### GOOD FINANCIAL PROSPECT

Compared With Last Year—The Outlook Is a Most Excellent One.

### FOREIGNERS MUST PURCHASE LARGELY

The Wheat Crop Grows Larger With Every Section Heard From—Prices Fall.

Wheat Holds Its Own—Cotton Advances Slightly—Pork Makes a Fine Showing.

**R. G. Dun's Report.**  
New York, Sept. 11.—R. G. Dun & Co.'s weekly review of trade says: "All turns of the condition of business are encouraging. There is no room for doubt about improvement in trade, from nearly every city reporting there comes the same cheering information that business is better and prospects brighter. At Boston business is increasing. At Philadelphia the tone of the market has been much improved, business is encouraging at Buffalo, decidedly improving at Cincinnati and Cleveland, and it may be noted that at western points generally some improvement is seen in collections. Receipts of wheat at Chicago are five times those of last year, of corn double, of rye seven times, and of oats and dressed beef about one-third larger, with some increase in wool, while a decrease of one-third appears in barley and cured meats. Dry goods sales in August were the largest ever known. Clothing trade very large, with fair collections, and the shoe trade is excellent. Money is plentiful for legitimate trade. At Milwaukee sales of lumber are large with prices stiff, and receipts of wheat 1,400,000 against 800,000 last year; at St. Paul an improvement is seen and prospects are brighter; at St. Louis shipments of money to the cotton states are increasing, but the market is comparatively easy. At Denver trade improves and also at Kansas City. Even at the south the improvement is general especially at Louisville, Memphis, Savannah and Atlanta and at New Orleans trade is more active being especially strong and money in good demand. Numerous receipts of wheat have depressed the price at one time below \$1 per bushel at New York. At western points receipts thus far have been much more than double last year's and for this week have been 5,800,000 bushels in four days.

Exports continue large but the belief is growing that foreign crops are not quite so short as has been reported, though short enough to cause an unprecedented demand from this country. Thus the price of wheat has fallen 5 1/2 cents during the past week, with sales of only 22,900,000 bushels. The fall since the highest point in August has been 15 cents here and 10 cents in Chicago and abroad as the new crop presses heavily upon markets overloaded with American purchases. At Liverpool the price 1/2 cents and foreigners have ceased buying here. Corn declined but little and oats only 1 cent. The market for cotton was stronger by about a quarter before the government report appeared and has since advanced a little further. Pork products are for higher and oil 5 cents lower.

Great industries are making satisfactory progress. Production has been maintained for three months within about 10,000 tons weekly of the largest quantity ever reached and consumption cannot be far behind. A larger demand is seen for finished products, especially for bar iron, and plate mills are full of orders, but in railroads change is observed. Wool is selling fairly well at all important markets and there is seen a better demand for dry goods which gives much encouragement to manufacturers. Boot and shoe trade is progressing quite as well as a year ago with fair prices and an encouraging demand.

The financial outlook is clearer. Exports of merchandise from New York for the past two weeks have exceeded those of the same weeks last year by more than 50 per cent while in imports there appears a decrease of about 20 per cent. The opening of Germany and Denmark to American pork products has lifted the price of pork half a dollar per barrel. With the greatest crops ever grown and an unprecedented foreign demand for grain and meats, the prospect must be considered unusually encouraging. Business failures occurring throughout the country during the past seven days number 214, as compared with total of 217 last week. For the corresponding week of last year figures were 193.

**Equestrians Thrown.**  
ST. PAUL, Sept. 11.—A sad accident occurred at the fair grounds today. Miss Annie Lane of North St. Paul and Miss Villa Poole of North Dakota were thrown in the ladies' race and the former lay this evening in a critical condition, having sustained severe internal injuries as well as two broken arms and a fractured jaw. Miss Poole escaped with a broken collar bone. It is doubtful whether the famous rider from Dakota will ever again venture to make a professional race.

**May Revivitate.**  
NEW YORK, Sept. 11.—Private advices received in this city today from Chili state that the new congress is debating the expediency of taking the paper money issued by Balmaceda at its face value.

**Sprinkling of Fires.**  
PLAINVIEW, Minn., Sept. 12.—A fire destroyed W. Koenig's elevator early this morning. Loss \$10,000. No insurance. Origin of fire is not known. Cleveland Bros. lost their threshing machine by fire last evening by a spark from the threshing engine.

### PURSUED BY A POISONER.

Wife Dies and a Former Best Girl of Her Husband Suspected.

KANSAS CITY, Sept. 12.—Another chapter in the Juvenal case written today, when Dr. Boyle recorded at the health office the death of Mrs. J. M. Juvenal from arsenical poisoning. The married life of J. M. Juvenal has been a tragic and stormy one. He first married Miss Margaret Fourcee of Russel, Kan., who after eight years got a divorce. Then Juvenal became engaged to be married to Miss Millie Ploffman of this place. He jilted her and married Mrs. Annie Baker, a divorced woman. Soon afterward Juvenal's house was blown up with dynamite, he and his wife barely escaping death. Miss Ploffman was arrested for the crime and the case against her is still pending. Last Sunday Mr. and Mrs. Juvenal spent the day away from home, returning Monday. They drank water from the ice cooler and were both immediately taken violently ill. They did not suspect poisoning, however, and medical assistance relieved them. Last Tuesday they both ate some cakes made from meal and again both were taken violently. Investigation showed nearly everything edible in the house had been mixed with arsenic. From the effects of her illness Mrs. Juvenal never recovered, dying at 2 o'clock this morning. Juvenal, however, recovered. Much mystery surrounds the case. Juvenal says he knows who the guilty persons are but declines to give their names. Juvenal is resident manager of the Consolidated Tank Line company and is in comfortable circumstances.

**Cured Incurable Cancer.**  
MINNEAPOLIS, Sept. 12.—Charles Lumley, a wine merchant, committed suicide early this morning by shooting himself. He had been afflicted with incurable cancer for three years, which explains his action.

**Death of J. M. Bailey, Jr.**  
ST. PAUL, Sept. 12.—J. M. Bailey, Jr., died this evening at the home of his father in Freemont, Ill. Bailey though but twenty-seven years old was well known throughout the northwest and was, during the past five years, a most important factor in Dakota affairs. He came to Sioux Falls in 1885 and though but a boy, he at once took an influential part in business and politics. Three years ago he organized the Minchaha National bank and has ever since been president, thus being the youngest bank president in the world in 1889. He was appointed territorial treasurer by Gov. Mellette and managed the office with great skill. He was delegate to the last republican national convention and was one of the most influential politicians in the state. Cyrus Comandery, Knights Templar and a large delegation of Sioux Falls people will attend the funeral in Freeport Tuesday.

**Weather Crop Report.**  
WASHINGTON, Sept. 12.—The following is the weather crop bulletin: The temperature for the week has been cool generally over the country east of the Rocky mountains and over the entire corn and cotton regions, where warm weather was most desirable, the average daily temperature being from four degrees to six degrees below normal. It was slightly warmer than usual in Minnesota, Dakota, and thence westward to the Pacific coast, the greatest excess in temperature occurring in southern California, where the daily temperature was from six to ten degrees higher than usual. Light frosts occurred during the week at the extreme northern stations and in western Nebraska, but they did not occur within the principal corn-producing states, where warm, dry weather during the latter part of the week must have been favorable to crops.

**The Itata Once More.**  
LOS ANGELES, Cal., Sept. 12.—Attorney William Goodrich of New York, proctor for the South American Steamship company is a new claimant for the Chilean steamer Itata and filed an answer to information for libel against that vessel, in which he contends that no lawful seizure of the vessel has ever been made; that the seizure at Iquique in June was without the territorial limits of the United States and the surrender of the Itata was compelled by violence by the United States cruiser Charleston, and was a breach of international law and the law of nations. Furthermore, that the complainant's company, which built the Itata for traffic purposes, had no participation in the use of the steamship for alleged unlawful purposes which caused the seizure and ought not therefore to be deprived of its property. The answer prays that the vessel be released and that claimant be allowed costs and damages for detention.

**Cotton Pickers Strike.**  
HOUSTON, Texas, Sept. 12.—Tomorrow is set for a big cotton pickers strike, which is to embrace every state in the cotton belt. Col. R. M. Humphreys, a white man, who has engineered the scheme, and who expects to reap a benefit, said tonight: "I have the names of 1,000,000 pickers in all portions of the south who stopped picking tonight until they get a dollar a hundred and board."

**Money Made Easy.**  
MOORHEAD, Sept. 12.—There seems to be an organized gang of burglars operating in the small towns in this vicinity. The other night the Minneapolis and Northern elevator at Perley, 25 miles north of here, was entered and \$265 in cash secured. The following night Blaisdell Bros.' store at Kent, about 20 miles south, was entered, the safe cracked and about \$1,700 taken. The money belonged to different elevator companies at that place and some to Blaisdell Bros. and about \$300 to private individuals who had deposited their cash in the safe for safety. There is no clue to the robbers in either case.

**Races at Chicago.**  
CHICAGO, Sept. 14.—Bill Nye, 1:17 3/4; Eolem, 1:45 3/4; Addie, 1:15; Guido, 1:44; Ragnorock, :50 3/4; Drake, 1:44 3/4.

### A BIG Drop in Prices!

There will be a Big Drop on all

### Summer Goods

AT THE HUB,

Commencing July 31st and continuing during the month of August. We do this in order to make room for our
