

## WILL BE DANCE AFTER THE PLAY

AYLESWORTH COMPANY WILL PRESENT A DOUBLE ATTRACTION.

The Aylesworth company will present a double attraction at the Eagles' pavilion tonight. In the first place there will be a change of bills, "Because She Loved Him So," being the attraction. This is one of the best of the plays from the sparkling pen of the brilliant William Gillette, and has made a hit from one end of the continent to the other. The clever Aylesworth company will undoubtedly bring out the best that is in it.

And after the show there will be a dance. Mr. Aylesworth has been besieged with requests for a dance on this occasion, and has yielded to the popular demand. There will be no increase in the price of admission, and everyone attending the performance will be given the privilege of the floor.

Won't that be just lovely.

## TONOPAH AND GOLDFIELD TODAY

SHOULD BE BIG CROWD TO WITNESS FINE GAME OF THE NATIONAL SPORT.

The first game of the Goldfield-Tonopah series comes off today on the California Heights ground. All the loyal Tonopah fans will be there to see the Mizpahs take the Miners into camp in the initial game. A telephone message from Manager Ulmer says he will probably pitch Hopkins in the opening game and if such is the case the baseball enthusiasts will have an opportunity of seeing two southpaws in action against each other as both the Tonopah twirlers are left handers. Manager Booth and Captain Hunter have not decided which one of the Tonopah pitchers will go on Saturday. Westhall will no doubt pitch the Sunday game for the Miners and many concede him to be a better box artist than Hopkins as he has made wonderful strides in the improvement line this year.

Manager Booth made arrangements with the Goldfield and Tonopah railroad yesterday for a one-fare rate for the Goldfield fans who wish to accompany the team. The Goldfielders will have the opportunity of coming over both Saturday and Sunday morning and returning Monday for a one-fare rate. This will be good news to the Goldfield fans as many will desire to make the trip to see the two games.

The Mizpahs are in great shape for the coming series and two victories are expected. Team work has been perfected during the last week, the batting has improved and as the pitchers has improved two dandy games can be expected. The grounds have been rolled and watered twice this week and will be as smooth as glass for Saturday's game.

Some new faces will be seen in both teams. Clark and Atkinson of the Miners are both out of the game for a few weeks and Whitesides and Brown will take their places. Brown comes to Goldfield with a good record as a college player, he having pitched four years on the Georgetown university team. He will be stationed at the second cushion in today's game. Hopkins, a player from the Washington state league, will hold down second for the Mizpahs in the series with Goldfield as Mellen is laid up with a bad shoulder. Murray will play third and Platt has been shifted to left field.

If the Tonopah team takes both games with Goldfield it will leave the Mizpahs but one game behind the leaders. Carson comes here a week from today and then the team goes on the road for a long trip, playing three series away from home.

The lineup of the teams today is as follows:

Goldfield.	Tonopah.
Whitesides.....	Crates
Hopkins.....	Gaffney
Westhall.....	O'Bannon
Brooks.....	1st..... Agnews
Brown.....	2nd..... Hopkins
Knight.....	3rd..... Murray
Mullett.....	ss..... Hunter
Stiles.....	lf..... Platt
Lundy.....	cf..... McDonald
Hopkins.....	Day
Westhall.....	rf..... Gray

Word was received last night that the Hoag brothers, a famous brother battery who have been working in the Pacific Coast league, have accepted the terms offered by Manager Booth and will leave this morning for Tonopah. Tracy Hoag has been pitching for the San Francisco team in the Coast league but the Tonopah club gained his release as the Frisco team had six pitchers on its staff. His brother is a catcher but is able to play any place in the infield. Westerburg telegraphed yesterday afternoon that the management of the Oakland team had raised his salary just as he was about to depart for Tonopah and that he has decided to stay on the coast. This will be a distinct loss to the Tonopah club, but the addition of the two Hoags will more than offset this.

Owing to increase in commission by the San Francisco Stock and Exchange Board, effective July 8, the rate of commission to be hereafter charged by the brokers of the Tonopah Stock and Exchange Board will be one and one-half per cent (1½), with a minimum charge of \$2.50.

## MACHINERY IS ON THE GROUND

TYBO IS GETTING IN SHAPE FOR GREAT DEVELOPMENT.

O. G. Rogers, general superintendent of the Nevada Smelter and Mines corporation, came in from Tybo yesterday, where he has been for some time overlooking the property of the Tybo Mining company, which is a subsidiary company of the smelter corporation.

"We are giving more attention to the development of the Tybo and the Southwestern mines" said Mr. Rogers, "than to anything else at present. The Tybo has a shaft 400 feet deep, and we have just brought in a compressor, a 100-horsepower boiler, pumps, pipe line and other machinery for the mine. We shipped this from Salt Lake to Eureka from where we hauled it by team. One carload was shipped on May 25 and the other on the 27th. On June 6th we had that on the wagons at Eureka, and on June 15th it was landed at the mine. This is extraordinary and we are now getting in lumber the same way. By hauling to Tonopah and then out to the mine, it is hard to say when we would get the material.

"The pumps are for the bottom of the shaft and the compressor will be used for the drifts and the further development of the mine. We expect to do a great deal of work this summer. We are going ahead pretty fast at the Southwestern mines, too, and do not propose to get stuck this winter as we were last winter, when we were caught without supplies. We will provide against this, although I dare say we may not have such a winter again in years.

"The Southwestern mines are at Reveille, and the shaft is down 300 feet, while a second shaft, 700 feet away, is down 200 feet. Both these properties are of lead and silver, and we are developing them before attempting to do anything with the smelter. What we need for the smelter are the basic ores, for there is so much ore of a silicious nature, we cannot do without the other as a flux. We will get out the fluxes first, and then we can go ahead with the construction of the smelter upon sure ground.

"We have been very busy out there since the snow cleared, and we will crowd the work from this on. We will have both mines equipped with supplies so that there will be no danger of our being caught next winter, and no necessity of stopping work."

Joe Lezare will be arraigned in the justice court today charged with attempt to commit murder. Dennis and Morris will represent the defendant. Lezare is the man who cut his fellow countryman on the night of July 11, near the depot. His victim is resting easily at the Miners' Union hospital, but as two of the cuts are over the kidneys complications may set in at any time.

## EUREKA COMING TO THE FRONT

JIM BUTLER SAYS OUTLOOK IS GOOD FOR THAT CAMP.

Jim Butler arrived in Tonopah yesterday, accompanied by Mrs. Butler, both of whom have been making an extensive tour by automobile over the state. They came here from Belmont yesterday, and will go from here to Klondyke, Goldfield and other points before returning to their home in Bishop.

While in Eureka, Mr. Butler had some experiences which to him were amusing; but which to another might have been very serious. Eureka has been coming to the front of late as a mining center, and locators have been getting into the country in pretty thick numbers. Mr. Butler found that some of the enterprising locators had jumped his mine, which is patented ground. Jim didn't go out with a shotgun, but he quietly told the usurper to get in and locate somewhere else.

"Who are you?" demanded the intruder.

"My name's Jim Butler," responded the father of the Mizpah.

The other stared for a while and then had the grace to say that he was glad to meet father, and Jim told him a few things about patent law, and some other things, and then helped him to get off the property and showed him where there was some more good ground.

"There is lots of good country in Eureka," said Mr. Butler, "and if there is anybody who wants some of it and means business, I can get the property for him; and the people there are not holding back for a whole lot of money either. On the contrary, they are very reasonable. In my opinion you are going to see some great development in Eureka before long, and it is a good place to get in."

## NUMEROUS GUESTS AT WALLEY SPRINGS

PEOPLE FLOCKING FROM ALL OVER NEVADA TO DELIGHTFUL RESORT.

WALLEY SPRINGS, July 11.—The summer here thus far has been most enjoyable, and the people are flocking from all over Nevada to enjoy the comforts and luxury of this most ideal resort. ## DEGRADED TYPE OF HUMANITY

Harry Drafus was arrested yesterday for being a vag and a man without a job and as it was proved that the defendant had been living off of fallen women, a sentence of sixty days was given him, but justice was suspended and he was given six hours to leave town. It is well to rid the community of this class of cattle and it is to be hoped that the officers will continue their good work.

## BOUGHT FOR BLACK DUCK.

Judge L. Willstaedt has bought for the Black Duck Mining company a five-year lease on two claims in the Golden Arrow district, forty-five miles east of Tonopah. The highest assays give returns of \$1,306. A shaft is down sixteen feet on the property, with a drift of eight feet on an 80-foot ledge averaging \$26.
