

GREAT REJOICING IN MANHATTAN CAMP

People Go Wild Over the First Shipment of Ore to the Local Mill--Stamps Will Be Dropping Today.

(Special to the Bonanza.)

MANHATTAN, Oct. 31.—This camp is surely beside itself tonight. The entire population has formed a great procession, and at this time of writing is marching down Main street, with a band of music at its head. On the top of Mustang Hill the whistle of the mill of the Manhattan Ore Reduction and Refining Company, is screeching an accompaniment to the shouts and cheers of the populace.

The occasion of the tumult is the first shipment of ore to a local mill. The procession is headed by Jack Humphrey, the discoverer of Manhattan, the oldest and yet the youngest of pioneers, preceded by the band. In the line are men and women, kids, burros and dogs, and in the wags of it all are three eight-ton ore wagons laden with ore from the Manhattan Consolidated mine.

This ore will be run through the mill of the Manhattan Ore Reduction and Refining Company on Saturday morning, at which time will commence the dropping of the stamps.

Can you beat that?
Hurrah for Manhattan!
Hurrah for the mills!
Manhattan for the money!

BROKER SUES FOR LARGE AMOUNT

(Associated Press.)
SAN FRANCISCO, Oct. 31.—Conspiracy and fraud are charged in a complaint claiming \$61,000 damages filed yesterday by A. L. Hudgens, a stock broker, against F. O. Chamberlin and William Hinkel. In September Hudgens pledged with Hinkel 15,000 shares of Florence-Goldfield as security for three promissory notes for \$12,200, \$10,000 and \$10,000. On October 12th Hinkel and Chamberlin threw the shares on the market "for the purpose of cheating and defrauding plaintiff out of the market value of the stock," Hudgens alleges. They wished to create a panic in order to sell the stock at greatly reduced prices, he claims, and they did actually depreciate the market value of the stock from \$3 to \$2.

They sold 11,900 shares for \$24,560—being \$11,140 less than market value. Hudgens says that by their action he was compelled to realize on other shares pledged with other people, and was damaged thereby to the extent of \$50,000, making his loss \$61,140 in all.

SUCCESSOR TO LATE NATE ROFF

RENO, Oct. 31.—Lou Henderson of Elko has been appointed State Auditor to succeed the late Nate Roff. The appointment was made last Monday at 9 o'clock, about nine hours after the death of Mr. Roff. Governor Sparks telegraphed the fact to Mr. Henderson at Elko and the latter will probably enter upon his duties at once.

The announcement created considerable comment in Reno yesterday morning. It was generally believed that no action tending to fill the vacancy would be taken until after the funeral of the man who in life had filled it with so much credit.

Henderson is well known in Nevada. In 1895 he was appointed warden of the Nevada State prison, serving eight years, when he was succeeded by John L. Considine. He is vice-president of the Henderson Banking Company of Elko and has extensive land and sheep interests in the eastern portion of Nevada. He is 44 years of age and has much experience in the work which from now on will require considerable of his attention.

PROPOSITION To State Bank DEPOSITORS

Directors to Offer Four Equal Payments to Extend Over a Year's Time--If Accepted Banks Will Open Monday.

CARSON, Oct. 31.—A rift has appeared in the cloud that has been hanging over the affairs of the State Bank and Trust Company and the probability now is that the institution's banks throughout Nevada will be open for business within the next few days. A meeting of the directors of the company was held here today.

As a result a call has been issued for a mass meeting of the depositors in the Carson bank. It will be held tomorrow evening. At that time the directors will make a proposition to the depositors to pay them 100 cents on the dollar for their holdings, provided the payments extend over a period of one year, one payment to be made at the end of every three months.

In this way the directors state the bank will be able to realize on its assets at somewhat near their value. President Rickey seemed more hopeful today than at any time since his banks were closed. He urges that the institution has ample capital to meet every obligation, but must have time to realize upon its securities.

Col. Rickey stated further that in the event that the depositors agree to the proposition to be made tomorrow evening, he will contribute heavily from his private fortune to open the banks. It is stated that he is prepared to give \$400,000 from his own resources to carry out his plan.

It is stated here tonight that in the event of an agreement every bank of the State Trust Company will be open and ready for business by next Monday.

BANK HOLIDAY IN CALIFORNIA

Financial Institutions Receive Deposits But Allow Very Few Withdrawals -- Business at a Standstill.

[By Associated Press.]

SAN FRANCISCO, Oct. 31.—Governor Gillette sent out a proclamation this morning declaring the day a legal holiday and giving all banks in the State the privilege of closing their doors.

None of the local banks took advantage of the opportunity, but business was practically at a standstill on account of their availing themselves of the privilege of accepting or rejecting any business they chose. The transactions during the day were of the "side door" order and all larger checks were certified instead of cashed.

Speculation in stocks was practically at a standstill owing to the difficulty of transacting bank business, and sales on the stock exchange reached the lowest ebb since the beginning of the present depression.

The governor's proclamation was received with surprise, as no such action was expected, and by a large number of business men and investors was considered unnecessary.

Reports from other cities in the State are that almost without exception the banks are remaining open in spite of the governor's proclamation. Los Angeles and Sacramento banks are remaining open apparently without difficulty and there has been no excitement or indications of a run in either town.

The governor has proclaimed another holiday tomorrow.

The State Bank Commissioners this morning began an examination of the affairs of the California Safe Deposit and Trust Company, which closed its doors yesterday for the announced reason that it was unable to obtain money for immediate use, not being a member of the clearing house.

All banks, commercial, savings and trust, opened their doors this morning, doing business as usual. Advices from all the principal points in California report the banks open and doing a normal business.

Officials of the American National bank said all clearing house banks were going ahead with their business in the usual way, with one principal distinction: They are cashing no checks drawn on out of town banks.

President King said: "There was no meeting of the Clearing House Association today. There was no necessity, as everything is running smoothly."

FINANCIERS GUESTS OF JOHN SALSBERY

Arrive in Special Car and Will Leave for the Wonderful Ubehebe Copper Country This Morning.

Nineteen men of ample fortune, some of them multi-millionaires, arrived here last night from the East and the South, en route to Ubehebe, to inspect the copper mines of John Salsberry. The party left Baltimore at noon on last Saturday, on the private car Idlewild, and their sumptuous apartments and the aid of the men and the tone of their conversation reek little of depression or hard times across the continent.

There is not one of the party who is not an optimist, who is not most cheerful on the outlook of the country. Every one of them looks forward to his trip to Ubehebe with the greatest of pleasure, and with no little interest. They have all heard of that wonderful country, with its wonderful deposits, and are eager to see for themselves the riches teeming out of the ground. One or two of the party have been there before; went there to wonder, and lingered to invest. They simply could not miss an opportunity of viewing again the fascinating country, they said.

The Idlewild came in attached to the regular train, and was detached upon arrival. It will form part of the train which leaves for the south this morning. The party will go as far as Bonnie Claire, where they will be met by automobiles and whirled across the desert, through the shades of Death Valley, around the slopes of the Funeral range and down into the Ubehebe.

Mr. Salsberry met the party at the train last night with automobiles, and brought them up into the city. Some of them never had been in a mining camp before, and they were curious to see what the glare of the electric lights would reveal. They were carried around the town in the machines and set down at several places. They witnessed the shuffling at faro bank, they saw the spin of the dice at craps, and listened to the click of the roulette ball, all of

 - Joseph H. Hitchens, Frostburg, Md.
 - C. J. Rainear, Philadelphia.
 - W. E. Hitchens, Frostburg, Md.

which was new to most of the staid men of the South, and was not without its interest.

There was a twinkle in the eye of one or two of those staid gentlemen, as they viewed the sights. They had been in mining camps before, and had been among the hardest of the gallant pathfinders of the frontier, who had fought their way clear through, and wrested fortune from mother earth. They had been there before, and seen the little ball spin, and had seen the ace coppered, and four jacks beaten with four nines and a gun. No wonder they smiled as they thought back, and were reminded that human nature suffers no change through the flight of time.

But to other members of the party the old tricks were brand new and they enjoyed the excitement, and Mr. Salsberry was close by to prevent the

BUTTE'S RESORT IS TOTAL LOSS

BUTTE, Mont., Oct. 31.—The immense pavilion at Columbia Gardens, Butte's chief pleasure grounds, about three miles from the city, burned to the ground at an early hour this morning. The building contained a large dancing floor, cafe and several valuable collections, one of which represented the evolution of firearms from earliest history and upon the value of which its owner can place no estimate, as the collection can never be replaced.

Another extensive collection was that of minerals and smelting products from the different properties of ex-Senator W. A. Clark. Columbia Gardens are owned by Mr. Clark and are maintained at his expense for use of the public. The total loss of the building and contents is estimated at between \$35,000 and \$50,000, with insurance of \$15,000.

The fire is supposed to have been of incendiary origin.

NOME CITY HAS BIG CONFLAGRATION

(Associated Press.)
TACOMA, Oct. 31.—Nome had another serious fire Friday, one involving a property loss of about \$300,000, according to a cable-telegram message received by Jafet Linderberg of the Pioneer Mining Company. The Second avenue office building of the latter corporation, the best structure of the kind in the town, was completely destroyed at a loss of \$50,000, including \$4000 in currency.

The office of the Nome Water Company, the Snake River Grocery Company, the telephone company's building, and the residences of Thos. Dyer and Joseph Brown, the Little Creek mining magnate, were destroyed in whole or part. Dyer's residence was the finest in Nome. The fire burned four hours. No particulars are given in the messages as to its origin.

FIFTEEN MILLIONS ARE TO BE COINED

SAN FRANCISCO, Oct. 31.—Pursuant to directions from Washington, the coining of \$15,000,000 of gold bullion will be undertaken immediately at the mint in this city. No gold has been coined here since August, the active force being engaged in the coining of Filipino pesos. The mint force was considerably enlarged at the time the coining of Philippine silver was undertaken, and it is now thought this force will be adequate to handle the rush order for gold twenties.

ENGLISH MONEY RATE ADVANCES

LONDON, Oct. 31.—The rate of discount for Bank of England paper was raised today from 4 1/2 to 5 1/2 per cent. Since last Thursday the United States has secured about \$3,350,000 in gold from the Bank of England, and in the open market the bank's reserve has been reduced slightly below \$21,500,000. This, however, is \$2,500,000 higher than at this time last year, when the rate was 6 per cent.

NAVY YARD STRIKERS WIN.
VALLEJO, Oct. 31.—The riveters employed upon the transport Sheridan at Mare Island, who quit their places because of the tactics of Constructor Holden A. Evans, have been asked to return to work. The order preventing the men working in any government yard for a year also has been removed.

LIDA MAN DYING.
(Special to the Bonanza.)
GOLDFIELD, Oct. 31.—Dave Wright, one of the victims of the recent shooting at Lida, is dying at the Miners' Union hospital. He is not expected to live until night. Serious complications have set in which have made his recovery practically hopeless.

BANKS ARE OPEN IN PORTLAND

PORTLAND, Oct. 31.—All banks excepting the Title Guarantee and Trust Company are doing business today without evidence of excitement. Governor Gooding of Idaho stated today that the financial conditions of that State are entirely sound. The State was never more prosperous, he said.

At 2 o'clock this morning the associated banks of Bellingham, Wash., decided to adopt the clearing house certificate plan. Withdrawals are limited to \$100. The action was made necessary by the refusal of interior depositories to supply local banks with currency.

FIREMEN OVERCOME.
CHICAGO, Oct. 31.—Seven firemen were overcome by smoke and a loss of \$500,000 was caused by fire in a five-story building at State and Quincy streets, occupied by the Holden Shoe Company, early today.

DRANK WOOD ALCOHOL.
TUCSON, Ariz., Oct. 31.—The bodies of four unknown men were found by a railroad track-walker today at Maricopa. Investigation shows that death had resulted from drinking wood alcohol stolen from a box car. They are believed to have been miners at Globe.
