

In the clerk's office yesterday evidence was taken in the timber culture contest...

Reference to the advertisement of the 14th Montana Fair association will show that additional purses to the amount of \$1,100 are hung up for the contestants on Saturday...

A number of representatives of the fair association, in company with J. Bookwalter of the Townsite company, waited on the commissioners yesterday on matters relating to opening up the bridge for traffic before the races should begin...

One source of money-making in the city seems to have been quietly overhauled. It is that of shipping pelts and skins. Mr. Newbould of Walker & Newbould informed a TRIBUNE representative yesterday that his firm had shipped thirteen car loads since January...

A bouncing boy was born to Mr. and Mrs. Lockhart yesterday afternoon.

Nate Wertheim, the clothier, has returned from his eastern trip and is smiling with evident satisfaction to think he is once more within the limits of Great Falls.

Superintendent Davis of the Montana stage company informs us that he has purchased Bury & Co.'s Choteau stage line. In the future the stage will leave from the office of the Montana Stage company at the Milwaukee house.

J. J. Jenkins had his preliminary hearing yesterday on a charge of attempting to commit a rape. He waived examination and was bound over in the sum of \$1,000 bonds. Not having that amount with him, he is now behind the bars.

A train made up entirely of cattle cars left the city yesterday. It contained nineteen street stable cars. Of these eight were sent by J. J. Kennedy, six by Pat Crossen and five by J. Trushall. The entire shipment goes to Abner Platt & Co. of Chicago.

L. H. Bradley of the George D. Whitcomb company of Chicago left for the Windy city yesterday. Mr. Bradley, in connection with nine other experts, has been engaged during the past few weeks introducing new mining machinery into the mine of the Sand Soule Coal company. Eleven different machines have been put in, five more are on the road and fourteen more will be shipped soon. The machine undermines the coal being worked by compressed air and is said to easily perform the work of ten men. About \$40,000 is being invested.

Neihart is to have a daily paper, known as the Daily Herald.

The commissioners hold a meeting on the 13th to settle the bridge question.

Hereafter a train will run to Monarch every morning, Sunday excepted, at 8 o'clock.

The TRIBUNE acknowledges a "call" in the shape of a comp. to attend the Montana state fair at Helena, the 22d and 23d insts., inclusive. The products of the great stock and agricultural farms in the state will be well represented at the fair and visitors will be amply repaid for their time and trouble in seeing the displays. The finest horses in the state will be among the attractions.

A bonanza strike was made in the Running Wolf mine, formerly known as the Morston & Woodhurst claims, on Friday last. For a distance of 100 feet the vein showed four feet of ore. The ore assays 70 per cent of lead and 51 ounces of silver. Considerable work has been done on the mine, which now has 700 feet of tunnels and shafts, throughout all of which good ore showings are reported as being made. The company have been shipping ore to the smelter for a year past.

Several cars loaded with stone from the quarries of the Great Falls Quarry company stood on the Great Northern track yesterday. It was on its road to Butte, where it will be used in the concrete work of the McNamara building. The stone is a rich brown sand stone, very handsome in its native state and a finished work of art, after it leaves the hands of the sculptor. The designs seen were as beautiful and tasty as one might wish to see. The stone is of the same variety as may be seen in the First National bank and Townsite building in this city. It is said by experts to be the handsomest and finest building material in the state.

A meeting of the Ingersoll Mining company was held yesterday in the office of the First National bank. Twelve thousand dollars worth of treasury stock was taken by the stockholders, none whatever being placed upon the market. The company now has all of its machinery paid for, and a tunnel in on the Ingersoll lead nearly 1,100 feet. Five thousand dollars are in the treasury and this, the company think, will be sufficient to extend the tunnel to the Moulton lead, which will be tapped at a depth of about 400 feet. No more treasury stock will be offered for sale until the Moulton lead is reached, when, it is expected, it will be worth 50 cents per share.

MARRIED.

OKERMAN-SAMPLES. At the parlors of the Park hotel, Great Falls, Mont., Aug. 8, 1891, the Rev. Mr. Coombe officiating, Mr. August Okerman of Kibby and Mrs. Mary Ann Samples of Monarch, all of Cascade county.

To the Public.

CADDO MILLS, TEXAS, June 5, 1891.—From my own personal knowledge, I can recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy for cramps in the stomach, also for diarrhoea and flux. It is the best medicine I have ever seen used and the best selling, as it always gives satisfaction. A. K. SHERRELL, 25 and 50 cent bottles for sale by Lapeyre Bros., druggists.

BROUGHT BY THE WATER POWER.

A Large Manufacturing of Woolen Goods Will Probably Locate in the Cataract City.

From the country surrounding and immediately tributary to Great Falls not less than 3,000,000 pounds of wool were shipped east this year. It was purchased by commission houses for eastern manufacturers, who work it up into woolen goods and then send it again in garments and wearing apparel. The idea that freight on articles of this kind might just as well be saved has forcibly struck at least one eastern manufacturer, a Pennsylvania gentleman, who is strongly considering the advisability of locating in the city.

For the present names are held in reserve and parties interested decline to make known the particulars of the deal. This much, however, is known.

For several months the proprietor of a large woolen manufactory near Philadelphia has been in correspondence with a business man in the city. He is considering the advantages of the city and is greatly impressed with them. So favorably does he regard them that he is strongly contemplating a trip to this section and may be here within two weeks. The manufactory is a large one and will bring to the city not less than \$15,000 worth of machinery. It will use about 300,000 pounds of wool annually and employ a large force of skilled mechanics. The proprietor is willing to take a large part of the stock himself. The influences bringing the gentleman to this city are manifold. Of course one great object is that he may be near the large woolen supply, but it is said he is also greatly influenced by the city's wonderful water power.

The Cut Bank Bridge.

Word reaches the city that the immense trestle on the Great Northern extension at Cut Bank will be finished in a day or two and that tracklaying beyond will at once be resumed. It is also reported that several days since a laborer slipped on the bridge and falling over 200 feet was dashed to pieces. It was impossible to learn his name.

The bridge is one of the greatest pieces of railroad engineering ever attempted. It spans 1,208 feet and is 157 feet above the earth. It contains 1,075,000 feet of lumber and in its construction 65 tons of bolts, nuts and washers were used. The discharging point for freight in this region is to be Blackfoot, six miles west, although the nearest side track is at Carlow, near the Macleod road. At Dunham, 10 miles above Blackfoot, the road makes a 10 degree curve. Just two miles above Elk station, at the end of the track, the bridge company who have been engaged on the Two Medicine bridge is located. Work is being vigorously pushed.

Cupid's Triumph.

By reference to the marriage column in this issue it will be noticed that Mr. Oscar Okerman of Kibby and Mrs. Mary Ann Samples of Monarch were joined in the holy bands of wedlock. The ceremony was performed in the parlors of the Park hotel in the presence of a few friends of the contracting parties, the Rev. Mr. Coombe officiating. The groom is well known in northern Montana, being largely interested in stock and mines in this and adjoining counties, and in the following of which business he has by his genial manners, uniform courtesy, and strict integrity drawn around him a large circle of admiring friends, who join in congratulating him in securing one of the fairest ladies in Montana as a helpmate through life.

Mrs. Okerman, nee Samples, the bride, is a beautiful and accomplished lady who is not unknown to many in northern Montana, being the widow of the late Asa Samples, one of the most prominent stockgrowers in the state, and who formerly resided at Fort Benton. The lady has surrounded herself by a large list of friends in the state by her charming manners and many accomplishments of mind and person. The Tribune joins with the many friends of Mr. and Mrs. Okerman in wishing them happiness and prosperity through life.

Great Falls Bank Clearances.

The following is the statement, by days, for bank clearances in this city for the week ending today, August 8, 1891:

Monday	\$121,230 88
Tuesday	105,412 56
Wednesday	22,056 29
Thursday	22,129 95
Friday	25,947 44
Saturday	10,945 72
Total for this week	\$308,727 84
Total for last week	295,670 88
Increase	13,056 96

Potomac Breaks Down.

New York Herald: Potomac, the champion 3-year-old of the year, the winner of the Futurity last year and the Realization stakes this year and one of the best race horses on the turf, has been completely broken down. Two of his hoofs have been split for months past, and in nearly all of his races this year his hoofs have been strapped up. He was very lame Tuesday after being worked a mile and a furlong at Jerome park, and when a veterinarian examined him the expert gave as his opinion that the colt's racing days were over. Milton Young is to get Potomac when he is retired, but Michael Dwyer will not, of course, turn the colt over to Mr. Young while there is a possibility of the great horse being brought around to race again. Potomac was the crack two-year-old of 1890, and has won nearly \$150,000 in stakes during his two years on the turf. Mr. Dwyer paid \$25,000 for Potomac at the sale of the Belmont horses last December, and more than won the horse out of one race—the Realization.

Proctor Knott, the winner of the first Futurity, and the only horse that won both the Futurity and Junior Champion, is ill from lung fever at Saratoga. He contracted a cold while being taken from Louisville to Saratoga, and is reported to be in a dangerous condition. The famous gelding's career on the turf is probably ended. No horse that ever had lung trouble ever amounted to anything afterward. Proctor Knott defeated Salvador every time they met.

BEST PEOPLE ON EARTH.

An Order to Be Instituted in this City—Officers Selected.

Steps preliminary to the organization of a lodge of the Benevolent and Protective Order of Elks were taken in the city Saturday. A number of prominent citizens met in the Masonic hall and selected Ira Myers as chairman. Officers chosen were: E. R. Dr. Crutcher; E. L. K., Ira Myers; E. L. K., C. M. Webster; E. L. K., Judge Benton; treasurer, F. P. Atkinson; secretary, H. H. Matteson; tiler, Phil Gibson; chaplain, Col. Daniel Searles, I. G., S. G. Mills; trustees, Paris Gibson, A. E. Dickerman, and W. P. Wren.

The order is a young one in Montana, Helena at present having the only lodge. It is, however, one of the strongest and best known orders in the east and on the coast. It is peculiarly adapted to the genial gentlemen and glorious climate of Montana, as its object is largely the cultivation of closer social relations between its members.

The list of charter members is most excellent and would reflect credit on any order or city. Following are the signers, numbering forty:

- | | |
|---------------------|-------------------|
| T. E. Collins | Julius Horst |
| F. P. Shur | W. P. Wren |
| Dr. Ernest Crutcher | H. O. Chowne |
| A. E. Dickerman | Hon. Paris Gibson |
| E. G. Maclay | R. P. R. Gordon |
| Ben Lapeyre | Dr. J. A. Sweet |
| C. N. Dickenson | Ira Myers |
| C. M. Webster | W. A. Webster |
| J. Bookwalter | C. H. Wright |
| Jerry Collins | Col. D. Searles |
| J. T. Armstrong | Phil Gibson |
| F. P. Atkinson | H. P. Collet |
| Edward Kelly | Howard Crosby |
| S. George Mills | A. J. Shores |
| Robert Vaughn | A. P. Brown |
| Judge C. H. Benton | C. I. Jones |
| Frank Coombs | Don L. Willard |
| J. A. Carrier | W. F. Frary |
| J. A. Baker | H. H. Matteson |
| S. N. Dieckley | R. E. Gray |

The institution of the lodge, which takes place in two or three weeks, will be made memorable by an elegant banquet.

THE CITY'S SECRET ORDERS.

Many and Select—Every Lodge Represented—All Growing and Prosperous.

One of the first things to catch the eye of the incoming visitor on his first trip to the west is the almost limitless number of secret society pins and buttons which greet his eye. Masonic, A. O. U. W., K. of P., O. S. of A., L. O. O. F., Woodmen, and Elk. Scarcely can a man be found who does not belong to one or the other.

Interested in the investigation a Tribune man started out yesterday on a secret society hunt and here are the results.

Of the Masonic orders there are three, the Chapter, the Blue lodge, and the commandery. Great Falls chapter, No. 9, was instituted in March of 1880 with eleven men. James Carrier was the first H. P. At present W. B. Coombe fills this position and E. A. Ringwald is secretary. The Blue lodge dates its birth in the city some two years earlier, holding its first meeting Jan. 20, 1887, as Cascade No. 34, F. and A. M. Its first W. M. was H. P. Rolfe, the present, James Carrier, W. P. Beachley being secretary. It has grown from eleven to over fifty members. The Knight Templar commandery is the newest of the Masonic institutions having obtained its dispensation only four months ago. Its thirteen members selected Rev. W. B. Coombe as E. C. and Eugene Prior as sec. Since then the membership has increased to twenty-four. It is known as Black Eagle commandery.

Cataract Lodge K. of P. was established some four years ago with twenty members. The valiant Knights chose H. Ringwald as their first C. C. The twenty members have increased to forty-five. Knights bold and true, whose C. C. is Charles Wegner and whose K. of R. and S. is C. H. Clark.

Highwood Camp, Woodmen of the World, was organized last September with twenty-seven members. It has had quite a number of additions since then. The first V. C. was J. N. Cartright. He was succeeded by William McCumber, the present incumbent. The clerk is W. B. Parry.

Another prosperous young order is the P. O. S. of A., which was first organized in July, 1889. Last September it was reorganized with fourteen members and now has thirty-five. It president is E. B. Judd.

Rainbow Lodge No. 28, I. O. O. F., started in the spring of 1888 with twenty charter members. E. B. Judd being the first N. G. That position is now held by Silas White, C. H. Clark being the secretary. Here, as elsewhere, the order has prospered. Its members now numbering over fifty.

The A. O. U. W. has grown from a charter membership of twenty to a membership of seventy-seven. It was instituted Dec. 9, 1880, being termed Great Falls Lodge No. 38. Its present W. M. is G. W. Morehouse, secretary, A. C. Lux. Counting the forty members of the B. P. O. E., which will soon join the ranks of Great Falls secret societies, the lodge membership in the city is not less than 350. There are also a great many whose home lodge is elsewhere.

This is on Duty.

Gov. Toole, the handsomest man who holds down a gubernatorial chair in all these United States, and a well known Montana man happened together in Chicago the other day. They learned that Marcus Daly was in town and so dropped around to the Auditorium hotel to give the distinguished Montanian a hand shake. They found a long-bearded and solemn-visaged person behind the desk. "Is Marcus Daly at the hotel?" enquired the governor. The person looked at the book, calmly stroked his flowing beard and remarked: "No, we are running rather tight on theatrical people just now."

PRINTERS HAVE A WALKOVER.

The Tinnars Away Out of Sight—Score 26 to 7.

"Well, what a battery," were about the first words uttered by the spectators as they gazed upon the lean, hawkward printers "devils" who were to do the pitching and catching for the disciples of Guttenberg in their match with the tinnars. A more ungainly looking pair would be hard to pick up, but better players for their age cannot be found in Montana, their eye-witnesses soon realized as Robert Patrick shot his curves over the home plate plump into the hands of Micky McLearn, the catcher. For boys their playing was simply superb. The tinnars were fanned out in one, two, three order in a way that was marvelous. They beat the air in all directions for the illusive sphere, and nearly always vainly, as the score will testify. Lee Tutt, the first baseman, came in for no small amount of admiration and played a faultless ball throughout. He seemed to be all over the field at the same time, playing second and third bases when necessary required.

The tinnars put three different men in the box in their efforts to close up the rapidly widening gap in the score, but to no purpose. They were all hard hit. Home runs were made by Shafer of the Tribune, one by Proctor of the Leader and one by Davidson for the tinnars. Frank Tibeau, the Tribune "devil," deserves special mention for his drives to center field at most critical periods of the game. H. B. Dickinson of the Industrial, who played second, is entitled to his meed of praise for the scientific manner in which he stopped several hot balls with his back. Dick is all right and merely introduced this little innovation to show the tinnars that he didn't have to use his hands to beat them. The umpiring by Steve Lyons gave satisfaction. All together the game was the most enjoyable one that has been played in Great Falls and we hope the boys will have another soon. The following are the names of the players and their respective positions:

INNERS.	POSITION.	TINNERS.
C. Crago	Right fielder	J. Pazo
C. Boardman	Center fielder	E. H. Schmitzer
C. C. Proctor	Left fielder	E. L. Hawkins
Lee Tutt	First base	S. DeWald
F. McLeer	Catcher	L. Allen
Hon. Shafer	Third base	Gus New
Frank Tibeau	Shortstop	L. Daniels
Robert Patrick	Pitcher	John Cook
		Wm. Bickel

AROUND ABOUT THE COURTS.

Marriage licenses were Saturday issued to August Okerman and Mary Ann Samples, and to Wm. E. Reid and Ida C. Colby.

A decree of final settlement has been entered in the matter of the estate of P. H. Hurley.

Articles of incorporation were yesterday filed by the Neihart Townsite company. Incorporators are Charles S. Hulbert, David Rice, C. M. Webster, Daniel F. Smith and Timothy J. McCarthy. The company is capitalized at \$100,000, shares being \$10 each.

Articles of incorporation were also filed by the Great Western Consolidated Mining company. This is capitalized at \$1,000,000 in 1,000,000 shares and the object of the organization is the development of mines in the Neihart district. T. A. Wall, W. T. Houston, B. F. Evans and C. H. Henblin are named as incorporators.

In case of the Holter Lumber company vs. John C. McNeely et al. execution is ordered restrained until the motion made by defendant for modification of judgment is passed upon.

Complaint has been filed in case of E. L. Bishop vs. Peter L. Baum. Case is brought to settle the partnership.

Lizzie J. Fairburn of Cascade files declaration of intention to become a citizen. In the recorder's office were filed:

A notice of location of the Hill Top claim in the Barker district by Robert English.

A deed from William S. Seifred to Levin P. Clark for lot 11 in block 455. Consideration, \$700.

A deed from Whitman Jones to William T. Houston for 5 acres in the northwest quarter of section 25, township 20 north of range 3 east. Consideration, \$1,000.

A bill of sale from Barlow & Murray to Enright & Benson, transferring for \$1,000 the bar fixtures, bank tables, etc., in the Turf.

The commissioners have assessed the county tax at 12 1/2 mills. In addition to this a tax of 1 mill is levied on sheep and one on cattle. The state tax has not been heard from, but will probably be about 2 mills. The city tax, levied some two weeks ago, amounted to 10 mills.

"German Syrup"

G. Gloger, Druggist, Watertown, Wis. This is the opinion of a man who keeps a drug store, sells all medicines, comes in direct contact with the patients and their families, and knows better than anyone else how remedies sell, and what true merit they have. He hears of all the failures and successes, and can therefore judge: "I know of no medicine for Coughs, Sore Throat, or Hoarseness that had done such effective work in my family as Boschee's German Syrup. Last winter a lady called at my store, who was suffering from a very severe cold. She could hardly talk, and I told her about German Syrup and that a few doses would give relief; but she had no confidence in patent medicines. I told her to take a bottle, and if the results were not satisfactory I would make no charge for it. A few days after she called and paid for it, saying that she would never be without it in future as a few doses had given her relief." ©

A Cyclone Coming!

All our Summer Goods must go. No time left for us to consider their value or what they cost us.

Our early fall arrivals will soon be upon us and we need room to display them.

Will you help us and benefit yourself? At the prices they are now marked it is like picking up dollars in the street.

These Spring and Summer Goods are just as bright as as ever. You will be the loser if you do not come.

New York Cash Bazaar.

R. D. BECKON, Proprietor.

J. J. HILL, President. W. W. CONNER, Sec. & Treas. PARIS GIBSON, Vice-President. J. BOOKWALTER, Gen'l Agent

THE GREAT FALLS Water-Power & Townsite Co.

GREAT FALLS, having the greatest available water-power on the American continent, is destined to be the chief industrial city of the northwest. The Montana Smelting Company having erected a Silver-Lead Smelter costing \$1,000,000, now employs 800 men. The Boston & Montana Consolidated Company has begun the construction of a Sheet Smelter with extensive Refineries and facilities for the manufacture of Copper and Copper Wire, to cost \$3,500,000, and will employ within a year 1,000 men. Ground has been selected and operations begun for the construction of the Butte & Boston Copper Smelting Works. At Great Falls soon will be in operation the largest Copper Smelting and Manufacturing Works in the United States. GREAT FALLS is now the terminus of four railroads—the Great Northern, the Montana Central and the Great Falls and Sand Coulee line, now extended to mines of precious metals in the Belt mountains, and the Great Falls & Canada, connecting Great Falls with the great Coal Fields at Lethbridge, North West Territory, and with the Canadian Pacific Railway.

It is the Commercial Center of Northern Montana, It has a population of over 6,000 and is growing rapidly. Enterprises now under way and to be inaugurated will greatly increase the population this year. The great water-power improvement is now completed and upon such a stupendous scale as to furnish power for scores of manufacturing institutions and employment for thousands of men. No town in the Rocky Mountain region offers greater inducements to the settler or investor, and all such are respectfully invited to come and see for themselves. For information regarding GREAT FALLS and surrounding country, address J. BOOKWALTER, Gen'l Agent. Great Falls, Montana.

FRASER & CHALMERS, CHICAGO: Mining Machinery, And Machinery for the Systematic Reduction of Ores by Amalgamation, Concentration, Smelting and Leaching, and Transmission of Power by Electricity. Builders of the HOBERTAKE GRANITE SHOOTERS, BATH LUMBER, ANVILS, FINE BRILL, LEADERS and METALLIC COMPANIES' REDUCTION WORKS. HOISTING ENGINES, GEARED AND DIRECT ACTING. Builders of IMPROVED AIR COMPRESSORS and WIRE TRAMWAYS, FINE VANNING MACHINES and EMBREY CONCENTRATORS.

ELECTRIC LIGHT PLANTS. Agents for LIDGERWOOD HOISTING ENGINES, RAND ROCK DRILLS and COMPRESSORS, OTIS ELEVATORS, KNOWLES' PUMPS, ROOT BLOWERS, KINGSLAND & DOUGLAS SAW MILLS, PENNSYLVANIA DIAMOND DRILL and MANUFACTURING CO., BARAGWANATH HEATERS, SHAY PATENT LOCOMOTIVES, UNITED STATES ELECTRIC LIGHT CO. NEW HAVEN, MACHINE TOOLS, MASON REDUCING VALVES. L. C. TRENT, General Western Manager, Salt Lake City, Utah AND HELENA, MONTANA. Sole Western Agents for Tyler Wire Works Double Crimpedding.
