CITY AND COUNTY NEWS.

TO OUR SUBSCRIBERS.

We have a new carrier. Should any of our subscribers fail to receive their papers, we will thank them to inform us.

W. H. McQueen & several gentlemen from the Barker district are in the city.

J. T. Arrington will leave today for St. Paul to be absent about ten days.

C. Pratt came into town yesterday afternoon returning from his western trip to stop a while in Great Falls.

The sun played fearful havoc with the snow yesterday. None is left. The thermometer stood 75 degrees above zero yesterday afternoon.

Barnes & Collett sold yesterday one thousand dollars worth of property in the popular Black Eagle Falls addition to C. E. Wells of the North West territory.

Walter Kennedy, the handsome young accountant of the city meat market left the city this afternoon upon a short visit to his sister, Mrs. E. R. Chigan of Belt Creek.

Bobby Gray will in a few days open the Fifth Avenue Oyster and Dining Saloon on Central Avenue, to be run strictly on the old metropolitan plan. We wish Bob success.

George H. Wright, the popular and reading young editor and proprietor of the "Helena Standard," arrived in Helena Sunday. He is the Independent reporter that he doesn't like the Collins printing bill.

If there is a laundry on the continent that does any better work than the Cascade Steam Laundry at Great Falls, we should like to see it. China glass is nowhere in comparison with the flashing touches of Miss Johnson and her machine.

While many of the Helena legislators upon their recent visit to Great Falls thoughtfully donned their straw hats and brown linen dusters, those of Dakota, through force of habit, wore each a buffalo coat and carried another carefully thrown over their shoulders.

We were informed yesterday by Mr. T. S. Edson that he will remain in Great Falls but a few days longer for the sale of his imported Stallions now at the City Stables. Parties in need of such animals should avail themselves of the golden opportunity to purchase.

Messrs. W. B. Raleigh & Co., the leading dry goods dealers of Great Falls, have a fresh announcement in this morning's LEADER. The ladies will be specially interested therein and should see the earliest opportunity to see these elegant corsets. They are absolutely indispensable.

Prevailing Chinook winds of the past two days have caused nearly all of the snow to disappear and the streets of our city are in a sloppy condition. The city fathers who keep both their eyes and ears open for the welfare of their wards are having a large and substantial sidewalk constructed on First Avenue South, between Second and Third streets.

F. W. Dearborn, of Chicago, is in the city. He is the inventor of the celebrated Dearborn Cement, for joining belting, tapes, woods, also for lagging pulleys. He has been visiting the mines and mills of Butte, Helena, Anaconda, Phillipsburg, Granite, and other localities where machinery is used. His invention supercedes the use of lagging and rivets. He has the highest testimonials.

Col. Samuel C. Bird, the well-known cow man of Choteau, and son are registered at the Park Hotel. Col. Bird is also proprietor of the all-popular stage line from Choteau to the Blackfoot agency where his steel spring coaches make close connection with the dead end wagon line conveying passengers from the Arctic regions to the sublime and invigorating climate of Great Falls.

Within the past few days a deal has been effected in this city by which Sheriff W. H. Black of Fort Benton will not only become an enterprising citizen of Great Falls but proprietor of the City Livery stables, he having purchased the entire interest of F. M. Morgan, former proprietor. The purchase consists of the live stock, rolling stock, furniture and fixtures. While we could not ascertain the consideration, we understand Mr. Black will take possession March 1st.

The Hon. Jonas Brenner, and Mr. Phillip Lambeck, of Port Washington, Tuscarawas county, Ohio, are in the city. They are solid buckeyes and their visit here means an invasion of the country and an appropriation of a goodly scope of bench and bottom land in this vicinity. Mr. Brenner has two sturdy sons already here and more to come. They go out today.

To view the landscape of our city and will select some available place for a Buckeye colony. No better stock in the Union.

Richard Oatley and J. T. Arrington, stockholders in the famous "Pride of the West" mine of Barker, came in last evening from that vicinity. Monday Mr. Oatley leaves for different points in the East, upon a recreating tour which he has long anticipated and richly deserves. Nearly fifteen years ago, Mr. Oatley following the great moral advice of Horace Greely came West, and cast his fortunes as a prospector in the mining camps of Montana. With that same diligence and patience which characterized the appointment of the dig deeper and deeper until the Pride of the West was found, when he threw down the pick and exclaimed "Eureka."

Postmaster Taylor very courteously gallanted a party of our distinguished visitors from Dakota, with their ladies, on Monday, through portions of the smelter. After going through the several capacious engine rooms, furnace rooms, smelting rooms, sampling rooms, roasting rooms, store rooms, draft rooms, and other useful extensions and appointments of the great works, and finally taking them up on the ore floor asked what they thought of them. "Why," exclaimed one of the party, "I have heard about the Great Falls smelter, but thought it only such smelting works as are ordinarily seen in the mining country; but really, Mr. Taylor, the grand works you have here seem to me as big as all Dakota."

MONTANA'S ADMISSION.

An act of Congress admitting Montana to the Union provides that the area shall be the same as that of the Territory of Montana; allows all electors to form a convention in the State, to be held on the Tuesday after the first Monday in May, 1890. The number of delegates to the convention shall be seventy-five. The convention must provide by ordinance that perfect toleration of religious sentiment shall be secured, and that no inhabitant of the State shall be molested on account of his or her religious worship.

Second--That the people do disclaim all right and title to the unappropriated public land lying within the boundaries thereof, and to all land owned by any Indians or tribes.

Third--That all the debts and liabilities of the Territory shall be assumed and paid by the State; and

Fourth--That provision shall be made for the use and maintenance of a system of public schools open to all the children of the State free from sectarian control. If the State rejects the constitution then the governor shall issue his proclamation reconvening the delegates to form another constitution. The constitution is to be submitted to the people on the first Tuesday in October for ratification. On rejection, the voters can vote directly for or against the proposed constitution or for or against any article of the constitution separately submitted. The act provides that until the next general census the State shall have one representative; that upon the admission of the State into the Union sections numbered 16 and 38 in every township shall be reserved for school purposes, and shall be disposed of only at public sale at a price not less than \$10 per acre. Fifty sections of unappropriated public lands are granted to the State for the erection of public buildings for legislative, executive and judicial purposes. Five per cent of the sale of public lands lying within the State shall be paid into a permanent fund, the interest of which shall be expended for the support of common schools. Seventy-two sections heretofore granted for university purposes are vested in the State of Montana. Ninety thousand acres are granted for the use and support of an agricultural college. There are also granted to the State of Montana: For the establishment and maintenance of a school of mines, 100,000 acres; for state normal schools, 100,000 acres; for agricultural colleges, in addition to the grant heretofore made for that purpose, 50,000 acres; for the establishment of a State reform school, 50,000 acres; for the establishment of a deaf and dumb asylum 60,000 acres; for public buildings at the capital of the State, in addition to the grant heretofore made for that purpose, 150,000 acres.

All mineral lands are exempt from the grant. The sum of \$80,000 is appropriated for the expenses of the convention. Montana is attached to the Ninth judicial district. There is appointed for this district one district judge, one United States attorney and one United States marshal. The district judge receives the salary of \$5,000 per annum. There is also appointed a clerk of the court. Marshals, district attorneys and clerks of the circuit and district courts, and all other officers receive the fees and compensation allowed in the State of Nebraska. It provides for the carrying on of all cases of appeal or writ of error now under prosecution; makes the circuit and district court the successors of the supreme court and district court of the Territory and that the constitutional convention may provide for the election, including members of the legislature and representatives of the Fifty-first Congress. The State government shall remain in abeyance until the State shall be admitted into the Union. In case the constitution of the State is ratified by the people the legislature may elect Senators of the United States.

The city council met last evening. Vice-President Wegner acted as chairman pro tempore, or acting mayor. Engineer Kern's proposition regarding the establishment of street grades was accepted. The fire department committee to whom the Schmidt & Company petition was referred, reported adversely, and the report of the committee was accepted. The petition asked the privilege of erecting a frame addition to Schmidt & Company's saloon on First Avenue South.

William Albrecht's bill for furniture amounting to \$28.50 was allowed. Adjourned to meet Tuesday March 6th.

CITY COUNCIL.

NATURE'S TREASURE HOUSE.

Great veins of coal, 8 to 12 feet thick, containing 1,000,000 horse power, largest smelting works for silverlead ores on earth; gold, silver, copper, lead and iron mines in great reefs; inexhaustible amounts of limestone, sandstone, and granite of finest quality, and withal surrounded by a first-class grain and stock raising country. Do you wonder that it is the "future great"? Where is this place? Great Falls, Mont., on the St. Paul, Minneapolis & Manitoba railway. Montana's favorite line, and the shortest line to Butte.

Buckley's Arnica Salve.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or is required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Lapeyre Bros.

YE OLDE FOLK'S CONCERT.

At ye First Presbyterian Church, in ye goodlie town of Greater Falles, this Wednesday evening, ye 27th day of February, will be given the grande concerte of ye Olde Folkes, and it behooves everybodde with his wife and sweethearts to be there.

LYSTE OF YE SINGERS.
Grandma Mchitable Wlterbloosom Clark, Aunt Sophia Pricella Sorrick, Mrs. J. Betsy Brundage (she that was Betsy Jane Crabtree), Dorothea Gloriana Reid, Belindy Jerusha Hook, Samantha Primrose Chambers, Peacefull Prudence Curtis, Serphama Belinda Oviatt, Mirandy Perseverance Judd, Lucinda Angelia Bruce, Uncle Methuselah Hawkins, Cousin Jedediah Junkin; Brother Azarah Chichester, Solomon Deceptoon Dodson, Jonathan Abinadab Wilcox, Ephraim Ebenezer Tanhauser, Nebuchadnezzar Ichabod Cronklight, Hezekiah Yerubbal Wright, Sabahtala Adoniram Nabach, Gideon Enoch Curtis.

PART 1st.
All ye people stand up and join in Auld Lang Syne.
Harpicorde and Fiddle--One womme and one manne player.
"Ode to Science"--All ye singers.
"Cousin Jedediah."

Speaking Piece--"The new church Organ"--Belindy Gerusha Hooke.
"Russia"--Solomon standard piece.

CHAS. TAYLOR, P. M.

PROF. BEGG'S COMPLIMENTARY.

Last evening the pupils and friends of Prof. Beggs assembled in Kingsbury hall to the number of about 150. The spacious floor was filled. Sixty couples swung through the graceful waltzes of the softest sweetest strains of Race's celebrated string band. It was a gay and happy crowd, to be sure. And there was our illustrious friend Gray, of the Tribune, the foremost of the sprightly terpichorans. Of Prof. Beggs too high eulogiums cannot be passed. He is a master of the art; and his pupils last night gave most emphatic testimonials of their high estimation of him, both as an accomplished dancing master and exquisite gentleman.

Of the supper at the B. & B. restaurant there was but one opinion expressed--that a repeat more deliciously prepared and more bounteously provided was never set before the guests of a Great Falls banquet. The lady attendants were profuse, assiduous and courteous in their ministrations. They fairly flew as seraphs in anticipation of the wants and wishes of the guests.

We congratulate our citizens upon the prospective permanent residence of Prof. Beggs and family in Great Falls. In fact he has already located here, and we are sure that to none of us will his presence be more desirable than to those who have been the recipients of the accomplished dancing master and exquisite gentleman.

It is a matter of course that the big demand for them as soon as we get our State government in full blast. Hurry up the cakes--never mind the coffee!

On the morning of the 25th, to the wife of E. J. Canary of this city, a son. Mother and parental pa in a flourishing condition. Great Falls is rapidly coming to the front, also, in the line of "bonanza" babies. They are the most permanent wealth of the State; and there will be a big demand for them as soon as we get our State government in full blast. Hurry up the cakes--never mind the coffee!

Great Falls:

THE BEAUTY OF THE NORTHWEST

A City of Wonderful Surroundings!

A City of Unrivaled Attractions!

The Home for the Sons of the Pilgrim Fathers!

The Land of the Free and the Home of the Brave!

The City We Love So Well!

The Montana Seat of Learning!

The Eden of America!

The Home of Health, Wealth and Happiness!

GREAT FALLS CITY,

Located at the Great Falls of the Missouri which furnish the mightiest available water-power in the American continent if not on the globe, is the Queen City of the Northwest.

She is within ten miles of the most extensive coal fields and iron district in the West, beyond and almost contiguous to which are exhaustless mines of Gold, Silver, Copper and Lead.

She is in the very heart of a vast Agricultural and Grazing country of unequalled fertility and capacity.

She is destined by her natural resources and geographical position to become the leading Manufacturing City between Minneapolis and the Pacific, as well as the Railroad Center of Montana.

She is already the terminus of three Railroads, the St. Paul, Minneapolis and Manitoba, the Montana Central and the Sand Coulee Coal Fields Branch.

She has a population of nearly 4,000 enterprising and intelligent Americans and is growing rapidly.

She made \$1,000,000 worth of improvements in the year 1888, though only two years old.

She is possessed of one of the most healthy, delightful climates on the earth, the mean winter temperature being about the same as Southern Ohio or Illinois, and the summer nights being rendered cool and bracing by gentle mountain breezes.

She has the most magnificent Iron Bridge across the Upper Missouri, costing \$50,000.

She has a magnificent Railway Bridge spanning the broad, sparkling Missouri and connecting the East and West divisions of the City, the former the business and residential, and the latter the location of the railway machine shops, round-house, car works and other extensive terminal establishments.

She has the largest Flouring Mills in Montana.
