the request of Bradstreet's Mr. William E. Bear has made a special investigation of the probable demand of Europe for breadstuffs during the year 1891-2 and recently mailed his report.

THE TRIBUNE is now finding fault because corporations take advantage of the law and the application to cut timber off large tracts of land.

"Hitherto," whines the Leader, "large corporations, some of them heavily interested in the Tribune, have cut timber off the public lands in violation of law."

"Moreover," adds Carter's apologist, "it is one thing to make an application and another to have it granted."

IT seems that man may propose, but it is Carter who disposes. Will the interior department let one man have a million acres of timber lands and cut another down to forty or twenty acres, or will it treat them all alike?

NEBRASKA has an eight-hour labor law which, if literally construed, takes the cake and all the works.

IN the language of the old story teller: Once upon a time not many years ago a shoe factory firm in San Francisco, known as Buckingham & Hecht, concluded it would dispense with white labor and employ Chinamen as a matter of economy.

AFTER awhile, however, when the coolies had learned the trade, Chinese capitalists established factories, put the well-trained fellow-countrymen at the benches, proceeded to undersell the white manufacturers and demoralized the whole trade.

IT is a question very easily answered, No Chinamen can make American shoes unless he receive competent instruction.

THE total circulation of money of all kinds in the United States on the 1st inst. was \$1,500,022,812.

THE total circulation of money of all kinds in the United States on the 1st inst. was \$1,500,022,812.

THE N. M. F. A.

THE North Montana Fair association will open its grounds to the public today. Large stables of the first flyers in this and adjoining states are on the ground and more will arrive today.

THE TRIBUNE is now finding fault because corporations take advantage of the law and the application to cut timber off large tracts of land.

"Hitherto," whines the Leader, "large corporations, some of them heavily interested in the Tribune, have cut timber off the public lands in violation of law."

TALKING THROUGH HATS.

"Certainly," said a prominent politician, "I believe in the free coinage silver. By this I mean that there should be a dollar's worth of silver put into silver dollar. Both silver and gold should circulate side by side, as they do in the days before the demonetization of silver."

THE TRIBUNE is now finding fault because corporations take advantage of the law and the application to cut timber off large tracts of land.

"Hitherto," whines the Leader, "large corporations, some of them heavily interested in the Tribune, have cut timber off the public lands in violation of law."
