More Cronin

CHICAGO, Nov. 11.—In the Cronin case this morning witnesses were introduced who testified that last spring he went under the name of Kaiser. Other witnesses testified to acts showing intimacy between Kunze and Coughlin and Kunze and O'Sullivan. James Hare testified to having soldered up a galvanized iron box 14x26 inches for Burke two days after the murder. Burke objected to witness removing a cord from the box which held the top on. In the course of a conversation Burke said Cronin was a spy and ought to be killed.

Clergymen, Justices of the Peace, and Judges of Courts of Record, and all who are authorized by law to administer the solemn rites of matrimony—also those seriously contemplating that blissful state, would do well to call and see our elegant MARRIAGE CERTIFICATES, just issued from the LEADER PRESS.

THE CASCADE HOTEL.

The rapidly increasing patronage that has been thronging the Cascade hotel has necessitated the building of an extended addition.

As was announced in last week's LEADER, the work has commenced and already the frame part is up, the sides nearly boarded and the entire structure will be completed in about 20 days.

James Knapp has the contract, employing five men and said to a reporter yesterday, "When completed this will be one of the best hotels in the city and as far as the cuisine department is concerned the Cascade now has an artist."

The new building will be as follows: The hotel stands on First avenue south facing the north and upon entering, the first room will be used as a bar room, but Mr. Burke will not take out license until in the spring. The second room will be elegantly fitted up and used as a parlor and on the east of this room will be a hallway leading upstairs.

Leaving the parlor you will step into a splendidly lighted dining room 20x36 feet in size with a pantry between that and the kitchen. The dining room will be fitted up in the latest style and with the latest conveniences known to modern hotel men.

The next room on the ground floor is the one where the good things to eat are prepared—the kitchen will be well lighted, with plenty of room and from which will be cut two bedrooms for the use of the help. There will be two other bedrooms on the lower floor, making nine rooms and one hallway down stairs.

The upstairs will contain 18 bedrooms and a hallway running the entire length of the building, 95 feet. The bedrooms will be on each side of the hall and at the back end of the building will be a room 12x25 fitted up with cots and expressly for the 25 cent trade.

The entire building will be 25x95 feet, two stories high and contain 27 rooms, which with the pure air and splendid light that each will be provided with, can but make the Cascade a popular place of resort to travelers.

Mr. Burke intends having this one of the best first class houses in the city and with every facility to accommodate any kind of trade he need turn no hungry, tired or foot sore traveler from his hospitable door.

With the limited facilities and despite the busy hustle and jostle of building, the Cascade fed 95 men at dinner yesterday.

THE METHODIST SONG SERVICE.

The Methodist Song Service Sunday evening was one of the pleasantest exercises we have attended in Great Falls. The church was well filled with an appreciative audience. Such entertainment is to be encouraged since it not only makes a beautiful service, but keeps and develops an interest in music. The story of these unhappy people is inspiring in itself and the selections well rendered as they were, added much to its sentiment and effect. The choir must have spent much time in preparation, which was made up as follows:

Misses Groom and Trigg, Mrs. Curtis and Mrs. Clark, assisted by Messrs. Hawkins, Onright, Thompson and Dodson, with Mrs. Campbell as organist. In the riddle of human life it is not from pleasant conditions that lessons are most profitable. It is true that the "sorrows of the unfortunate make real the joys of the world."

Study the history of these people, their trust in misfortune, their patience in suffering, their thankfulness in victory and your life will be better.

Milton found in the theme inspiration for what Mr. Paigraev styles in his notes to the "Golden Treasury" as "the most mighty sonnet in any language known to the editor." It may be of interest in connection:

Avenge, O Lord! thy slaughter'd Saints, whose bones Lie scatter'd on the Alpine mountains cold: Even them who keep thy truth so pure of old: When all our fathers worshiped stocks and stones, Forget not in thy book their glorious names Who were thy sheep, and in their ancient fold Slain by the bloody Piemontese, that roll'd Mother with infant down the rocks. Their moans The vales redoubled to the hills, and they To Heaven: Their marty'd blood and ashes sow O'er all the Italian fields, where still doth sway The triple tyrant, that from these may grow A hundred-fold, who, having learnt Thy way, Early may fly the Babylonian woe.

The Manitoba Must Build.

Many new situations in railroad matters affecting the northwest seem to arise as results of the Union Pacific and Northwestern combination. One of these seems to be the forcing of the Manitoba system to a more speedy construction of its Pacific coast extension from Great Falls. The Union has notified the Manitobas that the joint tariff reached Portland from Butte, will be canceled, and as the Northern will certainly not give it any coast facilities, it will be compelled to build its own projected line more speedily. Another result seems to be the probable absorption of the Oregon Pacific into the combination, giving the system another terminal at Yaquina bay. It will be found, in its developments, to be the most important and far-reaching in its consequences of any railroad move yet made affecting the interests of the northwest.

His From Elm, EDITOR GREAT FALLS LEADER:

"The Beautiful Snow" has come. This is what the ranch and stock men have been wanting to see and the more the better they claim for next year's range, hay and crops.

One by one the vacant claims between here and Great Falls are being taken up. Yesterday we noticed a well started on section 34, west half; we were unable to learn the party's name. This leaves only one mile to complete the chain of solid ranches between here and our county capital.

The school children gave a very pleasant entertainment last Friday. George Largent deserves great credit for good memorizing and delivery. If parents all over the county would visit our schools, we venture to say they would be pleased with these general exercises and there would be a more hearty co-operation between parents and teachers.

The following Unites made business trips to Great Falls last week: Joseph Hildebrand, D.H. Churchill, Mrs. Elm and Mrs. Mulkay. Mr. Hoanback Grant was also in town and being taken sick while there was compelled to remain.

HELP YOUR NEIGHBOR.

A Little Bit of Altruism Has Power to Bestow Unpurchasable Happiness.

An organization has recently been formed in this country, formed of men and women—the latter preponderating—whose motive and creed are as simple as they are lofty. To become a member and subscribe to the tenets of this organization, it is necessary to agree to one thing, to be pledged to one act. It is that each member shall, each and every day of his life, perform at least one act for the good of a fellow being.

In this age of selfishness it is refreshing to learn that an assemblage of human beings can be found whose watchword is altruism, and who bind themselves to forget self at least once every twenty-four hours. The only way in which we live seems one in which the plant selfishness finds a poor soil indeed. It grows sporadically, not generally, and is too often a stunted and weakly affair. And yet the need of altruism, of self-forgetting, is more widespread every year.

The rich grow richer, and, vice versa, the poor grow poorer. Selfishness, on the one hand, and sorrow on the other are growing quantities. Any measure that will lead toward warming into life the chilling embers of altruism must have the sanction and support of all right minded men and women. It is a small thing, indeed, to devote one impulse, one act each day, to the lightening of some other mortal's life burdens. Opportunities offer to all of us at home and in the bustle and whirl of business life.

There are heavy hearts all about us that we may make brighter; there are gloom and despair, and there are "gray days" that we can render more endurable by the sunshine of a kindly deed or sincerely spoken words. It is not necessary to bear the badge of the Red Cross society to bind up the wounded or alleviate pain. The kindest hurts do not flow blood, and the sorest bruises are not those of the flesh. They can be reached

and cured by the exercise of the divine qualities of sympathy and unselfishness, and can be healed by those that never graduated in a school for trained nurses.

In every eighteen hours of waking life there are at least as many opportunities for the display of a practical, unostentatious bit of unselfishness that will make the recipient happier and the bestower happy as well. The organization referred to is one that should find encouragement from all that can realize what it is to be poor and friendless and hopeless. And even if they can not, it will at least be possible to give intelligent sympathy, to perform a small act of pure unselfishness for the mere pleasure which such doing confers. They will find that a little bit of altruism has power to bestow a happiness not purchasable and a delight beyond the scope of a bank note or a check to bestow. The sum of human happiness is not so great that individuals may not add thereto, and it is far easier to do this than most people imagine.—Pittsburg Bulletin.

Signs of the Times.

It is said that there is no surer test of hard times than can be found in the advertisements of the newspapers. When the columns are filled with advertisements offering expensive articles for sale it is to be considered ominous, because the rich are the first to feel the pressure and begin retrenchment by getting rid of some of their luxuries. If there is anything in this rule, hard times are in the near future, for the papers during the past two or three weeks have been literally crowded with the offers of gentlemen who are in apparent distress and are offering dog carts, brogians, victorias, horses and all the other accessories of private stables, as well as bronzes and bits of bric-a-brac, to the highest bidder.

It does not seem, from casual observation, that anybody in New York can be very hard pushed for money. The display which is made in the streets and at the theatre indicates boundless wealth.

Wall street, however, shows some signs of distress. Money has been very tight during the past three months. A few days ago it had got up to 10 per cent., though in the early part of the summer, and when business is usually supposed to be stagnant, 2 and 4 per cent. ruled easily.—Once a Week.

Her Mother's Ghost.

A marriage which was to have taken place at Camden the other night, was interrupted in an unexpected way. The contracting parties, Henry Brown and Miss Mary Morgan, stood before Rev. Mr. Clayton, preparatory to becoming man and wife. A portion of the service had been already read, about fifty witnesses being present, when the bride uttered a loud scream. All eyes were immediately fixed upon her. She was seen to raise her hand and point toward a corner of the church. The next moment she fell on the floor in a swoon and had to be carried out. Physicians worked with her for nearly an hour before she was restored to consciousness. When fully recovered she gave a curious explanation of her conduct. Her mother, who died four months ago, was opposed to her marriage with Brown. The marriage was for a time delayed, but after Mrs. Morgan's death arrangements for it were pushed. Miss Morgan says that just when she was about to pronounce the binding words she raised her eyes and saw her mother's ghost; then she fainted. The wedding was postponed for several days.—New York Journal.

No Flies on Him.

Mother—You have drawn that donkey very nicely, Johnny, but you have forgotten one thing. Where is his tail? Johnny—Oh, that donkey doesn't need any tail. There are no flies on him.—Etc.
