

OF THE FALLS.

WEDNESDAY'S DAILY.

Northern shops now seem to be rapidly taking the city. A long line of stone...

Mr. Shores' purpose is the adjustment of a right of way through some property on the branch and regarding which there is some difficulty.

Comments on the opening of the Anacosta mines and smelter, which took place Wednesday morning, were quite numerous on the streets yesterday and a general feeling that it was bound to result in great good to the entire state seemed to pervade all the remarks.

The many friends of Mr. William Healy regretted last week to hear of his severe illness, but they are more than pleased this week to learn that he is rapidly convalescing.

E. J. Morrison recently sold 2,500 stock sheep to C. C. David of Pig's Eye basin. The price was \$3 per head for old sheep and \$2 for lambs.

The foundation of T. C. Power & Co.'s new hardware store at Neihart is reported to be well under way. It is to be built of brick, is 50x80 feet in size and two stories in height.

"It is not more silver mines nor is it more railroads that Montana most needs today, but it is more irrigation," said Henry Villard of an Independent reporter.

J. Cornelius starts his men to work on the smelter power house today. Mr. Bowie, who will put the machinery in place, will not move across until next week.

President Crosby of That Company Talks With a Reporter of the Tribune.

Two well known Boston gentlemen arrived in the city Thursday. They were Messrs. H. D. Hyde and J. M. Crosby, and were accompanied by Mrs. Crosby and Miss Haydn.

Mr. Crosby is a pleasant gentleman, who looks at the world from a pair of bright blue eyes. His hair is somewhat whitened, as are also his closely trimmed and rather English mutton chops.

"My trip," he said, "is more for the sake of pleasure than of business. I wanted to see this country. I also desired to examine Great Falls and to see our proposed site and then go on to Butte."

"What can I say in the way of news about the Butte and Boston? Very little I fear, if you have already talked with Mr. Coram. As I remarked before, this is merely a pleasure trip and I am not paying a great deal of attention to business."

BAKING POWDER FACTS

Brought out by the Official Government Tests.

Purity of Food Demanded by the People—Which Baking Powder Will Give It?

From the Chicago Tribune.

The public is always responsive to suggestions about the food it eats. Great interest has been taken in the investigations made by the United States and Canadian governments and by the different boards of health to show the purity or impurity of milk, baking powders, spices, and other articles of daily use in the culinary department of our households.

Just now the subject of baking powder is claiming public attention. We all desire pure and wholesome bread and this cannot be had with the use of impure or poisonous baking powder.

The official analysis by the United States and Canadian governments have therefore been studied with interest and have pretty clearly established the facts upon this subject.

The Canadian government investigations were of a still larger number of powders. The Royal baking powder was here also shown the purest and highest in strength, containing 129.32 cubic inches of leavening gas per ounce of powder.

The powders of lower strength are found to leave large amounts of inert matter in the food. This fact is emphasized by the report of the Ohio state food commissioner, who, while finding the Royal practically pure, found no other powder to contain less than 10 per cent of inert or foreign matters.

The public interest in this matter has likewise caused to be made investigations by our local authorities. Prof. W. S. Haines of Rush Medical college, consulting chemist of the Chicago board of health, has found results similar to those reported by the national and Canadian authorities.

RUSH MEDICAL COLLEGE, CHICAGO, Ill. I have recently obtained samples of the chief baking powders in the market and have subjected them to careful chemical examination to determine their purity, wholesomeness and leavening power.

The statistics show that there is used in the manufacture of the Royal baking powder more than half of all the cream of tartar consumed in the United States for all purposes.

MANMONT, Oct. 20.—Editor TRIBUNE: Please rectify a mistake in your issue of the 17th inst. wherein you stated the driver had to take his mail-sack to bed with him at Mann.

CHICAGO, Oct. 21.—Cattle—Market slow, weak and irregular.

FRIDAY'S DAILY.

AN IMMENSE PROPERTY.

President J. C. E. Barker Tells About the Famous "Benton Group."

Mr. J. C. E. Barker, president of the Montana Gold, Silver, Platinum and Tellurium Mining company, arrived from Neihart Thursday eve and is a guest at the Park hotel.

The tunnel started further down the hill had struck the vein which is found to be at that point between 30 and 40 feet in width with good pay ore the entire distance.

The recent cross-cut is the first one made, showing the great width of the lead and the richness of the ore throughout. The development work of the last few weeks has shown the property to be many times more valuable than any one supposed it to be, and in truth one of the greatest mines in the country.

The "Tribune" Complimented.

The TRIBUNE office was agreeably surprised and most agreeably entertained by a party of young gentlemen and ladies last evening.

In the recorder's office were filed: A quitclaim from Thomas Dunn to the Townsite for block 6, in Johnston; consideration, \$1; also quitclaims in the same district to the same grantee, John Largent, for lots 11 and 12, block 11; consideration, \$1; Ernest Crutcher, lots 1 and 2, block 7; consideration, \$1; R. S. Ford, blocks 1 and 2; consideration, \$1; T. C. Power transfers by warranty an undivided one-half interest in lots 13 and 14, block 13, 14 and 15, block 3, and 9 and 10, block 7; consideration, \$637.50.

A notice of a right to 500 inches of water in the Little Belt by James J. Dockery.

A declaration of Mrs. Winnie Rivers of her intention to conduct a hotel business independent of her husband.

Jennie E. Camer proves up on a pre-emption claim in section 16, township 19 north, range 5 east.

John T. Athey, Esq., is in town today. In common with a majority of our citizens Mr. Athey thinks the commissioners should fully explain their reasons for calling upon the people for \$150,000 so soon after voting \$120,000.

Why the commissioners need money to run things on the high-pressure principle. They can't let contracts to the highest bidders (as in the case of the printing and medical care of the poor), build an elegant home for the county poor at a cost of \$15,000 or \$20,000, hold special sessions every five days or so often as the law will allow, make three or four mistakes in the issuance of a series of county bonds, and cut a wide swath generally without money.

CHICAGO, Oct. 21.—Cattle—Market slow, weak and irregular.

FRIDAY'S DAILY.

MAGINNIS ON SILVER.

The Popular Montanan Gives Some Political Pointers to a St. Paul Reporter.

Hon. Martin Maginnis, one of Montana's leading democrats and a delegate to congress before that state had entered the sisterhood, is at the Ryan on his way south to Omaha to attend the western states improvement convention, which will be held in that city this week.

Mr. Maginnis is a strong advocate of the free coinage of silver, which he believes should be without any restriction. In touching upon Montana politics he said: "Our state is democratic and will be next year, even if Blaine is nominated by the republicans for the presidency."

Mr. Maginnis did not care to enter into any discussion of the question, believing that anything he could give in an off-hand interview would be of little value to the public.

Another Democratic Club Organized.

EDITOR TRIBUNE:—An adjourned meeting was held in Lewistown hall, Saturday evening, Oct. 17, for the purpose of ratifying and perfecting the organization of the Lewistown Democratic club.

Montana Stables Sixth.

The New York World of the 10th inst. published a list of the total winnings of each stable for the season just closed at Morris park. It may be gratifying to Montanians to know that Marcus Daly's stable stands sixth in the list published.

WHOPPERS.

The courier window is adorned this week by a cabbage head raised by M. H. Allen. It weighs 23 pounds and Mr. Allen says he has many more like it.

John B. Beck, one of the farmers who is not satisfied with an ordinary sized farm, but can handle a large place as well as a small one, had nine acres of oats this year which thrashed 900 bushels, or 100 bushels to the acre.

This is a good exhibit for Gallatin county, but northern Montana gets away with the blue ribbon. There were on exhibition in this office a cabbage raised by Mr. Birkenbuel which weighed 26 pounds, and three potatoes each weighing nearly three pounds.

THE MARKETS.

FRIDAY'S DAILY.

THE ECUMENICAL COUNCIL.

WASHINGTON, Oct. 20.—The twelfth and last day's session of the ecumenical Methodist council opened this morning with Rev. Dr. Thomas Allen of the Wesleyan Methodist church of England in the chair.

The speaker closed his paper by referring to the influence outside of churches, which were telling against evil and which were really on the side of Christ. He said: "On our side, fight every intellectual, moral, and social force that scatters the gloom of ignorance; that advances purity and sobriety; that secures the true rights of men."

Rev. Dr. Watts of London made the first address. Chancellor Edward Ways of the Methodist Episcopal church south, Oxford, Miss., spoke of "Christian Resources of the New World."

Resolved: That the cordial and affectionate thanks of this conference and especially of the eastern delegates be presented to the Methodist churches of America and particularly to the Christian citizens of Washington for their generous hospitality.

Missionary Societies' Convention.

PITTSBURG, Oct. 20.—In the missionary societies' convention today Rev. R. Moffatt of Cleveland, corresponding secretary of the general Christian missionary convention, presented the report of the board of managers.

Our beautiful fall line of Dress Flannels are in and open up nice, and we can say to our many customers that you can buy as pretty a dress and have as nice a line to select from as there is in the city at prices about 20 per cent cheaper than other places.

When in Great Falls stop at the Milwaukee house.

A select line of goods for presents at the Bee Hive store.

You had better see our stock at the Bee Hive store.
