

## TWOTONS OF POWDER EXPLODE

Two Human Beings Blown to Atoms—  
Only Shreds of Flesh Could Be  
Gathered of Their Remains.

### A NUMBER INJURED BY FLYING DEBRIS.

A Party of American Students Meet  
with a Sad Adventure While  
Bathing at Rome.

Mysterious Circumstances Surrounding  
the Taking-Off of Two Persons  
at Denver.

### POWDER MILL EXPLOSION.

Two Tons of Ignited Powder Cause the  
Death of Several Persons.

HUNTINGTON, W. Va., Aug. 14.—This morning about 8:30 o'clock a powder factory on the Ohio river, at Kellogg, W. Va., four miles below Huntington, blew up from some unknown cause. The explosion was in the glazing mill, which was about twenty-five feet square and two stories high. There were about two tons of powder in it at the time of the explosion. Two workmen, John Bayless and Timothy Cooney, were blown to atoms, only unrecognizable shreds of human flesh could be gathered of their remains.

George Wells, who was in a house 300 yards away, had his skull broken by a fragment of iron which whistled through the window. M. Parks, Charles Knowley, and John Shauter, workmen in the big mill, who were standing 400 yards away, were fatally injured by the flying missiles that blackened the air. A few others are slightly hurt. What caused the explosion will never be known. C. Livingston was standing right by the mill when the explosion occurred and he escaped unscathed. The family of John W. Bayless is unaccountable. One of his daughters is at the point of death from grief.

### A SAD ADVENTURE.

College Students Lose One of Their Number  
While Bathing.

LONDON, Aug. 14. Advice from Rome gave a detailed account of the adventures of a party of students from an American college there while bathing at Porto Banjo on an old pier outside of the palace Nero. The water was very rough at the time. Lucian Johnstone from Baltimore, Victor Brooker of Tall City, Ind., James Keely of New York, Joseph Gallagher and John Duffy of Philadelphia, John Power of Chicago and Henry Duesing of St. Louis were bathing together. Suddenly they were all swept off by a current, but all managed to gain the shore except Duesing. Johnstone swam out again and caught Duesing and held him up for five minutes. He found Duesing to have lost his wits in his fright and heard him murmuring a prayer. Johnstone was forced to let go and a sailor who had come to his assistance then held up Duesing, relieving Johnstone. As quickly as possible the students launched a boat and went to the rescue, but just as they were nearing the spot the sailor and Duesing sank. The latter was drowned, but the sailor was rescued. Two days afterwards the body of Duesing was buried, the funeral being attended by all the students in the college.

### SUICIDE OR MURDER?

A Case Involved in Mystery Which a Jury  
Cannot Penetrate.

DENVER, Aug. 14.—The circumstances surrounding the death of Mrs. Eugene H. Bonnick begins to take on a mysterious appearance as the investigation proceeds, and there is many who now believe that Mrs. Bonnick poisoned her husband and then took the fatal drug herself after satisfying herself that her husband was too far gone to recover. The jury examined a large number of witnesses this morning, but nothing of a startling nature was developed in the case, and it is not believed any evidence eliminating any one now living will be produced, although it is shown beyond question that meddling relations had much to do with the double murder or suicide, as the case may be.

### ANOTHER RAILROAD DISASTER.

Passenger and Freight Trains Collide at  
Egg Harbor.

ATLANTIC CITY, Aug. 14.—At 6 o'clock the express on the Reading railroad collided with an up freight at Egg Harbor City this evening, resulting in injury to several passengers on the express, two probably fatally. The two trains met on the cross over the switch, and until investigation is made who was at fault cannot be ascertained. Both engines were completely wrecked, and the combination car, one passenger car and two freight cars were demolished. The names of the injured are:

William Morton, stopping at Hotel Pembroke in this city and living at No. 61 Mechin street, Philadelphia, broken nose, hand and lip injured.

Somers Ireland, Linwood, N. J.; contusion on the right wrist and lacerated wound on forehead.

William Mahler, 1816 Gamae street, Philadelphia; right arm, elbow and eye cut.

Henry Hoffman, Atlantic City; hand mangled.

Mrs. Otto Bettie, Philadelphia; scalded seriously.

Thomas Wilson, station master at Kaighns Point, Camden; seriously injured about body and legs.

Thomas Hartman, Camden, engineer of the express; both legs broken and otherwise injured.

They were taken to Camden.

### World's Fair Buildings.

### ANOTHER LINK

Forged in the Chain of Evidence Against  
the Penrose Murderers.

BUTTE, Aug. 14.—The detectives unfolded today another link in the chain in which they expect to bind Deeney, Hickey and Kelly, the accused murderers of Penrose. Only one witness was examined today, and his cross-examination was not concluded when the hour for adjournment arrived. The one witness was Officer Tom Waters. He corroborated the evidence of Jacob Oliver, stating that he had been present when Hickey said he would "fix" Penrose before he left town. Waters was not quite sure whether Hickey had said he would "fix" Penrose, or whether he would kill him, but it was something to that effect. Waters said he had been a policeman four years and before that time had been a miner twenty-five years. He had worked in the Late Acquisition mine before it was leased to Deeney & Kelly. The former lessee was Ed Rodda. The tools in the mine belonged to Ed Rodda. They were marked by a "W." There was peculiar tool in the mine called a "gouger," made of five-eighths steel. Only one class of men use these gougers and they are miners who come from St. Just, in the western part of England. The witness said that at the coroner's inquest he was present when the steel was taken out of the body found near the scene of the murder, and that he immediately recognized the mark "W" on the gouger as similar to the mark on the tools in the Acquisition mine. Rodda, on giving up the lease, had left the tools, so they were still there. The witness declared that the mark on the steel is the Acquisition mark, and he knows of no other mine where that mark is used. On the night of July 3 witness, in company with other officers, entered the Acquisition mine through the roof of the shaft house. They took away four picks and a drill. All the tools were marked with a "W" except one pick, which was marked with a cross. He thought the mark "W" had been beaten out and the "X" placed over it. The tools were produced in the court room.

### THE COLIMA VOLCANO.

Ashes Ceased to Fall, but Streams of Lava  
are Coursing Down the Mountain.

CITY OF MEXICO, Aug. 14. A telegram received here yesterday from Colima states that ashes from the volcano have ceased to fly in that city, though the column of fire is as yet the same as it was yesterday. The fall of ashes in some cases has attained a depth of from three to six inches on house tops and in the streets. The eruption is on a scale of magnitude that has never before been observed. Streams of lava many feet in width are coursing down the sides of the volcano, burning everything in their course. It is stated that the governor of Colima has sent a commission to the volcano to make a scientific report upon the eruption.

### Whereabouts of Ed Wilson Unknown.

LIVINGSTON, Aug. 14.—Ed Wilson, a scout in the Yellowstone National park, has been missing for more than a week and foul play is suspected. On Monday, August 3, Wilson was ordered out with a pack outfit from Camp Yellowstone to go to Henry's lake. For some cause the time of starting on the trip was postponed till the following morning, but Wilson failed to put in an appearance and nothing has been heard from him. Wilson has been in the employ of the government for about twenty years. During the last twelve years he has been located in the park and was the best posted man there as to objects of interest, boundaries, etc. He has money in the banks of this city and considerable property in the shape of guns, pistols, etc., in the park. He was last seen in the postoffice at Mammoth Hot Springs, Monday evening, Aug. 3, and it is feared by many of his friends that he has met with foul play.

### Matrimonial.

BUTTE, Aug. 14.—Peter McDonald of Great Falls and Miss Maud Knowlton of Butte were married at the Clarendon hotel in this city, at 8 o'clock this evening in the presence of a very select company. Rev. A. W. Graves performing the ceremony. The happy couple will make their home in Great Falls. Anaconda Standard.

Mr. McDonald is master blacksmith at the Boston & Montana and a very genial and popular gentleman.

### Two Miners Hurt.

GRANITE, Aug. 14.—An accident occurred at the Bi-Metallic shaft about 3 o'clock this afternoon. Two miners, Mr. Jay and Mr. Shea, got on the cage at the 900 station and somewhere between there and the 800 some of the drills they were bringing up with them caught between the case and the shaft timbers, causing a smash-up in which the two men suffered considerable bruising. Mr. Shea's injuries are much the worse of the two. Both are under care of the doctor.

### The Manitoba Crop.

WINNIPEG, Aug. 14.—The monthly weather bulletin issued by the Manitoba government today says: The prospects for a heavy crop of wheat were never better. Cool weather in July will delay harvesting somewhat, but cutting will be general in ten days, many farmers having already started binders. The quantity of land broken for the first time this season is largely in advance of last year, showing an excess of 178,320 acres.

Gold Watches, Silver Watches and Diamonds at bottom prices. Dyas & Jones.

## LUM OUT BOYCOTTED.

A Chinese Laundryman in Chicago  
Is in a Serious Predicament.

### HE IS TABOOED BY HIS COUNTRYMEN.

Lum Out Charged with Furnishing  
Information to Treasury  
Agents

By Which Chinamen Returning from  
the Flowery Kingdom Were  
Detained at Winnipeg.

### LUM OUT BOYCOTTED.

A Chicago Chinaman Ostracized by His  
People—Cause of the Trouble.

CHICAGO, Aug. 15.—Lum Out, an inoffensive looking young Chinese resident of this city, is in a serious predicament. An order has been promulgated throughout the city to all Chinese that Lum is boycotted. All good Chinamen are warned not to talk with, trade with, sell to, or in any way associate with him. Lum, who keeps a laundry on the West side, embraced the Christian faith several years ago and by his efforts has brought a number of his countrymen over to the faith. So successful has he been that he established some time ago a little Sunday school in his laundry, where meetings are held every Sunday. The cause of the trouble is that certain influential members of the Chinese colony believe that Lum has furnished information to treasury agents which led to the detention at Winnipeg of several Chinamen who were returning from a visit home. These Chinamen, it will be remembered, were stopped at Neche, N. D., and although they had passports it was believed the papers were the property of others and that the suspects were trying to break into the country for the first time. When news of their arrest reached Chicago the sentence of boycott was pronounced against Lum. Indeed it is reported that some of the more hot headed ones wanted to kill him, but the mandarin would not hear of this. What so greatly excited the colony leaders was they assert the fact that the information furnished the treasury agents was wholly false, that the men were bona fide residents of Chicago and that their papers were straight. From information gathered at the government buildings this evening it seems their story is right and Chinamen who have been watched for several weeks by special agents at considerable expense will now be permitted to come to Chicago.

### THE STOCK MARKET.

Durbin, 210, 1390, 4 cents.  
Market steady.

### THE NEW LAKE.

The Overflow Lake at Salton Will Be a  
Prominent One.

SAN DIEGO, Cal., Aug. 17.—H. W. Hatton, who undertook an exploration to determine the source of the overflow on Desert lake at Salton in the city. He made a trip in a boat from Yuma down the Colorado river to "Break in the Banks." He says he is positive the lake will be permanent. At present it is falling, but each slight rise in the river adds to the volume of water, and that now as a well defined channel has been washed out the water from the river would flow directly into the lake instead of spreading all over the country.
