## MRS. LARZ ANDERSON.

Wife of United States Minister to Belgium is Richest Woman Writer.

Mrs. Larz Anderson, wife of the newly appointed United States minister to Belgium, is America's richest woman writer. Her fairy tales for children have attracted favorable attention, and her royalties from her books are large. She writes under the name of Isabel Anderson.

Mrs. Anderson's maiden name was Isabelle Perkins, and her grandfather was Stephen Weld of Boston, who left her a fortune of \$17,000,000. To her mother he left an equal sum.

It was while travelling through Europe, chaperoned by Mrs. Maud Elliott.

MRS. LARZ ANDERSON.

a daughter of Mrs. Julia Ward Howe, that Miss Perkins met Larz Anderson, then secretary of the American legation in Rome, and they were married not long afterward.

In 1901, when she was presented to King Edward of England and his queen at a drawing room in Buckingham palace, Mrs. Anderson wore a gorgeous dress said to have cost \$500,000. The gown was sewed with pearls and spangled with real diamonds for dew-drops. Her diamond slippers cost \$1,000 each.

Larz Anderson was born in Paris in 1856 and is the son of the late General Nicholas Anderson and a nephew of General Robert Anderson of Fort Sumter fame. He fitted for college at Exeter, N. H., and was graduated from Harvard in the class of 1888. He was secretary of embassy at London from 1891 until 1893 and first secretary and charge d'affaires at Rome from 1893 until the outbreak of the Spanish war. He is a commander of the Italian Order of St. Maurice and St. Lazarus and a grand officer of the Crown of Italy. He is a member of the Order of the Cincinnati and of many American and foreign clubs.

Notice for Publication. (Non-coal land) Department of the Interior, U. S. Land Office at Missoula, Montana, Dec. 4, 1911. Notice is hereby given that Zachary F. Beachboard, of St. Ignatius, Montana, who, on May 24, 1910, made Hd. No. 02149 for Unit A, as set Sec. 21, T. 15 N. R. 20 W. M. M., has filed notice of intention to make final commutation proof, to establish claim to the land above described, before Coker F. Rathbone, a U. S. Commissioner, at Ronan, Montana, on the 22nd day of January, 1912. Claimant names as witnesses: George H. Beckwith, Mathew M. Miller, Benjamin S. Beachboard, Oscar Farrell, all of St. Ignatius, Montana. JOSIAH SHULL, Register.

Take up with any Great Northern Agent and let him help you arrange your itinerary, etc., or write J. T. MCGAUGHEY, Assistant General Freight and Passenger Agent, HELENA, MONT.

## CROWN PRINCE CHRISTIAN.

Future King of Denmark Will Visit the United States.

Crown Prince Christian of Denmark is to visit the United States in October. He will sail from Copenhagen on board a Danish man-of-war, escorted by a cruiser and a gunboat, to visit those Danish possessions in the West Indies the sale of which to this country was at one time the subject of negotiations, which came to nothing owing to an overwhelming popular sentiment in Denmark against their abandonment. From the West Indies the crown prince and his squadron will come north, stopping at Annapolis and Washington, where he will visit President Taft and later touching at New York, where there is a large Danish born population. From New York he will proceed to Canada, where he will be entertained by the new governor general, the Duke of Connaught, and by the duchess at Ottawa.

The crown prince is a very tall, powerfully built man, forty-one years old. He holds the rank of major general in the Danish army and is married to one of the two sisters of the late reigning Grand Duke of Mecklenburg-Schwerin, the other sister being the crown princess of Germany. He has two sons, one twelve and the other eleven years old, and his next brother, Charles, now occupies the throne of Norway under the title of King Haakon VII. The crown prince is also a nephew of Queen Alexandra of England, of King George of Greece and of the widowed empress of Russia.

He came quite prominently into the public eye of America in connection with the role he played in welcoming Dr. Cook at Copenhagen as the discoverer of the north pole.

The crown prince is very rich and will inherit still greater wealth on the death of his mother, Queen Louise, who is six feet two and one-half inches tall and is the richest royal lady of Europe.

CROWN PRINCE CHRISTIAN.

## CUT OUT DOG'S KIDNEYS AND PUT THEM BACK.

Experiment Proved Possibility of Grafting Vital Organs.

The official obituary of a dog which had both kidneys removed and one of them replanted in the interests of science is published in the August number of the Journal of Experimental Medicine by Dr. Alexis Carrel of the Rockefeller Institute For Medical Research. The dog lived two years and five months, raised two litters of pups and died from causes in no way related to the momentary operations to which it was subjected to prove the possibility of replanting and grafting vital organs.

The first experiment was made on Feb. 6, 1908. The dog was put under an anaesthetic at 10:12 a. m., and the left kidney was taken out and dissected. The kidney was washed with Locke's solution and immersed in the solution until the surgeons were ready to replace it at the end of fifty minutes.

At 4 o'clock that afternoon the dog was able to walk and drink. The next day the animal appeared to be in normal condition. Thirteen days later the dog's right kidney was extirpated, but the organic functions were performed perfectly by the remaining kidney, which had been taken out and replaced.

The dog continued to live in comfort under the surgeons' eyes. In March, 1909, she mothered eleven puppies, and in December, 1909, she had three more. The following May Dr. Carrel examined her again and found her in excellent condition.

An intestinal obstruction suddenly appeared in July, 1910, and the dog died.

Dr. Carrel also records the successful patching of the abdominal aorta of a dog with a piece of rubber, resulting in the complete regeneration of the extirpated tissue by the adjacent parts of the vessel. The caliber of the aorta, examined fifteen months after the experiment, had not been impaired. Dr. Carrel's conclusion is that under certain conditions a foreign inert substance can be used to repair the walls of a large artery.

## CHAMPION CHERRY EATER.

Denver and Rio Grande President Makes Good His Boast

President E. T. Jeffery of the Denver and Rio Grande, Vice President and General Manager Schlocks of the Western Pacific, General Traffic Manager Hughes and Messrs. Blair, Mason and McCutcheon, three New York bankers, set a world's record at Durango, Colo., as cherry eaters.

The party was taken in automobiles for a ride up the Animas valley. Along the line are many fruit orchards. At the Edgar Buchanan ranch fruit of about every description was found—apples, peaches, pears, apricots, cherries, plums and all the small fruits.

"I believe I can eat more cherries than any man in the world," Mr. Jeffery said to his host, Mr. Buchanan. Messrs. Blair, Mason and McCutcheon took this as a challenge and declared that the only way to decide the question was by an actual test.

Farmer Buchanan brought on five bushels of his best cherries and told the four men to go to them. They did and never stopped until most of the fruit had disappeared. Mr. Blair was first to drop out and was soon followed by Mason and McCutcheon. "Why, I've just started," said Jeffery and then ate three peaches for good measure. He was then voted the champion cherry eater.

## WARSHIPS TESTING COAL.

Competition Between Cruisers Using Eastern and Western Product.

Naval officers are interested in the outcome of a coal competition between two warships of the Pacific fleet using the Pacific coast and eastern coal. For several months experiments have been under way with western coal in the hope that it might be found as satisfactory for steaming purposes as the eastern fuel. If this should prove true it would mean a big reduction in cost of the fuel used by the navy department.

The two ships are the armored cruisers Washington and Colorado, one burning western and the other eastern coal. These two ships have been chosen for the reason that they are not only sister ships, but their engines, boilers and furnaces are identical. With both using the same kind of coal they have been found to make exactly the same speed and to have the same steaming endurance per ton of fuel consumption.

## TAFT IN VERSE.

Written by Wisconsin Woman, Who Sends Copy to the White House.

Mrs. Lizzie A. Lucy of Janesville, Wis., who has always had great difficulty in remembering the names of the presidents in consecutive order, has written a series of verses to assist her memory, a copy of which she sends to Mr. Taft. Referring to Presidents Roosevelt and Taft, he verses run: Then came one dear to the people's heart, Who proved resourceful from the start, Who with large questions had always dealt—

Genial Theodore Roosevelt.

After him the chair was filled by one in administration skilled.

An honest man, devoid of craft, Opposed to trusts and spoils and graft—

Our present chief, good Bill Taft.

The White House force is endeavoring to calculate the relative difficulty of remembering twenty-six names or twenty-six verses of poetry.
