CITY AND COUNTY NEWS.

H. Willekopf, the "papery" artist, is establishing the office of Messrs. Hanks & Atkinson.

Mr. Flahroop is building a brick house on Sixth Avenue North, two blocks from the school house.

Some nocturnal prowlers stole several hundred pounds of coal Sunday night from the school house coal sheds.

J. C. Major, the grand lecturer of the Masonic order in Montana, left yesterday afternoon on a visit to Fort Benton.

C. T. Grove, the grocer, is enlarging his storeroom on Third Avenue South for the accommodation of a large stock of groceries.

A large amount of the ornate Sand Coulee sandstone is being hauled for building purposes in the southern part of the city, where several residences are in course of construction.

Thos. E. Brady is engaged in setting out trees on his corner lot just west of the new school house. Before long there will be a handsome cottage erected on the lot aforesaid and Mr. Brady will be taking a trip East after a partner.

Mr. and Mrs. Nathan have returned from their protracted visit in the East. Their trip was fraught with pleasure, but their return to the suburban climate of Montana and the lovely Cataract City is a felicitation not to be sneezed at.

Mr. Goodrich, agent for Gibraltar Bros. & Edgar, has nearly completed a neat little office building near Theo. Gibson's warehouse, and also has in course of construction a commodious building which will be used for storage purposes.

It will be seen by reference to our columns this morning that the great athletes of the Patsy Cardiff combination will visit Great Falls on Wednesday, 13th inst., en route to San Francisco, and will on that evening give our citizens an opportunity to see some muscular performances.

We are pleased to learn that our estimable friend A. E. Dickerman will return to the bosom of his host of friends by today's Manitoba train. Dr. Fairfield and Mr. Walter Clark, the sheep king of Choteau, are all passengers hither by the same train. Welcome home again to you all, gentlemen.

The ladies of Great Falls—not the gentlemen, oh, no!—will be pleased to embrace in their arms of love and social communion those capital young ladies who were to accompany Mr. Dickerman home. There's room for them all and a small regiment more of their kind and quality here.

One of the results of the undue haste of the democratic officials in districting the Territory, is shown in Cascade county, Sun River, Mission and Leavine precincts, all put in the same district as Willow, which is forty miles away from the others. This is not in accordance with the intent of the constitution, which requires the precincts to be contiguous.

Mayor Gibson and H. P. Rolfe yesterday rode over and made a reconnaissance of the route of the proposed boulevard.

The drive commences at Tenth Avenue South near Myers' sawmill, then runs east via H. O. Chow's house and the South end of Black Eagle Falls addition four miles to Will Hanks' homestead, thence north two and one-half miles to the smelting works, making six and one-half miles. The road bed will be solid and needs but little work to make it perfect. A horse can trot every foot of the way.

MONTANA LAW MAKERS.

HELENA, March 11.—In the council today the nominations for Judge Cullen for attorney general and Miss Guthrie for librarian were reported without recommendation.

The name of Logan for Territorial superintendent of schools was reported favorably.

The registration and Australian election bills have passed both houses and received the governor's signature.

In the house nothing of importance occurred, except the usual filibustering to curtail the legislative proceedings of the council and if possible prevent that dignified body of Solons from making laws for the whole United States.

On to Matrimony! Mr. Ernest A. Ringwald, the jovial, the jolly and the gentle recorder of Cascade county, took the Manitoba for the East yesterday afternoon. He will return about the first of April, it is hinted, and one of the fairest damsels of fair Minnesotas as his bride; and then we shall chant:

Ah, Genus burns like a blazing star, And Fame has a honeymoon to fill; But the good deed done for Love, not fame, Like the water cup in the Master's name, Is something more precious still.

They are Coming. The Patsy Cardiff combination will visit this city, the evening of March 13th. Cardiff is on his way to San Francisco to fight Peter Jackson, the champion of Australia, for a purse of \$3000, given by the California Athletic club to the winner. Prof. Donaldson, Cardiff's manager, will seto with the latter and a purse of \$50 will be given to any man whom either Cardiff or Donaldson cannot best in six rounds. Billy Hawkins, Frank Shepley and the little Goodmans accompany the combination.

A Promising Investment. Mr. Robert Vaughn yesterday purchased a one-half interest in a valuable forty-acre tract of land lying contiguous to the Fairview Addition, paying therefor \$5,000.00. This is authentic.

St. Patrick's Ball. The grand St. Patrick's banquet at the Milwaukee House Monday, 19th inst., will be the event of the season. The Sons of Erin will gather on the occasion from all parts of the country, and it will be a general St. Patrick's Jubilee—such a party as everyone will enjoy.

White Sandstone. I have at my quarry the finest White Sandstone in the country—which will be supplied to order in any size or quantity, on short notice. N. P. LOBERG, Over Churchill & Webster's.

Great Falls Advancing!

MR. J. BARNES OF BARNES & COLLETTONE MORE AT HOME.

He Discourses to a Leader Representative on the Grand Future of the Cataract City.

To Great Falls the Star of Empire Takes Its Course.

Mr. J. Barnes, of the well known real estate firm of Barnes & Collet, of this city, returned yesterday from St. Paul, where he has been spending the winter. He was interviewed by a LEADER representative. In answer to questions propounded to him, Mr. Barnes said:

Money is scarce in St. Paul and Minneapolis, although there is a feeling that under the present administration of Harrison, which is felt to be a safe one, and with the appointment of Windom for secretary of the treasury, whose course was well known to the country at the time of the Garfield administration, confidence will soon be restored and money will be freer. At the present time there is a great boom in real estate in Chicago and even in New York, and there is a disposition on the part of capitalists in the east to withdraw their money from other investments and put it in lands.

COMING LIKE A FLOOD. The Northwest will attract a great deal of attention this year. The St. Paul, Minneapolis & Manitoba railroad is continuing its advertising almost entirely to Montana, leaving out Dakota and Minnesota, and while you have had three or four people coming here each day during the present month, in the months of April, May and June, as I am assured by the representatives of the St. Paul, M. & M. R. R., there will be thousands of people here from all parts of the country. The bulk of the immigration will come to Great Falls, because it is about as cheap to buy a ticket from St. Paul to Great Falls it is to get to any other point on the road. A great many are settling in the Milk River country along the line of the road in the Indian reservation lately opened. In a short time thousands of people will locate upon vacant lands in this section and on lands about Great Falls.

THE NEW STATE ATTENTION. The certainty of early Statehood for Montana is another matter which will attract a large immigration in the East. No Territory is more largely advertised than Montana and especially this section about Great Falls. People are returning from Seattle and other far western points disgusted with the high prices. One real estate man of my acquaintance was asked \$200,000.00 for a 35-foot lot in Seattle. The price was so high that he quickly gave up his mind. I am convinced that Great Falls will be a large city in a very short time.

GREAT IMPROVEMENTS AT HAND. I understand that the work will be commenced upon the water-power of the Black Eagle falls this season. As for the Belt Mountain railroad, it will be built if the miners will only give sufficient inducements for building it. The road will go through if the company is guaranteed a sufficient amount of ore.

GOOD WORDS FOR THE LEADER. We were greatly pleased with the Holiday LEADER, and it attracted a great deal of attention in the East. You are making a first-class newspaper in every respect, and it is doing a great deal towards building up your city. The people here should not rely too much upon the townsite company, but should go to work and look after the interests of the town themselves. The townsite company has done a great deal for the people here as much interested in the growth of the town as the company.

PUBLIC WORKS NEEDED. Your streets ought to be graded throughout the whole city limits, especially Central Avenue should be graded to 15th Street, and the county should make good roads leading into Great Falls. Heretofore the work has been done upon the roads away from the county seat. In response to an inquiry about Black Eagle Falls addition, Mr. Barnes said that the property was in great demand, and they expected to sell three-fourths of it before the summer is over, and will keep the proprietor busy signing deeds.

Montana Nominations. WASHINGTON, March 11.—The president today made three appointments for Montana. The names will go to the Senate this afternoon or to-morrow morning. They are:

Geo. W. Irvine II, of Butte, for U. S. marshal, vice Kelly, resigned; Elbert D. Weed, of Helena, for U. S. district attorney, vice Smith, resigned; Jere Sullivan, of Benton, for U. S. collector of customs in place of Cummings.

The president has not reached the governorship matter, but it is the impression here that in a very few days new governors for all the Territories will be named.

The rumor is that the name of McIntire for chief justice has been withdrawn and that Knowles of Butte may be appointed, if he is willing to accept.

THE BIG LOTTERY AT HELENA. \$50,000 for \$1—\$300,000 for \$5. Send \$1 to \$5 to the Montana Investment company, Helena, Montana, for a chance in their grand prize distribution, which takes place March 30th, 1889. The \$300,000 Abora House, Des Moines, Iowa, and 153 cash prizes from \$10 to \$5,000. Whole tickets, \$5; fifth, \$1. Remember that the deed to the capital prize, the Abora House, is now in escrow at the First National Bank, Helena, M. T., ready to be turned over to the holder of the winning ticket.

Wanted. An experienced hotel clerk. None other need apply. Miss WELLSINGTON, Minneapolis House.

The Agricultural Colony!

A Tract 300 by 100 Miles in Northern Montana to be Settled at Once.

With a Capital of \$200,000 to Start Business With.

CRICWOOD, March 11.—Last June the editors of the leading agricultural papers in the country visited Northern Montana. They were so favorably impressed that they have formed a stock company with \$200,000 capital to found a colony and build a town. The members of the company met here on Saturday. The proposed town is to be located in the centre of a tract 300 by 100 miles in extent lying north of the Missouri river in the northeast corner of the Territory and is to be situated across the river from Fort Belknap.

Fatality on Rail. READING, March 11.—A freight train on the Reading road at St. Nichols was wrecked yesterday. John Gilkner, conductor and Benjamin Walker, fireman, were killed.

Manslayer Bailed. BOULDER, March 11.—The case of young Freeman, indicted on a charge of manslaughter for killing of Herford at Hadersburg, was continued for the term. Defendant was admitted to bail on the sum of \$2,000.

American Ministers to be. WASHINGTON, March 11.—It is reported that Whitlaw Reid of the New York Tribune has been offered the English mission and ex-Senator Palmer of Michigan that to Spain. The latter's friends, however, say he will not go abroad. Ex-Governor Porter of Indiana will go to Rome and it is expected that Hon. John C. New will go to Austria.

The Lower California Gold Mines. LOS ANGELES, March 11.—The excitement here over the gold fields of Lower California has somewhat subsided. Reports that the gold discoveries were started in the interests of land companies are freely circulated. A firm here today received a telegram from their foreman, who has just returned from the mining districts and now in San Diego, which says: "Tell everybody to investigate. The mines are a sell."

Woman Killer on Trial. BOULDER, March 11.—The court convened at 11 o'clock. The court room being packed to the utmost. Bryson looks this and pale. He takes a deep interest in the preliminary proceedings. The first panel of jurors is being closely examined by both sides. Judge McConnell is anxious to secure a good jury promptly. The defense made several objections, but they were overruled. The jury returned at 1 o'clock. The verdict was not announced until 5 o'clock. The jury returned at 1 o'clock. The verdict was not announced until 5 o'clock.

The Chinese Mob Go. MILWAUKEE, March 11.—A mob of 2,000 gathered in front of the city hall this morning to await the arrival of Sam Yip Ja and Ha Ding, Chinamen charged with inveigling little girls into their laundries for immoral purposes. The police anticipated this and took them to the court room early, where they are now being examined. The crowd is very noisy, but as yet no unlawful demonstrations have been made. Fifty officers in a squad are now engaged in scattering the crowds.

Cold Blooded if True: CRYSTINE, Wyo., March 11.—Five French tourists, three men and two women, are reported to have been murdered in Yellowstone park. The guide is the authority for the statement that the deed was committed by Indians. Others think that the perpetrators were organized bandits. The story comes from (Canton city, on the eastern edge of Yellowstone park, that the scene of the tragedy is far in the interior. The guide, Hank Ferry, it is said, escaped with his life and told the details in the mining town of Canon. According to the information given the miners, the tourist consisted of M. Leclaire and wife, J. Vincent and wife and Paul Ferot. They came from San Francisco, had plenty of money and were bound to see the park in the winter. They were attacked in Hat (Hatsnake) canyon by a party of horsemen. Ferry was nearly bruined with the butt end of a gun and shot in the leg. When he recovered consciousness he found that his employers had been shot in their sleep. The two women had been scalped and everything of value in the outfit taken. Ferry, half crazed with excitement and fever, made his way to a mining camp where he told his story. He thought the murderers were Indians, but the miners believe they must have been outlaws who had probably followed the tourists a long distance watching an opportunity such as was offered in the canyon. The miners proposed to go after the murderers but Ferry disappeared. At first it was supposed he had wandered off while temporarily insane, but his continued absence has led to the suspicion that he knows more about the massacre than he has told. No attempt will therefore be made now to reach the scene of reported massacre. The tourists' trunks, which were branded, may possibly prove a clue to the murderers.
