

THE CITY ENGINEER'S RECORDS

Much Valuable Work Is Being Done in Reducing Order Out of Chaos.

The Grades of the City Streets Need Checking Up and New Profiles Made.

City Engineer Swearinger is busy working up the records in his office and getting the matters pertaining to street grades, sewers and sidewalks into shape.

Speaking of street grades Mr. Swearinger said that there was urgent need of checking over the street grades and placing proper monuments at street intersections many of these having been lost.

Since Mr. Swearinger has been acting as city engineer a system has been adopted of keeping the most detailed records in regard to every piece of city work done, and a mass of most valuable information has been gathered and placed in convenient shape for ready reference.

Ben Tibbey in Town.

Benjamin Tibbey, superintendent of the Parrot mines in Butte and largely interested in coal properties in the Flathead, arrived in Great Falls Thursday and registered at the Park.

Mr. Tibbey has just returned from a visit to the Flathead country by way of Spokane, and was in the latter city when the late Prof. Parsons met his death.

His attention was in some way directed to the article in THE TRIBUNE of Tuesday upon the death of Mr. Parsons in which it was stated by THE TRIBUNE correspondent at Spokane that he (Tibbey) and Marcus Daly, being in the city, rendered all the assistance they could to notify the friends of deceased, and see that the body was embalmed and sent to Boston in a suitable manner.

Fifty-Three New Citizens.

All day Friday Judge Benton was busily engaged in examining applicants for final citizenship papers, and was forced to hold court until 10 p. m. to accommodate the crowd.

The successful applicants were apportioned according to nativity, as follows: Canada, 7; England, 7; Italy, 1; Ireland, 3; Finland, 20; Scotland, 3; Sweden, 3; Germany, 2; Austria, 3; Norway, 1; Switzerland, 1.

STAMPEDED BY THE STORM. Cattle and Sheep on the Northern Ranges.

In the storm of last Friday night, a band of 2,000 head of sheep, belonging to Fitzpatrick & Buckley, of west Butte, Sweet Grass hills, got away from the herders.

Wearn Rowe was in from the Shonkin round-up yesterday, after supplies, and informs us that the entire herd of beef cattle, which was expected here today, got away from the night herders in the storm of Friday night last.

from camp. Captain Rouse and the boys stayed with them in the storm until their horses gave out next forenoon, and returning to camp, found that the horse herd had also gotten away. The cattle drifted before the storm as far as Arrow creek, some 25 miles away, while the horses were found at Cut Bank, 18 miles from camp.

G. U. O. OF O. F. Grand Chapter of Montana Duty Organized.

The delegates from Silver Bow lodge, No. 2,989, of Butte; Palmetto lodge, No. 3,491, of Great Falls; Soldiers' Home lodge, No. 3,491, and Golden City lodge, No. 3,506, of Helena, met Wednesday night at Odd Fellows' hall in Helena and organized the Grand Chapter of Montana, G. U. O. of O. F. William Birthright of Butte presided and John E. Carpenter of Helena acted as secretary.

The Knot Has Slipped. A complaint was filed Friday in the district court, in the suit of Mary E. Higgins against H. H. Higgins, asking for a divorce.

At the A. R. U. Ball—Realty Hall Could Not Accommodate the Vast Crowd in Attendance.

The Largest Ball Ever Given in the City Crowds Two Large Halls.

It is a conservative estimate that 2,000 persons attended the Anaconda for the capital ball given by Local lodge, No. 89, of the American Railway union last night. At 8 o'clock the crowd began to gather at Realty hall, where the ball was advertised to be held, and it was evident at that early hour that the hall, second only in size to the opera house, would not accommodate the crowd.

Gilt Edge Directors Sued.

Under the laws of Montana corporations are required to file annually with the county recorder a statement of the financial condition of the company; and if said report is not filed the individual directors of the corporation become responsible for the debts of the company.

Trades Council Meeting. The Trades and Labor council held an important meeting last Friday at their rooms in the Minot block.

Almost a New York Daily. The Democratic wonder. The New York Weekly World has just changed its weekly into a twice-a-week paper, and you can now get the two papers for the same old price—\$1 a year.

Think of it! The news from New York right at your door fresh every three days—104 papers a year.

THE SCOUNDREL'S DANGER

John Washington, a Deserter From Assinaboine, Assaults a Havre Lady.

Marshals and Deputies Sleeplessly Guard the Jail to Prevent His Being Lynched.

Citizens of Havre in the city yesterday bring the news of a dastardly criminal assault committed upon the person of Mrs. Roger La Barge, living about three miles east of Havre.

After the crime had been committed one of the woman's sons went to Havre and spread the news. A posse was summoned and soon had the rascal in its clutches. He was taken to Havre where he is confined in jail.

Mary Brass filed a complaint alleging that Washington met her on the highway and relieved her of \$5. Sam Spaulding complained that Washington stole from him the horse and equipments with which he visited the LaBarge ranch.

THE CHATEAU HOTEL. It Will Cost About \$15,000 When Completed.

Architect White is engaged in the preparations of plans for the superstructure of a hotel to be built at Chateau, at a cost of about \$15,000, by W. F. Burgoyne of Great Falls.

According to the plans and specifications the hotel will be built of white sandstone of a superior quality, quarried at Chateau. The walls will be handsomely salsomined and frescoed and the painting will be the finest obtainable.

SAND COULEE MINE.

Some Kind Words of Manager Burrell From Competent Authority.

Superintendent Tibbey of the Parrot mine at Butte, who has been visiting the Sand Coulee mines to see what he could see, spent Saturday in Great Falls owing to the delay of the west-bound train.

Mr. Tibbey is a man fully competent to speak upon the subject of mining, for he has followed the business from the age of 7 years until the present. He has worked in the coal mines of England, Wales, Pennsylvania, Illinois and Wyoming, and in the quartz mines in the northwest, and the Parrot is conceded to be a model.

In speaking of mining generally, he said that any thoroughly competent coal miner could open up and conduct a quartz mine, but not so the quartz mine. The conditions were materially different, the coal miner having size of mine, the course of vein, ordinarily flat instead of pitched, and above all the gases to contend with.

Regarding the Sand Coulee mine he said that the development and condition of the mine was such that he could say that it is by far the best managed coal mine he has seen in the northwest or the coast, and he has seen the most of them. This of course could only be attributed to the capacity and practical knowledge of the manager, Mr. Burrell, whose knowledge had not only been gained by long experience, but who was still a student and an originator, and who was willing to adopt all new devices and improve on them when he could.

Great Falls Football Club. The football devotees of the city met Saturday and organized a club. They were greatly encouraged by the receipt of the following letter from the Butte Pastime Athletic club, which shows that their efforts are appreciated:

"We desire to call your attention to the fact that we have had a football team here since last fall; that we have an unbroken record of victories, having defeated Bozeman, Deer Lodge, Helena and local teams, and that we are on the boards for games in any part of the state. We would like to make the same arrangement with your team when organized, i. e., to pay all expenses, together with the railroad fare, of visiting teams

if return game is pledged, to take place not longer than six weeks after first game. We play college football and intercollegiate Rugby. We are afraid your team will be association; there seems to be no college players in your neighborhood. We should like to hear from you."

A Poor Meeting. The sweet strains rendered by the Black Eagle band attracted the attention of hundreds of people Saturday but they could not be coerced or cajoled into attending another Helena for the capital meeting, and consequently great vacancies were observable in the hall, showing that the attendance was not one-half as large as at the meeting held two weeks ago.

An Otter Creek How. E. R. Huggins petitioned the district court Saturday to issue an order restraining Edgar F. Mann from preventing the petitioner's building a fence around the northwest 1/4 of the north-east 1/4 of section 5, township 17 north of range 8 east, along which runs the Otter creek road.

When the Valeria public library was established about three years ago many said that the city had made a mistake and the project would result disastrously. Perhaps such would have been the case had a less enthusiastic and able librarian than Miss Weisman been chosen, but, in fact, her courteous treatment of all patrons has caused the number of books issued to constantly increase, and her efforts have caused the patrons to rejoice in the privileges afforded. Nor has she been unaided in her attempt to stimulate the people to read solid literature. The able management of the city officials and the library board has made the financial provisions adequate to every demand. Today a handsome sum is available for the purchase of new books. Shelves are to be placed in the southeast room of the library building and on them will be kept a choice selection of the standard authors of the day on the great question that engrosses the attention of the public. The library has been deficient in such literature and the supply is soon to be greatly increased.

The following excellent works will be ordered in a few days and their arrival will be announced in the TRIBUNE: Autobiography of Benjamin F. Butler; Acting in Art, W. H. Beard; Art in Theory, Prof. G. S. Raymond; Ethics of Literary Art, Maurice Thompson; World's Parliament of Religions; Historical Interpretation of Philosophy, John Bascom; Outlines of Economics, Richard T. Ely; Life and Art of Edwin Booth, William Winter; Crumbling Idols, Hamlin Garland; History of Trades Unionism, Sidney Webb; Laws and Jurisprudence of England and America, J. F. Dillon; Co-operative production, Benjamin Jones; Principles of Morals, Thos. Power; Natural Law of Money, Wm. Brough; Acting and Actors, Alfred Ayers; Life and Growth of Language, W. D. Whitney; Darwin and After Darwin; Early History of Mankind, Origin of the Aryans, Isaac Taylor; London Labor and London Poor, (a) Those That Will Work and Those That Can't; (b) Those That Will Not Work; (c) Criminal Persons of London; Descent of Man, Darwin; Electricity and Magnetism, S. P. Thompson; Constitutional History of England, The Middle Ages, Henry Hallam; Historic America; Animal Life and Intelligence, C. Lloyd Morgan; History of Creation, Ernest Haeckel; Theories of Darwin and Their Relations to Philosophy, Religion and Morality, A. Zimmermann; History of Civilization in Europe, H. T. Buckler; Manual of Mineralogy, J. D. Dana; Short History of Natural Science, A. B. Buckle; Naturalist's Voyage Around the World, Chas. Darwin; Man's Place in Nature, T. H. Huxley; Recreations in Astronomy, B. Warren; Democracy in America, De Toqueville; The American Commonwealth, Bryce; Pillar of Fire, Prince of the House of David, Common Sense, The Crisis, Rights of Man, Age of Reason, Thomas Paine.

VALUABLE ACQUISITIONS SOON

To Be Received at the Valeria Public Library—Fine Scientific and Historical Works.

They Are the Latest Works on Finance, History, Economics, Trades Unionism and Current Topics.

SPRAY OF THE FALLS.

FROM SUNDAY'S DAILY. A marriage license was granted yesterday to Henry Morton and Belle Vernon, both of Sand Coulee.

Born yesterday to Mr. and Mrs. Max Heberlein, at their residence No. 1,033 Fourth avenue north, a daughter.

The Salvation army held a jubilee meeting last night and afterwards served coffee and lunch. Their efforts were well rewarded.

The total registration in the First and Fourth wards last night was 279; in the Second, this side of the river, and Third wards, 90.

Mrs. Clarence A. Ogden, democratic candidate for county superintendent, is in the city visiting Mrs. F. B. Catlin for a few days.

Mr. and Mrs. B. H. Powers have returned from a month's recreation at Boulder hot springs, Mr. Powers being much improved in health.

Will Burns, whose foot was crushed by the counter-balance of the inclined car at Black Eagle dam a few weeks ago, was able to enjoy a short drive yesterday.

The ladies of the Baptist church are working hard to make their tissue paper entertainment a success and hope to have everything complete about November 1.

David Graham is making preparations to plant a piece of property between Belt and Armstrong. John French went out yesterday to survey the land and make a plat of it.

James Haven, in the First National bank building, will be pleased to have residents call and see some of the remarkable agricultural specimens of northern Montana he has on exhibition. Walter H. Weed, United States geologist, who has been doing some work for the government in the Little Belt region, has moved his camp to Tiger Butte, where he will winter his pack horses and teams and make further investigations. It is stated that work will be resumed in a couple of weeks on the Weatherwax mine at Yogo under the management of Supt. Gibson of the Mexican smelter at

MORPHINE WAS A FAILURE

Social Events of the Week in Bury Belt—A Large Number of Visitors.

Henry Lemenze, Tired of Life, Takes Morphine—He Was Saved by Persevering Efforts.

BELT, Oct. 13.—Pete McDonald, the genial ex-manager of the Anaconda house, was in town Wednesday. Pete leaves a multitude of friends in Belt who wish him success in any new business he may engage in.

County Attorney Freeman was in town Thursday shaking hands and renewing old acquaintances. He was called to Armstrong to prosecute a case in which a man named Becker, from Box Elder, was accused of shooting cattle. Mr. Freeman had Becker bound over to the district court in bonds of \$200, in default of which he was sent to the county jail.

A. Cunningham, the good-natured representative of the United States Coal Washing company, has built a large two-story frame building in the Anaconda addition. The building was completed Tuesday and on Wednesday night Mr. Cunningham gave a housewarming to his friends. A dainty repast was served with liquid refreshments and cigars. Stories were told and jokes cracked until the wee hours of morning, when the guests repaired to their homes. All voted Mr. Cunningham a "jolly good fellow."

The new house is appropriately named "Bachelors Retreat," as it will house and board the men employed by Mr. Cunningham in building the coal washer. Among the guests at the house warming were F. J. Shields, Superintendent Casner Coal & Coke company; Mr. Golding, of Chicago, representative of the Link Belt company; A. A. Collins, Gordon McDonald, J. W. Allen and F. Coombs.

John K. Castner is making large additions to his hotel, by putting up new and commodious buildings. This is necessary to accommodate the fast increasing business. A great many people are now coming to Belt to look after good localities for business, and everything points to ultimate success and prosperity for our little city.

It is expected that work will begin on the new freight house and depot this week. The grading is now all finished and the Great Northern will hustle up the buildings. The new turn-table has arrived and will soon be in place. Who knows but Belt may yet become a railroad center?

On Tuesday night at the Belt Club hall Maj. Camp of Butte and others addressed the people of Belt on the advantages of Anaconda for the capital. The Butte quartet accompanied them and rendered some choice selections. The large hall was crowded with an appreciative audience and much enthusiasm prevailed. There is no doubt about Belt being sold for Anaconda for the capital.

Friday night at the Social hall a good-sized audience gathered to hear Maj. Maginnis and A. J. Craven discourse on Helena in her race for the permanent capital. Of course the major with his staid wit amused the crowd, but his arguments fell upon ears which had become accustomed to his wit and strategy and therefore had a little effect as if his Gatling gun had been loaded with blank cartridges. Don't come again, the boys are not "Craven" for any more bluster.

On Thursday evening Henry Lemenze, a bricklayer of this town, took twenty grains of morphine with suicidal intent. He wrote a letter saying he was tired of life and had nothing to live for. His roommate noticed that he was breathing unusually heavily and called in Dr. Chamberlain who, after hard work, succeeded in saving his life. Lemenze had been drinking excessively the last ten days.

PROPOSITION

That we propose. Its as easy as 2 times 2 is 4. Plain as day. We buy for cash and sell for cash. Of course we sell cheaper than those who give credit. Read these Prices:

- 8 Cans Corn for .....\$1.00
8 Cans Eastern Tomatoes for ..... 1.00
8 Cans String Beans for ..... 1.00
8 Cans M. F. Peas for ..... 1.00
8 Cans Lima Beans for ..... 1.00
8 Cans Economy Milk for ..... 1.00
8 Packages Glor's Starch for ..... 1.00
8 Packages Corn Starch for ..... 1.00

Barker. A new process has been adopted by means of which the ore will be treated more economically.

Three feet of snow on the main range and two and a half on the Barker divide is reported by parties coming in from that country.

A miner in from the Coon creek district in Fergus county reports quite a boom in gold mining in that district. He says that Richard Gies, a brother of Charles Gies of the Great Falls Bottling works, has located a claim which shows a good deal of free gold and grows richer as it develops.

The glory of the big best at Crane's store has departed, as John P. Patterson today brought in a similar product, raised on his ranch in Big Sag, and weighing 17 pounds. It can be seen at Power & Bro.'s store.—River Press.

Bishop Handy, D. D., of the Fifth Episcopal district of the Colorado conference of the A. M. E. church, who is now at the meeting in Helena, will take advantage of a recess and visit Great Falls, Monday, Oct. 15. He will preach Monday evening at the Methodist church.

It is rumored that the time of arrival and departure of the Great Northern train is soon to be changed to the schedule prevailing in 1890, which gave so much satisfaction. The west-bound train will arrive about 10:30 a. m. instead of at 12:50 p. m., as at present, and the train going east will be due about 1:45 p. m. instead of at 4:05 p. m.

Cascade county ranchers and even gardeners in Great Falls, can furnish material for a better story than the following told by the River Press: A monster beet, raised on Thos. Flagler's ranch, near Stoele, is on exhibition at the store of George W. Crane. The beet measures 21 inches in length and weighs 14 1/2 pounds. Although it is a monster, Mr. Flagler states that the beet on exhibition is not the largest raised, but that there are several as large or larger growing on his ranch.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria.

When she had Children, she gave them Castoria.

Do You Want Work

A steady paying job with largest home in the west. 20 years established. With our facilities we can make a good salesman in two weeks from raw material. Nursery stock that is wanted, only one, best varieties seed potatoes in the world, etc. If you want money write stating age.

L. L. MAY & CO., St. Paul, Minn.

Nurserymen, Florists and Seedmen. (This house is responsible)

Assessment No. 2. Black Diamond Mining & Milling Company, principal place of business Great Falls, Cascade county, Montana; location of mines, Selkirk, Meagher county, Montana.

Notice is hereby given that at a meeting of the trustees of said company, held on the 23rd day of September, 1894, an assessment of the cent per share was levied upon the capital stock of said company, payable on the 25th day of October, 1894, to the secretary of the company, at the Great Falls National bank in Great Falls, Montana.

Any stock upon which said assessment shall remain unpaid on the 31st day of October, 1894, shall be deemed delinquent and will be advertised for sale, and the proceeds of such sale shall be made before, and will be on the 31st day of November, 1894, to pay the delinquent assessment, together with the cost of advertising and expenses of sale. G. KOEHL, Secretary.
