

IT'S TOUGH SURE

The Storm in England Has Left Thousands of People Without a Home.

THE WORST IS HARDLY OVER

Have Raised With Shipping at Other Points—There Are Many Dead.

LONDON, Nov. 15.—Stormy weather and floods continue over the south part of England. The loss of life and damage to property is increasing greatly. At Bath, Somersetshire, the river Avon has reached the highest point of the century. Thousands are homeless and are being fed by the authorities. Dispatches from Dover say a gale is blowing with renewed violence. Several ships have been washed ashore. The floods in Sussex are increasing and many houses at Windsor and Eton have been flooded. At Worthing, Sussex, the bodies of seven drowned sailors have been washed ashore.

CLOSE TO DEATH.

But a Friendly Sail Finally Came to the Rescue.

NEW YORK, Nov. 15.—The British bark, Kate F. Troop, Capt. Smith, which arrived today from Singapore, brought to port the captain and crew of the Italian barque, Torqueto, of Castellar, abandoned at sea Nov. 7, in a sinking condition. Capt. Tranpani of the lost vessel reported that he sailed from Genoa August 18, for New York, with a cargo of marble and rags. The vessel experienced a series of heavy gales soon after passing through the strait of Gibraltar. Bad weather continued, and on the morning of October 23 the wind suddenly shifted to the southeast, gradually increasing in fury. At 7 a. m. it blew a hurricane, lasting for several hours, and the little bark sprung a leak. It was very evident that the vessel was doomed. Signals of distress were kept hoisted daily. The crew kept faithfully at the pumps, and just as they were despairing of rescue Nov. 7, then in latitude 33.43, longitude 70.50, a sail was sighted to seaward. She proved to be the British bark, Troop. Capt. Smith had just previously observed the distressed vessel's signal. All were taken on board and she continued on her voyage.

JUSTIN McCARTY

Says the Irish Parliamentary Party Has Never Pledged Itself.

DUBLIN, Nov. 15.—At a meeting of the Central Branch of the National Federation this afternoon, Justin McCarty said it was not true that the Irish parliamentary party had ever pledged itself to any English government. They were as free as ever to declare their own terms and to break from any government refusing to recognize the Irish people. Whoever went out or came into office, they would put in the present government again after dissolution if it did what the Irish party wanted. Although it was scarcely possible that the tory government would be returned, yet if it were the Irish members would reduce it to a failure if it did not listen to Irish demands. They were the balance of power on either side.

Wind and Fire.

BIG TIMBER, Nov. 15.—A fierce wind storm last evening blew the roof off of houses, broke window glasses, and sent rocks as large as a person's hand flying helter-skelter all over the country. The damage done to property will be very great as reports are coming in from inland towns that the storm did great damage, especially around Melville.

Leaving the Sweet Grass country the ranchmen especially will be heavy losers as they have lost nearly all of their winter's feed.

Telephone reports from Melville are to the effect that large prairie fires are raging near there and that several ranches have been destroyed.

Jury Trial For A. R. U. Men.

CHEYENNE, Wyo., Nov. 15.—The contempt cases against E. T. Burke, Dan Healy, J. B. Egan and James McDonald, the citizens of Rawlins, who are charged with interfering with the United States marshals during the A. R. U. strike in July, will be given a jury trial in the United States court now in session in city. A hearing was had before Judge Riner at the last term of court but the testimony was so conflicting that the court did not feel like finding the defendants guilty without a jury trial.

Sues Carnegie for \$30,000.

HOMESTEAD, Pa., Nov. 15.—H. J. Bird has entered a suit against the Carnegie Steel company for \$30,000 damages. Bird was brought here from Chattanooga, Tenn. He boarded at restaurant No. 5, and was poisoned by some of the food, for which poisoning District Master Hugh McMasters of the Knights of Labor and others are now serving time in the penitentiary. Bird has been ill ever since. Last April he was discharged on account of his ill-health, for which he holds the Carnegie company responsible.

After His Estate.

EUREKA, Cal., Nov. 15.—A. Nowy, a Russian count, who has been an exile

from his native land for twenty years and who has been a resident of this place for a number of years, started this morning for Russia to claim his title and estate, which were confiscated twenty years ago because of a criticism of the czar Nicholas. Since the death of the late czar he has been informed that his title of count and his estate will be restored to him.

HE CAME BACK.

A Well Mixed Row in Chicago Over a Ballot Box.

CHICAGO, Nov. 15.—Ex-State Senator John O'Malley, for whom the police have been searching since the night of election, surrendered himself today. O'Malley is charged with having wounded a bartender and car driver and was also indicted for alleged complicity in the murder of Gus Callender, a judge of election, who was killed while resisting an attempt to steal the ballot box. O'Malley denied he had anything to do with the ballot box theft. O'Malley says after his row on election night he went on a spree and went east, not knowing he was wanted here so badly. He knocked around Newark, Jersey City and New York, until he heard from friends that there was a hue and cry after him and he at once decided to come back.

TOO MANY PASTORS.

A California Church in a Turmoil in Consequence.

SAN JOSE, Cal., Nov. 15.—Two ministers claim the pastorate of the German Lutheran Evangelical church and such is supported by a faction of the congregation. William Braunwath has been pastor six years. O. H. Buren, his son-in-law, held the church property in his name, having advanced money to pay the debt. Members claimed that the pastor made no effort to pay off the debt to Buren and that the latter would probably acquire the church property by default. Pastor Braunwath was deposed and A. G. Donninger chosen to succeed him. Braunwath retaliated by deposing the church clerk and dropping the names from the roll of members who opposed him. Donninger was first on the scene and managed to hold the fort. Braunwath has not given up the fight and promises to make it lively for his opponents.

ST. PETERSBURG, Nov. 15.—Throughout the whole day, with the exception of members of the imperial family, who were attending religious services in the cathedral, there was an increasing flow to the cathedral for the purpose of taking a last look at the remains of the late czar. Sent to China.

WASHINGTON, Nov. 15.—The president has appointed Edward K. Lowery of Ohio, second secretary of legation at Peking, China.

IT'S ALL SERENE

Between Mr. Cleveland and His Secretary of the Treasury—So Says Grover.

ALWAYS HAS BEEN JUST SO

Ever Since Mr. Carlisle Took His Place as the Administration's Financial Man.

WASHINGTON, Nov. 15.—The attention of the president was called today to the statement contained in certain newspapers to the effect that there had been a disagreement between him and Mr. Carlisle in regard to the issue of bonds and other matters, and intimating that it might result in the secretary's retirement from the cabinet. The president emphatically denied the entire "patch of silly mistakes," and said: "Never since our association together has there been the slightest unpleasantness or difference concerning the affairs of the treasury department or any other matter. I see it is said that I am formulating a financial scheme. If such scheme is presented it will be the work of the secretary and I shall endorse and support it."

THE STATE DEPARTMENT

Informed as to the Case of Consul Stanley Hollis at Mozambique.

WASHINGTON, Nov. 15.—The state department has been fully informed of the facts in the case of W. Stanley Hollis, United States consul at Mozambique, who got into trouble as the result of shooting and wounding a Kaffir, whom he suspected of burglarious intent, early in September. Hollis was afforded a prompt trial through the intercession of our minister at Lisbon. It was shown that the Kaffir was innocent of burglarious intent. Hollis was sentenced to six months' imprisonment, but the prosecution, regarding the sentence as inadequate, note an appeal. This appeal was referred to Lisbon and if it is rejected, as anticipated, the consul will be declared innocent. In the meanwhile he is confined in the fortress at Mozambique and treated with kindness and consideration.

MAY CANCEL THE PATENT.

Cyanide Process May Not Require a Royalty Much Longer.

SPOKANE, Nov. 15.—The mining men of the city are much interested in the announcement of an English decision cancelling the patent in Great Britain for the famous "cyanide process" of treating ores. The supposition is that this decision will not only lead to the cancelling of the patent in British Columbia, but will be followed by a suit to throw off the patents in the United States. As under the present state of affairs a royalty of \$1 per ton is charged on all ores treated, the result would be a decided increase in the profits of mine workers employing this process.

China Needs Him.

SEATTLE, Nov. 15.—A moon-eyed Mongolian named Ah Chune was ordered deported yesterday after a hearing before United States Commissioner Emery. The Chinaman was arrested about two years ago in company with Ah Chong, charged with smuggling, and both were sentenced to twenty months in the United States penitentiary on McNeil's island. Both had been cooks on the steamer Haytian Republic and were arrested while in that capacity, and the evidence against them being conclusive they were sentenced. The Geary act provides that a Chinaman shall be deported for any violation of the laws of the country, and thus Chune, after having served his sentence, is deported. Ah Chong will have his hearing today before Commissioner Emery.

Buttons Her Hobby.

BOSTON, Nov. 15.—Mrs. Mary E. Harris of Roxbury, Mass., has had for thirty years the hobby of collecting buttons, until now her collection numbers 12,000 different kinds. Thirty years ago she made a wager that there were more than 999 different kinds of buttons. She reached the thousand mark inside of a year, but once started in the facination of "collecting" her pursuit was kept up. Mrs. Harris has some interesting buttons in her collection. One was worn by a soldier in Napoleon's army; another by a soldier in Washington's.

tract to Corbett and would not be at liberty until after the theatrical season closed.

WORSE THAN HELENA WAGES.

An Interesting Statement Made by Vice Commercial Agent Murphy at Luxemburg.

WASHINGTON, Nov. 15.—After an exhaustive examination of the wages paid in the large manufacturing establishments of Luxemburg, which he says are about the same as paid in other parts of Germany, George H. Murphy, United States vice commercial agent there, transmits to the state department a report on the wages paid in the steel and iron industries, with a general review of the whole subject of German wages. He finds that, generally speaking, the average earnings of ordinary workmen amount to less than \$200 per annum. Women earn about half as much as men. The average wages of miners and foundry hands is less than \$1 per day. The salaries of primary school teachers are \$224 for males and \$170 for females.

A very large majority of the employees of the government earn less than \$400 per annum. On the other hand, still speaking generally, the necessities of life cost as much in central Europe as in America. A workman's expenditures for clothing and rent may possibly be somewhat less here than in America, but in the town of Luxemburg coal costs 87 per ton, eggs 21 cents per dozen, rye flour 3, wheat flour 5, sugar 8, butter 25, beef 13, veal and mutton 16 to 20, fresh pork 20 and smoked pork 23 cents per pound.

Frugality and industry can hardly be expected to accomplish any miracle greater than that of enabling a thrifty workman to keep out of debt. This distressing state of affairs is no doubt in part an unavoidable result of the competitive demand for employment which must exist in every densely populated country, but the misery of the European poor has been aggravated by that popular craze which causes the large towns and cities of Germany to grow with rapidity as phenomenal as that which is doubling and trebling the population of our own western cities. An important point of difference, however, lies in the fact that foreign immigration largely accounts for the development of our towns, whereas German cities expand almost entirely at the expense of the rural districts. Consequently the wages keep falling and the evil is enhanced by the increasing use of labor saving machinery. The competition between manufacturers also forces down wages. The policy of the countries of Central Europe seems to extend and inflate their manufacturing industries suicidally. Their idea of national prosperity and of happiness seems to be nothing more than the attainment of the ability to export manufactures and import food, and in support of this policy the government taxes workingmen by an import duty on his food in order to give the manufacturer an export bounty. The much-talked-of disarmament of Europe will, if ever realized, bring further calamity by adding to the labor markets millions of young men unfitted for country life by several years residence in city barracks. The development of our American manufactures is undoubtedly of great importance, but American workmen and women have good reason to favor the restriction of immigration and to view with apprehension the tendency to inflate industries beyond safe limits.

The services were attended by all the members of the imperial family in St. Petersburg.

HIGHEST HOTEL ON EARTH.

John Jacob Astor Will Put \$8,000,000 Into a New York Tavern.

From the Chicago Times. It is announced that the greatest hotel on earth will be opened in New York Nov. 1, 1897. It will surpass the Waldorf in size, and while its interior will not be more beautiful, it will be more imposing. This superb structure is to be erected by John Jacob Astor under the personal supervision of John Boldt, the proprietor of the Waldorf, is to stand upon the ground now occupied by the Astor mansion, at Fifth avenue and Thirty-fourth street. Mrs. Astor and John Jacob Astor are now building a house at Fifth avenue and Fifty-ninth street, which it is expected, will be ready for occupancy in about six months, as soon as Mrs. Astor moves, the old housestead will be torn down and the work of the foundation of the new hotel will be started.

The hotel will face 100 feet on Fifth avenue, and run 350 feet on Thirty-fourth street, and it will be from 15 to 20 stories high. While it will adjoin the Waldorf and will be under the management of Mr. Boldt, it will be run entirely distinct from that hotel. Under his contract with both the Astors, Mr. Boldt leases for both hotels which cover a long period of years. To a New York World reporter Mr. Boldt said: "My whole aim will be to make the hotel the crowning glory of the great New York. The rooms, of course, will be larger than the rooms in the Waldorf. The dining room will face Fifth avenue and will have a seating capacity of 1,000 people. The cafe and lounge rooms will be much larger than those of the Waldorf. On the second floor, on the Thirty-fourth street side, I intend to have a ballroom 100 feet square, with a pillar in it. Of course, the hotel is going to be a great piece of work for architects. No high building has ever been erected where this amount of space has been clear. Henry J. Harber, the architect of the Waldorf, will draw the plans for the new hotel. It says the ballroom can be built as I have planned. Then there will be the assembly rooms and apartments for guests and small receptions. In short, I intend to have a hotel the capacity of which will meet the demands of our social and political life.

"In the new structure there may on at one time on the same night a ball, a banquet, a lecture, and two or three assemblies without any clash. There may also be 1,000 guests in the hotel at the same time and no one be disturbed by crowding or sounds."
